

Flirting with girl that's sleeping in the same room as me at hostel. How to close?

September 7, 2018 | 61 upvotes | by [Kurush559](#)

Currently staying in a very quiet hostel with one other girl, she's sleeping on the bunk above me. She's quite flirty and stares when im shirtless, and we connected because she's from the same country as half of my family. We already went out for coffee and pizza, I just have no idea how to make a move on someone in a situation like this

What the worst that will happen? Shit will be awkward.

What's the best that will happen? You'll get your dick wet.

Make your decision on that.

Ruining someones life, or even two peoples lives since one of them will have to grow up without a father, because you want a quick bit of sexual pleasure isn't what a real man does. A real man has real virtue.

xddm2653 • 1 point • 8 September, 2018 12:47 AM

Bullshit. Go back to mainstream reddit. A man's instinct is all he needs in this world

My concern is if the close doesnt work and i spend another 5 nights with some terrified chick

FemtoG • 52 points • 7 September, 2018 05:54 PM

Just be honest and real with it

If she cant handle a man's interest, then that shit is 100% on her ass, not you

CalvinRichland • 69 points • 7 September, 2018 05:29 PM

Bro... hostel chicks are there to score. Make a fucking move. If she says no... move on

Two_kids_in_a_coat • 13 points • 7 September, 2018 11:50 PM

She's there to get fucked. If you don't make a move she's just gonna write you off as gay.

Khiv_ • 7 points • 7 September, 2018 10:02 PM

spend another 5 nights with some terrified chick

And how is that going to harm you?

criveros • 10 points • 7 September, 2018 08:01 PM

Or move Hostels

Zanford • 2 points • 7 September, 2018 10:15 PM

If you terrify her you do it WAY wrong. Be casual and push-pull so if she does decline tis' not awkward. As long as you act cool and chill and like nothing is awkward, she won't either. She wants an emotional leader

[deleted] • 10 points • 7 September, 2018 10:29 PM

Looking back, there were so many chicks I could have done if I only had the balls and/or the knowledge at the time.

God damn son, go get that pussy.

Quaternionz • 64 points • 7 September, 2018 06:06 PM

Don't be afraid of the 5 days if something goes wrong. Remember that women take their emotional cues from you, and not the other way around. If you try to escalate, fail, and then feel weird and insecure about it for 5 days then she'll pick up on your insecurity and feel weird too. If you try to escalate, fail, and then act super chill and you honestly don't give a fuck then she'll feel normal and chill too. You have nothing to risk with those 5 days unless you yourself would feel weird, and that's totally under your control.

Kurush559 • 16 points • 7 September, 2018 06:22 PM

This is great advice, will take it into account. i dont think i'll be rejected anyway

waynebradysworld • 7 points • 7 September, 2018 09:50 PM

Crazy how true this is, back when I was super uncomfortable around women I could see them starting out fine and gradually getting uncomfortable like me, which only made me feel more uncomfortable.

Once I starting treating their opinions as insignificant and genuinely not caring if they liked me or not, they all started to like me. So weird.

[deleted] • 23 points • 7 September, 2018 06:26 PM

This sounds like the easiest possible set up of all time. Tbh if you fumble this one you really need to spend more time on the sidebar op, this is training wheels type shit

whuttupfoo • 16 points • 7 September, 2018 10:11 PM

While on a relevant topic, I thought I'd ask. There's this girl over at my house right now, but she has a boyfriend back at home who doesn't know. She's naked, my dick is in her mouth at the moment. She seems pretty receptive but I'm not sure. How do I escalate?

clausternn • 1 point • 10 September, 2018 02:59 PM

She's probably not that into you. Soft next and game other women. Keep lifting, better luck next time.

vandaalen • 26 points • 7 September, 2018 05:27 PM

So... in what situation would you have an idea how to make a move?

Kurush559 • 4 points • 7 September, 2018 05:29 PM

Tinder hookups, dates (taking girls home etc). It's different when we HAVE to be around each other for the next 5 nights

vandaalen • 36 points • 7 September, 2018 05:53 PM

bullshit. isolate, escalate, fuck. always the same. you have her isolated already.

xddm2653 • 8 points • 7 September, 2018 08:33 PM

Imao if anything that 5 days is 5 days of second tries if OP fucks up hard

smolzino 1 points 7 September, 2018 06:20 PM **[recovered]**

Have been in this situation many times after living in hostels for almost 2 years. At first I was a bit timid and I missed a couple, if not more easy hookups. The worst feeling was seeing a confident dude just snatch her away

because I was a pussy.

It is honestly really easy. Just escalate the flirtiness, start sitting on her bed, build up the comfort. You just need to test her compliance which is very easy to do when you share a space, just sit a little closer than you should, be flirtier, touch her more. Then if she is ripe just go for the kill. Just go straight for a kiss, or ask her for a massage, or just when you go out partying or whatever and alcohol is involved etc. My n count has skyrocketed after hostels and I have fucked girls I never thought I could get. Straight babes and baddies.

Kurush559 • 4 points • 7 September, 2018 06:22 PM

Thanks. Any advice for if she rejects?

oytrp • 2 points • 7 September, 2018 06:32 PM

Advice?

Just move on if she rejects.

MattyAnon • 5 points • 7 September, 2018 06:07 PM

, I just have no idea how to make a move on someone in a situation like this

Physically escalate

redhawkes • 10 points • 7 September, 2018 06:55 PM

C'mon dude, she's literally sleeping in your bed.

"So you always like to be on top..." go from there, escalate and close.

Peter_B_Long • 16 points • 7 September, 2018 06:48 PM

"Hey, come watch this show with me" lead her on your bed and put your arm around her as if you're just trying to get comfortable and not trying to make a move. Then, slowly escalate.

RomeNeverFell • 10 points • 7 September, 2018 10:27 PM

Are you 14?

HS-Thompson • 8 points • 7 September, 2018 06:46 PM

Try to kiss her.

WTF guys this part hasn't changed in 100 years. Just get close to her and put your face on her face and see what happens.

KevKev423075 1 points 7 September, 2018 06:08 PM **[recovered]**

Escalation, start breaking physical contact, keep it light hearted and fun, push and pull, don't pressure her too much, but don't be afraid to escalate it. Don't be needy. Keep an abundance mindset. Don't be honest to her about it like telling her straight out cause most likely that'll push her away or scare her away. Just take it slow, build up attraction, and it'll happen when she's ready.

Kurush559 • 3 points • 7 September, 2018 06:22 PM

Yeah ive started on this, will report back

KevKev423075 1 points 7 September, 2018 06:23 PM **[recovered]**

Kurush559 • 2 points • 7 September, 2018 06:26 PM

Its my first time in a hostel (and first time in a country where i dont have family to stay with) so its a really new thing to me

seedster5 • 1 point • 8 September, 2018 02:04 AM

Take her and take a train out to Tivoli. No one speaks English out there but it's super chill. You can push your boundaries the whole time. Take her to villa d Este. It's romantic spot. It has a lot of history.

Sayanpride007 • 3 points • 7 September, 2018 07:46 PM

Start talking about something where you and her are near each other and then go for the kiss, you'll find out right there what's up

Zanford • 2 points • 7 September, 2018 10:14 PM

Close like you would anyone. These logistics are fucking perfect.

Sleeping in same room already

She's traveling, so ASD is way lower

Flirt, kino, invite her into your bunk

you havent gone out for a walk in the park, or somewhere nice for sunset, and made a move yet - this is 101 stuff major. youve already been out for coffee. Def get some protection, though. she could be "on tour"

calipox • 1 point • 8 September, 2018 02:57 AM

If she sees you shirtless say something like this: „usually people have to pay for this, so consider yourself lucky“ Afterwards you both laugh and you can start to flirt more direct. I mean most of the time you can tell after a couple of hours if she is in to you...

MrTheFalcon • 1 point • 8 September, 2018 04:28 AM

I was actually in this situation twice, circa 1998. In both cases, we flirted, did other things with other people, then ended-up in the shared room later. Both times, I whispered from my bottom bunk for her to come down. The first girl came down, and we just made out, and did some hand-stuff (there were 3 other guests in the room). The second girl smiled, but declined. It was just us, and my buddy snoring away on the other side of the room. It was fine. We smiled and flirted over breakfast, and went our separate ways.

I was as 22, and these were a week apart. I'm sure I could have done things differently to get laid, but I had fun, and no regrets. The only times I regret are when I didn't ask because of fear.

Mr-Ed209 • 1 point • 8 September, 2018 12:51 PM

You got a laptop?

Watch a movie. Hang the towels around the frame of the bed to give you 'privacy'. Have some cheap nasty boxed wine to create an ambience. Laying on a single bed together watching a movie, you can't not get laid.

ZenAckley • 1 point • 8 September, 2018 09:29 PM

Update?

un_knownguy • 1 point • 8 September, 2018 02:26 AM

Been there plenty of times, what has worked to me in the past is to test the waters first.

You gotta start "randomly" touching her and see how she reacts.

There's a big chance at first she'll be a little uncomfortable with your touching, but after a few days she might be a little more open to it, so you keep touching and touching and then you jump on her like a beast, if she likes you she's going to reciprocate if not then you just say sorry and that's it.

But it's better to say sorry than asking for permission..

You gotta be like a cocrodile, they go slow, quiet, simple and then jump on there prey faster than they can run anywhere.

Disclaimer: you can do this but if she says stop(with her mouth AND body) then you stop, you should NOT by any means force her to do anything, but if she says no and touches your dick then that pussy is yours.
