I just got banned from an anti-misogynistic sub for calling out misandry and misinformation being spread (post said that 1/3 men admitted they would rape a woman if they could get away with it. It was based on an old study on 86 college students in north dakota). I just want to find a safe place not controlled by misogynists or misandrists. Where we can talk about PEOPLE's issues and not vilify each other because of our sex.
