

Q4Men, Women and the Workplace

0 upvotes | 26 August, 2022 | by Marzipan-Happy

No judgment (from me at least) but what jobs do you think are appropriate for women? What jobs should women not be allowed in if any? Why?

Silver_Took32 • 3 points • 26 August, 2022 08:45 PM

I cannot imagine a job that is in appropriate for women.

SwimmingTheme3736 • 3 points • 27 August, 2022 04:35 AM

Sperm donation

Apart from that as long as she can do the job why shouldn't she?

Pilling_it • 2 points • 27 August, 2022 11:47 AM

Besides birthing child, I believe a person belongs to whatever their talent can most shine. Trend would be taking care of people in general, but some would be great as engineer and data analyst as well.

If you aren't in a place where you can shine, it's wrong by me. Big career tend to strain most (again, not all) as you need masculine traits to thrive, and if you're a family woman it's not going to end well mentally. And that got nothing to do with what people think one should do or not, but rather the mental well being on the long term.

There's a reason so many of them drop out in their 30s of their career.

Marzipan-Happy[S] • 1 point • 27 August, 2022 06:05 PM

I'm 40 in a week (dear God help meeee) and I have a career, and am actually switching as of next month to a new one. I have four kids, but I honestly thrive when I have a challenge to work through.

Pilling_it • 2 points • 27 August, 2022 07:49 PM

Yeah, I've got no issue believing that there are women that will do well in this kind of things.

It's just that there's plenty of women (especially those who don't have kids yet or having had them early) that realise they might have bitten on more than they were able to chew. Then there's the other ton of factors, like the partner and interpersonal dynamic, etc...

Marzipan-Happy[S] • 1 point • 27 August, 2022 07:53 PM

When there are conflicts at home it can be difficult to compartmentalize them and not allow it to affect your job, and I think that has more to do with maturity than with gender. Women tend to express their emotions more, however, and this can create an uncomfortable dynamic if they are in a male dominated career. I keep my emotions locked down, and thus I do fine, however I have been told I am a very difficult person to read.

DisasterPeace7 • 2 points • 27 August, 2022 05:48 PM

I mean women like men can work in any job as long as they meet the qualifications, although I would advise men especially if they work in more corporate settings to keep their interactions with women to a minimum

Marzipan-Happy[S] • 2 points • 27 August, 2022 05:57 PM

Think is fair, I've heard about a lot of really stupid interactions gone bad.

Peacesquad • 3 points • 26 August, 2022 08:56 PM

The only job I think women shouldn't have is in the infantry of the military. It's just not smart to be honest

Marzipan-Happy[S] • 1 point • 26 August, 2022 08:59 PM

Besides the risk of rape as a demoralization tactic by the enemy why do you think this?

Peacesquad • 6 points • 26 August, 2022 09:30 PM

They lowered the military standards numerous times , that's the only way women were able to make the cut

catniagara • 1 point • 27 August, 2022 03:31 AM*

Many women protest the lowered standards because it causes these attitudes

<https://mwi.usma.edu/with-equal-opportunity-comes-equal-responsibility-lowering-fitness-standards-to-accommodate-women-will-hurt-the-army-and-women/>

Being less sexist seems to have made the military more sexist in a lot of ways. Personally I would have loved to have been in one of those fifties performance groups that entertain troops. They don't have that anymore because it's "sexist". I don't really know when the world decided any group of girls having fun and being gorgeous and talented together was "sexist" but hokay.

Now they're listening to testosterone fuelled rock bands and passing around onlyfans pics. Super "not sexist"

Peacesquad • 2 points • 27 August, 2022 05:09 AM

Reality is sexist. If men and women were equal softball wouldn't exist. There wouldn't be a WNBA, women could compete and have great long careers in the NBA alongside men. That's not REALITY lol

Peacesquad • 3 points • 26 August, 2022 09:30 PM

Women are physically inferior to men. It's biology no sexist.

Marzipan-Happy[S] • 1 point • 26 August, 2022 09:37 PM

So how do you feel about the unfairness of men having to sign up for drafting but not women?

Peacesquad • 8 points • 26 August, 2022 11:34 PM

Men are the most expendable commodity since the beginning of time. It is what it is. There's a reason it's "woman and children to safety first" not "men and children first"

_Pumpkin_Muffin • 1 point • 27 August, 2022 09:00 AM

Just a sidenote - wartime rape is very often suffered by men.

social_mule • 3 points • 27 August, 2022 02:44 AM

Combat arms (infantry, field artillery etc) and elite military units (SEALs, green berets, rangers etc).

BumblingBeta • 1 point • 27 August, 2022 01:04 PM

Anyone who has demonstrated the appropriate skills for a job should be hired, regardless of gender. That will probably mean a lot of jobs that require physical strength are off limits to women, because men are stronger than women.

TryLambda • 3 points • 27 August, 2022 01:39 AM

women should follow their biology... and have jobs that their body is designed for.... having babies or in nurturing type roles if they don't have a family of their own....

for most part women should not be in the general workforce, as they are not focused on one thing when it comes to critical tasks, their brains are wired for rearing children and socialising with other women, that does not help when you have a critical malfunction on an oil rig or nuclear power plant that is about to explode and they are off with the fairies thinking about other stuff cos their hormones dictate their thoughts and fluctuates day to day and hour to hour...also many women have told me they hate their jobs whatever it is.. as it keeps them away from family or leisurely pursuits like shopping.

Ganajin • 5 points • 27 August, 2022 01:50 AM

and they are off with the fairies thinking about other stuff cos their hormones dictate their thoughts and fluctuates day to day and hour to hour...also many women have told me they hate their jobs whatever it is.. as it keeps them away from family or leisurely pursuits like shopping.

This honestly cracked me up. DUDE. You can't possibly believe any of this.

catniagara • 3 points • 27 August, 2022 03:41 AM

No no...he has a point. Pass the glitter. ☐☐♀☐☐

TryLambda • -2 points • 27 August, 2022 01:59 AM

every woman I have worked with displays these qualities.. what happens is that the men end up doing more work, to cover for their unreliability...its very ineffective

Ganajin • 3 points • 27 August, 2022 03:38 AM

Weird bunch of women.

Acrobatic_Dress_39881 points 27 August, 2022 01:57 AM **[recovered]**

no

TryLambda • -2 points • 27 August, 2022 01:59 AM

deep down all women know this...

Marzipan-Happy[S] • 5 points • 27 August, 2022 02:29 AM

Nope. I'm the only calm one in a crisis in my family, and the only one that is able to think logically and not panic.

Acrobatic_Dress_39881 points 27 August, 2022 02:37 AM **[recovered]**

you are arguing with retarded people here. Don't expect any redpiller to follow rational thought or logic, let alone compassion, they are simply incapable of it. They pass as "humans" yet they are anything but human.

Hodgekin • -1 points • 26 August, 2022 08:29 PM

I believe 1st and foremost, the most important job a woman can have is raising the next generation of humans. Outside of that, you can do whatever you want. It's a free country. Just don't expect a handout if you failed at the job.

catniagara • 2 points • 27 August, 2022 03:39 AM

Women can't raise boys on our own. Everyone's job is to raise the next generation of people.

Hodgekin • 0 points • 27 August, 2022 03:47 AM

I never said it was exclusively a woman's job. This post is asking about woman's job, so I answer.

Peacesquad • 2 points • 26 August, 2022 08:55 PM

I agree

Marzipan-Happy[S] • 1 point • 26 August, 2022 08:43 PM

So, do you believe that all fertile women should have children (I'm assuming that aren't mentally ill, or addicts) ?

Hodgekin • -1 points • 26 August, 2022 08:57 PM*

I do believe that. I think children are a great blessing.

Edit: it's a sad world when people have so much hate in their hearts that they believe a child is not a blessing.

Marzipan-Happy[S] • 1 point • 27 August, 2022 06:03 PM

Fair enough. My youngest is what we call a "happy surprise!" . I was 3 months in when I figured it out (the timing was God awful) and the window was past for corrective action, but beyond her stubborn streak, she's a sweet, funny, smart little girl, and and I can't imagine life without her.

Hodgekin • 1 point • 27 August, 2022 06:08 PM

That's lovely to hear! Childbirth and child rearing is difficult work, but it's worth it!

I pray for you and your family to be blessed with love.

IHateNormis • 1 point • 27 August, 2022 09:06 AM

I don't think they should be in the police

Marzipan-Happy[S] • 1 point • 27 August, 2022 06:03 PM

Why do you feel this way?

IHateNormis • 2 points • 27 August, 2022 11:44 PM

Males are stronger and do most of the crime, I don't think a female policeman can catch a male criminal without help from a male
