

Thoughts on having kids as a beta bux?

February 1, 2023 | 3 upvotes | by [InadequateSkeleton](#)

Part of me feels like the most meaningful thing to do would be to betabux a 5'10+ woman to raise a chad prodigy, a son who I could give the life I never got to have, and upgrade my shitty bloodline. I keep debating to finish college to do this or just be neet the rest of my life

First problem is I wonder how painful it would be to see my son living the good life, and worse if he would grow up to be a dick because he didn't struggle enough in life, but there are chads who are cool so I'd probably be safe if I do a good job raising him. Second bigger issue is if I had a daughter, I really can't imagine loving a female, knowing what kind of person she would grow up to be. And there is no way to avoid this, any female will turn out that way no matter what kind of parents she has

You're on your last brain cell aren't you.

You don't know how your son would turn out and since you're short yourself there's a good chance he'd be too. Why put your son through this when you know from firsthand experience that it sucks?

If you're blackpilled, nothing except antinatalism makes sense to me. It's crazy to me that some blackpillers actually want to reproduce. Well to be completely honest, antinatalism makes the most sense for everyone, not just blackpillers, but that's a topic for another day.

There's always a chance, there's a chance he'd be born blind deaf and without limbs, but if the mother was taller than me he would most likely end up taller than me and there's always hgh if needed

hutavan • 3 points • 1 February, 2023 06:49 PM

There's always a chance

You're playing with someone else's life-long dissatisfaction.

there's a chance he'd be born blind deaf and without limbs

All the more reason to be against procreating.

Your limbless son is not gonna be able to go around the countryside killing demons to get his body parts back.

I think antinatalists who post on the internet instead of roping are just being edgy ngl

hutavan • 3 points • 1 February, 2023 07:41 PM

That's a retarded take. I don't want to take my life because it would be traumatizing to everyone close to me. On the other hand, not getting born doesn't hurt anyone. These two are completely different things with completely different outcomes.

Even if you have a son, there's no guarantee he'll turn out to be like a "chad". And if he doesn't, will you love him less? You shouldn't be having kids with this mentality.

InadequateSkeleton[S] • 2 points • 1 February, 2023 07:09 PM

I wouldn't love him less I just want the best for him

It would be easy to make a Chad. Enforce participation in sports/gym/being an extrovert very early. No video games or anything that socially isolates you.

Most of the Chads I knew back in school were simply people who were on the soccer/football teams. Height didn't matter back then either. Kids are growing all the time so no one expects you to be 6ft at 13 lol

Im going to treat this like it's real even though it may be a troll.

Second bigger issue is if I had a daughter, I really can't imagine loving a female, knowing what kind of person she would grow up to be.

Don't have kids until you get help.

I think it's a little unfair to write off any female and any of your hypothetical daughters just because they happen to be women... Not all women are the same.

lol @ trying to answer that guy

Hyena_Utopia • 2 points • 1 February, 2023 02:58 PM

If you or me were born female we would be exactly the same. Knowing this allows you to take on an androcentric view of people. Really were all the same, men and women. Let go of your resistance to truth about humanity and you'll be fine with having a daughter, trust me.

bad_craniofacial_dev • 1 point • 1 February, 2023 03:47 PM

IDK why having a daughter would be bad to the OP. She could also live a good life.

InadequateSkeleton[S] • 1 point • 1 February, 2023 05:37 PM

I wouldn't like her

Rowanisnotagirlsname • 1 point • 2 February, 2023 10:41 AM

I don't believe you. You say it now but you're gonna be the fucking best dad to your daughter. You'll be way too interested in her sex life, but an amazing dad nonetheless ☐

ScrimmyBingusTwo • 2 points • 1 February, 2023 04:25 PM

Bad idea.

Most women in Betabuxx relationships tend to have severe emotional issues due to settling with a man she's not attracted to. If he has kids, she's going to emotionally abuse them.

Green-Quantity1032 • 2 points • 1 February, 2023 05:19 PM

I really need the citation for that one

Rammspieler • 2 points • 1 February, 2023 05:45 PM

You can't have a Chad child if you aren't Chad yourself.

InadequateSkeleton[S] • 1 point • 1 February, 2023 06:22 PM

wrong

Hyena_Utopia • 2 points • 1 February, 2023 09:37 PM

Are you talking about IVF? Is that what you meant by upgrading your bloodline? Or did you mean upgrading your bloodline by having a tall gigastacy? The second one will be very difficult.

InadequateSkeleton[S] • 0 points • 1 February, 2023 09:43 PM

I mean reproducing with a tall reasonably attractive and maybe somewhat masculine woman by moneymaxxing and betabuxxing

Hyena_Utopia • 2 points • 1 February, 2023 11:15 PM

I think this is a pie in the sky idea. While i think its very noble of you to want to give up your own dignity and quality of life for the sake of giving your proverbial son a good life, good intentions and money will not be enough if you arent physically attractive to her.

It may seem like youre the one making all the sacrifice in the betabuxx arrangement, but in a world so focused on genetics and beauty, shes the one thats making the big sacrifice, taking your genetic code for babies instead of chads. Im not sure what the solution here is other than looksmaxxing and being physically attractive.

InadequateSkeleton[S] • 1 point • 2 February, 2023 01:07 AM

There are definitely gold diggers who will have kids with a shorter dude if he makes enough money. Maybe that threshold would be too high in the west but worst case im sure there's a tall woman in some poor country who would be game

InkieForBeingCurry • 1 point • 2 February, 2023 03:06 AM

This is false, there is something called genetic recombination. Everyone has had Chad ancestors

inkwell67 • 1 point • 2 February, 2023 03:28 AM

Yup, women are most likely responsible for most ugly genes in any population because most women will end up reproducing whether they are ugly or not, thereby passing on their ugly genes. The same can't be said for ugly men. Remember, only 1 in 17 of our ancestors are men, the rest were women.

no_bling_just_ding • 1 point • 3 February, 2023 10:42 AM

kokorwqacel says otherwise but tbh i believe this, there is no pressure on women to have any other

traits than a functional vagina, uterus and ovaries to reproduce

Glad-Discount-4761 • 0 points • 1 February, 2023 02:07 PM

If you want then do it.

Kids change relationship dynamic so it is whole different work. You need right person otherwise it will mess you up.

Or be ready to be single dad. Want son, okay have it? Don't want daughter? Pray it is baby boy or do what china does.

debatelord_1 • 1 point • 1 February, 2023 10:26 PM

You shouldn't have kids if you dislike women so much that you couldn't tolerate having a girl.
