This is a repost from before the "identifying information" rule was enacted.

This one is tricky, because the identity is kind of important here. This person teaches a subject relevant to race and gender at a *highly* prestigious university. That's fucked up.

Racism and misandry all at one. That's feminism taken to an extreme. An even more of an extreme would be if her targets are also straight.

Feminists love to blame all their problems on straight men, especially straight white men.

Only a radical feminist would be so blatant. Radfems love to run for power just to post shit like this and introduce sexist laws to men.
