Usual feminist drivel. Men to blame for everything, women oppressed, if you're not with us you're against us etc etc etc. she even broke into racism with the jibe against specifically white men.

As if black men are somehow *more* involved parents. LOL

They seem more amenable to feminism according to this survey. Make of this what you will.

"Victim complexes UNITE!"

[deleted] • 9 points • 13 November, 2022 05:15 PM

Black men are actually oppressed though

Aside from the random racism I can get or the thought process I can do things because I'm black yeah. I can be considered oppressed but I demand true gender equality

Ya it can be both a victim complex and actual racism.

I was on the bus and i gave the finger to a driver who had repeatedly honked in traffic for no reason other than frustration, and this guy on the bus with me started accusing me of being racist, and calling me homophobic slurs, and wanted to beat me up. After about 20 seconds, i got mad and just answered, "you think i gave him the finger because hes black? Stfu!"

Dude has probably had similar situations of experiencing actual racism. But its weird - did i experience racism? If my skin was black, dude wouldnt be accusing me of being racist.

It's funny how men waiting anything from women is entitlement, but men have to exist the way women want or they're toxic or whatever...

I mean, I'm all for men allowing themselves to express their emotions, and not having to be strong and stoic. But it's up to men to decide their expression of masculinity, not women.

The same way it's up to women to define their femininity, and each woman individually at that.

In the end, it's patronizing, entitled and, yes, toxic, to dictate to anyone how they express themselves.

Now, about the chores, kid's education, etc., that's an entirely different subject. But about chores distribution, there's a real subject on the invisible work done by men, when they act as handymen, chauffeurs, caddies, etc...

True. Men actually do more overall work than women, when they have young children, if commuting to work is also counted as work.

Yep, whenever i hear "*oh men just want a bang-maid*", i just think the appropriate response is :

**"Well women just want an ATM-DIY-DRIVER-SECURITY GUARD-TRASH COLLECTOR..."**

these tropes are just worn out now

men bad, men evil, emotionless destroyers of society, world better off without them

yawn

"You can only show emotions the way we want you to because not only are we controlling what you can say but also controlling what kind of emotions you can have."
