

# Teasing your LTR

Every day a man should be teasing his woman at least once. Think of this act as a relationship's daily vitamin.

Before you begin its imperative that your SMV is high and on track for permanent improvement. The same teasing from a man with saggy tits and no frame won't get a playful punch on the arm like a man who as his shit together. That fag will get a next level shit test that he has no chance passing.

So how does one successfully tease her and why does one do this?

Look to a third grade boy teasing girls on the playground. He is absolutely sure she has zero value and he can do and say whatever he wants. That's my template and it works great.

It works because it SHOWS (not explains) that you don't take her serious. And that you're not afraid to make her upset. Woman love men they can't control. They despise betas who grovel to them. Read sexy son theory to learn why. Never apologize for teasing.

You are doing it right if she calls you asshole. Or hits you playfully while smiling.

Example. "The kids need to take off their clothes before coming in the house. They are dirty and I have spent all morning cleaning"

"Sure..I'll put them through a hazmat spray. And what's wrong with you cleaning all day little woman ? Gives you time at night to do that other thing you do that I like ....fucking...."

Many people misinterpret this. Teasing is light hearted and fun and certainly not cruel or mean. Like UCC says, think of the little boy on the playground and if you need more explanation read the Book of Pook.

Teasing is very effective because it gives you both dominance and emotional push / pull in one shot. Those are both things women crave.

This is true. If you are even remotely familiar with woman porn, I.e romance (yeah right) novels, movies etc... The male lead and the female are often at odds .. He is a "A jerk" and often baits her like a child. Think about that for a second... This like porn to the average woman....

Bonus points if you can tease her in front of her friends. Especially if said friends have beta hubbies who supplicate their every whim. Social proof just magnifies the gina tingles.

I knew being "such an asshole" would pay off in the end.

Haha pun.

This, I learned from my dad.

He's old as fuck, not very good looking and beta in behavior mostly. Except for he fucking teases women relentlessly. Its enough to overcome all of his other deficiencies.

Nice post.

Good timing on this as I see it in action almost daily between my boss and his wife. He's the jokester and extends light teasing/joking with his wife. In response, and almost verbatim, she will say "fuck you" in a non pissy manner, and she'll also give the light hit on an arm.

I brought this up to my boss because I didn't believe he really knew what was going on, but I recognized the boy/girl/playground dynamic. The light bulb went off as he ventured back in time to the early years.
