I've lurked on IS but there's WAY too many pedos, rape-apologists, and racists there for me to ever want an account.

just incel things

tbh i never understood the racism part of incels is, isn't bullying someone for their looks and genes being unable to attract women "foid behaviour" as they call it?

It's a place where you are allowed to say things that you are not allowed to elsewhere on the internet. As an incel you are already beaten down, you are not going to care about the shitty rules put down by people that hate you on your own website.

It's really Reddit's fault for banning r/incels

.is, is a honeypot run by feds for feds. anybody that uses it is either trying to get himself or someone else arrested

kokorwqac[S] • 1 point • 15 October, 2022 02:57 PM

Honestly reddit probably has feds too

no_bling_just_ding • 1 point • 15 October, 2022 04:46 PM

it certainly does

I'm not an incel so why would I have an account.
