

Michael Kimmel, male feminist founder of the Stony Brook Center for Studies on Masculinity, the institution indicated by reddit admins as providing good reading on "positive masculinity", forced to step down on accusations of workplace sexual harassment and sexism by past collaborators

October 5, 2018 | 955 upvotes | by [Derek1382](#)

[You can't make this shit up](#)

When the reddit administration censored TRP through quarantine, they forcibly included a link to the Stony Brook Center for the Study of Men and Masculinity in the sidebar, as an officially endorsed counterbalance to TRP's "toxic masculinity".

They removed the link a few days later, likely as more and more people pointed out how the founder and major scholar at this Center, Michael Kimmel, was a notorious denier of male victims of abuse.

But it gets even better: Kimmel has also been accused by multiple past colleagues of sexual harassment in the workplace and of sexism, on top of homophobia, transphobia and racism.

Specifically:

The allegations against Kimmel were first reported by the Chronicle of Higher Education, which cited comments by a former graduate student. The former student, who asked to remain anonymous, said Kimmel had suggested they have sex six weeks into her graduate course, and later in her career.

Nobody could ever imagine a male feminist trying to leverage what little power he has into some coerced sex with an underling.

Following the report, another former graduate student published a detailed account of their time working with Kimmel on the website Medium. Bethany Coston, now assistant professor of gender, sexuality and women's studies at Virginia Commonwealth University, accused Kimmel of sexist behaviour, such as giving paid work to male students while women were expected to work for free.

Oh lookie here, a male feminist giving unpaid work to women, probably thinking that he's being so progressive in even getting them involved in the first place. Shocking I tell you, shocking.

"We fully appreciate the need to weigh due process along with all the shortcomings of formal sexual harassment complaint procedures and the power inequalities inherent to these processes," the Promundo said in a statement.

Ayy fucking lmao. If this was anyone but a knight paladin of feminism and PoundMeToo, he'd have been thrown under the bus immediately and without appeal. As it is, he gets to have "due process" and only be temporarily suspended pending investigation. I guess his accusers need to be believed less than those who have the good sense to accuse less-feminist men.

And the leader of #MeToo raped a boy, she is a pedophile , the Irony isn't even surprising. There is more evidence against her than Cosby , this isn't a mere accusation there are court documents, payoffs , her own tweets , and yet the movement is still taken seriously.

Remember the poster where two drunk college kids a boy and a girl had sex, and the next day jake was charged with rape.

This is just turning up the heat in the pot , sadly there is no safe space for men , even being a feminist doesn't mean you are treated with humanity , as a man you are either , attractive, a atm, or a monster, no such thing as mgtow

Kyfhomyoba • 135 points • 5 October, 2018 03:20 PM

NOT a pedophile. Pedophilia is attraction to **pre-pubescent** people, not teenagers.

Still statutory rape.

Your_Coke_Dealer • 75 points • 5 October, 2018 05:14 PM

Comments like this are how I know I'm in a sub focused on logic rather than emotion. This has got to be the first time I've ever seen this (entirely correct) point not get downvoted to hell. Elsewhere, pointing out the difference between pedophilia and hebephilia/ephebophilia is very poorly received, as it comes off from an emotional standpoint as attempting to hand-wave/minimize the crime of statutory rape.

[deleted] • 43 points • 5 October, 2018 06:04 PM

It's sad because there's a HUGE fucking difference between the two.

Kyfhomyoba • 16 points • 5 October, 2018 08:57 PM

rekabis • 11 points • 6 October, 2018 07:55 AM*

I believe the correct term is **Hebephile** for any victim between 11 and 14, and **Ebhebophile** for any victim between the ages of 15 and 19.

And no, I am merely well-read. Nothing more.

Lib3rtarianSocialist • 4 points • 7 October, 2018 10:19 AM

It is not ebhebophile but ephebophile. Please edit that.

Kyfhomyoba • 2 points • 7 October, 2018 06:18 PM

Off topic, but how do you reconcile libertarianism with socialism?

eccentricrealist • 3 points • 8 October, 2018 02:28 PM

In theory, a true socialist wants the workers to control the state. Anarcho-socialism is probably the closest thing to Marx. It's still not optimal because there's the whole

redistribution of goods that kills motivation, when anarcho-capitalism at least still has you competing.

mikesteane • 2 points • 7 October, 2018 06:13 AM

What makes these terms correct?

Jaxx_Teller • 74 points • 5 October, 2018 01:44 PM

Don't forget she **directly** caused a great man's suicide. Anyone who says otherwise is sniffing their own farts. She absolutely crushed Bourdain, and then profited off his death. She also convinced Bourdain to pay the lawsuit against her for raping that poor boy. She is a monster.

Jaxx_Teller • 64 points • 5 October, 2018 02:20 PM*

Read this Article.

May I introduce to you Asia Argento, one of the most cold-blooded individuals still praised by the media to this day. She pretty much started the me too movement last year with her accusations towards Harvey Weinstein and brought that to the public. However, she continued a transactional sexual relationship with him for years. She obviously sucked her way into acting roles which gave her the career she has today.

Anthony Bourdain starting dating this bitch, and he backed up all of her allegations against Weinstein. Then she got hit with a lawsuit out of nowhere by 17 year old Jimmy Bennett who accused her of sexual assault when he was 17. She got him drunk and fucked him. *She's 20 years older than him.* She had been friends with this boy for years, **and played a role as HIS MOM in a movie** that came out in '04 I believe.

It doesn't stop there. She was sued \$380,000 for this accusation by Bennett, and she *got Anthony to pay the fine.* **He paid \$250,000 to Bennett and was going to pay the rest before he committed suicide!** And now her lawyer has said she won't pay the rest that is owed.

Anthony Bourdain has struggled with depression and alcohol for a long time, and after he divorced his wife in 2016, he started dating Argento. Argento then got caught by paparazzi kissing a 28 year old journalist or some shit. Photo's got out, and a few days later he killed himself. She then posted on social media a bunch of insensitive shit about his death, really showing no remorse whatsoever imo.

This is beyond fucked up.

xenigala • 21 points • 5 October, 2018 04:06 PM

She didn't just play his mother, she played a prostitute who grooms and pimps out her young son. And she co-wrote the script. Throughout his childhood they had a close relationship and she was his mentor in acting. They publicly called each other "mother" and "son" in social media. She encouraged him to break with his own family. And then finally when he is 17 she gets him drunk and seduces him. This messed with his mind and lead to depression. When she accused Weinstein he decided to sue her. He won over \$400,000, which her boyfriend Bourdain paid off for her.

Jaxx_Teller • 7 points • 5 October, 2018 04:10 PM

Yeah thats a really good point.

saibot83 • 12 points • 5 October, 2018 03:39 PM

Pretty accurate. Only one correction. While she definitely fucked Harvey for work her way in to the business was through her legendary director father who's movie making royalty in Italy. She skated her way in on nepotism in the beginning. Only started to fuck Harvey when trying to go international.

Asia Argento, an actress. She is one of the original pound me too accusers against Harvey Weinstein. She apparently had sex with a teen boy, who she had previously acted with when he was like 11 (she played his mother). There are pictures, texts and legal documents supporting this.

slumdog-millionaire • 23 points • 5 October, 2018 07:50 PM*

The irony is that all of this just proves one of red pill's central dogmas, things aren't what they seem on the surface. People, our society, interpersonal relationships, romance, behavior and human motivations, you can't take these things at face value, you have to be able to see through the bullshit and ascertain for yourself what the fuck is going on. People have no idea what this subreddit is about.

exit_sandman • 3 points • 8 October, 2018 02:11 PM

Is he? The way I understood it, the reddit admins merely thought he would be a decent alternative to TRP, and not the instigator behind the quarantine.

Not that this isn't outright retarded in itself, but it's news to me that he's directly involved.

Nowadays we call it the "white knight", and this guy is the pinnacle.

Rabbit-Punch • 16 points • 5 October, 2018 04:33 PM

I don't think it's a secret that being a "male feminist" is a mating strategy for weird creeps.

Derek1382[S] • 16 points • 5 October, 2018 05:53 PM

The "predator" angle gives this slime too much agency. There would be something admirable in the conscious choice to pursue a public image as a progressive saint to hide one's wicked private life.

No, I think he's simply a weak, pathetic man who in the Brownian motion of academia managed to land a prominent position and subsequently used it to perv on his subordinates, unable to channel his desire for sex and dominance into motivation for self-improvement.

Revenant221 • 4 points • 6 October, 2018 01:38 AM

4matting • 32 points • 5 October, 2018 05:06 PM

Because they're like pawns in a chess game, and will do anything to please their master overlords, in a hopeless attempt to 'win' some pussy.

Derek1382[S] • 24 points • 5 October, 2018 05:55 PM

Even feminist women are creeped out by male feminists, and regularly shit on them. They invented the term "performative woke dudes" since it seemed hypocritical to just blast "male feminists".

4matting • 17 points • 5 October, 2018 06:44 PM

They're incapable of generating female desire the same way a top 20% man can, so they adapt their matting strategy to whatever is vogue. Essentially they read what post-wall women's tips and tricks on how to be a good catch, and what they're looking for in a man.

That doesn't work, and they just end up looking like creeps or get put into orbit.

DancesWithPugs • 5 points • 6 October, 2018 03:07 AM

max_peenor • 9 points • 5 October, 2018 06:04 PM

They juggle covert contracts that give them the least favorable terms even if accepted.

[deleted] • 20 points • 5 October, 2018 05:21 PM*

Of course. Women simply don't know any better. They have child-like maturity, their logic is overwhelmed by emotion, and they are highly susceptible to hive-mind thinking. If your dog shits on the floor, it's your fault, not the dog's. Male feminists are worse because they should know better, and because they are using this subversive ideology to raise their own status because they are too weak and pathetic to compete in the male world in a legitimate and constructive way. That is why they are so detestable.

Also in supporting feminism they are acting submissively towards women, and that is extremely bizarre behavior for human males (and for males in the vast majority of other species), so it seems especially off-putting to normal people.

Rbot_ov3rl04d4 points 5 October, 2018 11:08 PM **[recovered]**

That's the catch for them as well. They are submissive to women, and lose any masculinity in doing so, which actually makes the females less likely to be interested.

Imo, any male feminist who is in a relationship with a woman is being used as an emotional tampon, and as a provider. He feels insecure around "real men", but wants to support and love his woman. Look at the trend of voluntary cucks sweeping the nation. These guys' minds are so warped that they "enjoy" watching their wives and gf get fucked by "real men". Wtf?!

Im all for sexual experimentation, and kinky shit, this shit is beyond my comprehension. Imagine thinking so little of yourself as a man, and being so radicalized that you SEEK OUT real men to pound your woman with your blessing. If he's lucky he might get to clean her up after?!?!? He might get a handjob?!?!?

Those guys are literally the worst, yet they claim to be comfortable with their "masculinity", and look down smugly at any guy who would laugh in a woman's face at the mere suggestion of such a thing. You, the cucked soy boy feminist, are looking down on me?!

Which reality is this?

TheTrenTrannyTrain • 3 points • 6 October, 2018 02:17 AM

The definition of facepalm.

With all the new members here some of the message will inevitably get lost, but when I first found this place the point that was always hammered home when someone asked for advice was that life isn't about women, it's not about sex, it's about you.

It's not a coincidence that when we start preaching that men should focus on themselves instead of women they lose their shit. Sex is the only carrot they have to dangle on the stick, and we're telling the betas not to chase it.

It's strange that women react so strongly to men not considering them in decision making and just following their own path. Is it just because it's too good of a deal for them to lose or what?

DancesWithPugs • 4 points • 6 October, 2018 03:13 AM

The irony is that refusing to play women's head games actually attracts them. Most men don't understand this. That's why we should be studying frame and not getting caught up emotionally in outrage tests.

sixseven89 • 15 points • 5 October, 2018 03:45 PM

Just remember that Kimmel should still be considered an **alleged** rapist.

Let's not employ a double standard here; if we consider Kavanaugh innocent until proven guilty and shame the left for calling him a rapist, we should do the same for Kimmel. The only difference is there seems to be much, much more evidence against Kimmel of course.

chadwickofwv • 7 points • 5 October, 2018 05:53 PM

SirKolbath • 7 points • 5 October, 2018 06:42 PM

This is true. I've been admonishing my conservative friends who are gloating about the former boyfriend of Ford who penned the anonymous letter about her last week.

Anonymous sources are not credible no matter *which* side they are supporting. Regardless of this man's reasons for wanting to remain hidden— and I completely agree with *all* of those reasons since I've been doxxed, harassed, and threatened by leftists myself in an attempt to silence my conservative writings— I do not believe him any more than I believe Ford. If he wants to be believed he can go on record with a public statement like any other witness.

It's no secret men despise rapists, male and female- but when the SJWs and feminists want to tell us men we don't care- perhaps rub this little gem in their face to remind them of the following:

A leading figure and academic in their field is a sexual predator

Have a laugh boys, this is one of our easiest victories yet, we didn't have to lift a fucking finger, and the leading discussion board on the entire fucking internet just crowned a rapist as the purveyor of "positive masculinity"

You can guarantee that in private he is sad, angry and resentful because women don't see him as "the nice guy he truly is" and jump on his cock. Total blue pill.

At the very end of the article he still continues his facade/blue pill programming, "I want to validate these

people".

Andorli • 7 points • 5 October, 2018 05:53 PM

It is very simple really. Betas are most dangerous in terms of sexual assault since their mentality and mindset are so weak. They want to get into power in order to get sexual satisfaction, it same mentality as white knights where they pretend to be righteous in low stake situations in order to save the damsel in distress and swoop her off her feet with their courage.

Watch out for virtue signalling people, they are the most toxic and hypocritical kind of people out there. They are weak inside, they are toxic inside, so they mask it under the veil of virtuousness and unleash their predatory tendencies when they get the chance. Bill Cosby is a great example of this.

[deleted] • 13 points • 5 October, 2018 02:17 PM

I always wonder with the constant sex scandals of male feminists, how much of it is that they are actually rapey/harassment prone and how much of it is that they surround themselves with feminists who call everything rape/harassment making accusations inevitable?

chadwickofwv • 6 points • 5 October, 2018 06:04 PM

I don't know, but all involved are feminists, so you should automatically assume they are all lying.

Well they're constantly broadening the definition of rape. In Sweden you can now "rape" somebody over the internet. There is a block button for online harassment but I dunno. The left has been eating itself since the French revolution. This is a by product of it's basic logic. The definition of progressive is always changing. The new progressives are more progressive than the old progressives. So the new eat the old. Always.

Derek1382[S] • 16 points • 5 October, 2018 06:01 PM

There was a twitter thread a couple of weeks ago, from the leftist sphere. It criticized the environment within progressive circles, ending with "... and everyone is itching to eat you alive for social capital".

They hit the nail on the head with that one. Leftists prove themselves socially by shitting on people who are

not as progressive as themselves, and will happily eat their own at the first chance. It takes a massive amount of self-deception to walk trustingly into any leftist arena and think anyone's your friend.

// , I'm pretty surprised by this.

One of the stories that attracted me to Reddit in the first place, a long time ago, was of its founder Aaron Schwartz's commitment to use the internet for free exchange of ideas from all sources.

I had expected that TRP's run here would end with more urbanity from Reddit's operators than fear.

Could also be that the women have the feminist mind-virus and since he associates with exclusively those women this was bound to happen.

Yeah you really can't make this shit up. Just goes to show you. A lot of overzealous male feminists really are just closet pervs.

They are men who are usually terrible with women and believe that listening to everything they say will get them laid.

Bahahaha....you can't make this stuff up.

MY FUCKING SIDES. I love you guys for standing up to this bullshit. I wish I would've been part of this sub back when I was in high school and deeply depressed. (I'm still depressed but not dependent on people anymore.)

This is not a popular opinion, Asia argento love her or hate her simply turned the game on Harvey W. and Co. Being able to play her way into fame and then bring these POWERFUL men down and even start a freaging movement is genius, evil genius! We may learn however, how resolutely cruel the "fairer sex" can get.

actually she got roped into it because Rose McGowan needed allies in her crusade to deflect from federal drug charges

Nobody could ever imagine a male feminist trying to leverage what little power he has into some coerced sex with an underling.

both disgusting and hilarious

Sweet talk them, get them all convinced of how innocent and harmless you truly are.

Its an interesting strategy. For those that are consciously aware of their percieved immoralities, its simply keeping the other players eyes away from your hand.

For the average person, I think its just a strange denial complex. As a man, you will develop some masculine traits in your life. As a man in todays world, you will be introduced to the idea that masculinity is evil or toxic. Should you buy into these notions while also becoming aware of your own masculinity, you will feel an internal conflict. Am I a bad person simply because I am a man?

One of the key issues is whether you believe the "all sex is rape" bullshit or not. Youre horny as fuck and need to satisfy those sexual urges, but those sexual urges are a tool of the devil and to satisfy them you must harm an innocent woman.

So how do keep yourself from breaking down because youre pure evil for having a penis, while simultaneously keeping yourself from breaking down because your biology urges you to stick that penis in something? "Im not like those other guys, Im a male feminist"

"im defending womens rights and all the good I do for them, makes up for my toxic sexuality while getting me closer to them so that I might fuck them"

The whole thing produces rapists and sleazebags. I cant be direct with my sexual advances because then im just another horndog, but if im indirect I get friendzoned. Imagine that last sentence being spoken by a man who is never Red Pilled, never comes to realize the truth. If he sees that being assertive and passive are invalid sexual strategies, he may see himself as left with only one option. That option is aggression, rape, taking what he wants by force
