

## So happy I found this.

I haven't read back far enough to see if there were other posts like this, so I'll try not to ramble in case its disallowed...

I stumbled across MRP when trying to figure out a petty argument with my wife late last week. A weekend of sidebar and post reading and WOW. So much of this stuff just makes total sense. In hindsight my wife laps up alpha behaviours from me and I vaguely recall at some point she even overtly asked me to be more dominant (generally, not specifically bedroom).

What prompted me to post is that stumbling here all petulent and 'butthurt' after that stupid argument has lead to the realisation that I have been somewhere between drunk captain and rolling on the floor in his own puke, pissing his pants, shitfaced captain.

Thats not literal by the way, I'm just a lazy fat fuck with a shit job. I've been exceptionally lucky to bag a fucking amazing first mate (first loves, reconnected while still in teens and been together 17 years since) so I'm at the start of a long road to get my shit together, but feel I caught myself in time to avoid the turn into shit creek.

Whether I stick and go the whole way with redpill or not, these few days of reading and reflection have been enough to switch my mindset so I'm shifting from idling along toward death to grabbing life by her ponytail and fucking the shit out of her.

My heartfelt thanks to all who created and contribute to this sub. Thats all from me for now, I'm off to dust off those barbells after 15 years and work on shifting my bingo wings!

Congrats and good luck. Make sure you read up on passing shit tests because you're going to start getting a lot more of them.

This post has been made many times.

Regardless, welcome brother. We are happy every time a man becomes enlightened.

Congrats! What have you read in the past week? It's a long road, but a very fulfilling one.

Hamster is strong with this one.

You grab the unicorn by the horn, not ponytail.

I wanted to dismiss, but you did make me consider further. So, to clarify for anyone reading (read as: not justifying myself)...

I don't claim that my mrs breaks the mold or anything, just that she's a damn good wife and mother. My 'epiphany' has been that I've been letting myself down more than anything. I've been 'coasting' in a contented bubble and realised that pushing myself to do better will primarily benefit me, and set an even better example to my kids. That she might be happier and possibly give me more of the filthy slutty sex I like is a bonus I won't complain about.

There is no best time to join rp other than as soon as possible. I resonate fairly well with your circumstance. Our bedroom has gone from very good to mind blowingly crazy. If all goes to plan for you

too then yes, you will unleash your own personal slut from within your wife as a bonus. All the best.
