

Rental directories full of misandry. We are taking a stand against this.

Misandrist rental directories are in potential violation of fair housing regulations. We are taking a stand against this by educating men that they do indeed have rights. While there are exceptions - gender is indeed a protected class under the Fair Housing Act. Though we are not attorneys - we encourage men to understand and exercise their fair housing rights to the fullest extent allowed.

It would be helpful to know who 'we' is and in which country or countries you are operating.
