I bet it's fake. Most people on quora are larping

FastBananaViral • 3 points • 28 October, 2022 12:10 PM

Not surprised tbh, this is the mainstream view now

ElectricBugs • 2 points • 28 October, 2022 03:02 PM

No it's not

Admirable\_Bee\_8714 • 3 points • 28 October, 2022 07:55 PM

Yea it really is. There is 0 benefit in getting married

ElectricBugs • 1 point • 29 October, 2022 12:22 AM

Men have better outcomes if married, women don't. Women are better off single. Men are better off married. Conundrum. But either way, it's not a mainstream view.

That used to be true. Not anymore. These days it's more than likely to end up dead of suicide.

I don't USUALLY support hitting women but...

In all seriousness this is probably fake though.

This seems like too much to be real

Marriage is the building block of society.

Also, see how Veena supports feminism? Feminism nowadays is against marriage. Simply look how she is making everything worse.

You know, I truly wonder, why don't women support men who actually want to keep healthy marriages up, who actually want to keep women safe from being pressured into sex on the first date. Because in all honesty, I see no support whatsoever, I rather see betrayal.

But, I am not doing what I am doing for women anyways. My faith tells me to be protective. That is still all that matters even though it hurts badly to see the betrayal everyday and in even bigger circles.
