The funniest is talking to a girl over a guy that is trying to cockblock you when you have 3-4 inches on him.

I tell the girls to wear the heels you normally can't wear(I only date 5'7" and up girls)

When I first meet her I tell her something like you don't have to always look up to me or something like that.

The "slow rise" is one of my favorites. Basically any situation where you're seated and a girl is standing. Girls will almost forget you're tall if it's not immediately visible.

You get a little bit of banter going, then slowly stand up until you're towering over her. Very physically imposing move, her eyes will go wide, and she'll be all over you.
