

## off my chest, need advice please

I really need to open up to what happened. My wife and I are the only people who know. I need to get this off my chest.

My wife and I got married 9/12/15. It was supposed to be the happiest night of my life. I am marrying my woman of my dreams. The one I've been with since 11/27/05. We have been through high school , college, and 2 rounds of long distance together.

So why is it that I catch her cheating on me 2 weeks after the wedding?

It wasn't like I saw emails or texts. I fell asleep on the couch because I was getting over the flu and woke up randomly in the middle the night.

She had invited her Co worker over to our place earlier and we had drank some wine. I barley drank because I was getting over the flu and when I wake up they are both gone.

I look around the corner towards the stairs of our apartment and I see her and him making out. I was frozen. I could not move. He got on his knees and she helped him take her shorts off. I yelled and they freaked out.

My wife tried to apologize and he crawled on all fours into the bathroom. I made him leave before I did something I would regret and me and my wife just sat in silence.

I don't know what to do. Everything has gone downhill ever since.

I dont trust her. She couldnt even put a door between us when she did that.

There's a lot more but I don't know if I'm being coherent enough to explain it.

I'm contemplating divorce.

Any advice or thoughts?

I am marrying my woman of my dreams.

You need better dreams.

[deleted] • 1 point • 19 July, 2016 12:46 AM

I'm usually fucking people in my dreams not marrying them.

[deleted] • 15 points • 18 July, 2016 09:46 PM

*Two weeks* after the wedding? Why are you still with this woman?

Stop contemplating and act.

No kids, barely married, etc... pretty clear case: lawyer up, hit the gym, read the sidebar.

My family has said the same exact thing. I am feel lost without her and I didn't expect anything like this

GC0W30 • 3 points • 19 July, 2016 12:45 AM

This sucks, but the truth is that any man who can't be happy alone will never make a woman happy.

The moment you need her, the moment she loses respect for you and starts this or some other heinous shit.

Leave her and do not have an LTR until you are able to be happy alone.

Great comments above. OP you should abide by the post

*Why* are you with this woman?

*Why* are you posting today?

She seems remoresful. When it happened we talked and cried and she threw up she felt so awful.

Thing is we haven't been intimate in months. Our love life faded away as she seems repulsed by me. Yet if I talk about it then it ends in tears and apologies from her and things go back to this awful status quo

sexyshoulderdevil • 10 points • 18 July, 2016 11:19 PM

She seems remorseful because she got caught.

She threw up because she got caught.

She got caught. And now she looks bad. And that perception of herself makes her feel sick...literally.

Question is if she was so brazen with her cheating to do it right around the corner from you, how many times has she cheated before successfully to give her the comfort to think she could get away with it now so carelessly? My bet...a lot.

Divorce her. She's dumb. She's a liar. She shouldn't be anyone's mother.

bogeyd6 • 3 points • 19 July, 2016 02:45 PM

You called it right on the money. He bought her act lock stock and barrel.

[deleted] • 3 points • 18 July, 2016 11:34 PM

Of course she's repulsed, you have a complete lack of self-respect. You have no spine. People are not sexually attracted to punching bags.

Your wife needs to be punished. You care too much about her feelings to even make her grovel and beg.

mabden • 3 points • 19 July, 2016 02:59 AM

Don't confuse regret with remorse. Check out the Chump Lady - Real vs. Imitation Remorse.

However, 2 weeks into the marriage and she is going to fuck her co-worker? Bet that she was /has been fucking this guy a lot longer than you know.

Get a lawyer, get out of this sham marriage, get moving towards a better, happier life.

[deleted] • 13 points • 18 July, 2016 10:08 PM

troll. Tells:

- 1) This was posted as of this comment, 23 minutes ago on a 27-minute old reddit account.
- 2) This guy's been married about 8 months; signs up for reddit so he can tell us about something that happened 7 1/2 months ago. It's been eating at him ever since, apparently.
- 3) She invites a male coworker to their apartment so the three of them can drink together.
- 4) He is sick; falls asleep with wife and coworker still in the apartment.
- 5) She starts moving toward fucking another guy in their apartment with husband sick and sleeping in their bedroom.

I don't know a single married woman who is this dumb. A married woman who wants to have an affair is smart enough to at least go over to HIS place or get a hotel.

I call bullshit.

[deleted] • 2 points • 18 July, 2016 10:20 PM

The newness of the account combined with the absence of a precipitating cause is the key. Also the specificity of the dates.

Trolls can make good exercise/practice if you don't get distracted IMHO.

A\_Rex • 2 points • 19 July, 2016 01:05 PM

Good catch. The whole "male coworker came over to drink and she cheats on the guy basically right in front of him" thing is absurd. #thathappened.

[deleted] • 1 point • 18 July, 2016 11:51 PM

I call bullshit.

If it isn't bullshit, then he is brain dead on arrival to play house with her.

Livecrazyjoe • 1 point • 19 July, 2016 03:12 AM

Yeah number 3 is the big stinker here.

The\_Litz • 1 point • 20 July, 2016 12:02 PM

Fully agree on a troll, BUT, weirder shit has happened.

My previous boss walked in on his buddy in the *kitchen* banging another friend's wife while everyone was outside around the bbq.....

[deleted] • 7 points • 18 July, 2016 09:49 PM\*

She was messing around with you in the house, only two weeks into the marriage. Was she hoping for a threesome?

Addendum:

We had a dude in askMRP this week with a bipolar wife. Barring something like that, she's not marriage material. Some people aren't cut out for monogamy. That being said, I'm absolutely certain that you're a fuckup, but you haven't provided any details about yourself.

Are you lifting and reading the sidebar books? NMMNG and WISNIFG would be a good start.

Use her to practice your new red pill skills as you quietly plan for divorce.

Make sure birth control is in order.

Alpha\_Rising • 5 points • 18 July, 2016 09:53 PM

You need to divorce her immediately. She cheats on you two weeks after your wedding? You will not be able to trust her for as long as you are married, and that will drive you crazy. Spare yourself the torture and end this bad marriage before you waste any more time in it.

[deleted] • 2 points • 19 July, 2016 12:12 AM

Assuming you aren't a troll, you need to work on yourself before anything will get better. Dumping her isn't necessarily the answer to make yourself happy. Having kids with a wayward wife who will make your life a living hell is a sure way to be miserable

[deleted] • 1 point • 19 July, 2016 03:32 AM

Again, if you are not a troll, this is the absolute truth. Run like a bunny.

IASGame • 2 points • 19 July, 2016 09:23 AM

I'm thinking this is fake. He says his wife and him are the only ones who know. Then there is a co worker involved (which also knows) and in the replies he mentions the family told him the same advice.

[deleted] • 2 points • 19 July, 2016 12:32 PM

I'm contemplating divorce.

Let me know when/where you find some self respect, then I'll engage further. Until then, you're officially a cuck.

[deleted] • 1 point • 18 July, 2016 10:08 PM

"Everything has gone downhill ever since."

How could it get any worse? There's probably nothing she could do to persuade me not to divorce, but this sounds like she isn't even trying.

shemakesmecrazy[S] • 0 points • 18 July, 2016 10:37 PM

She swears nothing ever happened with the guy, I'm suspicious and when I asked her to do a poly she freaked out. She is trying to claim a case of temporary insanity and promises it won't ever happen again

[deleted] • 2 points • 18 July, 2016 11:33 PM

Lol

GC0W30 • 2 points • 19 July, 2016 01:30 AM

Do a poly?

Oh, no, she didn't refuse... your ass is doing polyamory right now, even though you don't want to.

bogeyd6 • 1 point • 19 July, 2016 02:47 PM

Sensible Chuckle

dandar4600 • 1 point • 19 July, 2016 02:17 PM

She is lying because she is repulsed by the thought of having sex with you. Yet she still wants to have sex (just not with you.) The only reason she married you was because of stability and friendship, but she doesn't want to have sex with you because you're a doormat and a "nice guy." Even if you leave, you will be faced with the same issue in your next relationship.

Read the sidebar, rediscover your masculinity, learn outcome independence and get an ability to live without her. Once you have all that, then you will be better prepared to divorce her. Frankly once you caught her red handed and stayed with her, no matter what you do it will be hard for you to earn her respect back. That was an ultimate doormat behavior, you may as well have tattooed cuck on your forehead. You have to divorce her but until you've read the sidebar you will be ill prepared to strike out on your own.

screechhater • 1 point • 18 July, 2016 10:09 PM

**next** and don't let her pull you in any further

WhiteTrashKiller • 1 point • 19 July, 2016 01:39 AM

In before the lock!

Troll.....

If not, you should move back with mom.....

You're not ready

I dont trust her.

All you need to know about her. And the last thing you need to know about her.

People are here bemoaning good situations that turned shitty... and you're starting off with a shit sandwich and wanting someone to tell you how to make it palatable?

NEXT WITH EXTREME PREJUDICE.

CUT OFF ALL CONTACT.

Plate girls until you find one you want to settle down with if that's your goal.
