You could check the phone records around that time to see if she was calling a strange number.

Gawernator • 3 points • 7 January, 2017 04:55 AM

More likely texting these days

InChargeMan • 1 point • 7 January, 2017 08:20 PM

Yeah, but phone records don't track texting. Of course there are a million ways to spy, but then it starts to become a chore/obsession.

Gawernator • 1 point • 7 January, 2017 09:09 PM

In OP's scenario where infidelity is highly likely, it's worth his time to figure out the truth

InChargeMan • 1 point • 8 January, 2017 02:34 AM

Agreed.

DonaldBaelish • 8 points • 6 January, 2017 05:25 PM

she switched from Android to iPhone

Thats when you know that you should prepare the divorce papers.

All jokes aside , **Trust but Verify**.

BluepillProfessor • 9 points • 7 January, 2017 12:12 AM

Before I read the comment, let me say fuck you for the question because I immediately thought: "Jerk off to them?"

Deleted them

Damn it, what a dick.

She took them when I was out of town with 2 of our kids. Maybe her intention was to send them to me

I really think this is innocent. She was bored and her entertainment was not around. Clearly Chad wasn't around.

You should have refused to delete them and told her how awesome she looks. You are immediately thinking "cheating." She is probably thinking "slut shaming." BAD move IMHO.

weakandsensitive • 3 points • 7 January, 2017 05:58 PM

She is probably thinking "slut shaming."

bingo. most likely why she didn't send them in the first place.

if nude photos are "out of character", as in OP would judge the wife for taking them, i'd doubt she'd be open to broaching any type of racy subject with OP, much less indulge.

a more important question is whether OP would be capable of receive nudes now without getting judgemental.

[deleted] • 10 points • 7 January, 2017 04:18 AM

"It was completely out of character."

All I need to hear. She's looking to cheat on you or already has.

[deleted] • 2 points • 7 January, 2017 04:38 AM

Explain

[deleted] • 7 points • 7 January, 2017 08:22 AM

He means trust your spider sense Peter Parker. You did not post in here because you believed her lies.

[deleted] • 2 points • 8 January, 2017 04:58 AM

You said it's out of character for her to take nudes. The fact she didn't even send you them is a huge red flag. You can believe she decided to delete them if you want, but keep your eyes open from now on. You know her better than anyone, so trust your instincts when you feel something isn't right.

[deleted] • 0 points • 8 January, 2017 05:07 AM

Perfectly stated. That's the goal, eyes are wide open at the moment

plein_old • 5 points • 6 January, 2017 03:50 PM

So is she holding the camera up with her hand?

Or is she posing for a photographer and smiling meaningfully into the camera?

If she took them herself, and told you about her intention to do that, then I don't see how this is some kind of huge problem. You might have other problem in your relationship, but these aren't them.

[deleted] • 7 points • 6 January, 2017 04:16 PM

Is she holding the camera

This is a really great (and hilarious) question.

[deleted] • 4 points • 6 January, 2017 03:56 PM

She's holding the camera

sh0ckley • 2 points • 6 January, 2017 08:44 PM

That's your answer. This is the question I would have.

TheRedThrowAwayPill • 2 points • 7 January, 2017 10:53 AM

You kidding? They're both bad.

Her nudes are now digitized and she can immediately send them anywhere in 3 seconds.

That's really really bad. This is not even a question.

[deleted] • 8 points • 7 January, 2017 05:34 AM

Dear Oh dear, you may as well have posted this in relationships or twocromosomes based on the terrible advice you are getting. You already know the truth, it is eating you up and that is why you posted. Those pictures were snapchatted to Chad. It is time to start hiding money and planning your exit strategy. PM me if you want some proper advice.

https://www.reddit.com/r/TheRedPill/comments/5mi9h1/guy_finds_out_wife_took_nude_photos_while_he_was/

Your story was cross posted to TRP. Go read the comments there. My favorite:

Very simple.....

If you're blue pill, they were for him and she just didn't like the way they looked, so she deleted them.

Typical female lies.

If you're red pill, you realize the truth.....hubby was away at work, so it was time to "play" with Chad and send him some hot naked pictures, and then delete them so hubby has no clue.

Deep down, he knows the truth, but he just doesn't want to believe it.

He'll question her, she'll pull the typical manipulative female bullshit of "What? You don't trust me!?"

You're just being insecure," and turn it back around on him. He won't want his life shattered, therefore he'll put himself immediately back into REM sleep, and say "Yea, she is my wife. I need to trust her."

The end.

Do yourself a favor and read those comments for some very harsh, unvarnished truth. Deep down you know something is wrong. Trust your gut.

[deleted] • points • 6 January, 2017 02:27 PM **[recovered]**

Context.

Were you the kind of man who would get nude jill-off photos back then?

Anything raising a red flag in hindsight?

This is either a good try at being awesome, or a shitty attempt at being discreet, context is everything

[deleted] • 3 points • 6 January, 2017 02:38 PM

no red flags.

I'm going with 'This is either a good try at being awesome' and moving on.

thanks man.

[deleted] • 6 points • 6 January, 2017 11:45 PM*

Either she took them herself and sent to someone else or someone took them for her then fucked her with the courage you never had. EVERY GIRL is a raging slut for the right man

We know what really happened here. Women don't delete nudes because "they didn't like them". They send them to guys they want to turn on. I get these photos and so do my asshole buddies. We show each other all the time. I can see the married ones getting caught just like this and spinning a fable. Then laughing about how he bought it.

https://www.reddit.com/r/TheRedPill/comments/3qi7qp/you_wont_know_when_she_cheats/

Its also not out of *her* character. Its out of character with the imaginary good girl you think you married.

I realize this sounds harsh but this is the exact wake up call you need right now.

I've been in your shoes and can help. PM me if you want

BluepillProfessor • 2 points • 7 January, 2017 04:44 AM

I was going to comment in one of the guys above who said this same thing, that experience is a powerful

projector, but didn't think I needed to be a dick. Now you prove my point. It is a great, thought provoking link though.

Not yours, just your turn, etc.

Gawernator • 2 points • 7 January, 2017 04:58 AM

It's pretty depressing that this comment was downvoted. This is textbook trickle truth OP

man_in_the_world • 2 points • 6 January, 2017 02:28 PM

Enjoy them!

NrthnMonkey • 2 points • 6 January, 2017 05:00 PM

The fact she told you at the time that she had tried to take nudes but didn't like them seems to suggest she is telling the truth. It is an easy mistake to have pics sync to the cloud without knowing.

[deleted] • 3 points • 6 January, 2017 02:01 PM*

Tell her ~~you found them~~ and they were hot as fuck and you wish you didn't delete them. Give detailed positive-only feedback.

nopeToThe43rd • 2 points • 6 January, 2017 02:04 PM

They discovered them together.

[deleted] • 0 points • 6 January, 2017 02:09 PM

I didn't read it that way but fine. ;)

nopeToThe43rd • 1 point • 6 January, 2017 02:40 PM

Sure, I'm not here to be a semantic pedant.

iloveairplane • 1 point • 8 January, 2017 06:35 PM

I think that would seem beta / creepy if in fact she has never gave him photos before and didn't this time around. Maybe playing it down instead of playing it up would be best?

[deleted] • 1 point • 8 January, 2017 07:03 PM

Depends on: why you think a wife who doesn't send sexys took them for him... but didn't send them. The goal is: she sends them next time.

Definitely don't beg or be needy.

[deleted] • 1 point • 6 January, 2017 02:05 PM

she was with me when I discovered them. She knows I think they're hot.

[deleted] • 1 point • 6 January, 2017 02:11 PM

If you want more, get your need to find a reason to punish her out of your head.

BluepillProfessor • 3 points • 7 January, 2017 12:17 AM

You usually put the bluepill in professor but I agree this is just slut shaming. She was trying to be naughty and the Saint shut her down.

[deleted] • 1 point • 7 January, 2017 12:20 AM

Be direct. Just tell her you want more. Extra points if she blushes.

[deleted] • 1 point • 7 January, 2017 07:20 AM

I can't find where the guy said he is looking for a reason to punish her. Are we calling any suspicion of infidelity slut shaming now?

[deleted] • 1 point • 7 January, 2017 01:24 PM

I can't find where where I called anything slut shaming.

470_2_700_nm • 3 points • 6 January, 2017 02:40 PM

Does it bother you that much? If you are anything but confident, go ahead and verify. However this kind of thing can become consuming.

Leave for the weekend and rent a gps logger if you are freaked out.

My experience is, if she is fucking your hard and enthusiastically, you should be good. Although I read that this ain't always the case.

Just don't be consumed by it your wife isn't that special. She's just a hoe like the rest of them.

sven_igortsen • points • 6 January, 2017 09:05 PM **[recovered]**

Install a keylogger on her phone, tablet and if you have a home pc ... log her passwords and verify this way.

[deleted] • 1 point • 6 January, 2017 10:50 PM

Beta.com.

HitEmWiththeHein • points • 7 January, 2017 02:31 AM **[recovered]**

Yea, taking steps to not get cucked is soooooo beta. There's ignorance and there's deliberate ignorance. You chose the latter because of your pride. Lose that pride.

[deleted] • 0 points • 7 January, 2017 02:40 AM

Keylogging over finding nudes she already told him about is INECURE AS FUCK.

[deleted] • 2 points • 7 January, 2017 02:49 AM

Who the fuck listens to women?

[deleted] • 0 points • 7 January, 2017 02:53 AM

Never mind. Keylog away. Tingle tingle.

[deleted] • 0 points • 7 January, 2017 06:22 PM

Yeah. What most people fail to realize is that they want you to play the game on a more relaxed level, to win it themselves. So i'm all for giving that loving chilling aura when possible, and to use it as a way to even the scales. Because if you are a little beta (it depends on how to show it i guess) on the surface but under it you have alpha thought they have nothing on you. Put their game right in their face and laugh when they find out is my style of choice.

Anyway, some guys forget it is a facade right like that of women and something to embrace fully. To be a good loving boy is good for the soul, so is throwing away a

disrespectful woman or verifying first hand your circumstances.

One of the problems i see most nowadays is that we have this good/bad morality that is pandering to women. Good/bad mentality is ok, you just have to redefine both terms.

I'm not going to hate myself or consider me a bad person for coming first and deceiving the deceivers. None should.

They want us to play below their level, smile and shit on her head with your grin.

Show them how much can an insecure person be relaxed and sure about what is to do.

They will throw you away as soon as you are useless to them, so be sure that she is still good for you or let her ass depart with a laugh.

weakandsensitive • 2 points • 7 January, 2017 06:01 PM*

i agree with you. this entire thread screams insecure beta - especially since she told him at the time she took them that she took them. it'd be different if it were a surprise, but i'm not surprised TRP jumps to being classic TRP beta. i'm not surprised by the roundabout way of getting more and more socially autistics tbh - like some wife is going to go out of her way to come up with some stupid convoluted plot and then cleverly cover it up for 10+ months without a problem.

simplest explanation is she's tech dumb and didn't realize google photos sync. i have no idea why you're logging passwords when she's that tech dumb. i have no idea why you wouldn't already have access to passwords.

HitEmWiththeHein • points • 7 January, 2017 02:47 AM [recovered]

Who cares if it's insecure? The only person to know would be him. Trust but verify. A lot of men are insecure. If you're one of those and can't even admit that to yourself then you're fucked. Better to clear her and move on then stew over it and fuck up your progress. Fake it until you make it. Better for OP to not pretend because clearly it's a problem if he had to post about it.

[deleted] • 3 points • 7 January, 2017 02:50 AM

You have every right to protect your family and finances

[deleted] • 1 point • 7 January, 2017 06:26 PM

Remember, everything that isn't good for them is insecure and a mistake of nature. Our job is to fix it for them.

Nah. Embrace nature fully and smile. That's the most powerful thing you can do as a male imo.

[deleted] • -2 points • 7 January, 2017 02:54 AM

Violating my SO's privacy is not okay with me.

mensafloyd • 5 points • 8 January, 2017 02:12 AM

But violating an SO's trust is being totally third wave sex positive. Gotcha. So Slut Shaming now substitutes infidelity and insecurity substitutes attestable skepticism. What a lovely post-modern progressive play with semantics. Why so much anger deadsandsushi? Or better yet, when's the last time your father told you he loved you?

Gawernator • 1 point • 7 January, 2017 08:31 AM

BobbyPeru • 1 point • 6 January, 2017 04:51 PM

Trust but verify I is a good method. But, do beware that it can become consuming and the danger is you can become obsessed. Once you become obsessed, it starts to break down your frame. So, if you want to trust but verify, do it, but don't stay on it too long. I liked the suggestion someone made about checking phone records at around that time as a method of trusting but verifying.

[deleted] • 5 points • 6 January, 2017 05:34 PM

Just checked the statements

HitEmWiththeHein • points • 7 January, 2017 02:29 AM **[recovered]**

Just know that if your wife uses an iphone that her iMessages aren't going to show up on your phone records.

[deleted] • 1 point • 7 January, 2017 05:38 AM

Thank god there is some people in here with some common sense. Snapchat, LINE, whatsapp, Skype are real things durrerr. She can use then delete. Women are natural deceivers.

Wifi internet won't show up on phone statement.

[deleted] • 1 point • 7 January, 2017 05:06 PM*

check phone statements and credit card statements too.

I use sideline that has no phone record and a separate number so not finding anything means little

iloveairplane • 1 point • 8 January, 2017 06:23 PM*

edit - wait, you say she TOLD you that she was taking sexy pictures of herself a long while back and this was just confirmation of her taking said photos? You mean you were not surprised to find these photos because you knew about her taking them in the first place - it wasn't just DEERed when you found out about said photos?

[deleted] • 1 point • 8 January, 2017 10:39 PM

Can you ask again, your question doesn't make a lot of sense

hobohunter24 • 1 point • 7 January, 2017 06:01 AM

Has she ever sent you nudes before? If not...well, we all know what's up.

All_Ads_Deceive • 0 points • 7 January, 2017 03:57 AM

Did she tell you about the nudes in February or after you saw them?

[deleted] • 0 points • 7 January, 2017 04:02 AM

In February

All_Ads_Deceive • 2 points • 7 January, 2017 09:55 AM

Your wife wouldn't naturally be embarrassed by her husband seeing her nude. That makes no sense. You're mistaking fear for embarrassment. She got worried when you saw them because she was almost busted. When you believed her, she said "phew close call". Phone records will not disprove what happened. There are way better ways to send nudes

It's also not a coincidence this occurred while she was home alone. I've hooked up with girls who are the perfect loyal girlfriends. As soon as her mans out of town she acts likes she's single again. They'll fuck me all weekend and then run into me with her bf like nothing happened

bsutansalt • 0 points • 7 January, 2017 07:52 AM

Trust, but verify.

I'd give her the benefit of the doubt that she was doing like you discussed (trying to take sexy pics), but also look at those phone logs from around that time just to be certain. And that doesn't account for possible snapchat, facebook messenger, and who knows what else she might use to send them to someone else these days. Do your due dilligence and thoroughly check her phone.

Check out this thread op. The guys on the red pill disagree with me and several, others. The op over there is definitely worth considering. Time to trust but verify.

[deleted] • 2 points • 7 January, 2017 04:44 PM*

I remember her mentioning that she tried taking provocative nudes but didn't like them and deleted them from her phone.

Doesn't sound like gaslighting or hiding anything to me. Occam's + Hanlon's razors

Unless there's something else putting things into a "fool me twice" situation, it's not worth losing sleep.

AmputateYourHead • 0 points • 8 January, 2017 07:02 AM

If she's up to no good, Until you've got solid evidence, don't let on that you have any suspicions. Telling liars which parts of the story sound like bullshit just makes them better liars.
