Apparently, we are playing this hard mode. Any other people from Toronto thinking this is true or false? I experienced all of the factors but none of them seem as exaggerated as the article suggests.

As I commented elsewhere today, Toronto is a city where the 6's think they are 9's.

Best save up your money/vacation days for long weekends in Montreal. Boulevard St. Laurent during summer is like a Vogue fashion shoot.

Yeah. When my buddies come in from out of town thinking there gonna wreck every girl they can see I whispered to them "Welcome to Dark Souls."

This is largely true.

Vancouver is the only one that is harder in the country. Quality women are fucking tough to get there by comparison to anywhere else.

The point of this article, you're much better off heading up to Montreal where it's far easier.

Girls are openly disrespectful and don't even try to hide their disgust. They consider you a piece of shit and don't bother to hide it. In fact, they are proud of it. And it's the same for everyone. You are a tall, handsome and ripped guy? The same goes for you. The only difference is that maybe they won't tell you to fuck off right away. They may be interested and even willing to fuck you but they will still treat you like a huge piece of shit because you are...a man.

Every week I have to sit through a feminist indoctrination workshop that tells men to talk about their feelings, to tell them they will benefit from doing random acts of kindness to others.

**WHEN A GUY AND A GIRL ARE READY TO KISS, 1 OR 2 INCHES FROM EACH OTHER FACES, THE GUY HAS TO WAIT FOR THE GIRL TO MAKE THE MOVE.**

Every-single-masculine-attribute has been destroyed.

Have you ever wondered why this city was considered one of the safest cities in Canada? Every single thing masculine has been destroyed. There is not even basic violence between guys. Guys here are emasculated. Why? Think about that.

Now of course one could get laid here. But personally, I'm not willing to put up with them treating me like garbage.

It's harder. Compare with any large U.S. metro, you get insane amounts of resistance from 4-6's. That and the fact that you have to tailor your game for specific ethnic groups.

It's hard to appreciate until you've run game elsewhere. That said, there are a lot more hot chicks in Toronto than down south.

Every single horrible thing said about toronto is true. This place is a wasteland. You've been warned.

well shit mate. sucks to live here I guess. But I guess I will train my game in the worst situations and become the best when I go to other cities.

Let's see the positive side!

Its pretty true - and you tend to see how easy it is in other cities when you travel. I dont understand why people saying new york or los angeles is hard when its so easy to run pick up there.

"What uni do you think is the most masculine here?"....

The answer to this question is aim for those unis outside of the really big urban areas. London is good, as is Queens. Best place with the most laidback girls are the ones in northern ontario like lakehead. The drawback is that you're in god damn thunder bay
