

She hard rejected my kiss, then after some minutes, she pulls me for the kiss, wtf?

First date with this girl, she's like a 6 but cute nonetheless

We went to an anime convention she proposed but both were bored, isolated he and had good conversation

Couple of hours into the date I grabbed her chin and went for the kiss, but she made eyes of something like "wtf" and backed off as I was getting closer, I think she actually said "whaat?" And goood that was super awkward, and I said "no? Okk"

I remembered the RP advice "pretend nothing happened" and told her to go inside again and continued talking, her too.

But then she was like a little bit more touchy with me, I actually thought "nah I'm not trying again, she's not worth the awkwardness"

I suggested going for a burger, and in the way I checked my map, she sat down and raised her hands for me to help her stand up (third time she did this after trying to kiss her) and when I pulled her she went and kissed me for a while. And then the date went very smoothly, touchy, and goodbye kiss, and insists on seeing me again.

What's some reasoning behind this? Like she rejected me in a way I actually felt bad in the moment lmao, maybe it was too early?

You maintained frame. Most important. You didn't get bothered or act bitchy. Feminine behavior. Makes you look weak. Good job

I guess that's it, maybe I was just imagining it but during our talk after the failed kiss I could almost feel the tension rising up as I was not "butthurt"

Initial ASD. You played it well. See, TRP works.

I swear it, I'm super noob at this but implementing kino, frame, etc... Is like magic

All my mistakes and questions can be answered through TRP

I wouldn't go for anything aside from heavy flirting on the first date (but that's just me). You handled that beautifully; maintained frame and kept the date going on WHILE also breaking the ice. The quicker you can get sex out of the way the better of a position you'd be with this lady friend.

Keep doing your thing King.

Nice bro, you're in prime position now. Maintain frame like you did in the beginning, DO NOT fail her shit test, be the best version of yourself and I guarantee she won't leave. Good luck bro happy holidays
