

Balancing initiating vs bad sex vs withdraw time/presence

August 1, 2018 | 14 upvotes | by [MRPn00bee](#)

Quick stats: DL5, 205lbs, 16% bf, 290 squat, 275 BP, 345DL. Working on MAP and finished sidebar required reading, currently doing round 2.

For the last 2 months I've been initiating whenever I wanted usually during the day. I'm getting a good success rate about 80%. When I'm turned down I go about my day, learned not to initiate at bedtime so I can go do something else.

When I'm turned down, it's usually some variant of "my mind is busy, I'm tired, etc." Sometimes she would initiate later at bedtime as she knows I wanted some during the day. I kino and game her all the time from the moment we wake up, not with sex in mind but because I enjoy touching her and it's fun.

Here's my problem: 4/5 times it still "feels" like duty/starfish. Her eyes are shut, sometimes tells me her vagina is "shy" and needs to warm up to me (womaneze for I'm not ready for you), and she's usually dry I have to use lube. She still doesn't blow me unless I stick it in her face when I want it and she obliges (half heartedly but whatever). I've cavemaned her several times when I get the starfish vibe, she seems to be ok with it. However I am not anymore. And quite frankly I'd rather go to sleep/do something else than have sex with someone who's not attracted to me. The one time I pulled out, ended it and said this is not working for me, I was hit with comfort tests up the yin yang for next three days. The sex that followed was no different.

How do I balance "always initiate" with "say no to bad sex" and "don't punish good behaviour"? I mean she is complying to my initiation, so that's a plus. It's gets more tricky when she initiates but the ensuing sex is bad.

EDIT: Cut the shit

You know how you say you would rather sleep/do something else than have sex with someone that is not attracted to you. Well, she would rather sleep/do something else than have sex with someone she is not attracted to.

Edit: The point being, you can't demand enthusiasm until you are worth it. Right now, you are asking five star pricing for one, two, or maybe three star accommodations.

Damn. Needed to hear this myself. Back to the sidebar for me.

Good point.

quite frankly I'd rather go to sleep/do something else than have sex with someone who's not attracted to me.

Translation: "Sex isn't validating me like I want it to"

Look...you've set the expectation that you're a weak loser and a bad lay. So, no wonder she's not into it. You've got some work to do before she figures out that she's not fucking that same weak loser.

Each time you act disappointed, walk away, etc., you ingrain in your wife's brain that sex is this big thing, and she needs to perform even if she isn't feeling it. It puts pressure on her, and that's not fun for most women. Her body wants to fuck Alpha Chad, and instead she's stuck here needing to act a certain way with her legs in the air so that Beta Brad doesn't go sulking again.

If you want to have a good sex life, you need to establish that sex isn't that big of a deal. You get together and you fuck, and sometimes it's great, sometimes it's just you getting off. Whatever. If it's not perfect this time, there'll be a next time soon enough. It takes the pressure off. Chad isn't looking for a woman to perform...he just wants to fuck.

Also, fuck her good. Pin her arms back. Smush her face into the mattress. Don't be self conscious that she's not into it. Get what you came for, tell her "Good Girl", put some shorts on and go on with your day. Chad is oblivious to how "Into it" she is.

YMMV on this, but when you're gaming her, do it from the stand point that she wants to fuck you. I talk to my wife like she's a nymphomaniac, and that I can barely keep up with her libido. Even if she's said no multiple days in a row, I frame it as her not getting the dick she needs. Seems to work pretty well. Approach her with that irrational self confidence that even when she tells you she doesn't want to fuck you, you know she actually does want to fuck you.

cholomite • 10 points • 1 August, 2018 01:46 PM

Tease her a little and challenge her to expand her horizons and try a little harder. Make her aware that you have a standard for quality sex, but don't say it outright or try to negotiate attraction. This is on you at the end of the day, you're just not bringing out her inner slut, whether it's due to lack of attraction or weak game.

I would keep it light and flirty and playful. Act like a guy who gets laid all the time and just wants to mess

around and have fun. If she bores you, kiss her, smack her ass and leave. If you want to keep messing around, tell her she needs to practice, or that you'll show her some moves or what you like. A lot of times women know what guys like, but don't do it unless the guy is confident enough to express it and talk about it out in the open. Act like blow jobs are just a part of life, like death and taxes. You'll help her get better at them, and have fun along the way. Also don't be afraid to boss her around and tell her what to do. The more confident you are in controlling the situation while also being outcome independent, the more fun she will have and you will reap the benefits.

First off, you need to edit your post and provide more information than your "quick stats." Your responsibility, as a poster who is asking for assistance, is to provide the relevant information so we don't have to search through your post/comment history like fucking pigs foraging for truffles.

There's currently only one stickied post on this sub, entitled Cut the Shit. It's at the very top of the page in green lettering, and it provides eleven bullet points of information you are expected to include in your post. Your "quick stats" respond to only one of the eleven bullet points. I think it's safe to assume that responses to your question are going to be similarly abbreviated, as we will generally assume that you're incapable of following simple instructions, too lazy to spend five minutes providing the relevant information, or a combination of the two.

Because I'm in a good mood this morning, I'm going to get you started, by filling in the information I have discovered through reviewing your post/comment history.

CUT THE SHIT

Write down your stats (height, weight, bf%, lifts).

From your post today: 205lbs, 16% bf, 290 squat, 275 BP, 345DL.

Missing information: height.

Write down all the books you have read in the sidebar and one sentence about what you learned from each one (even if you haven't finished it yet). What was your main takeaway from the other erroneous material referenced in TRP sidebar and here?

From your post two months ago you claimed to have been on your second read of NMMNG, WISNIFG, and MMSLP, and on your first read of TRM. In your post today, you claim to have "finished sidebar required reading, currently doing round 2." I'm calling bullshit, but would be happy for you to prove me wrong. List each book you've read, and one sentence about what you learned from each book.

Get your testosterone levels checked and write them down.

No evidence that you've been tested.

Write down your ratio of sexual initiations/rejections.

From your post today: 80% success rate over the past 2 months.

Write down the number of women besides your wife you could call right now to chill this weekend.

No evidence in your post/comment history to suggest that you could call any woman other than your wife to chill this weekend. Update as appropriate.

Shit, write down the name of the last girl you flirted with who isn't your wife.

No evidence in your post/comment history that you have flirted with any woman other than your wife. Update as appropriate.

Write down how many days over the past 15 you have actively gamed your wife.

From your post today: "I kino and game her all the time from the moment we wake up, not with sex in mind but because I enjoy touching her and it's fun."

What's with the unnecessary gay qualifier at the end? Kino and game are, by design, to be performed with sex in mind. I'm calling bullshit on this one ... or, more likely, your kino and game techniques are shit. Provide details on what you are specifically doing when you "kino and game her all the time."

Write down two things you do that make you a good catch.

No evidence in your post/comment history that you are a good catch. Update as appropriate.

Write down what you would do today if you did not have a wife/kids to go home to.

No evidence of this in your post/comment history. Update as appropriate.

Write down what Dread Level you are on.

From your post today: DL5. I'm guessing you assume you're on DL5 simply because you're 5 months into swallowing the pill. Provide specific information (one sentence per dread level) summarizing your dread activities for each level.

Write down how many more months you have to go until you are an attractive man with options.

From your post 2 months ago I learned that you have been married 19 years, and you found MRP approximately 5 months ago. Using 1 month per beta year of marriage, you have a minimum of 14 months before you're unfucked.

Now that I've wasted 30 minutes cleaning up your post, I can finally respond to the call of your question.

How do I balance "always initiate" with "say no to bad sex" and "don't punish good behaviour"?

I don't know where you got the idea that you are supposed to "always initiate." You should always be gaming, but that's different than always initiating. You're five months into your journey, with a minimum of 14 months before you're unfucked. Your wife still probably sees you in much the same way as she has the past 19 years ... unattractive.

You're probably not to the point where you can "say no to bad sex" ... at least not consistently. Go back to your first post and re-read u/ReddJive's comment ... especially the part where he advised "You are no where near close to being able to say....yeah I am not going to do this because she is no longer worth it or she isn't bringing anything to the table. There is a fine line between doing it because you should and just not wanting to give your attention to that bitch any more. yet you are not near there and she is still in the game...."

Bro, you're 5 months into your MAP, with a 19 year history of faggotry. Bad sex is frankly all you deserve at this point. The good news is that she's at least willing to give you starfish/duty sex 8/10 times that you initiate, which suggests she's not 100% repulsed by you. "Be attractive, don't be unattractive" means more than just improving your physical SMV. You have to kill all of your unattractive traits, which is actually more difficult than simply losing weight, dropping BF%, dressing better, improving grooming, etc. It requires you to fucking work. Every goddamn day. You've never posted on the weekly OYS thread, which tells me you still have a shit ton of unattractive traits you're not yet ready to kill.

Kill your fucking ego and take a fearless inventory of your life. Identify every unattractive trait you can think of, and then plan how you are going to kill them. Update your MAP with this information, and post your progress on the OYS thread.

8/10 of your initiations are successful, but you're only having quality sex 20% of the time. Eyes shut and a "shy" pussy that is as dry as the Gobi Desert are clear signs of a lack of attraction. You're probably not a bad looking guy, as you're apparently getting IOIs. But that doesn't mean you're not unattractive.

That you are closing in on 20 years and have a "familiarity factor" are irrelevant. I'm 16 years married and

getting pornstar sex on demand, but I'm also 2 years into my MRP journey, not 5 months. This is a long fucking game, and there are no shortcuts. You'll eventually get the sex you [think you] deserve, but not until you've earned it. [Formatting edit]

MRPn00bee[S] • 2 points • 1 August, 2018 05:06 PM

You weren't kidding about the good mood bro. Updated.

"Be attractive, don't be unattractive"

I think this is what I need to focus on, figuring out WTF else I need to kill that's unattractive.

[deleted] • 2 points • 1 August, 2018 06:10 PM

Thanks for the Cut the Shit edit ... it provides a clearer picture of you and your particular circumstances. Overall it looks like you're on the right path, although I'm curious to know how your wife has responded. How does your current 80% initiation success rate compare to 6 months or a year ago?

I think this is what I need to focus on, figuring out WTF else I need to kill that's unattractive.

This is where the real work takes place. Physical improvements are easy to see and easy to quantify. Killing unattractive beta traits is (in my experience) a lot harder, but provides an equal or greater payoff in the long run. The point is, you need both.

Sex God method (still reading): Need to be more dominant & immersive, get out of my head.

You need to finish this book ASAP and start incorporating DEVI ... especially during the 20% where she's NOT responding with starfish, closed eyes, etc. Dominance and Variety are 100% on you. Emotion and Immersion involve both of you, although it's your responsibility to introduce those elements.

It's amazing what a woman will do when she's turned on. My wife was historically a major prude who only wanted missionary vanilla sex, and only after I had given her an hour long massage, rubbed her feet, etc. Just the other day, she mentioned she digs things that would normally have been degrading/painful, etc. (e.g., hair pulling, spanking, finger in her asshole, etc.) but ONLY when she's turned on. DEVI unlocks that door.

SGM is an easy read that you should be able to finish in a day or two. Put it at the top of your list.

~~15, but quite frankly I can pursue other options right now if I so wish to choose.~~

FTFY. You seem to have a habit of adding an unnecessary explanation, which suggests DEERING is a major area for improvement. It's also one of my biggest weaknesses. I'm a lawyer and am damn good at my job. It's a constant struggle for me to remember to STFU and use the tools in WISNIFG. But when I do, the result is ALWAYS better than when I autistically argue for the sake of being "right." The Way of the Superior Man has helped me in this area more than any other resource.

Frankly, who gives a fuck if you could pursue other options, unless that's your ultimate goal. But at 5 months, you're still a child with dynamite and will likely just blow your dick off (speaking from experience). If your wife has been responding positively the changes you have made in DL 1-5, I'd suggest progressing naturally through the dread levels instead of skipping directly to DL 11, which is exactly what I did despite a compliant wife who was responding positively. It set me back several months when she eventually found out about the affair. If I could go back in time, I wouldn't do it again. Wasn't worth it. But that's just me.

MRPn00bee[S] • 1 point • 1 August, 2018 06:52 PM

Good points, especially on completing SGM. And yes, I see what you're saying about DEERing, got work on that. Thanks for the warning re: going to DL11, certainly not looking to blow this up... at least not now. Good smack on the head, cheers.

CoachDad9 1 points 1 August, 2018 02:07 PM [\[recovered\]](#)

You might be a really good looking guy, charismatic, life of the party, getting IOIs from other women but to her you are the same dude she's been banging long time. The most effective way to create desire is to remove yourself from her. Esther Perel is the queen of this strategy.

Stay away and work, when at home be in the basement or garage. Go on a camping trip or hiking trip. Be gone all the time. Over a few days/weeks she will start to think, "Who is this guy I see occasionally?"

I struggle with this same issue since my wife and I have been married 16 years and I've never been a beta so she's not seeing any drastic changes like most RP guys. I'm sub 10% BF, did modeling in my 20's and have a super high SMV, but she's been getting it 4x a week for 16 years. Every time I go on a 7 day trip she's dripping wet when I get home shaking with anticipation.

MRPn00bee[S] • 1 point • 1 August, 2018 02:37 PM

This is good advice, I know I'm still far too available/around. And what bothers is all the IOIs I'm getting, I could easily pursue some of them further but I don't want to yet. We're closing in on 20 years, so there's that familiarity factor.

CoachDad9 1 points 1 August, 2018 06:08 PM [\[recovered\]](#)

Is your wife religious by chance?

I'm a christian so I don't pursue other women. Wife knows my commitment and that keeps her from getting to excited when women openly flirt with me. If you don't have those same moral handcuffs, use that to your advantage and flirt openly and often. The combination of open flirting with being absent gets the juice flowing. Add abs, upgraded wardrobe and refreshed mindset where you don't care about sex unless it's amazing and you'll be there. The hardest part is the mindset which is why the advice is always read, read, read to gain DGAF.

As far as going after other women, other guys might be getting other women on the side and it looks appealing but how long before the same pattern repeats and you get bored with her or she gets bored with you? Wash, rinse, repeat.

That you are closing in on 20 years and have a "familiarity factor" are irrelevant. I'm 16 years married and getting pornstar sex on demand, but I'm also 2 years into my MRP journey, not 5 months.

For guys who were beta and went RP, this is totally true as they've emerged into a real man and wife is responding. Once again though, what happens in 5 years when you're reborn RP and she gets tired of screwing Chad daily? Move on to screwing Tom?

The most attractive guy to her is the guy with mystery and she seeks his attention just like you're immensely attracted to other women because they're new and unknown. So the goal is to be a new, attractive guy and constantly keep that newness without gimmicks. Being an alpha jerk, thrusting your cock in her face or smashing her head in the pillow may work for a week or two but then she starts thinking, "Is he gonna choke me out AGAIN tonight, because I'm over it."

MRPn00bee[S] • 1 point • 1 August, 2018 06:28 PM

That's a good point. Yes she's religious and more observing than I (we're both Muslim). She knows that I'm not as practising and that I morally don't have a problem banging other women if I choose to. Heck I can marry three others if I wanted, all within the confines of what's permissible in religion and she knows that.

Whatever mystery I've demonstrated over the last few months have been mostly met with skepticism, and fear at best. I still have a lot of work to for that to sink in.

[deleted] • 2 points • 1 August, 2018 06:40 PM

she's religious and more observing than I (we're both Muslim) ... I can marry three others if I wanted.

You buried the lead, brother. This might be the most important background information you could have shared.

MRPn00bee[S] • 1 point • 1 August, 2018 06:47 PM

Really? I didn't think it impacts what I'm trying to achieve. I'm not that's practising anyway and she's no different than other conservative Christian women I read about here and MRP.

If anything, by default/God's will I already have a pass to practice active dread.

RuleZeroDAD • 2 points • 1 August, 2018 07:00 PM

Regardless of anything else that might be said:

Allah offers his men abundance

The rest of us are assumed to exist in societies that frown on polygamy, and only celebrate polyamory for women. The social acceptance of taking more than one wife would be something I would exploit.

Well, we're both 2nd Gen canucks.. born, raised and live in Canada so still the anti-polygamist socio norms still apply. While I have the option, exercising it in real life has its own challenges.

I haven't written it off, just keeping in my toolbox till I feel it's time to use it. I think the kid with dynamite analogy applies here.

EDIT: DEERed again!

ChokingDownRP • 5 points • 1 August, 2018 02:42 PM*

My wife is taking the kids to her mom's house a few hours away for a couple of nights. She spent all last evening packing, etc. I gamed her some, a little kino. She rubbed my bicep and without me flexing at all commented "Jesus, I can feel the definition while you're just standing there...mmmmm." Seemed like it was going to be on for later. As the evening wore on, it became evident that she was stressed and packing, so I went on about my business of playing with the kids and getting them ready for bed and reading to them.

As I was getting ready for bed, she said something like "if you're hoping to get some tonight since we're leaving in the morning, I'd be willing to do that if you make it quick." I instinctively started to close the bedroom door, then said "it doesn't sound like you want to"... she responded, "not exactly, but I will." I opened the door back up and said "I'd love to fuck you, but I don't fuck women that don't want it." I got a glass of water and came back to bed, gave her a goodnight kiss and an ass grab. She said "you know I usually get into it after we get going" I kissed her, but it just wasn't there, so I kissed her forehead, "i love you" and repositioned. Between then and this morning when I left for work, she (in a joking tone) said something about "other women" 3 times...all of which I ignored. I have a social outing tomorrow night, she asked who all would be there, etc...funny she's known about this for weeks and only asked now that she's going away and I turned down a pity fuck. I suppose that's dread at work.

I've probably turned her down for sex 2 times in 17 years...once I was feeling sick, and this time where I'm declining her allowing me to use her pussy to masturbate.

Not sure it was the textbook right play or not, but I'm not willing to fuck the starfish anymore.

MRPn00bee[S] • 1 point • 1 August, 2018 03:01 PM

That's good, let her hamster run. I like your response "I don't fuck women that don't want it" - solid.

I had a somewhat similar scenario the other day... escalated and initiated in the afternoon, she agreed but "it has to be a quickie". Gave her a kiss, got the tight lipped treatment so I called it off. Said you don't seem to be into it right now, which she agreed but said willing to have a quick one if I want. "No, that's not going to work for me babe"... Kissed her on the forehead, and went about doing other stuff.

Later that evening I had a preplanned outing to sell some stuff, she knew about it but now was asking who am I meeting, guy or gal, how long I'd be gone. Etc... I kept it C&F and never answered her questions.

When I came back she was dying to know who I met. She started texting me from the other room saying I'm purposefully not sharing with her as a punishment for not having sex earlier. I can sense the dread and her hamster's been running for while. I played AM and had a bit of fun with it.

When it was bedtime, she initiated and I thought great! Turned out starfish, despite my efforts to make it fun. That's when I started wondering why am I even accepting that.

ChokingDownRP • 2 points • 1 August, 2018 03:59 PM

I don't know, it's a fine line between communicating that I'm not willing to take subpar sex because I'm an alpha with abundance vs communicating that I don't want starfish sex because it doesn't provide the

validation that my needy little beta ass needs from it. To be honest, I'm not sure which of those I communicated. I only know that I WILL kill the starfish!

FeralRed • 3 points • 1 August, 2018 02:17 PM

You're not getting her wet and horny anymore.

Whatever could that problem be? Fix that.

CaptJohnLukeDiscard • 2 points • 3 August, 2018 03:51 AM

Are those weights your maxes or what do you 5 reps with? Why is your squat so low compared to your BP?

Most of the time, a guy with a high BP and a low squat is afraid of hard work. "Injured knees" or "I leg press dude" or some weak shit like that.

Unfortunately for those guys, that lack of mental toughness often shows up in more than just the weight room. Wives sense that shit and don't respect it.

Maybe you need to squat more. Ass to grass, none of this quarter squat nonsense.

Edit- just in case you are autistic, I'm not saying if you do a full set of squats that your wife will cavewoman you. I'm saying that it could be you have a big case of pussy-it is in your character makeup.

MRPn00bee[S] • 1 point • 3 August, 2018 04:26 AM

Ah the joys of late night reddit.

My squats are full breaking parallel, none of that ass to grass shit. I had knee surgery last summer and rehab's been a bitch. Used to squat 405 before that train got off the rails

CaptJohnLukeDiscard • 2 points • 3 August, 2018 04:33 AM

No worries then. Knee surgery myself in March so I get starting light. Onwards and upwards.

Abs not visible yet, bf% was measured by personal trainer using both impedance and skin fold measurements/calipers. I know it's not perfect, but gives a good indicator of progress
