Change the context and flip the script.

Lots of blue pill guys get rejected by women in their teens and 20s for being 'losers' but once those guys work their asses off and establish themselves, suddenly the women become interested.

women shouldn't be using this quote. men should.

This quote really hit home:

Most girls cannot compute the fact that they are intolerable and lack even the basic elements of character or wisdom- probably because their trip on the carousel seems to contradict or deny the natural consequence- rejection. Too dumb to know that the carousel is rejection too.

Too dumb to know that the carousel is rejection too.

Yeah.

I've had girls tell me that 'they use men for sex'. Thats like saying gazelles use lions by offering themselves up at feeding time. The lion is the hunter. If he doesn't have to hunt very hard, he still wins.

More importantly, they view the cock carousel as validation. That feeling in the back of their mind that they could stop and marry one of these guys if they wanted to, but they choose not to. They don't realize that getting pumped and dumped is as big of a rejection as not pumping and still dumping. Either way, no commitment.

For a perspective shift, think of women as hunters using baits and traps. She feels that as long as there is an abundance of tuna licking critters going in and out of the trap, there's no need to slam it shut, hoping something better comes along.

The 'empty trap' scenario is often used by the manosphere to dread game hussies, but from a critter's perspective, I pity the critters that don't get away or not without serious injury.

Given the socio-legal situation of men in culturally marxist countries (i.e. the western world in 2013), those dangers are game-changing, and lie outside normal evolutionary-psychological parameters.

I thought that was a particularly telling quote as well. The whole piece was well-written and well-expressed.

A lot of blue-pill men forget to make this assessment. Coming from a place of scarcity, they start treating sexual attention from a woman like it's a gift. They never stop to ask themselves, "is access to this woman's pussy really worth the effort I'll have to put forth in order to get there?"

One of the most significant lessons I learned while being weaned off the blue pill was that the most visceral way to hurt a woman is to reject her outright. To tell her straight-off that access to her pussy isn't worth the

effort. Though her hamster will work long and hard to find ways to dismiss you, there's no denying that her outburst reveals the truth (and her acknowledgement of the truth) - that perhaps she really is an intolerable person who isn't even worth breeding with.

excellent
thought. Has anyone field tested this? Rejecting women to get them to come back to you?

As pivot said, this is push pull. Just an extreme version. Some will, but most will not come back on their own however.

A typical example of this:

Me: You're rejected, go away.

Her: What the Fuck! You can't do that. I'm perfect in every way an... I mean, yeah whatever. I don't care.

Let hamster spin for a while. Usually a week or two.

Me: Hey

Her: Didn't you reject me?

Me: Don't remember. I'm getting tacos, you should come.

I was actually referring to "oh wow that's so funny I spit coffee on my keyboard" cliché. I laughed and spit coffee on my keyboard.
