

My ex oneitis texted me the other day...

I have fallen off the face of the earth. Thank the TRP gods I finally don't give a shit. I told her 2 weeks ago I had no interest in being her friend. She texted me four days ago...

"M": Hey how are you?

I STILL haven't responded and I've been busy trying to hit up other sluts. At what point does M start playing with her vag because I don't respond to her calls for attention?

She's trying to get a response from you.

Any response will do... it means you still have some form of feeling toward her.

So don't give her the satisfaction.

Radio silence.

Women would rather be hated than ignored.

Day 7: she sends me a snap message. But I have not opened it and plan not to. I'm too busy.

You are trying to convince yourself that know how to play the game better than her.

Respond or don't.... I'd lean towards don't because you are still invested.

You are kinda right I'm still semi invested but nah I'm dedicated to not responding. It's really the only way to win is not respond. I'm trying to meet up with someone else in the next couple days.

Block her on Snapchat and everything

Best response: "???? who is this?"

Then 100% radio silence.
