Makes me wonder why guys go after women who aren't already qualifying themselves to you. Been working on myself for the past few months and seeing serious improvement on reverse approaches, where I'm not the one who's initiating the interaction. Feels more natural, and for once have some god damn respect for my value.

This'll be a useful link for those fun conversations with girls, solid.

Lets play a game called where shall we meet?

Thats a chodely text to send a girl. Have something in mind. If she doesnt like it and shes into you she'll suggest something else. Homeboy is beta.

That response from the girl is just being a cunt. How fucking emasculating calling him buddy. Shits just disrespectful.

He played it poorly, but nothing would've helped with that cunt.
