Breastfeeding

Mothers who breastfeed boy babies need to stop. We need to empower more females in this world and by breastfeeding them we're giving them a good start in life which they deserve over a baby boy which are already physically stronger than baby girls. I have feminist views and I am not ashamed to admit that. No boy baby will ever be fed from my breasts if I am unfortunate enough to have a son. Formula for him and circumcision to take away sexual pleasure from him when he grows up.

Hard to tell if that one is satire or not. My gut says it's too over-the-top, and yet I've known real feminists who unironically were just that misandrist.

If it's real, that person is a monster.

Yeah once she said "I have feminist views" I started to question the legitimacy. But still it hurts to read

Either satire or brain damage.
