

Picnics, massages, and doing the dishes...

January 18, 2019 | 38 upvotes | by [johneyapocalypse](#)

These are the true keys to success.

Don't let the heathens here convince you otherwise.

Life is short. Use it to....

- Do the dishes.
- Mop the floor.
- Tell your friends you're too busy to make it out for drinks.
- Go back to school to become an artist, focusing on florals.

The key to a woman's heart is to concentrate on chores, poetry, and the languages of love. Foot massages help, too.

Let her do all the planning, especially vacations

Make sure she handles all the finances

Apologize profusely when she's mad

Do everything she tells you to do

Agree with everything she says and wants (Happy wife, happy life)

MrChad_Thundercock • 16 points • 19 January, 2019 12:12 AM*

Yes!

No one is happy unless "mommy" is happy. Her mood sets the tone for the entire week!

An_Actual_Politician • 19 points • 19 January, 2019 01:15 AM

Moms have the hardest jobs on the planet and I'm not afraid to say it all over social media.

IRunYourRiver • 7 points • 19 January, 2019 02:03 AM

God, that "Happy wife, happy life" motto is everywhere and just a little more wrong every time I hear it. I wouldn't care except that I bought into that before RP.

[deleted] • 12 points • 19 January, 2019 02:51 AM

They leave out the beginning.

"Happy husband, happy wife. Happy wife, happy life."

broneilbro • 5 points • 19 January, 2019 03:41 PM

"Happy life, happy wife" - That is what it should be.

cpl1979 • 2 points • 10 June, 2019 01:22 AM

I tell her happy spouse happy house.

broneilbro • 1 point • 10 June, 2019 12:15 PM

That's actually very well stated...

WeightsNCheatDates • 2 points • 20 January, 2019 04:08 PM

It's amazing how many "men" have told me that since I got married 1.5 years ago.

Thanks for the "advice"

dwayneglasscock • 2 points • 19 January, 2019 02:00 PM

Also, make sure she makes your career decisions for you.

Redpillbrigade17 • 2 points • 20 January, 2019 02:30 PM

Make sure you ask for your Honey-Do list before every weekend. Go to the store and display it in your cart

so everyone knows what you're doing. Call her with questions to clarify and make sure you don't make a mistake by buying something slightly different than indicated.

Let her berate you over something / anything really and then tell all your co-workers how you were in the doghouse last night.

RedPill-BlackLotus • 17 points • 19 January, 2019 02:34 AM

Looks like jonnys wife got his phone.

[deleted] • 13 points • 19 January, 2019 02:53 PM

I suck my wife's boyfriend's dick so she doesn't have to.

MrChad_Thundercock • 10 points • 18 January, 2019 11:51 PM*

Simple, but effective. KISS - keep it simple stupid works best.

I always found that communication really helps. I'm like a sponge these days.

[deleted] • 10 points • 19 January, 2019 12:14 AM

Let her initiate any and all sexual encounters

Make sure you spend every waking second with her or at least thinking about her

Offer to hold her purse for her when you go on her shopping trips

Make sure you defer to her on any and all decisions. Especially regarding raising her kids (if they're not yours that's ok because you love her so much)

downvotesanimals • 9 points • 19 January, 2019 12:59 AM

Is it April fools already?

[deleted] • 7 points • 19 January, 2019 02:44 AM

Don't ever let her get the impression that other women flirt with you. Nope, let her know that you shut that shit down and no other woman can ever even hope to get your attention. Especially her friends... as far as they're concerned you're a eunuch.

And you should really open up and share your feelings. Maybe even cry. Women love a "real" man that isn't afraid to show his softer side.

MrChad_Thundercock • 3 points • 19 January, 2019 02:57 AM

“that other women flirt with you”

Hell no. She wouldn't like that !

The_Litz • 7 points • 19 January, 2019 02:28 PM

I am so disappointed in this sub... Nobody even mentioned FLOWERS! Especially when she is mad at you!

SteelSharpensSteel • 2 points • 19 January, 2019 03:27 PM

Dozen roses for the win.

broneilbro • 1 point • 19 January, 2019 03:41 PM

A dozen? That's small. Go for one dozen per year!

The_Litz • 4 points • 19 January, 2019 04:02 PM

Thats the way, plus a Facebook post. You are going to get 'Lucky' my man.

SteelSharpensSteel • 1 point • 19 January, 2019 05:00 PM

Per infraction.

SiegreicherMarsch • 1 point • 20 January, 2019 02:51 AM

If she's mad, volunteer to sleep on the couch to show her how sorry you are. If you play this right, she may calm down in a few hours and let you back into the bedroom.

[deleted] • 5 points • 19 January, 2019 04:00 PM

You forgot eat plenty of ice cream and keep drinking beers.

Skip leg day and carry her purse.

red-sfpplus • 3 points • 20 January, 2019 06:41 PM

To bad most will not realize that nearly all the shit posting done ITT actually is perfectly fine coming from a real man.

The_Litz • 1 point • 21 January, 2019 07:29 AM

perfectly fine coming from a real man.

With no covert contracts

mrp_awakening • 1 point • 21 January, 2019 02:19 PM

Exactly. It's all about the frame of the interaction.

"I'm gonna do all this shit for her because it'll improve her feelings, and I need her, and I especially need sex from her"

Fail

Dishes: "Kitchen's a mess, so I'm gonna own shit and do the dishes. Oh, she's sitting in the corner on her phone, I'll direct her to get the counters". Massages: "I've got the energy and enjoy having my hands on her naked body... maybe I can try to escalate, but if it doesn't work, then no big deal". Picnic: Fine if you actually enjoy it and want to have a date.

It all comes down to frame. If you're doing it because you want to, and are leading... that's fine. If you don't want to, then don't offer or turn down if asked. Even if these so show a little beta comfort, it's not always bad in reasonable doses for the right reasons (I want to). Might not turn her on in the moment or get you laid, but the leading and acting in your frame will increase your value. However, if you do it to improve her feelz, and expect something in return (covert contract) then you're a chump and you lose.

wkndatbernardus • 2 points • 19 January, 2019 01:22 AM

Watch chick flicks with her. I recommend "Love Actually" if you are involved with a white women and "Waiting to Exhale" if you're with a black woman.

MrChad_Thundercock • 3 points • 19 January, 2019 01:54 AM

What about Crazy Asians?

gettingmymojoback • 4 points • 19 January, 2019 01:59 AM

They're Rich

OMSnow • 1 point • 19 January, 2019 02:26 AM

The BP pussys in that movie drove me fucking nuts!

broneilbro • 4 points • 19 January, 2019 04:27 PM

In all seriousness: A HB8 who was cutting my hair and owned the barber shop was telling me about her BP of a husband. She is around 40 but seriously could pass for around 30.

Mentioned husband short, overweight, etc etc. She was talking about divorce and she was just staying . He put a recorder into her purse and overall insecure.

She mentioned guys doing dishes, cooking, laundry and just owning your shit is like porn for her. I was just trickle feeding the convo and it was entertaining seeing it. I could hear her drip when I stated that being a bachelor I do all and dropped if I did that while cooking a steak she would be down? She literally bit her lip when I said that and I just smiled amused at it.

Checking out, she gave her business card with what should have been her hours but instead she put her number instead. Told her to text for "appointment" hours.

The_Litz • 1 point • 21 January, 2019 07:38 AM

She mentioned guys doing dishes, cooking, laundry and just owning your shit is like porn for her.

They always say that. Fact is, owning your shit and not zoning out from life is the attractive bit.

buckeyeboy1977 • 3 points • 19 January, 2019 06:27 PM

My wife literally just said "if you help me clean it will make want to fuck you later. It will make me happier and love you more and put me in the mood." I'm cleaning the shit out of this house right now. Mommy will fuck me later if I do!

friendandadvisor • 3 points • 19 January, 2019 08:57 AM

The main victims of war are women.

Be sure to share your feelings with women.

witnessthenomorebp • 3 points • 21 January, 2019 02:04 AM

Continually ask her if she is "OK". Sploosh.

Tbonesupreme • 2 points • 22 January, 2019 07:29 PM

When we make love on Tuesdays (Date night!) I make sure to ask her if she's enjoying it every couple minutes so that I know if I'm doing it right.

kyengraver • 1 point • 19 January, 2019 01:57 PM

Some funny (not funny) shit!

RedPillCoach • 1 point • 24 January, 2019 05:04 AM

I was sure I clicked on the wrong sub. This is actual advice in most of them. She Cum's First and hours of oral sex are the only way to keep a woman satisfied. LMFAO. Strange these guys who follow your "advice" get

starfish once a month while their wives read Vampire Pornography and 50 Shades of Gray, practically begging for a man to throw her down and ravish her hard. While her husband meekly does the dishes hoping against hope.....
