

# Girl I am seeing gets visibly upset when I take out a condom..

September 11, 2017 | 1186 upvotes | by [\[deleted\]](#)

---

Ok so a little background..

This girl I attempted to date 3-4 years ago used to constantly blow me off and play games with me. ( I was in college and she was 25 and fairly hot.. (Probably 8-9))..

I used to constantly invite her places, and all she attempted to do was get free food out of me.. "Do you like sushi?" Etc..

So anyway.. flash to now I have my own business with a few employees, and I'm at my peak (I'm 32)... She is now turning 30, still living with her parents and still selling insurance, getting free vacations from old people whenever she can..

We went on a few dates.. she LITTERALLY was telling me.. "well I'm turning 30 soon so I don't have a lot of time."... followed by "oh you have a business now? How much money do you make, how many people do you employ etc..." (followed by... oh I have a week off let's go on vacation... hint hint)

The tipping point was when I casually mentioned that I was cancelling a date because I had to go shopping for a condo downtown... she FORCED me to meet her later that day.. after a movie she invited me to her parents place (They were gone on vacation)... I told her I needed to go home but she literally kept pouring me shot after shot after shot... after a while she said let's go upstairs and watch a movie.. so 20 seconds upstairs she strips naked and starts poking her face into my face... I kind of felt obligated to kiss her but her neediness was just weird.. like there was no passion.. it was just mechanical as if she was a machine with an objective.. so anyways a few minutes of foreplay I reach into my bag and get a pack of condoms...

This is when things changed...

The look on her face can only be described as utter disappointment...

Her: "Are you afraid of getting me pregnant?"

Me: yea kind of like... you don't really know me and having a kid right now would be a bad idea (and they would probably have hooves)"

Her: "But I was just on my period it's ok you don't need to use one I'm clean"..

Me: "Ummm I would prefer to be responsible right now, I like you but this is way too early and we need to be smart"

At this point of time I was starting to get kind of nervous as she was becoming visibly angry..she for several minutes tried to convince me not to wear a condom as if her life depended on it.. I kind of figured this was not going well..

After several more minutes of me trying to explain to her that I'm not fucking without a condom, I flat out told her I have no money and got my shit and started to the door...

After first feigning with the whole "Ok just go", she realized I wasn't kidding, and she SPRINTED after me.. "No wait... arent you going to have sex with meeeeeee?????"

It felt really really weird....

I just got into my car and drove away...

morals of the story:

1 the wall is real 2 women do have agendas (especially hot ones) 3 be very very careful as one night can

ruin your life. 4 trp is life..

Sounds like she's already pregnant and looking to peg it on somebody within a reasonable timeline.

skibrett15 • 637 points • 11 September, 2017 05:39 AM

This is a real possibility.

krefnasterploc • 82 points • 11 September, 2017 06:16 PM

You don't even need to apply occams razor here to know she's fucking other guys as well and is going to get pregnant soon if not already. And she's already made her list of 'potential daddies' (OP being 1 of them) for whoever is unlucky to fall for the trap.

PantsonFire1234 • 53 points • 11 September, 2017 09:16 PM

Honestly i'm 25 now and I can't wait for the clusterfuck that is the wall. All my female peers are on the tipping point right now and it's already hilariously obvious how much the playing field has shifted. I have no conscience when it comes to a lying scheming washed up slut. Fucking and chucking them in the most cruel ways will be bliss for my sadistic soul.

TheYekke • 16 points • 12 September, 2017 02:53 AM

Please post FR's and tallies. I'm on a sadistic streak

PantsonFire1234 • 4 points • 12 September, 2017 01:15 PM

Gonna have to wait 5 years maybe.

[deleted] • 12 points • 12 September, 2017 01:53 AM

It will get old real quick and you will evolve into feeling sorry for the adorable little slutkittens  
In no way am I shaming you for your fuck n chuck plans. Just saying I too did that and looking back it was something I needed to do but I am not sure I'd call it fun.

Now I fuck em and let them chuck themselves. So much easier and the shelf life of return pussy so much longer

PantsonFire1234 • 5 points • 12 September, 2017 02:33 AM

Nah I get you man. I'm still looking forward to the freedom and options. But I do know that things like getting even only satisfies you for a short time. If not at all.

The fact that wall hitting women chuck themselves is amazing though. You'd think they realized they aren't calling the shots.

[deleted] • 2 points • 12 September, 2017 03:28 AM

they drift off sulking that a man won't give them what they want. they respect and love it but eventually they slot you in the asshole category that's only good for fucking

PantsonFire1234 • 3 points • 12 September, 2017 01:18 PM

It seems girls do that at any age, I don't get it. When I was a teenager there was always some older jerk they preferred. Now I've grown up myself and now I'm the asshole

'fuckboy' they decide to magically get pissed at within 1-3 months.

You can't win. Either they cheat on you with Chad or they give up on you for Billy. I thought women would get some sense and experience around that age. Not that I was planning on using it.

[deleted] • 4 points • 12 September, 2017 04:48 PM

that's why self generated happiness is so so important

trey\_at\_fehuit • 1 point • 12 September, 2017 03:16 PM

If you're still hung up on them and getting revenge seeing them get older, you're doing it wrong. Try to not care. Just focus on you and what your goals are.

PantsonFire1234 • 1 point • 12 September, 2017 04:41 PM

Not quite. i'm not angry at anyone really. I used to be pissed on my ex after a really shitty break up but that made room for understanding and feeling sorry for her the moment I grew out of it. Growing above them in SMV really helps.

What I was getting at is that I enjoy being in control and knowing you have such complete control over desperate women who once thought to know better sounds exciting. So many options open up. You can fuck them and leave them whenever you want. Do whatever you want.

I don't want to be a bad person. Dont want to be cruel or extremely inconsiderate or selfish towards a good girl who's virginal and decent. So allot of fun yet fucked up shit can't be done when im dating because I honestly like the person. With a washed up former slut and wall hitter I don't have that. I'm not sure if you can understand but it doesn't come from anger or frustration. Just a feeling that I don't have to hold back with some of my behavioral traits out of hesitance to hurt a good person. Because they are not.

ASPD\_Account • 1 point • 14 September, 2017 06:33 AM

That's you, man, but it sounds like you're mad about being cuckold or some shit and wanna take revenge on irrelevant women. Again, your life, not mine, but maybe check your mental health.

PantsonFire1234 • 1 point • 14 September, 2017 01:43 PM

Damn that personality assessment went from 0 to 100 fast. Those are allot of assumptions to make. If you read closely you'd hear me say I have no respect for low value women. That doesn't mean I have anger towards them or high value women. In fact I love high value women just like women love high value men. Wall hitters just imply free and desperate pussy I can play with like a Lion would play with it's prey. Me using words like 'sadistic' 'cruel' and 'slut' doesn't dub me anger phased. Unique reactions like that just give me a kick, at worst I'd be considered a sociopath.

Perhaps i'm the only one and you would hold back towards low value women. In sex and dating you can't take anything personal. And neither should women.

ASPD\_Account • 1 point • 14 September, 2017 02:10 PM

Hey like I said, it's your life but if I'm wrong I'm wrong. Didn't mean to sound like my assessment was absolute

Rooibosisboss • 1 point • 12 September, 2017 12:50 AM

it's one thing to understand that just maybe a girl likes the feeling of a real penis "without the packaging", but if a girl is literally trying to force you to **NOT** wear a condom after you saying you want to...come on son

EnlightenedViking • 331 points • 11 September, 2017 07:30 AM

responses like this is why i love trp. most people wouldn't even consider that - i was that guy that was pegged the father

SaggyT • 42 points • 11 September, 2017 11:27 AM

How did you get to know it wasn't yours?

EnlightenedViking • 14 points • 11 September, 2017 10:31 PM

discovered TRP after that long relationshit. I brought up the experience up on TRP and a few guys pointed out I'm probably not the guy. They haste she made to make sure I would cum insider her after not living with me for a 2 weeks, after cheating made it clear I was most likely not the man. I've looked for that hard stats on this but I believe its been stated many times women are more likely to get pregnant by a lover while cheating

SaggyT • 8 points • 12 September, 2017 10:55 PM

Wow , cant you get a dna test just to be on the safe side?

Biafra2017 • 1 point • 16 September, 2017 04:55 AM

Doesn't matter some states you must still pay even if the child isn't yours.

SaggyT • 1 point • 17 September, 2017 03:09 PM

Wow! These laws are ridiculous

ASPD\_Account • 1 point • 14 September, 2017 06:35 AM

I'd believe that. Isn't there something about a woman being more turned on leading to higher chance of pregnancies?

[deleted] • 1 point • 11 September, 2017 12:22 PM

DNA test?

redditor787 • 189 points • 11 September, 2017 12:27 PM

[deleted] • 149 points • 11 September, 2017 07:06 AM

Wow - you're right. OP - if she does start to blame the baby on you, then make sure you take a paternity test. But for the love of RedPill, please walk away.

nomyconcept • 1 points • 11 September, 2017 07:40 PM **[recovered]**

Depends on where OP lives, many countries do not allow a paternity test without the mothers consent and will not admit "illegally obtained" paternity test.

God I hope they release that vasectomy gel stuff some time soon!

xXSkylar • 4 points • 15 September, 2017 05:14 PM

makes absolutely no sense, she could just call out anyone for being the father then. Either the mother consents or the potential father doesnt have to pay anything

nomyconcept • 1 points • 15 September, 2017 05:32 PM **[recovered]**

women will sell men that they really are the father and most blue pill guys will just accept it.

Women fuck alpha until they get preggo and then fuck one of their best providing workhorse orbiters once and sell them on the idea of them being the father (she will most likely fuck multiple ones in case one of them isn't stupid enough and she will work her way down of the provider ranking until an idiot bites). By this point society will have warped his blue pill mind so hard that he will actually think that he is blessed for this happy little accident. He will wife her up, she gets a free ride for the time she needs most support, once the kid needs less attention (school starts and

she has plenty of time to hunt alpha cock again) she will divorce rape him. He will pay child-support, alimony and in the meantime she can fuck all the alpha cock she wants, once the kid gets closer to 18 she will either drift into insignificant trailer trash or be able to score a second child with a paying orbiting idiot.

xXSkylar • 2 points • 15 September, 2017 06:45 PM

ah okay now I understand what you meant, the full mental beta behaviour of some men just didnt cross my mind. Just wanted to say that you can demand a paternity test before paying shit especially when shes not your wife unless you are a cucked beta.

deville05 • 91 points • 11 September, 2017 11:19 AM

Fuck me I thought she was trying to get him to have her baby and get married.didnt even consider that the baby could be somebody elses

Goomich • 25 points • 11 September, 2017 04:31 PM\*

Condoms break sometimes, you know, they have only like 99% efficiency or something, you know. There's no need to waste money on paternity test...

Gugulen1 • 3 points • 11 September, 2017 04:16 PM

We don't know that's what happened, either. Either way, though--good riddance.

Darth\_Antonius • 71 points • 11 September, 2017 07:00 AM

Possibly, but doubtful because a DNA test is all OP would need to prove the kid isn't his. More likely than not this girl saw him as a perfect beta provider that she could milk child support from. Luckily for OP, she tipped her hand very early and threw up multiple red flags that screamed desperation. OP, disassociate yourself from her as fast as you can, nothing good will ever come from any sort of relationship it's her

[deleted] • 85 points • 11 September, 2017 10:31 AM

Too bad that DNA tests are illegal in France and soon will be in other places.

Troll\_Name • 29 points • 11 September, 2017 02:34 PM

Women aren't trying to get you to knock them up. Women are trying to get your past present and future income. If your income goes up, your debt goes up. If your income goes down, you go to jail.

I lost my pay and kept working because of somebody else's divorce. It wasn't over until the woman with a high power lawyer to make her look needy got the bankruptcy clients' court fees too. She took everything from everybody.

What the fuck? If thats true, i wonder whose bright idea that was and what group of cucks went along with it

laviksa • 5 points • 12 September, 2017 01:23 PM

It's only legal by court order. Private tests result in hefty fines and even jail time.

All thanks to feminized psychologists that believe that the one who raises a child is the 'real father' of the child (sociologically speaking, which could be in a sense true, but not regarding alimony (hence why it's possible to get it by court order)). They believe this legislation is important to 'keep the peace' within families.

szechuan\_slauze • 5 points • 11 September, 2017 06:52 PM

In some places even if the baby isn't yours signing your name on the birth certificate makes the baby your financial responsibility

SilverGryphon • 3 points • 11 September, 2017 07:36 PM

Unless you live in states such as Texas, where paternity by estoppel exists.

apcaapprentice • 1 point • 12 September, 2017 12:47 AM

it doesnt matter if its not his dna. if he even starts caring for it like his he can be stuck on the hook for alimony and child support. No joke this happens in states across the us.

killer3james • 24 points • 11 September, 2017 10:25 AM

This didn't occur to me until I read your comment.

You are very smart.

The\_Lightskin\_Wonder • 16 points • 11 September, 2017 01:26 PM

Wow I was honestly convinced she was just a weirdo, but this makes sense as well. Usually women don't want the shame of having a child out of wedlock or a relationship and op was the perfect candidate , but the only thing that makes me think she wasn't trying to peg a pregnancy is because she had a general interest in him financially. I think she was trying to get child support I believe her desperation was in finding money. Maybe a life crisis, and was sick of having to work for herself and seen all these housewives.

ELEPHANTIUSCOCKIUS • 6 points • 11 September, 2017 02:23 PM

Although if she's pouring him shots, I wonder if she was also drinking. I want to say she would no better to drink while pregnant but she also seems batshit crazy so who knows.

Bucketdweller • 3 points • 11 September, 2017 07:21 PM

Also might be pouring herself shots and handing them over subtly. It's easy sleight of hand.

Pornotubeourtio • 10 points • 11 September, 2017 11:31 AM

I will wait for OP to tell if she got pregnant or not

Troll\_Name • 6 points • 11 September, 2017 02:56 PM

She already was pregnant. Bitches just need to find a dude with money to blame. If you can afford a

scantron sheet then you got more money than the man who actually knocked her up.

This is why the "one drop rule" exists.

Papa\_Gamble • 6 points • 11 September, 2017 06:11 PM

One drop rule? I'm new to TRP and am curious for a quick definition.

yomo86 • 3 points • 11 September, 2017 04:05 PM

First thought. This is premeditation not the touchy-feely I-am-shortly-before-the-wall-take-me-stud-situation wall sluts are usually in. You are 32 so consider a vasectomy if you are adamant about not wanting kids, the pressure formed the lump of coal and it is just a matter of time until the shaming starts.

Two years ago girls suddenly reacted to my wooing way better - since I know my prima facia SMV, I swear to god, game had nothing to do with it, as 27+ girls were the ones affected, so yes, TL:DR they have an agenda once their SMV coin runs dry.

[deleted] • 3 points • 12 September, 2017 01:57 AM\*

+1

Not for stating the obvious!

The point is to highlight and give visibility to the very important *game* we are playing where female sexual strategy sure as fuck isn't YOUR sexual strategy, so treat women with the same respect you would treat a dangerous pet that you enjoy playing with.

Pit bulls and Tarantulas come to mind.

Danger and Play makes life very interesting for the bold.

Fucking totally! The sad part of this is that she will eventual have a kid and will tell people the the guy left her when he found out and she will be classified as a hero for being a single mum. I often wonder about this after I was fucked over. All I can say is thank god for DNA tests. Some women can be evil, cold and straight up fucking crazy.

Ammonymous • 1 point • 11 September, 2017 08:08 PM

Good buddy of mine (comes from a wealthy family but dumb as a stone) had something like this happen.

PantsonFire1234 • 1 point • 11 September, 2017 09:14 PM

Very likely, or she was planning it. The alternative is also possible ofcourse. Women do enjoy bare sex more and a guy grabbing a condom is a way of implying she might have STD a.k.a. slut shaming.

Bucketdweller • 1 point • 11 September, 2017 09:18 PM

Or that he might have an STD. A condom is always a good idea with people you dont know super well.

PantsonFire1234 • 1 point • 11 September, 2017 09:42 PM

True but remember women take everything personally. They put themselves in the center of the universe and everything else gets arranged around that central point. She might have been scheming or it was an insult to her already crumbling ego. Whatever the case OP handled it well.

This is why I'm always telling young guys not to thirst so much. Being lonely is better than being chained up.

askmrcia • 34 points • 11 September, 2017 05:16 PM

I always tell people that being lonely is really only a temporary feeling. The times I feel lonely only last for a day or maybe a week at the most (usually around holiday season or that dead period in the end of summer like August).

However, when I was in a LTR, the stress I went through was much worse and lasted much longer then anytime I felt lonely.

What I'm getting at is, for a guy, you won't be feeling lonely 24/7 unless you have absolutely nothing going on in your life. And that's your problem.

But being in a LTR, especially when things go south, that shit is a drain. Even worse if you have kids together or living together.

menial\_optimist • 3 points • 11 September, 2017 05:55 PM

Fuck, I never heard this perspective. LTR-less for 7 years. You're right, once in awhile is normal to feel in the dumps lonely but it goes away after a few days. I'm at a low point (nothing interesting in my life atm) but working to fill my life with interesting activities. I can't wait to be the 30 year old dude with no kids and a successful high paying career.

askmrcia • 1 point • 11 September, 2017 06:21 PM

Right, most of August, I had my lonely days because all my summer rec league sports were in the process of ending. Football didn't start yet, so no tailgating parties or anything. No sports going on other then Baseball and that's only exciting in the playoffs.

So there were weekends when I didn't do shit in August because there was nothing going on. But now that September is here, well now that lonely feeling went away because things are starting back up.

xsladex • 1 point • 11 September, 2017 07:57 PM

It's important to remember that your environment and expectations can change the older you get. What you want now probably won't be what you want 10 20 years down the road. I had the very same outlook as you but meeting the girl I'm with now changed things for me. Even a friend I have had the same outlook and within less than a year changed his outlook when he dated someone a lot older than himself.

slumdog-millionaire • 8 points • 11 September, 2017 05:55 PM

I don't understand why OP would even be talking to this girl if he tried to date her a few years ago and she blew him off. When she eventually realizes that she missed out you just politely tell her that she had her chance.

Regardless though this is a great story, crazy how she is literally throwing herself at him now, roles are completely fucking reversed, she needs him. Love it. But you still had the insight to exit a potentially dangerous situation. Kudos

You need a stronger frame bro. Your responses need to be a firm no. Even a hell no. No explanations, nothing. You should almost get offended by her wanting to go raw.

Your language needs some work too. You mentioned she FORCED you. She didn't force you to do anything. You also mentioned you felt obligated to kiss her. You aren't obligated to do anything. Your world and reality is supposed to be controlled by you, no one else. Everyone else steps into your world, your frame.

Also it sounds like she smelled "provider male" on you as soon as you mentioned the business and started trying to trap you into a pregnancy. That would explain why she'd want to go unprotected so eagerly.

en\_men\_lu\_ana • 31 points • 11 September, 2017 09:50 AM

There was that story a while ago, basically some guy who said 'no' was terrorised - sex or bitch is calling the cops to inform them about rape attempt.

He managed to get out of this madness without any repercussions. Anyways, the issue still remains.

After such as threads I have serious problem with understanding females and trusting them. To me, they are just extremely risky to deal with.

Another thing - she seems to be a mix of crazy with a terrible determination to get a baby from you. I say walk the fuck away. And if you cum in a condom, I sure as fuck would take that condom and flush it in the toilet. I wouldn't be surprised if she tries to steal some sperm from the condom or something and finger herself. I wouldn't cum in her mouth either for the same reason. I'm don't normally say this but she is a bad news of crazy and wants a daddy for her baby.

Edit - reddit is taking up too much of my attention and energy, so time for my regular reddit purge and vacation! Deleting this username (formerly u/theoneaftertheone) and see you great men on the flip side if I come back - whenever that is - (probably under a different username, who knows).

Good point-guys: NEVER leave a used condom in a waste basket. Take it with you when you leave. I'd say flush it down the toilet but I know how it clogs toilets so don't. It's gross but take it with you. It might just save you from paying child support for 18 years.

ProudFeministMom • 24 points • 11 September, 2017 01:41 PM

redlurker9 • 28 points • 11 September, 2017 07:39 AM

What a trash human being she is. Your frame is weak though: "she FORCED me to meet her", "I would prefer blablabla", "I like you but this way too early and we need to be smart".

You should really avoid her. Even if you do manage to fuck her with a condom, and flushing it afterwards, she sounds crazy enough to pull out rape accusations.

hodltaco • 18 points • 11 September, 2017 12:29 PM

"I was just on my period it's ok you don't need to use one..."

Guys-you're going to hear this at some point and you're going to have to think straight over that erection. NEVER stick your un-condomed dick into something you're not ready to pay child support for 18 years. Solid example of AWALT here. A woman's "baby alarm" is going off solid and loud at about 27-37 so they're desperate for babies and support.

I'm old but can vividly remember "the change". My god the women 18,19,20,21,22,23,24 were SO concerned about condoms I always assumed it was because AIDS had just come on the scene. Suddenly fucking a 27 year old and suddenly she wants to "feel me". "Shoot your cum in me...I want to feel it...I can't get pregnant..." Even my now ex-wife pulled that shit days before we split up-she was 31.

Any of you poor souls that gets a random girl pregnant had better get a DNA test as well.

This needs to be one of the top comments. Most valuable learning I realized 2-3 years back. The moment you disclose how much you make, the eyes go wide and twinkle *twinkle money lit up the sky*.

People in general, not just women, will change their tone and start giving you respect all of a sudden, and more often than not, will end up asking you for financial help. I've had to decline a few friends after the first time I helped them out - simply because I'm not a fucking bank bro! I'm losing out on the interest earned

when I loan you some money without an interest rate because you're a good friend/girl. My money - my decision how I give it away. No I'm not an asshole who won't help out. Fucking work hard if you've that much lack of money in your life. Don't be a fucking beggar. It's disgusting to realize how some friends turn beggars when they realize the dough you make.

We went on a few dates.. she LITTERALLY was telling me.. "well I'm turning 30 soon so **I don't have a lot of time.**"

Followed by

I told her I needed to go home but she literally\*\* kept pouring me shot after shot after shot\*\*...

Then

it was just mechanical as if she was a machine with **an objective.**

Afterwards

Her: "But I was just on my period it's ok you **don't need to use one** I'm clean"..

and then

tried to convince me *\*not to wear a condom \**

With this evidence and your gut instinct, it's clear that she wanted to get pregnant by you and then getting child support from you. She wanted to make you drunk then get pregnant by you. That was her goal. Your instinct noticing her being a machine with an objective is great.

her goal was to become pregnant then earn monthly payments by you. you told her you have a business and child support payments is around I think it was 20% of your income. If you earned 100k a year she would get 20k a year from you.

She also is hitting the wall so she needs to lock in some sort of financial income. You played well by not fucking her. If you had a vasectomy you could laugh your ass off because she would definitely call you the next day saying: "I'm pregnant".

Even if you did fuck her with a condom she would sperm jack you. To counter this have another condom, put horse radish sauce in it and take the condom with your sperm with you. Dispose of it yourself. When she injects herself with that sauce it will burn like hell.

Her intensity with which she seems to be seeking a provider and use a child to achieve that is so transparent it almost seems fictional haha. I'm younger so I don't even see dating woman above the age of 30 as a viability but honestly 85-90% of women by that age are past their prime or just about to be. It's a wonderful gift when a woman gives you her best years. This woman has given those to other men, so why would you even bother? 32 isn't too old, why not aim a little lower in the age range?

Hopefully you can look back on that statement in a few years and realise that you were simply on a smaller peak while nowhere near the summit.

Her: "But I was just on my period it's ok you don't need to use one

Yeah, your little swimmers can survive inside her for up to 5 days. Considering ovulation happens 14 days after the first day of her period, her period being 5-7 days, that leaves just 2 "safe" days, assuming that ovulation is on schedule and not early. To me, her saying "I was *just* on my period" implies a window of several days and there is a very high chance you are not actually "safe" at all. (While keeping in mind that "safe" is used in the loosest possible sense of the word.)

clearly moving into a place where you're either a have or have not. You'd better be on a track to financial success/independence or be prepared to get left behind in a fierce manner. Women aren't fucking with you unless you legit have prospects-- so when they see a guy on the rise, they'll jump to his dick right away. They wanna be with a "have". It's absolutely nothing but a survival strategy in their case. The average female simply doesn't have the aggression to climb the REAL ladders life has. They get that shit on handicap mode.

This story does make me wonder about the logic of The Wall.

Why would a woman necessarily wait until her 30s to get hitched and a stable man? Why not just grab an alpha man in your 20s while you're still good looking?

askmrcia • 8 points • 11 September, 2017 05:24 PM

Why would a woman necessarily wait until her 30s to get hitched and a stable man? Why not just grab an alpha man in your 20s while you're still good looking?

This question can be answered in a few ways.

1. A girl may just want to play around in their 20s because being monogamous and building a family in your 20s is boring and lame
2. A lot of girls are trying to lock down Chad in their 20s, but Chad has a shit ton of options, is douche bag, or simply give no fucks in respecting a relationship so he pumps and dumps these women. I blame women for picking these sorts of guys, because they kick all the other guys to the curve.
3. A lot of women are working and going to college in their 20s. So no time to find a guy to build a family with until they are established in their careers (early to mid 30s)
4. This goes back to point number one. Women now a days are trying to be men. They want to work like men and sleep around like men. I even hear a lot of women claim they have "game" because they can date a lot of guys. Some women refer to themselves as players.

Basically in a nutshell a lot of women today are fucked up in the head, being raised by single mothers who teaches them the wrong values and not to mention modern day feminism is teaching them the wrong values as well.

[deleted] • 2 points • 12 September, 2017 01:26 PM

I agree with all these points on a conceptual level. It does make you wonder though why society hasn't collapsed yet. This experiment has been running for multiple decades already... but anyone can see it will lead to wreckage down the road.

1. The hot chicks only bang Chad but can't lock him down. Settle for beta's in their 30s and divorce.

2. The Chads have no incentive to lock down until they feel like it. Then remarry in their 40s, 50s, 60s.
3. The beta males get nothing and know it, will start to refuse to play along.
4. The ugly chicks still get laid via tinder because Chad isn't picky for a quickie, so they're basically just hot chicks until they Wall.

Point being: if it goes on like this there will be no stable couples and stable families who can "support" the structure of society. Everything will just break down as nobody can get anything anymore.

I'm just surprised shit's still running as long as it has.

askmrcia • 1 point • 12 September, 2017 01:49 PM

It does make you wonder though why society hasn't collapsed yet.

It hasn't collapsed but is getting much worse. Nuclear families are pretty much done. Getting divorced and married at least twice is considered normal.

People are being taught to be more selfish. Especially women. Women are being raised to be taught to be men and this is affecting society in a number of ways.

Point being: if it goes on like this there will be no stable couples and stable families who can "support" the structure of society.

I say let this play out for 15 or so more years and you will see a lot more negative affects. Maybe technology will take over where society won't need to depend on a good family structure.

People are still getting married, but man those divorce rates are sky rocketing. Not to mention you still have people that stay married despite the bad stuff (like getting cheated on) so its not like they are happy. Its bad and the media can try and cover it up all they want. There will be some big changes coming soon.

[deleted] • 2 points • 12 September, 2017 01:59 PM

Well the whole happy family meme was the reason they opened the doors to divorce in the first place. 95% was married but the narrative was that many women were unhappily married and oppressed. So we needed to allow for easier divorce so that more people could be "happily" married. Now the floodgates are open and it will probably take a full-blown societal collapse before we might get a reactionary reset.

In any case it's an interesting idea to live during the peak of human affluence while likely getting to witness the fall as well.

askmrcia • 1 point • 12 September, 2017 03:44 PM

After several more minutes

Pls tell, you have turned recording on your phone by then.

31 here with a 21 year old cutie gf, who is a saint so far, if I can do better without a business, so can you.

Kinbaku\_enthusiast • 2 points • 11 September, 2017 10:29 PM

she FORCED me to meet her later that day

she literally kept pouring me shot after shot after shot

Heh, nobody forced you to do nothing. What did she, grab your finger in a secret martial arts hold? Did she hold a knife to your throat. You chose to go along with it.

metallicdrama • 2 points • 12 September, 2017 09:07 PM

I have a friend that had a vasectomy a few years back. It's always hilarious when some sloot tries pinning a kid on him bc he blows it in everything that moves, and then laughs in their face and says must be some other sucker. They've never pushed farther than the phone call lol.

verily\_rp • 2 points • 13 September, 2017 03:52 PM

Well done. You've dodged a bullet.

ASPD\_Account • 2 points • 14 September, 2017 06:32 AM

I know that feel. Was with a girl, an uggo (don't know why, shit was weird, man, it's a whole story) and I caught her eyes dart to the condom with my product in it.

FUCKING NOPE.

Took it out of the trash and rinsed that fucker out. NAWALT though.

Maelshevek • 2 points • 14 September, 2017 07:09 AM

Red Alert! Bail out now, ship's going down. Run, don't look back.

All people have agendas, but when it comes to kids and the rest of your life and hers, she could show, um, a little thought and responsibility before trying to get pregnant based on a highly emotional decision.

It's crap like this that defines the kind of women we don't want to be saddled with. Questions about your worth (hypergamy), relationship based on her own desperation, not living on her own at 30... Her life is going to be a ship tossed on the waves of chance--don't take the ride too!

Respect yourself and find someone who is independent financially, cares less about kids, and can think through life choices--your worth it.

Thy\_Nomad • 9 points • 11 September, 2017 04:20 AM

This is why I prefer the 2-5 range. They aren't so obsessed with themselves and actually develop personalities. Like a human.

re3al • 1 points • 11 September, 2017 05:32 AM **[recovered]**

Just been noticing, since being out of college, hot girls are, generally speaking, basic bitches. Idk what's even up with that. I'll happily fuck them, but it's disappointing.

redlurker9 • 12 points • 11 September, 2017 07:36 AM

7+ have personalities as well, it's just more uncommon. I'd never EVER fuck a 2-5, even with a stolen dick.

Phoenix torment • 4 points • 11 September, 2017 01:03 PM

2-5's get borderline obsessed with you. That's a no-go.

Gaze73 • 4 points • 11 September, 2017 09:11 AM

Raise your bar dude. I'm with you on the 5s, but anything below is just desperate. Think about it, a 4 is worse than average woman, that implies you're worse than the average non-TRP chump. I'd take a hand over a 4 any time.

WAFC • 2 points • 11 September, 2017 11:41 AM

Just like to point out that if 80% of the women are going for (and having enough success to continue going for) the 15% alphas, then some of the alphas fuck below average women.

Gaze73 • 4 points • 11 September, 2017 12:12 PM

I don't know about that. If you're alpha and can choose from 2 to 10, why settle for a 2? Even for a ONS I see no point, there's always tomorrow. Just because a 2 wants him doesn't mean he'll have her.

Also, OP assumes the uglies have better personalities, but they often really don't because A) they have to deal with being ugly all their lives and B) They're probably ugly for a reason, e.g. they're lazy, fat and depressed, with a tough life or a chronic illness, etc. Better stay out of it. A 5-6 is a safe bet, not too ugly, not too conceited or demanding, and all around average with no major red flags.

WAFC • 4 points • 11 September, 2017 01:31 PM

Even some alphas go through slumps or get wasted and make a bad decision every now and then. Nobody's perfect all the time.

Also when I see ugly here I immediately assume skinny ugly. Fat women are automatic zeros, not twos.

kez88 • -1 points • 11 September, 2017 06:57 AM

You have fun banging ugly chicks in the 2-5 range mate. I'd rather fuck the 8's who still have personality.

Troll\_Name • 3 points • 11 September, 2017 03:30 PM

3-5 means fatty. Some dudes love pork.

There's no such thing as a female under 3 because that's exactly the size of the pedestal males put them on just for having a vagina.

fetchyminx • 4 points • 11 September, 2017 08:08 AM

That's what he's trying to imply though? 8's generally won't have an attractive personality

kez88 • 3 points • 11 September, 2017 02:31 PM

still better fucking a bunch of 8's whilst trying to find one that does have a personality than fuck a bunch of 2-5's that may or may not have a personality. Being ugly doesn't suddenly make you a good person or a girl with personality, it just means they're slightly more likely to be not completely retarded.

fetchyminx • 1 point • 11 September, 2017 04:17 PM

Well if you're if just going to fuck then don't bother looking for personality. You're not gonna fuck her personality

satanicpriest13 • 1 point • 11 September, 2017 08:56 AM

I hope you kept walking out that door OP. Your business sounds sweet. Would be shame to give half of it away.

Entropy-7 • 1 point • 11 September, 2017 09:41 AM

Guess what: you are at your peak she is not. If you have some particular affection for this girl because you have a history, then maybe that is another story. However, as a 32 year old entrepreneur - IF you have not become a fat fuck - then you should be gaming girls 5 or 10 years younger.

bearinfoxhole • 1 point • 11 September, 2017 11:18 AM

be careful for next few weeks. She might claim rape and come after you if she's very desperate.

[deleted] • 1 point • 11 September, 2017 12:45 PM

A cautionary tale for the ages. Well played.

harden26 • 1 point • 11 September, 2017 12:51 PM\*

She take my money. Well, Im in need. Yea she's a triflin, friend indeed. Oh shes a gold digger. Way over time. That digs on me.

serio1337 • 1 point • 11 September, 2017 04:09 PM

This post is so fitting given that recent vasectomy post. Good on you man for sticking to your guns.

EscortSportage • 1 point • 11 September, 2017 04:18 PM

"oh you have a business?!"

aka come get me preggo, so i dont have to work a day in my life.

Hillarysdilddo\_2016 • 1 point • 11 September, 2017 04:47 PM

Her: "Are you afraid of getting me pregnant?"

"Yeah, what are you stupid?" -Me

menial\_optimist • 1 point • 11 September, 2017 05:51 PM

Holy fuck dude. Get past your deprivation mentality. You're no longer a loser, yet you're picking women a loser would pick. It's like your walking into the grocery store and picking the most rotten fruit when there's better fruit right beside it! This girl is insane.

Vannerz11 • 1 point • 11 September, 2017 09:55 PM

Shouldn't have driven after those shots

pbgswd • 1 point • 12 September, 2017 03:13 AM

Well done. Adults use condoms. This one was a child.

AllahHatesFags • 1 point • 13 September, 2017 01:32 PM

Stories like this are why we need Vasalgel ASAP!

stephcurrythrowaway • 1 point • 16 September, 2017 05:00 PM

She wants you to get her pregnant so she can stay protected

SKRedPill • 1 point • 8 February, 2018 05:53 PM

Never, ever, even if God said it's safe, fail to use protection yourself. Or else soon you'll have an abortion debate on your hands.

Ninokun • 1 point • 11 September, 2017 11:43 AM

if they know who you are always rubber up, i know sex whitout condom feels good, but do it out of town with a fake name, op is exactly describing what could go wrong. if you want kids i also would suggest doing it in thailand or something if the relationship turns sour u can just fuck off.

theyyerboi • 1 point • 11 September, 2017 03:03 PM

My God man did you drive drunk? Please be responsible

vaduz0001 • 2 points • 11 September, 2017 03:06 PM

Nope... by the time I was leaving I was sober as fuck.. Just to be safe I drove maybe 200 meters to a local coffee parking spot and just hung out for a while.

ooChrist • 1 points • 11 September, 2017 07:50 AM **[recovered]**

Should of said "OK!" and dumped it in her ass!

Should\_have\_listened • 13 points • 11 September, 2017 07:51 AM

should of

Did you mean should have?

This is a bot account.

sampson158 • 1 points • 11 September, 2017 12:53 PM **[recovered]**

there have been rumors of cases of women trying to use that to get pregnant too (use your imagination)

unoriginalcat • 0 points • 11 September, 2017 08:27 AM

But I was just on my period

Uhh as far as I know that is when the majority of women are the most fertile. How was that supposed to convince you not to use a condom lol?
