I mean shes a clean girl HB7 works out then goes straight to work gets off at 9pm usually fucking her around 10pm. Showers everyday. Just has that "smell"... kinda off putting! 99% percent sure its from working out and then straight off to work. I like the sex but I need to break this to her softly and subtly. I was thinking like "Hey sweetie I like a nice clean and showered pussy to eat" wink...wink...

Yo its simple, alot of girls have this issue. Its really just an evil spiral - she knows her pussy stinks so she keeps scrubbing it with soap everytime she showers. This messes up the PH value and makes it even worse.

2 solutions:

Intimate soap. This Will neutralite the PH value and fix the problem. Buy her one and tell her to use it.

If she already uses intimate soap, it means that she has a fungal infection Which is apparently pretty normal for girls. In this case, send her to the doctor and he Will prescribe 2 pills she takes for 2 days and the problem disappears by itself.

You are welcome.

ElijahBurningWoods • 28 points • 25 October, 2018 12:50 PM

Are you a doctor?

[deleted] • 159 points • 25 October, 2018 01:12 PM

No, just had a smelly fish as girlfriend. It was either break up or fix the fishproblem. Tuna is supposed to be gains, not a dicksleeve.

Wow dude, first time I am really impressed reading a comment in this sub.

FwoGiZ • 2 points • 25 October, 2018 07:11 PM

So weird cause I had that gf who used soap? Pretty sure it was normal soap. She couldn't comprehend girls out there don't use soap down there and I told her most don't. Her pussy was fine.

jetpuffedpanda 1 points 25 October, 2018 10:16 PM **[recovered]**

You can use soap on the vulva, even the labia majora, just don't get it all up in there. - am woman

McDrMuffinMan • 1 point • 26 October, 2018 12:37 AM

If I may ask.... Why?

trizzletrazzle808 • 1 point • 26 October, 2018 01:37 AM

Ever get soap in your urethra?

McDrMuffinMan • 1 point • 26 October, 2018 01:45 AM

No

trizzletrazzle808 • 1 point • 26 October, 2018 01:51 AM

Not the best feeling in the world. Plus, the soap might throw off the PH and make the problem worse, but I'm definitely not a doctor. Just a dude who enjoys eating clean pussy.

[deleted] • 1 point • 25 October, 2018 07:35 PM

Most women use intimate soap for their intimate parts. But there are still women who never learned that.

FwoGiZ • 2 points • 25 October, 2018 07:36 PM

People here seems to talk like if you use normal soap, you WILL stink. Her pussy was better than avg.

wheresMYsteakAt • 1 point • 26 October, 2018 03:28 AM

Hmmmmm, well there is another thing that can make a pussy smell.

Tofimaster • 1 point • 25 October, 2018 10:41 PM

Does this work with armpits — lol?

I feel like they stink significantly more if I use the soap rather than not. Could it be related to the pH thing you mentioned?

jackandjill22 • 0 points • 25 October, 2018 02:54 PM

Yea, it's usually the PH.

PepinoSF • 10 points • 25 October, 2018 04:24 PM

Healthy pussy doesnt stink. Pussy must have fresh odor of lactobacteria. Stink comes from bad bacteria, fungi and/or trichomonas. Usually venereal infections are combined-multiple pathogens. Before resolving this issue do not do her bareback, or you will get it too.

I don't go down on my plates; I suggest you do the same.

Also, some chicks just won't smell great to you -- it's a matter of histocompatibility. It means your children wouldn't have a good immune profile or something. Google "histocompatibility t-shirt smell study" if you're curious.

mountainbiker178 • 4 points • 25 October, 2018 08:46 PM

That suggests they're finding girls that are genetically similar. In other words, don't fuck your cousins. LOL

LethalShade • 2 points • 25 October, 2018 10:15 PM

I think that refers to sweat more than vagina smell though. I have some girls who's sweat smells vile to me and others it smells like heaven.

Doesn't seem to have much to do with how she smells down there though.

Let me be the one to break the bad news to you... Her pussy's not going to get any better smelling. Usually a plate will put her best foot forward since it's all new and if this is "her best" it only goes downhill from there. Personally I can't stand a smelly pussy so I would just move on.

Chit-Chad • 1 point • 25 October, 2018 07:28 PM

I feel the same, it really does happen. Pussies smell, they're a moist crevice - Some more than others ofcourse. But again "smell" is subjective, I find only a handful of pussies tolerable and only one that I've ever actually been absolutely bonkers about. I just don't go down on them if I don't feel like they meet my olfactory standards.

itiswrltten • 8 points • 25 October, 2018 12:19 PM

What's her race / nationality? Yes it matters.

Thing is man The Juice comes in a Baskin Robbins assortments of 32 flavors and not all are appealing. The times where I've encountered a deal breaker level of stink/taste they almost always had gynecological issues. Minor UTI, fungal, or whacked out pH.

If she regularly uses baby wipes or soap that's a classic fuck up and she needs to stop that.

Broaching the subject should be as a health issue not an "I don't like this issue". Either way it's gonna be really awkward. Embrace it

stinkfinger1112[S] • 5 points • 25 October, 2018 12:35 PM

That is my absolute least favorite and the one with the smelliest pussiest I've ever come across.

Absolutely disgusting and that's not a joke. For some reasons red heads have been the worst offenders.

I'm part irish so I wonder if it's just my genes but seriously, absolutely disgusting where you are gagging afterwards trying to be polite and shit turned around where she can't see you gagging like a fucking cat with your shoulders hopping up,.

Serious, I think it's the irish thing. Are you irish?

look\_good • 2 points • 25 October, 2018 12:37 PM

what's your reviews on the races/nationalities you've experienced

itiswr1tten • 9 points • 25 October, 2018 12:43 PM

Cuisine can impact your body odor. Cuisine high in cumin, curry, anise, or cruciferous vegetables seem to correlate. Race itself isn't the factor

look\_good • 1 point • 25 October, 2018 02:37 PM

aw bummer, I was hoping this'd be more fun. I've never been with a curry eater but interesting to see cruciferous vegetables can have an effect on vag smell. I hooked up w a vegan once and her vagina was easily the worst smelling one. Preppy, clean, athletic chick but her vagina was nasty. I had no idea her being a vegan could have been the cause.

I feel like black girls have a certain 'must' that I actually like.

itiswr1tten • 4 points • 25 October, 2018 02:54 PM

Same here. There's a difference between smell and stink. They all smell and I like some of the smells

wheresMYsteakAt • 2 points • 26 October, 2018 03:35 AM

I feel like black girls have a certain 'must' that I actually like.

Amen. Actually tastes like chicken.

dr\_warlock[ ] • 1 point • 25 October, 2018 10:18 PM\*

Race correlates with culture, which correlates with diet.

itiswr1tten • 2 points • 25 October, 2018 11:37 PM

Yes indeed. And correlation ain't causation but race is easier for the younglings to give a straight answer on

If I asked them what they ate God knows I'd get a laundry list of their stupid dinner dates

ChadTheWaiter100 • 5 points • 25 October, 2018 01:45 PM

Get her some Walmart brand va gi sel

ANGRY\_ATHEIST • 13 points • 25 October, 2018 01:31 PM

Wow, so much misinformation here.

Pussies should not stink. Healthy pussies should have a bit of a musky odor to them, but actual *stink* comes from bacteria. This bacteria can be anything from harmless, to bacterial vaginosis, to something like chlamydia. You should make sure to keep yourself clean as well. Make sure if she uses a dildo on her own that she properly sanitizes it before use.

The bottom line is, in my experience, most stinky pussies get that way from stinky dicks. An untouched, regularly showered pussy does not just get stinky on it's own.

Straight up, tell her it stinks and to talk to her doctor about it.

admiralclammyquim • 9 points • 25 October, 2018 06:04 PM

"Stinky dicks?" Found the woman.

ANGRY\_ATHEIST • 0 points • 25 October, 2018 11:53 PM

If you think all women think dicks stink, might check your own hygiene there bud.

admiralclammyquim • 4 points • 26 October, 2018 12:03 AM

What? I don't think dicks stink, and I don't think that all women think dicks stink. I think that they will say that dicks stink, - or in some cases, that vaginae only stink if they've been with stinky dicks, which is about the most asinine thing I've ever heard - because they are sensitive and self-conscious about their own genitalia. If you're not a woman, that's even worse, because I've got news for you my dude: penises aren't supposed to stink. If you've got sweat on it from your thighs sweating, or if it's been inside a bad hoohah, that's one thing. Just shower, man. There's no shame in it. But if your penis itself actually stinks, you should see a medical professional immediately, as you've got a serious problem.

light-----dark • 2 points • 25 October, 2018 02:41 PM

Im not sure if the problem can be fixed with a shower given the great information above, but it may be worth offering to shower with her right when she comes over. This may also give you insight into if the problem is lack of hygiene, or something greater as mentioned above.

821sleepingbag • 2 points • 25 October, 2018 04:18 PM

Geez I would not want to be the one to tell her that. Girls are insecure enough at the best of times. If sex is all your after maybe opt for some scented lube and just bear with it, that is if going downtown is a necessity.

omega\_dawg93 • 7 points • 25 October, 2018 12:51 PM

if she knows she's a plate, she's probably fucking another guy or guys.

multiple doses of semen from different partners can throw off pH as well.... causing odor.

if you're raw dogging, they probably are too.

\_Icarus\_Reborn\_ • 30 points • 25 October, 2018 01:15 PM

You got a source for that claim? Seems very broscience.

omega\_dawg93 • 1 point • 25 October, 2018 01:28 PM

google, "can multiple partners cause vaginal odor." the FIRST damn link states, "...these include multiple partners..."

do you need me to show you how to use google?

CaptainBW • 19 points • 25 October, 2018 02:56 PM

Dude is asking for links to scientific studies, not just regular google links.

omega\_dawg93 • -3 points • 25 October, 2018 04:12 PM

TIL, Google can't provide links to scientific studies.

not gonna hold anyone's hands on Google... do your own research.

EXQUISITE\_WIZARD • 16 points • 25 October, 2018 04:32 PM

You don't get to make claims and then tell everyone to do their own research. That's not how this works. That's not how any of this works. You make the claim, you provide the evidence to back it up.

omega\_dawg93 • -2 points • 25 October, 2018 04:39 PM

i read it on google. and if you type in a search on google, you'll get the evidence you need from various articles. or, you can go to a gyno dr. and ask them personally.

EXQUISITE\_WIZARD • 9 points • 25 October, 2018 04:51 PM

Lol I don't need instructions on how to research your claims. Don't dodge the point.

omega\_dawg93 • -2 points • 25 October, 2018 04:54 PM

what point? you're making a request, not a point. i googled it and saw a mayo clinic article on the first link. from there, "vaginitis," and from there, the causes of vaginitis being linked to "MULTIPLE" partners.

WTF do you want... a scientific, medical school research study on funky pussy handed to you in hardcopy form? read the damn article.

EXQUISITE\_WIZARD • 4 points • 25 October, 2018 05:00 PM

Lol you know damn well the point I'm trying to make. I'm not gonna play along with you trolling me with pretend ignorance. If you want to keep up this charade, you can do it on your own.

Have you ever busted a nut and not washed your dick afterwards? Now imagine what happens inside a cunt's cunt. Same thing. I did that study on myself and my dick. Are you seriously asking for scientific studies on something like this? Sluts who take cum from multiple partners and don't wash their cunts? Use logic.

\_Icarus\_Reborn\_ • 1 point • 25 October, 2018 04:31 PM

If you're gonna make such a claim, you should be ready to back that claim up, regardless of the claim.

I've since looked further, especially for actual studies and can't find anything.

omega\_dawg93 • 8 points • 25 October, 2018 04:43 PM

ok, you lazy bum... here's an article from the mayo clinic.

<https://www.mayoclinic.org/diseases-conditions/vaginitis/symptoms-causes/syc-20354707>

a cause is listed as vaginitis. if you click on that link, you'll see the following statement from the mayo clinic:

"This type of vaginitis seems to be linked to sexual intercourse — especially if you have multiple sex partners or a new sex partner — but it also occurs in women who aren't sexually active."

"multiple" partners... as in more than one. happy now?

\_Icarus\_Reborn\_ • 2 points • 25 October, 2018 04:49 PM

omega\_dawg93 • 1 point • 25 October, 2018 04:57 PM

if you would have followed my instructions and googled it yourself, you'd see the link. but your mouse batteries must have died...

so i did it for you. whew... that was soooooo damn tough to do.

multiple partners can cause a very distinct odor... that's different than the smell you ACQUIRE with your partner. smell her pussy... and if it doesn't smell like it usually does, guess what? she's got something going on, which could be medical, hormonal (cycle), or Chad's DNA blast.

my bet: if she KNOWS she's a plate, she's receiving DNA blasts from chad and/or tyrone... bc why not?

Derfaust • 1 point • 25 October, 2018 09:30 PM

Jeeeesus christ you bitch and whine and bleat more than a menopausal she-goat. If you make a claim be prepared to back it up if someone questions it; or fuck off. Anyone over the age of 12 knows this.

\_Icarus\_Reborn\_ • 3 points • 25 October, 2018 03:22 PM

Well blow me down.

Off I went and lo and be hold, the top 5 or so links I checked said nothing about multiple partners.

A new partner yes, and everything from bacterial infection to your diet.

But I couldn't find anything on multiple partners.

And as /u/CaptainBW said, I was asking for scientific sources. That wasn't clear, my bad.

Can you provide the link your seeing?

omega\_dawg93 • 3 points • 25 October, 2018 04:43 PM

multiple partners, but with few repeat customers = many new partners.

jackandjill22 • -1 points • 25 October, 2018 02:56 PM

What part of that is broscience. You think cleanliness or a lack thereof after sex doesn't lead to unhygienic pussy?

\_Icarus\_Reborn\_ • 1 point • 25 October, 2018 03:25 PM

cleanliness or a lack thereof after sex

Completey different than having multiple partners.

And of course lack of hygiene is gonna cause lead to a bad smelling vagina.

And, when someone makes such a claim, they should be willing to back it up with some credible source.

Until I'm proven otherwise, I'll take that as broscience. And I'm always happy to be proven wrong, means I get to learn something

jackandjill22 • 1 point • 25 October, 2018 03:44 PM

So, there's no correlation between having multiple sex partners & what I mentioned to you, alrighty. I'm assuming if someone isn't paying attention to who they're fucking & how frequently chances are the hygiene drops. Just a guess though.

\_Icarus\_Reborn\_ • 1 point • 25 October, 2018 03:58 PM

Well, now you've just moved the goal posts.

Multiple partners and bad hygiene will most likely cause a bad smelling vagina and most

likely result in infections too.

But the initial statement still stands and needs clarification.

jackandjill22 • 0 points • 25 October, 2018 04:08 PM

No. Pretty self-explanatory buddy.

omega\_dawg93 • 3 points • 25 October, 2018 01:29 PM

most women don't douche. most women will tell you that douching is not healthy. that means EVERY single load that was blasted into her is flushed out by the vagina (which is self-cleaning).

maybe her vagina took a few days off from cleaning duty...

mrrooftops • 2 points • 25 October, 2018 01:33 PM

That's what I mean. if recent (e.g. 24 hrs) she would have to douche or that shit is coming back out in nasty ways. I remember watching a 'behind the scenes' video on Pornhub where a girl hadn't douched from a previous session the night before and all this cream cheese lump juice flubbed onto the guy. She apologized and explained why.

CharlesChadworth • 11 points • 25 October, 2018 12:38 PM

Vagina is self lubricating and cleans itself out. You shouldn't use generic soaps or shampoos as it messes with PH level.

Just tell her she has a strong odor, thats what i told my plate. Then she went to the doctor and it got fixed in a week. I think she took probiotics or something.

There was a post the other day where someone just said "It's not tasting just as good down here, let's shower"

Just gonna add I stopped seeing a girl because of this. It was unbearable. Same situation where she was alright otherwise.

Chances are she has bacterial vaginosis. I say this because most pussy smells good to me even if its a little sweaty/dirty but of course this is only anecdotal evidence. In fact I've only fucked one girl that had a genuinely disgusting vagina. It was about two weeks ago and the smell was soooo bad that it stained my dick with the same smell for two days straight even through a condom, the smell persisted through 3 showers where I scrubbed the skin off my dick with soap. My whole room fucking stank for about 2 days even though I kept both windows

open wide as fuck to try and air it out. Needless to say she got kicked the fuck out straight after sex and when she sent the “are we still gonna hang out?” text she got no reply. I suggest you follow suit; theres plenty girls out there that have vaginas that don’t stink.
