Men do not see women as intellectual equals

You base that on what evidence?

nor will they ever be threatened because of the physicality factor alone

Untrue men are far more likely to be victims of crime than women.

When are they talking about how to spot other males that are dangerous to women and how to keep women safe?

When do women **ever** call misandry when they see it? Show me one god dam example.

On the 32nd of Neveruary, that's when.

Amen sister.

Is there that one unicorn man out there that understands women's plight and works towards being a partner that treats his woman as an equal? Sure.

How can a man **ever** work towards feminism when it's a man hating movement? I'm still amazed that women either:

1. Don't see it
2. Don't care

It does not make sense to align yourself with men.

Yes, let's continue the man hating polarisation. Another prime example of Gender Facism.

They will never align themselves with you.

How do we align ourselves with self hate? Please, let me know.

Your male attacker won't care about how many times you thought about the men too and give you a pass.

More than likely it's a man being attacked, as mentioned previously, given men are far more likely to be a victim of crime, and give you a pass. No thanks needed.

Posted something similar there. Got absolute hatred back and a ban. They are as misandric as it's possible to imagine.

In other words, feminism supports discrediting male victims while letting female perpetrators walk away unpunished.

This has to be satire. It's a mish-mash pretending to be a coherent argument. Though, there is something kinda interesting in the second paragraph:

This is why sexual and physical violence skew majority male perpetrators and majority female victims.
Sexual violence is a largely female experience. Domestic violence is a largely female experience.

Unless I'm misreading this, both of those are framed as gendered issues.
