

Pushing off when she initiates?

January 4, 2018 | 8 upvotes | by [Senor_Martillo](#)

So I'm sloooooowly drawing the 1000' rope tighter, probably 900' to go. Little things are improving at home, hand in hand with some initial IOI's out in the world. Lifting, reading, internalizing, etc, so far so good but still only a few months into my MAP. I'm starting out from a decent place, having been a solid dancing monkey for several years. Mostly working on the philosophical portions of frame and OI now.

One of my goals (duh) is changing the starfish into a minx. A lot (probably 70%) of our sex life is morning sex: she's not tired, hormone levels are up, it's convenient, etc. A shag in the morning isn't a problem per se, but it's all cuddly, sleepy starfish sex, just down to logistics. We're not likely to get up, bust out lingerie and toys and all the rest of it at 6am.

So this morning, the wife is in the sweet spot for ovulation. I knew it would be sometime between yesterday and tomorrow. I initiated last night after a nice dinner out, but got a soft no:tired. Could have pressed through that, but in my experience that's a sure bet for starfish. Sure enough, she comes over to me this morning, playing footsie and rubbing up on me, her form of initiation. I rubbed her pussy a little then told her I want her to stay horny all day then come to bed tonite in a little black teddy that I love. It pushes her tits up just perfectly and has a nice little thong string that pulls right out of the way. I Got up, got my gym clothes on, and got a cup of coffee, which I am drinking as I write this.

So my question is this: will the minor tension I created be more likely to result in the kinky session I hoped for, or did I just violate MMSLP's guideline of not performing when a woman wants it?

Plot twist: she's going out to dinner with 3 of her girlfriends tonite. They are all in various stages of divorce/disgust with their husbands. She will come home either stoked to be married to someone she loves and who isn't a fuckup, or hating men in general. She'll also have a few cocktails in her, which will swing the pendulum of desire/disgust even further in its given direction.

I'll finish the report in the comments tomorrow morning. Happy hunting, gentlemen.

First pitch: opportunity for caveman fucking (last night). Swing and a miss.

Second pitch: She makes a move and you decide you're on a sexual diet and go to the gym. Swing and a miss, the count is 0 and 2

Third pitch: You chose to tell her how the night should go rather than fuck her and send her out with friends still dripping from this morning...swing and a miss, she struck him out....

Do more, say less. Initiate always and follow through every time.

Senor_Martillo • 2 points • 4 January, 2018 03:11 PM

Ha! I like your analogy. I'll admit I have my doubts about my hitting strategy...but im still at bat. At worst I fouled it away this morning. If I cavemanned it last night, that's a guaranteed starfish. Like getting a walk-on single. We're 20 years in together and I'm over that shit.

If I took the pitch this morning, that's a semi-starfish, maybe a double.

Final pitch comes tonite, where I may strike out, may get a basehit , or may hit it deep into the stands.

Time will tell.

People will tell you two things here:

1. Who cares if it's starfish, fuck her caveman anyway.
2. Don't accept starfish for the disrespect it represents.

My approach was 2 and it worked out great for me because that was congruent with my frame. I don't accept less than being present and involved during sex.

Combined with dread, OYS, etc... that can work because the wife in that scenario has not completely checked out and lost faith. In my context, I was the one ready to leave and getting checked out and even though I had my share of failures, in the end, option 2 worked in conjunction with everything else because investment and a desire for me to be invested still existed.

In the end, I would rather have a rejection than starfish and if rejections continued for a prolonged period then I was willing to walk and she knew it wasn't a bluff.

Obviously your wife is still invested if she's initiating at all. So option 2 is valid and I doubt it would have a negative impact so long as you maintain your work in all other areas.

The real danger in your story is expectation. Whether or not your foreplay meets the definition of a covert contract, the root challenge is that you're creating an expectation that is more likely to cause butthurt than not.

The golden rule is that anytime a woman says something sexy in the moment, ie... during the work day, it offers no guarantee that she will still be feeling that way once she's home.

By trying to choreograph the night, you setup landmines for disappointment. Rather, just tell her to txt you when she's on her way home from the dinner and tell her then to change when she gets home and you're going to fuck her until she begs you to stop.

You'll know what state her mind is by her response and you bypass the need to try and choreograph any of it. Plus she'll already be tipsy when you make the suggestion so the idea doesn't have all day to get stale.

Cause she's not going to be thinking about it all day like you will.

Check out OP's replies to other comments, I think he has the OI to run this little experiment.

straius • 2 points • 4 January, 2018 10:38 PM

I think you're right. That's what I get for not doing my normal thing of reading everything before commenting. Although, i do disagree with everyone saying he fucked up, it's clear he views this as an experiment and he'll adjust based on which way it goes.

drjamesstone • 3 points • 4 January, 2018 03:45 PM

play small ball. right now, you don't appear like you can get it out of the infield anyways. Having your wife see you selfishly enjoy starfish isn't such a bad thing.

snatch_haggis • 7 points • 4 January, 2018 03:59 PM

If a 4 year old wants to make their own breakfast, I know I'm gonna end up cleaning up a huge mess and they'll probably burn a waffle or two. I don't say a word about it, because they're moving in the right direction - I just praise 'em and clean up the mess later.

Most would say never turn her down, just ease her slowly in the right direction by leading in bed. When she's begging for it every night because you're giving her endless tingles in every department, then you're in a better position to talk about what you want and how.

That said, a lot of folks seem to have went through a point where they ended up overtly refusing starfish. It's debatable whether it did that much good - it almost always ends in tears and gives her a lot of anxiety around initiating, resulting in an overall decline for awhile.

I said "I deserve better sex than this", a few months ago. She cried a lot and stopped initiating for a month, and it didn't really change things much. Made a lot more progress later with just saying what I wanted in the moment and vocalizing in bed.

I rubbed her pussy a little then told her I want her to stay horny all day then come to bed tonite in a little black teddy that I love

Even if you got a yes to that in the moment her solipsism means that yes is the same thing as doing it right then, and has nothing to do with whether it actually happens later.

Don't be surprised if other things come up and she ends up ~~pretending~~ swearing that conversation never happened. Facts and oaths are not tingles and feels.

Senor_Martillo • 3 points • 4 January, 2018 04:29 PM

Yeah. I'm giving it 50:50 that I can close the deal tonite at all, and 50:50 that it's the fuck I wanted when I deflected this morning. So 75:25 my little experiment fails...gathering data is hard.

Cheers, gentlemen. Good input all around, with a clear majority of you guessing that I made an unforced error. Will advise.

Senor_Martillo • 7 points • 5 January, 2018 02:19 PM

Ok so here's what happened: double starfish.

She did in fact decline to wear the lingerie I had requested, but i fucked her regardless. Pretty much starfish. Tagged it again this morning to slightly better response, but still recognizable as sea-life. Maybe more like a jelly fish.

So my little experiment concludes in fundamental agreement with the majority of comments: if she initiates, I should serve it up good and hard. It's the best window to kinky enthusiastic sex I'm likely to see. There may be scope for tactics like I tried once the rope has been drawn tight, but I'm not there yet.

Back to the gym, back to the sidebar. Peace out, fuckers.

Ditto, thanks for following up.

mrpthrowa • 8 points • 4 January, 2018 02:58 PM

You are entirely in her frame. So much so you want to drag us into it.

mountainbiker178 • 5 points • 4 January, 2018 03:02 PM

I disagree. If he was entirely in her frame, he would have had starfish sex that morning. Now his strategy may have sucked, but I can see that he is trying to get his frame back.

mrpthrowa • 5 points • 4 January, 2018 09:31 PM

That's a shitty frame, and it's really reactive to her. A man gets what he wants.

His entire post is him trying to tailor everyone of his acts to get something out of her.

BobbyPeru • 3 points • 5 January, 2018 01:41 AM*

This. If my wife goes starfish, which very rarely happens (usually if she gets too drunk), I don't get butthurt.

I finish like a caveman.

I don't get the logic of depriving yourself of an orgasm because you feel disrespected. That's in her frame. Now, if your cock goes soft because she's not into it, that's a different story.

u/drjamesstone nailed it though. I almost never wait until the end of the night to have sex. 4-5pm is preferable to me... gives time to unwind and chill after. Also, you are missing opportunities and then she's out with the girls... that's not a good scenario.

[deleted] • 5 points • 4 January, 2018 03:10 PM

Why not fuck her in the morning and at night?

Also, you declined sex after a soft no because of ~~starfish~~ possible starfish? She's training you better than you are

her.

Senor_Martillo • 3 points • 4 January, 2018 03:15 PM

Yeah I'm just over the starfish. We're 20 years in and I'm not in a rush anymore. I want the minx.

RPWolf • 2 points • 4 January, 2018 03:48 PM

You have to lead to the minx. She isn't going to wake up a porn star one morning and ask you to fuck her in the ass. Well maybe one day but today isn't that day. Read SGM, use the shit out of DEVI and you will get the minx. You have to be the man she wants to not give starfish to.

Starfish is allocated to the provider who she needs to give the bare minimum to keep around.

[deleted] • 2 points • 4 January, 2018 04:03 PM

If a child talks back to you after you send them to their room, is your course of action to not send them to their room in the future because you're "over it" and want them to follow direction without talking back? Or do you send them to their room, get talked back to, and address it appropriately?

drjamesstone • 2 points • 5 January, 2018 03:44 AM*

Yeah I'm just over the starfish. We're 20 years in and I'm not in a rush anymore. I want the minx.

I don't want to do the work, I want results.

How does that work in the gym?

dcapt46 • 1 point • 4 January, 2018 04:07 PM

As one who saw lots of starfish in the past, also ~20 yrs in. I have found that pushing through, pinning her, moving her where I want and pounding hard leave her panting and clutching my back even if she wasn't into it from the start. Also have tried to be more than happy to have mine and be done if she is not interested in more. If she clearly wants more then I am all in but if she seems content then Im done. She has never complained about this.

Lately she has commented/Joked? that this is going to be a starfish session and after 5 or 10 min it is full on. Last night she said "I don't know, I think this is a starfish night" me "nope I think this is a blowfish!" giggles. Didn't blow me but it was a really hot session.

bogeyd6 • 4 points • 4 January, 2018 08:39 PM

Thanks for giving me some insight. I have been trying to write a post about turning her down for sex. How you can do it strategically and what that can mean for you.

Senor_Martillo • 1 point • 4 January, 2018 09:16 PM

Well, let's see how it turns out. These other dudes think I'm blowing it!

bogeyd6 • 3 points • 4 January, 2018 09:28 PM

I am not saying you aren't. I was having a hard time coming up with the beta side of the problem, and you gave me the perfect example.

Senor_Martillo • 2 points • 5 January, 2018 02:52 AM

Looking forward to reading it

BostonBrakeJob • 3 points • 4 January, 2018 09:37 PM

After reading the post, I was thinking you probably should've took the morning sex and then initiated that night for caveman.

But after reading your replies in the comment section I'm starting to change my mind.

You anticipated starfish, didn't want it like that, and declined.

(Overtly) You told her what to wear to bed tonight/(Covertly) You told her to step her game up

Then you leave the room to start your morning routine, leaving her and her hamster aaaaall alone to figure out what just happend.

Your replies show a genuine OI for what happens tonight.

You're trying something out. It may or may not work, but if it doesn't I'm not getting the impression that you'll be back on here tonight crying about it. I like how you played it and would be interested to see how it plays out, both short and long term for you.

It's your experiment, run it how you'd like. But I'd suggest building the tension if you guys talk throughout the day. Not necessarily go out of your way to send a text or call her, but if she calls keep it playful and lay on the inuendos. OYS, you want a porn scene session tonight, keep conveying that to her. And keep the thought in her mind.

screechhater • 3 points • 5 January, 2018 02:33 AM

Man I love this game too. She goes out with friends who talk about getting it up with their husbands by reading 50 Shades SO tells me cause she doesn't have input they all grill her. She states "I have a caged animal at home"

She generally comes home, walks to my side of the bed strips down and has her way with me.

I generally tell her go out nightly with your friends....

UEMcGill • 5 points • 4 January, 2018 03:10 PM

If you read Kay's book you'll remember, 70% of sex is ok; and that's ok.

Why didn't you fuck her in the morning and tell her to meet you in the bed with the naughty-wear?

You should have fucked her. She likely saw it as some sort of rejection and now she's sitting there wondering "Why the fuck does he want coffee and not pussy?" She doesn't see it as you denying her dick, but as you rejecting her gift.

Fuck because you want to.

Continue to improve attraction.

Dare I say, read the Sex God Method, *when you are ready*.?

Senor_Martillo • 1 point • 4 January, 2018 03:14 PM

Hmm. You may be right. It's an experiment that could cost me a fuck, no doubt.

[deleted] • 3 points • 5 January, 2018 04:08 AM

" told her I want her to stay horny all day then come to bed tonite in a little black teddy that I love. It pushes her tits up just perfectly and has a nice little thong string "

This sort of stuff makes me throw up in my mouth a little bit. It reeks of thirsty beta and it sounds like you are pedestalsing her. Quit that shit. Unless your wife is a HB10 do not treat her like one. Even if she is treat her like

a HB7, commandments of poon, ignore her beauty. She senses your neediness. Doesn't matter if you are in a LTR or spinning plates, talking about a woman in this tone is gross. I am betting she is not saying to her friends tonight, "he has this pair of underpants and when he wears them it makes his bulge look so big and I get so horny." You are still getting nos, soft or hard nos are a sign that you are well short of your goal. So next time you are feeling like a thirsty beta, just think "what would a cave man do?" instead of writing long ass love letters on the internet.

BluepillProfessor • 1 point • 5 January, 2018 08:50 PM

She clearly does not want to be treated the way OP is treating her. She knows exactly what she wants and it isn't prancing around like a prostitute to entertain her man. She wants animal lust and clothes ripped off, not instructions on what to wear.

redandswollen • 2 points • 4 January, 2018 03:45 PM

With life, work, kids, gym, etc, I'm getting to the point where I don't want to fuck everyday. I like quality over quantity.

So to answer your question: there's no right answer. I like your experiment-- see if you can let the sexual tension build up, but be aware that her horniness likely has nothing to do with her. You can plant seeds, make yourself attractive, kino, etc, but be prepared for it to not work.

I usually take the policy of never turning down sex and I let kinky sex naturally happen. But my wife has always liked sex so I don't have that problem.

[deleted] • 2 points • 4 January, 2018 06:24 PM

I see a massive covert contract here,

I think you're MRPing for the marriage, not for you.

You willing to blow it all to shit and cut the rope if she doesn't fall pussy first into your whore wife box?

This is a "she" post, and if you're watching the rope pay out behind the boat, then you're facing the wrong direction. Your attention should be on where you're going, not if the lifeboat is still attached.

Thats a long time for "sexual tension" to exist, especially if starfish is still on the table. That means she doesn't dread losing you, so her "A" game does not come out. Wonder why that is?

After a GNO, the best thing you can do is alpha caveman her, really bring a contrast between the passive-aggressive moaning of unhappy women, and the unbridled lust of a man who NEEDS to fuck you now.. to the point where she has no choice... she's going to get fucked.

red-sfpplus • 2 points • 4 January, 2018 05:39 PM

I want her to stay horny all day

LMFAO. Not thinking about you she will not be.

Finger fucking her phone on FB, IG and everything else will make her wetter than your demands and beta bullshit.

She will come home either stoked to be married to someone she loves and who isn't a fuckup, or hating men in general.

Hating men in general. She married to another fuck up.

Happy hunting

I do not think you understand what this means.

mountainbiker178 • 1 point • 4 January, 2018 02:51 PM*

Ok. How did she respond after you said that? Also, what kind of sex could she be imagining will happen tonight? In other words, do you (honestly) fuck her good? Do you fuck her like it's your last time? Have you read the Sex God Method???

Senor_Martillo • 5 points • 4 January, 2018 03:16 PM

She was non-committal. Sex God method is up next, you're the second guy to mention it in this thread.
