

i know it isn't discussed much here at all but what is the rationale of "transmaxxing?"

if a man wants to give up on woman and be gay, he doesn't really need to look feminine or to screw up his hormones in order to find someone to either fuck or get fucked.

are you saying there are that many woman who would date a mtf?

Norah Vincent went undercover as a man for a year. And she really tried; she was a convincing, albeit kinda wimpy guy. She tried online dating, back in 04 iirc when it was really new. She got a few first dates but no second dates. Then she started admitting she was actually a woman during failing dates, and started getting second dates.

She had better luck dating as a lesbian who lied about her gender to "straight" women, than she did as a transman. I dunno whether thats a 'yes' or a 'no' to your question, but it seems relevant.

straight women prefer lesbians to men, this is brutal

zastale • 4 points • 10 March, 2023 10:26 AM

This a part of why so many younger women claim to be bisexual, when it really means bi until Chad shows up.

it's also asexuals claiming to be biseual or lesbian, because asexual is harder to explain.

They wouldn't be straight then

no_bling_just_ding • 0 points • 11 March, 2023 08:09 AM

very few women are straight then

crypto_druid • 1 point • 11 March, 2023 09:25 AM

Says who?

firecats1[S] • 1 point • 10 March, 2023 10:23 AM

most transmaxxers i know either went gay or were rejected by lesbians because most of them don't look like women, it's useless.

Lainsel • 3 points • 10 March, 2023 12:04 PM

It's people who have been groomed on Discord by people with forced feminization fetishes for the most part. I'm not joking

firecats1[S] • 1 point • 10 March, 2023 12:08 PM

them the mtf grooms 13 year old tomboy to be "ftm"

Lainsel • 1 point • 10 March, 2023 12:29 PM

Nah, it's not that common but every server is full of MtFs

firecats1[S] • 0 points • 10 March, 2023 12:31 PM

statistically most troons are ftm

no_bling_just_ding • 3 points • 10 March, 2023 12:49 PM

no they are outnumbered 1:3 but outnumber mtf's 3:1 among *detransitioners* (you are smart enough to know why)

I'm curious as to why it's equal now but thanks for the stats update. It would have just lead to a funny conclusion if what the previous commenter said was true

firecats1[S] • 1 point • 11 March, 2023 08:25 AM

i lost the stats but most detransitions after 2006 are male too, blackpillers are behind.

vintologi24 • 1 point • 10 March, 2023 04:50 PM

Transmaxxers tend to be people who do not want to have sex with men prior to HRT.

Being able to find a good partner is not the only benefit you can get from transitioning.
