

Will inviting her over AGAIN for sex will seem needy/desperate?

December 26, 2021 | 2 upvotes | by [WonderfulPipe](#)

Kind of stupid question

Third date with this girl at my place, already kissed and made out, but no sex because I had performance anxiety ED (fuck me)

Do you think asking next date at my place to try again seem weird/needy/desperate?

Or would you do a "in between" date going out and doing something else for next date sex?

Girl is from tinder so I guess she'd be down to fuck too

Brotha, look at your post history.

What do you think? I'm not trying to be disparaging. Look at it. What do you think?

Actually, don't think. This is your problem. You think waaaaaaaaaaaaay too much. STOP!

Why in God's fucking name would it seem "desperate" to invite some tinder sloth over to your place?

It would not! There's nothing to lose. All you have is opportunity. This is the mindset you need to have.

Invite Cinderella over.

..... Actually you're right, overthinking is something I have done in almost every aspect of my life, I'm stopping it, thank you!

Stop watching porn/masturbating. Do pelvic floor exercises
