- 1) He was talking about gay Japanese citizens and it was lip service to begin with
- 2) even if he wasn't, what in your pea-brain mind makes you think they would look to any other part of the world aside from SEA? What evidence do you have that Vietnamese, Filipinos and Laotians rape people?

usa forces everyone to take muslims and africans while they ruin their native countries then pick shitty immigrants so they can annoy people

The US doesn't dictate any sovereign nations foreign immigration policy, let alone Japan's.

Also, see #1.

I came here for discourse not for autists to shitpost and talk out of their ass.

the us does it deliberately to annoy the white male population so that they can harvest their votes to push the usa in the direction of fascism, to get white men to vote for right wing parties. the ultimate goal of the democrats is to unite right wing ideology with liberalism. its so obvious that i marvel that white guys cant see it.

do you also think this is why "blackened" propaganda is pushed in the us so much?

i mean they say "diversity" but bmwf is the only ir couple you see in media outside of wmaf(which dates back to 50's) no wmbf, amwf, imwf or lmwf/wmlf in sight in comparison.

and i honestly don't think usa of all places wants to do good for black men either, there must be a sinister reason.

i think so, though white supremacists seem to enjoy blacked porn too so im not really sure (while hating amwf at the same time). i think it has to do with the fact that european military culture was based on h-m-sexuality so most of the tropes we see are based on that culture. back in greece and rome h-m-sexuality was compulsory for soldiers lol.

Japan's rate of sexual assault is already pretty high.

i've heard rumors about it, but no actual stats, regardless, third world immigrants commit more "rape" in every country, including turkey.

It makes me wonder why women are unable to defend themselves when we are living in a society where you can easily walk around with a small knife inside your clothes. There is really no excuse.

puririnpa[S] • 1 point • 19 February, 2023 08:36 PM

or maybe, bringing immigrants from war torn third world countries was a bad idea?
