

Can you help with forgotten book title please?

Hi, I saw a book recommended on here about boundary parenting, written by a guy named Jon; I think, can't remember his full name nor the title of the book. It has some Christian teaching in it but doesn't preach heavily. Anyone help please?

Perhaps it is "Successful Christian Parenting" by John MacArthur

Look at the Boundaries series of books by Cloud and (John) Townsend. They have one for teens, one for kids, one for marriage, one for dating. They also have the main 'Boundaries' book that would be your first choice getting into their material.

Great material.
