

Wife's old sex photos

September 3, 2018 | 17 upvotes | by [Western_Engineering](#)

30 y.o. 20% bf. mrp beginner

I've been backing up our hard drives, and my wife specifically asks to back up one of her old drives. I do, and as I get curious, I discover a lot of old photos of her having sex with various men from her past. I'm sure she's aware that those photos are there.

What's the most appropriate reaction? Say something? Do the backup? Delete those photos? Trying to maintain my frame, but those photos sure messed with my mind.

EDIT: Thanks everyone, decided to STFU and go lift. Worked well.

Print out the photos and tape them to a wall when you workout.

FoxShitNasty83 • 30 points • 3 September, 2018 04:33 PM

Can I put them on the wall where I work out?

IRunYourRiver • 10 points • 3 September, 2018 04:43 PM

And cover up all those pictures of Leonardo DiCaprio? What's gotten into you?

FoxShitNasty83 • 7 points • 3 September, 2018 04:57 PM

Fair point

Senor_Martillo • 40 points • 3 September, 2018 03:57 PM

Well, please delete the ones with me in them. I don't need the whole internet to know I got peed on by a chubby ginger in Mickey Mouse ears.

The_Litz • 3 points • 6 September, 2018 12:51 PM

Disturbingly specific....

IRunYourRiver • 4 points • 3 September, 2018 04:02 PM

Those ones were really disturbing. Brain bleach please!

RedPillCoach • 9 points • 4 September, 2018 04:59 PM

Good Lord! Another saving the best scenario. It took me years to get over the last one and I still require monthly radiation treatments.

Please tell me she lets you take pics and does not limit your menu. If so, there is hope for the relationship. If not and she is playing the titilate and punish game, then it is much harder. You still have time to refuse to tolerate her games any more but the amount this would piss off most men would be fatal.

Tldr: if she is giving u her best and equal to what she recorded with the other men then sack up and quit whining. You didn't marry a virgin and where did you think she learned to smash anyway?

However, if she is not then it is time to use your power to force the issue or to end this fraud.

johneyapocalypse • 30 points • 4 September, 2018 12:19 AM

I would not look for advice, generally, from the retards here. Theirs will likely be some version of the following:
She's a whore.

Only virgins are pure.

Your wife was not allowed to have had sex with any other men, ever, before you.

At the same time, I can't imagine what I've stored on my own hard drive over the years. Christ, it likely has every document I've ever used and every photo I've ever taken. I'm fairly confident it doesn't have photos of me having sex with scores of men, though, so I suppose there's that.

I do recall searching our shared hard drives for that killer video of our son taking his first footsteps. Shit. Never

found it.

Why are you so worried about this prior sex thing?

Are there, like, thousands of photos? Or just hundreds? Or tens?

Or, say, seven?

Are you worried that she was an escort or a porn star or a nymphomaniac?

... Or, god forbid, that she may have liked someone other than you? And even, perhaps, touched his stuff?

Maybe even licked it?

Mother of god, maybe even inserted his penis in her sacred vagina?

No.....

Are you so caught up in the *impossible reality* that she - like you and me - might actually **enjoy** sex... gasp... even before ever having sex with you?

Sheesh, god forbid. She must only have eyes for you, right? And her breasts? Yours. Her vagina? Yours.

Everything else, including that part of her brain focused on attraction? Yours.

I diverge from many of the pussies here on this subject.

Who cares about prior men. I suppose the bible, so if you're reading that often, well, good luck.

As far as I'm concerned, more power to her.

What's the fucking point of treating sex like some weirdass alqua-eda (spelling) bomb-provoking behavior?!

After all:

It's fun.

It's healthy.

It feels good.

And just a reminder:

She was allowed to have fun before you.

If you're lucky she will continue to have fun while with you.

And another important reminder:

She'll just end up having fun after you, should that ever be the case.

So I would encourage you to stop fucking worrying about your wife's past sexual behavior, regardless of what (1) a book has to say, (2) dumbass anonymous retards have to say, and (3) your own insecurity encourages you to say.

Panzy.

Neo, sooner or later you're going to realize just as I did that there's a difference between knowing the path and walking the path.

red-sfpplus • 27 points • 3 September, 2018 04:35 PM

How many various men? Just 1:1? Any facials? Anal? ATM shots?

Any cool positions you can learn from? Any pics of her pegging those other men, or is it just you she does that to?

Please, tell us how big of a whore your wife is.

drty_pr • 22 points • 3 September, 2018 05:27 PM

I'll bet she fucks him better than all those guys. No doubt a chick who wants her husband to preserve photos of her sexual past saved her best for him.

askmeanything2 • 10 points • 3 September, 2018 06:16 PM

saved her best

OP, this a reference to one of Rollo's all time best essays:

drty_pr • 5 points • 3 September, 2018 06:23 PM

I was making a joke. You do realize OP is a BP troll right?

askmeanything2 • 4 points • 3 September, 2018 06:27 PM

sure, why not use the troll to get others to read Rollo

CoachDad9 • 1 point • 3 September, 2018 11:15 PM

Dang Rollo. Now I want to look at my wife's old college laptop.

matrixtospartanatLV • 1 point • 5 September, 2018 07:13 PM

THAT, would most likely NOT be a good idea, but it could be a great test of your frame...

JudgeDoom69 • 20 points • 3 September, 2018 04:54 PM*

Your wife has done nothing wrong. The old photos are from before you were together.

Use this as a reminder of the slut that dwells within your wife (all wives), and motivation to continually improve your SMV. The next time you want to skip the gym, remember what she is fully capable of doing with Chad when you slip up.

MrChad_Thundercock • 16 points • 3 September, 2018 04:07 PM*

She's not yours, just your turn.

Don't go searching through the garbage or you'll find trash. Let it go.

matrixtospartanatLV • 5 points • 3 September, 2018 10:09 PM

Two questions:

1) How satisfied are you with YOUR sex life?

2) If there were photos of YOU and her on the hard drive, which ones would she be thinking about the most?

You're new to MRP.

You have a LOT to learn, and even more WORK to do.

Work your way up the levels of dread.

In the meantime, you can stir that pot of shit if you want, but I'll bet you're not ready to deal with the smell.

So STFU, and...

GET TO FUCKING WORK!

jahesus • 6 points • 4 September, 2018 12:35 PM

She wants to keep those photos. She didnt hide them, she handed you the drive, and asked you to back up the contents, a manual process. Thus she wanted you to see them, to see how you reacted. Its a shit test.

A) soldier on b) lose the drive c) say nothing d) hit the gym E) NEXT

DanceMonkeeDance • 6 points • 4 September, 2018 02:34 PM

Post the pics and we'll tell you what to do.

light-----dark • 7 points • 3 September, 2018 05:39 PM

What is your initial reaction?

As someone who is new to MRP, you should do the opposite of what your initial reaction suggests you should do.

Then go lift.

Rian_Stone • 3 points • 4 September, 2018 01:19 PM

Could you be arsed to give your rationale to this before asking for handouts?

screechhater • 3 points • 4 September, 2018 11:55 PM

Did you ever think you special snowflake wants to be jack hammered ?

Face fucked ?

Anal ?

Seriously, do some deep thinking as to why she would place this shit in plain sight.

IRunYourRiver • 5 points • 3 September, 2018 04:02 PM

I assume these are from before you were married? Endless playful banter could come out of this if you play your cards right. Personally, I'd never be able to pull it off. Maybe you can.

IRunYourRiver • 10 points • 3 September, 2018 04:08 PM

Okay, giving this some more thought. You are the proverbial kid who found a stick of dynamite in an abandoned lot. It's tempting to think of all the cool shit you could do with it. But more likely you'll end the day with three fewer fingers than you started it with. Take this as an AWALT moment and use it to become Red pill.

Whiteliesmatter1 • 2 points • 4 September, 2018 08:33 PM

I wouldn't worry about it. It is her business really. Of course she had sex before you. Do you think you are special? Of course she kept the photos. Probably forgot about them too. I am positive I have old photos of my own around and I can't remember where. No biggie. Move on with your life.

[deleted] • 1 point • 5 September, 2018 12:34 AM

Is your wife good a using a selfie stick?

nantucketghost • -7 points • 3 September, 2018 05:18 PM

Yup, say something. Tell her the truth. You're doing the back up and came across some risqué photos and you were not in them.

Then delete the photos.

You're either the alpha in her life, or your not. Take charge.

bigskymind • 5 points • 4 September, 2018 12:56 AM

Seems really insecure to delete her pics.

Brickles09 • 1 point • 4 September, 2018 01:44 AM

Yes, for the love of God never threaten to delete the sacred pictures of the wife having sex with Tyrones/Chads, never! Let the pictures be archived for posterity, she's proud of the pictures, and so must be the husband! Treat these pictures of pure love with a lot of respect, save them, protect them, backup them, even put them on the fucking cloud! The wife and her former Tyrones/Chads deserve that level of consideration, the husband should even ask her if he can correct the pictures on photoshop, you know, erase the herpes from one of the guy's penis, use some filters to improve the atmosphere of the pictures too.

bigskymind • 6 points • 4 September, 2018 04:26 AM

Seeming even more insecure right about now.
