An eye-opening moment for men. She made him pay full price (waiting and all) for the same thing she gave out free to random strangers on her trip abroad.

Sidenote: Every time a woman wants to take a road trip or travel abroad with her girlfriend(s), it's for strange dick. Especially if it's for spring break.

If she's a plate? Just make sure you wrap it up and keep on plowing.

If it's a LTR, well shame on you for not properly vetting, but silent-downgrade to plate is in order.

```
sudo gf-admin downgrade --level=plate --quiet --yes --force > /dev/null

Can anyone link me to a resource for properly vetting ltr?

ImHerWonderland • 2 points • 9 February, 2019 07:27 PM

Read the sidebar and read top posts of all time, your answer is there.

pm_me_tangibles • 40 points • 7 February, 2019 10:44 PM*

Sometimes, i just call them on it with a lighthearted idgaf attitude. usually it works out well and they open up after the initial mock shock. some even respect me for not buying their bs but not judging them on it either.

could be a risky move, but who cares either way?

Yeah just gotta accept it. It's in their biological nature. They don't/can't play by the same rules as men do so they have to resort to other methods. It is what it is

pm_me_tangibles • 3 points • 8 February, 2019 09:40 PM

I don't care about the count itself but the act of lying.

Exactly. They should know that - when with a red pill guy - there's no point lying. We ain't gonna judge them and their slutty ways are not hidden like when they're with blue pill guys. So LTR would never be an option.

But I guess hope reigns supreme and they hope they can still reign in a RP guy by maintaining the lie.

Bless them.

How can you like someone like that?

Take from each person what they can give, and either forgive them their failures, or move on. If she's got a tight puss, nice rack and gives good head - who cares that she needs to lie to maintain her belief that her life is worth living?

Bless her. Just don't take her seriously, but I'm sure you already know that.

noct3rn4l • 17 points • 7 February, 2019 11:54 PM

Agreed. I usually go with the idgaf playful mock when they hit me with some low ass bodycount. Like bih, id rather you be offended by my opinion than you think im dumb enough to believe that shit.

pm_me_tangibles • 3 points • 8 February, 2019 09:33 PM

my view is who cares as long as they put out and are pleasant enough in between the blatant lies.

PM_Happy_Puppy_Pics • 15 points • 8 February, 2019 08:02 AM

If a girl volunteers a number multiply it by 3.

Gr0o0vy • 18 points • 8 February, 2019 09:04 AM

2 or more visible tattoos or piercings by 5 (or depending on the piercing locations by 10) but once you see that it is pretty clear who are you dealing with

Zech4riah • 6 points • 8 February, 2019 11:00 AM

Your more specific multipliers can be sadly close to the truth... :E

sorry_mommy • 1 point • 8 February, 2019 04:28 PM

A girl who is that open with her sexuality generally won't lie about her N count - she either won't volunteer it, or will tell you she can't remember/can't count that high. For this type of chick who is open and unashamed about her sexual nature, just wear a condom.

sorry_mommy • 3 points • 8 February, 2019 04:26 PM

Simple TRP rule of thumb is: always take her N count and multiply by 3. If she says she's a virgin

just add 3.

AllThatJack • 34 points • 8 February, 2019 12:35 AM

Agreed and I have to say there's a ton of truth on this site. I'd enjoyed it immensely. Also, as an old school guy (53) who's learned a few realities on my own over the years (experience is golden) whenever this subject comes up with women, the worst thing a man can do is put her ON THE PEDESTAL. Now, by fawning over her you virtually created the LIE. I've learned early on how to get a woman to TALK OPENLY IN BED and admit right out of the gate reality. SHE IS A SEXUAL CREATURE LIKE YOU. Truly even women in my age group will spew bullshit if you allow it. I just bust out laughing and kill the conversation immediately with, "I'm sure you've been just as much of a whore as me for many of the same reasons and a few different ones, no need to bullshit me, I personally stopped counting long ago. If you want their sexuality, then take it, twosomes, threesomes, and whatever fucked up shit you can imagine. I've brought it up, laughed and admitted my foibles immediately, why? Why the hell not. I'm a grown ass man I aint playing that fucking game.

Anyway, I find that attitude works well every damn time.

I just don't agree with this whole fucking conversation. Get her in bed, satisfy her, and start digging if you want her history. If you allow her comfort enough to spew she will. If it's fun, and your looking to dig into what fetishes she likes, what floats her boat, etc... then go for it but be man enough to know you ain't fucking Magellan or Marco Polo because in today's world, SHE'S HAD DICK.

Whole subject pissing me off. She made him pay the price because he didn't FUCK HER ON THE FIRST DATE and HE LIKED HER.

It's a crazy nutty ass world we live in. If ya gonna play the game play it well or just don't.

dulkemaru51 • 20 points • 8 February, 2019 05:30 AM

know you ain't fucking Magellan

If only Columbus had known that his "virgin" America had shiploads of Viking raiders before him. I'd rather know than die like him -- blue.

Zech4riah • 10 points • 8 February, 2019 10:38 AM

And especially when they travel abroad alone. It's a dead giveaway - even more than with their girlfriend(s).

Usually they verbalize it like "Yeah, it's so nice to just go on your own schedule and meet new people". Translation: "I can hop on any dick I want and when I want without nobody knowing it back home".

Stron2g • 2 points • 8 February, 2019 01:45 PM

The cock carousel in its purest form LOL

omega_dawg93 • 20 points • 8 February, 2019 12:41 AM

she wasn't lying... bc context is important.

3 guys... meaning today, this week, or this month?

frame the question correctly. lmao

bjem5891 • 104 points • 7 February, 2019 10:59 PM

If a girl you're considering a LTR with has gone across Asia or Europe to "find herself", what it really means is

she went looking to find exotic or fellow tourist dick. Major red flag.

dingleburry_joe • 29 points • 8 February, 2019 04:58 AM

For real I cringe when guys tell me their girlfriends when on the trip to some place with their hoes they call "friends."

DntPnicIGotThis • 45 points • 8 February, 2019 07:36 AM

so my ex-gf really really wanted to on a trip to New Orleans with her two best friends. One day I got a random phone call from her while she was on her way to work, but it turns out she just butt dialed me somehow adding me to her group conversation . I stayed on the line and long story short she started to talk about how when they got down to NO how she planned to cheat and how they all should get fucked down because it's not like they'd ever see any of those guys again.

Although I completely swallowed the pill, I can't lie it was heartbreaking none the less. But it got worse. So I break up with her and start to clear her stuff off my computer and I get into her Google photos. Lo and behold she was fucking down her ex and taking pictures/videos of it.

I crossed checked the days with our text messages and discovered patterns. The most obvious of which were that she was banging old dude on days when she was seemingly pissed with me for no reason or when I was out of town for extended periods of time.

If you don't accept anything the red pill teaches, accept that all women are like that and know that if your little snowflake is pretty, she's probably still going around the block.

jonpe87 • 24 points • 8 February, 2019 11:47 AM

You should make a post about this history, pretty sure you have a lot of information to share

awalt_cupcake • 8 points • 9 February, 2019 05:23 AM

I second this. These patterns are very important.

ChrimsonChin988 • 3 points • 9 February, 2019 03:43 PM

Regarding the 'patterns/signs'; Probably more like she was angry with herself for cheating and the guilt feelings that come with it... Then she makes up silly reason to be angry with you so it justifies the cheating. Classic defense mechanism.

I do agree with comments below that it could be informative to make a short post about this if you want to...

magx01 • 3 points • 9 February, 2019 10:50 PM

the guilt feelings

Oh, you haven't been here long enough I see.

[deleted] • 88 points • 7 February, 2019 11:23 PM

Women truly believe that having sex with a dude doesn't count as sex. They actually and fully convince themselves of this.

Never believe what she says.

Whisper • 166 points • 8 February, 2019 12:25 AM

Any man who is in the know would have expected this the moment he learned about the trip.

There are girls who don't fuck every Juan, Franz, and János they encounter... but those girls don't go on backpacking trips through Europe.

If she travels for pleasure (not business) without her parents, husband, or boyfriend, she will ride strange dick. Period.

There is a reason Victorians considered it scandalous for a woman to travel alone... and it's not just because they were prudes. They understood what really happens.

BoobyLover69420 • 25 points • 8 February, 2019 06:39 AM

ahhh man, my girlfriend is going to Europe for like 10 days at the beginning of March. I didn't really give AF since I have a fuckton of assignments due that month, and this semester really counts since I'll be applying to law school next year...

you saying I should break up with her? I know she's going to be in like Amsterdam with her brother for a few days, then she's going to Paris alone for 5 days.

I really wasn't thinking much of it before, but now I'm like, fuck, what do I do? We've been together 2 years as of March as well, think I should just break up with her? The problem is she has a very nice ass and likes girls, so the sex is awesome and since I work 5 days a week as well as go to school full time, I literally have no time to troll tinder/pof/bumble/hinge since I don't finish work till 2 am usually (I work at a sports bar in the suburbs, so very rarely any hot single chicks come in).

ahhh fuck I knew there was a reason I stayed away from this sub for a while.... and I also knew there was a reason I came back to it. I like to think she won't cheat on me, but she's alone in Paris for 5 days...

Whisper • 17 points • 8 February, 2019 07:13 PM

The problem is she has a very nice ass and likes girls, so the sex is awesome

This is a bad reason to promote to LTR.

When you promote a girl to lock down a steady source of good sex, you are acting and making decisions based on scarcity mentality. Your best course of action is to behave as if you can get a girl for sex anytime you want one... *regardless of whether or not this is true.*

I did not promote FunSize to the point where she is actually *living in my house* because she is good at sucking cock. I did so because she is always well-behaved and obedient, whatever I do is more fun with her along than with her absent, and whenever I have a problem, she is sometimes part of the solution, but never part of the problem.

This girl might or might not cheat on you, but your problem is bigger. A girl who is *just* good at sex, is a sex girl. To be a relationship girl, a girl has to make you *want* the relationship bits. She has to enhance your life. Otherwise, you are giving away your value too cheaply.

Just as girls are not vending machines into which you insert attention coins until sex falls out, you are not a slot machine where girls pull the sex handle until they win the relationship prize. You have to get sex by making girls want sex, and girls have to get relationships by making you want one.

What you need to do is read the Bitch Management Hierarchy again... and consider long and hard whether this girl has really earned her way to LTR. Personally, I can't say, because I haven't observed her, but the fact that she would even consider traveling alone when she is in a relationship makes me suspicious. This is not the behaviour of a girl who has found the man she wants to stay with for life, and is "all-in" on trying to make him stay.

A relationship-worthy girl might have a non-zero n-count (the modern world being what it is), but each "1" in that count should have been someone she planned on being the very last "1" she would add. If she

is not striving for this, she's a plate or an FWB at most.

Shtafoo • 78 points • 8 February, 2019 07:06 AM

Chill dude, it's no fucking guarantee she's going to cheat on you. Most people here are damaged, and are blaming their self esteem issues on outside factors like the girls they date. Haunting ghosts by living HER past. Not realizing playing video games all day isn't exactly getting her wet. You are busy, you spend a lot of time improving your life. Sounds like you're on a good path.

Let her go on the trip, give her one last good fuck before she goes and remember she's not yours. Keep that in the back of your head at all times and it'll be alright.

Reading this sub is good for self improvement, but please always question reality yourself. No one knows shit, and in knowing that you might find inner peace some day.

[deleted] • 5 points • 9 February, 2019 10:38 AM

We can't tell you to dump her, but, the combined wisdom is that women on Le Gran Tour go to meet Monsieur Penis.

Amsterdam?? Paris?? Hmmm...let me guess...what churches are in those cities....

[deleted] • 4 points • 10 February, 2019 12:44 AM

Good perspective. Especially the 'shes not yours' component.

Ayrab4Trump • 3 points • 9 February, 2019 09:11 PM

Or you know— maybe she will cheat on him.

Who knows

[deleted] • 2 points • 10 February, 2019 10:54 AM

Amen brother! I remember the dilution and loserification of this sub hit a peak when a post saying "playing video games all day and staying inside is not conducive to moving forward" and there was an avalanche of comments saying "no no, video gaming is alpha, it gives you problem solving skills" "it's redpill to video game you are determined".

Like theres a lot of truths here but always foster independence and realise you need to be realising yourself not just accepting everything, there are a lot of losers here just sitting here enjoying the woman bashing posts but never moving forward. The idea that theres hordes of people defending video gaming for hours on end and "leveling" characters to level 70 repeatedly on world of war craft, something that takes hours, day, weeks, even months of real life hours tells you enough. Just imagine if those hours were spent in the gym or learning a skill...

I really agree with your comment!

TimGuoRen • 20 points • 8 February, 2019 09:33 AM

I am a married man and I have some female friends.

No, they are usually not traveling together to look for sex. The only ones who have a lot of sexual partners while traveling also have a lot of sexual partners at home.

I guarantee you that OP's gf did not just have sex with 3 dudes previous to her trip to Europe. She was in three relationships. This is what she meant. She slept around in the US just as she did in Europe.

A girl who does not sleep around will not magically change behavior because she is in Europe.

aDrunkenWhaler • 19 points • 8 February, 2019 11:17 AM

Whores will be whores, but social backlash is what keeps the rest of the women in check. No social backlash = no reason to act the same way as at home. I've traveled a lot, and enough to never trust a girl that traveled without a boyfriend.

TimGuoRen • 8 points • 8 February, 2019 11:26 AM

It is easy enough to have sex in your home state without social backlash.

aDrunkenWhaler • 3 points • 8 February, 2019 10:02 PM

Nevertheless, there is a risk to it, and many girls will think twice. There is no risk while travelling, at least in their limited minds.

askmrcia • 0 points • 8 February, 2019 01:52 PM

No, they are usually not traveling together to look for sex. The only ones who have a lot of sexual partners while traveling also have a lot of sexual partners at home.

This!!!! You hit the nail on the head and I just commented something similar. You will know which girls sleep around when traveling and you will know which ones don't.

zue3 • 5 points • 8 February, 2019 02:30 PM

Keep telling yourself that. I'm sure the op in the relationship advice sub thought the same till reality slapped him in the face.

askmrcia • 5 points • 8 February, 2019 01:44 PM*

Don't worry too much about it. I've been on study abroad trips with women on two separate occasions.

You had your women that were actively looking to drink, party and whore around and you had your women who literally just went sight seeing was in bed by 10am.

When I went to Europe there was like 4 girls (two which had boyfriends) that truly did stay out of trouble. Honestly when I first met them before the trip, I knew they weren't going to be out partying with us crazy people. They came out with us one night and didn't do anything. The entire trip they were in their rooms by 8pm skyping their boyfriends or talking to family. One of those girls I still talk to till this day and she travels a fuck ton. But I seriously doubt she's sleeping around. It wasn't her Character at all to do so. If you check her ig she don't even post pics of herself but just landmarks of the places she's been too. She was one of the girls who didn't drink, didn't go to bars with us and was in bed very early when she was on the trip with us.

It was the same when I went to Japan for a study abroad trip. None of those girls were partying or sleeping around.

Now the girls that did hookup with guys while we were on our European trip? Yes I could tell right away what they were all about. Point is, if your girlfriend showed absolutely no signs of being a whore or anything, I truly don't think she will sleep with guys in a foreign country while she's on a trip with family.

Like that's just sketchy. You don't have anything to worry about unless you noticed signs before hand. The guy in the story that we are responding too is in a relationship with a whore. She slept around in her own country too, not just abroad.

Dont compare your girlfriend to the one in the story.

tempolaca • 2 points • 8 February, 2019 03:53 PM

I had some female friends through the years, true friends, and they went on trips. Every time they traveled with friends, it was a fuck fest. Every time. But when they traveled alone, they very rarely cheated their boyfriends. Not because they weren't sluts, it's just more hard to do it without friends. Also in business or conference trips they also rarely cheated. Those trips are just too short.

Wood_Warden • 1 point • 8 February, 2019 11:08 AM

Just as an aside, sounds like you work/study a lot - maybe she hasn't been given enough "attention" and might be seeking it out some where far far away.

PM_ME_NUDES_PLEEZ • 1 point • 9 February, 2019 04:58 AM*

I would never let my girl friend go on any vacation that her parents or myself weren't with her. If you don't wanna break up, tell her to call you every night and facetime when she's in Europe. She could still be fucking during the day, but day sex is rarer, or right before she facetime's but it's better than nothing.

Verne42 • 2 points • 8 February, 2019 11:49 AM

Downgrade her from gf to plate, start spinning more plates, cut the ties with her family/don't spend time with them, and make her fight for her time with you If you want to find a loyal gf go to a church, a library, or some place totally distanced from the hedonistic nature of the humankind

[deleted] • 2 points • 10 February, 2019 12:44 AM

Idk I've backpacked abroad and yes MOST women in their 20s are 'finding themselves' and any strange dick they can see. But man there are some weirdo girls that are hardcore into the backpacking scene.

But yep. Overall as a rule of thumb if you are dating someone and they go on a trip then you should be included in the invite. If you are dating someone for a year and her and her girl friends are going to europe for two weeks then just end it. Im not anti dating, but if you really like someone then abroad is something you would want to experience with them.

ireadredpillonce • 87 points • 7 February, 2019 09:26 PM

Multiply by 3 and add 7 as I always say. Possibly more pending how many trips abroad she's been on and for how long.

pm_me_tangibles • 61 points • 7 February, 2019 10:44 PM

one girl i knew said 70. my eyebrow raised dangerously

bjcm5891 • 69 points • 7 February, 2019 11:08 PM

I was out with a girl (23 y/o at the time) and she reckoned she lost her v plates at 17 and had been with 66 guys since then. I worked out that (not counting LTR's) that would've worked out to nearly a different guy every month. She is now married, two kids...

I wonder what it's like to realise what a slut your mother was back in the day?

markinsinz7 • 33 points • 7 February, 2019 11:16 PM

What kind of guy did she end up marrying

bjcm5891 • 37 points • 8 February, 2019 03:43 AM

Never met her husband. But I figure you'd either have to be completely blind to the red flags, or have such low standards you didn't care about putting a ring on it after a decade of being used like a human flesh light. Don't get me wrong, I liked the girl- we got on fairly well- but I could never date a chick like that, let alone marry one.

A rollercoaster is fun, but you don't want to put one in your front yard...

Original_Dankster • 29 points • 8 February, 2019 02:16 AM

Times change. My mom was a virgin when she met my dad (he confirmed it when giving me advice). After he died young, she had one boyfriend for a while after him, it didn't last, then hit menopause and lost interest in men.

She was born in the 1930s (I'm middle age myself now).

I truly feel sorry for young men in this day and age. My old man got lucky even for his time, but it was still possible in the 1950s to meet a decent woman. Hasn't been that way for multiple generations.

DigitalDragonSlayer • 23 points • 8 February, 2019 03:55 AM

bjcm5891 • 13 points • 8 February, 2019 06:10 AM

In some ways it does, in other ways its' great.

How many jobs back in the 50's allowed a man to work (and make great money) from a home office?

The internet has been both a blessing and a curse at the same time.

DigitalDragonSlayer • 6 points • 8 February, 2019 11:36 AM

Double edged sword for sure

pag_el • 6 points • 8 February, 2019 10:03 AM

Dude it's still possible in this day and age. My girlfriend was a virgin when we met (we were 20 yrs old). She's polish, extremely conservative and perfect wife material. Cleans, cooks, and loves it. It's extremely rare but don't lose hope. Just gotta travel, is all.

DigitalDragonSlayer • 4 points • 8 February, 2019 11:39 AM

Oh realistically, I don't mope on the state of women today. I'm in sales so I view it through a BD lenses: life is a numbers game. I mean one might get lucky, like you, but for the rest of the bro's out there like myself, we just have to cast a huge net and meet a ton of

women to try to find the least fucked one.

Good traits in your girl. Finding conservative chicks in Boston is extra tough, but I'm not complaining and that is a goal.

kellykebab • 6 points • 7 February, 2019 11:46 PM

Imagine just being that indulged. I'm sure she worked hard for those meaningful lays, too.

pm_me_tangibles • 3 points • 8 February, 2019 09:37 PM

In 20 years it'd be rarer to have to have a mother who's *not* a slut.

Its_the_other_tj • 36 points • 7 February, 2019 11:19 PM

When I was in my mid 20s I was fucking around with this little 19 year old art student and the topic of numbers came up. Giving very few fucks I told her my actual number, somewhere in the 60s at the time, much to my surprise she says "omg! That's my exact number too!" At 19? Holy fuck. She proceeded to pull out an actual literal fucking journal with guys names that she'd banged. Well mostly names more then a few entrees were like "guy in the blue shirt from the concert" or some such descriptor. The most alarming one simply read "hockey team." Def explained why she was so good in bed I guess *shrug*

noct3rn4l • 41 points • 8 February, 2019 12:03 AM

□□ i woulda said out loud in my best dave chapelle voice: "damn negga the whole team?!!" and proceeded to laugh my ass off

pm_me_tangibles • 2 points • 8 February, 2019 09:37 PM

Old me would have been shocked and appalled that a girl could enjoy fucking so many guys. new me knows that women are as horny as men, but far more selective and far sneakier about it because of the negative reaction to the truth they'd get from (a) men like old me and - worse - (b) other women.

TriggeringEveryone • 12 points • 8 February, 2019 05:54 AM

If she says 70 it's probably the truth.

pm_me_tangibles • 2 points • 8 February, 2019 09:30 PM

well you might think differently if you met her. she likes her tats. the first time i met her she was butt naked. life drawing. amazing, sensational tits.

They tend to get honest at some point.

pm_me_tangibles • 1 point • 8 February, 2019 09:31 PM

tbh I've never seen cucked behavior from relationship_advice although I only check them out once a week for the best of but compared to cuckery in the similar subs it's a god send.

TimGuoRen • 5 points • 8 February, 2019 09:22 AM

They always just suggest a break up. So yeah, they are full in character here.

askmrcia • 2 points • 8 February, 2019 02:06 PM

Relationship_advice sub reddit seems pretty red pill.

Now the much larger relationships sub reddit is pretty blue pill and those comments would have shamed the guy telling him he's too insecure

WuTangAyri • 38 points • 7 February, 2019 10:39 PM

Those comments really surprised me tho lol. Seems like our ideas are spreading

curiouschipmunk1010 • 20 points • 7 February, 2019 11:46 PM

Maybe, it's possible people are simply following the current trend in ideology as a consequence to some of the extreme accusations, commercials etc in recent news

[deleted] • 66 points • 7 February, 2019 08:55 PM

When you use women to validate your masculinity you also start buying Alpha Soap™. This is a ideological mistake and a deep one. When you live in a consumer society and do not produce you might as well accept that you live in a deep void which lacks any sense of meaning. Actually they do and the only reason they do not commit suicide is because it's just as senseless as their everyday lives.

[deleted] • 27 points • 7 February, 2019 09:33 PM

Are you saying Alpha soap won't get me laid smh doomed for be a curreycl for life gonna kms /s

LOL do redpillers just lurk in the relationship subreddit now? I'm reading comments from it and about 70% seem to be redpill advice

markinsinz7 • 45 points • 7 February, 2019 11:23 PM

No people are realising more and more about keeping self respect but they still ride the 'her past don't matter' Rollercoaster.

As an example if that story changed whereby the gf had already told the guy about her past and bla bla and if the guy said that shit didn't make him feel comfortable then the tune of that sub would change to bluepill.

[deleted] • 20 points • 7 February, 2019 11:30 PM*

Nahh there was literally one of the comments saying "Alpha Fux/Beta Bux. Are you beta Bux?"

[deleted] • -2 points • 8 February, 2019 04:26 AM

The terminology is getting lame.

"Alpha alpha alpha" Like Rocky from undergrads.

illusiveab • 5 points • 8 February, 2019 12:59 AM

askmrcia • 2 points • 8 February, 2019 02:07 PM

That's the Relationship_advice sub reddit. They always been pretty redpill. You're confusing that sub with the much larger and popular relationships sub reddit

vullnet123 • 1 point • 8 February, 2019 07:41 PM

From what ive seen, the relationship_advice sub is mostly men, and they give out a lot better advice than the relationship sub.

Oldest trick in the book - N counts are never accurate.

yumyumgivesome • 26 points • 7 February, 2019 11:44 PM

Awhile back I had a girlfriend who I spoke to openly about this stuff right from the start. I approached the conversation extremely nonjudgmental and as if it didn't matter to me (which it didn't because I knew she didn't have long term potential). She basically listed out the 18-20 guys in her n-count. But she also identified the 8 or so guys that she thinks barely count because they were either a ONS or regrettable decisions. I think those are the types of guys that most girls will immediately remove from their n-count and still be able to tell you their reduced number with a sincere and straight face. And if the number still seems higher than what she'd expect the new boyfriend to be cool with, then she'll surely drop that n-count a little lower. All that said, it wouldn't surprise me if my ex-girlfriend's real number was 2x or 3x what she actually told me.

Before anyone whines about evil women hopping on strange cock why dont you just become the chad they jump on and stop putting yourself in the position where bitches can hurt you in the first place

[deleted] • 16 points • 8 February, 2019 04:28 AM

Shhh! Dont tell them. Fuck!

[deleted] • 3 points • 10 February, 2019 12:47 AM

Imao at ever thinking you can be 100% chad all the time, especially in a relationship.

[deleted] • 2 points • 9 February, 2019 03:44 PM

This is correct, if you can't beat them, join them.

Virtually every young woman you meet in this generation will have been pumped and dumped dozens of times. People should accept it and partake rather than whining.

[deleted] • 5 points • 9 February, 2019 05:49 PM

There is no beating them. There is always some guy who is better and there are always hundreds of bitches who are interchangeable into your mission.

Keep that attitude and you will do well

Future_Alpha • 1 point • 9 February, 2019 09:36 PM

Easy to say if you are born good looking. IF you are born ugly, or have hair loss then have fun becoming chad. Getting huge naturally takes YEARS, might as well use roids.

Every girl is like. If she's hot it's damn near guaranteed. Wake up motherfuckers. Get used to this shit. Cause unless you grew up in a small town and met some girl who had a tight grip on her by family and community (Even then but it's ur beSt odds) then it's guaranteed your dating a girl who fucked multiple guys.

AWALT is like 99.99999% true these days. Each time I thought I found a unicorn(not just dating but some girl I meet through frinds of friends) it turns out she hoe-d it up that one summer and what nots.

It's a sex crazed world we live in. Enjoy the ride and the decline

Stories like this show a really contrarian viewpoint as to who has "privilege". One gender can have the time of their live in Europe in their 20s while the other has to struggle to make ends meet. I can't do anything other than admire above average attractiveness women who are low in anxiety and live their 20s like this. Must be a hell of a ride compared to everyone else, kind of hard to have low self worth after 5-10 years of that.

bjcm5891 • 11 points • 8 February, 2019 04:11 AM

I envied girls like this, back in my early to mid 20's.

But then I realised that the wall remains undefeated- and I could be dating/ marrying/ having children with younger girls for decades to come and enjoying the life of a bachelor if I want- and those few angst-ridden years up to the age of 27 will be nothing but a faint memory.

I wouldn't believe a 3/10 200 pound hoe claiming she only slept with eight guys guys. Why are you surprised your gf isn't a special little flower? It's beyond me how you believed her in the first place.

[deleted] • 4 points • 8 February, 2019 02:20 AM

"she was someone that had her fun and now doesn't want to do much now that she is in a relationship. I before just thought she was a reserved person but now it's more like is she just reserved with me?"

The real question here is how can the guy ignore the obvious red flag? All bitches get stingy with the pussy once they get that wedding ring, and even more stingy once they get that baby, so if the cow "doesn't want to do much now " and is "reserved" when she is trying to seal the deal....he ain't gonna be getting much at all further down the path. Someone needs to introduce this future 'born loser' to MGTOW!

Grimsterr • 4 points • 8 February, 2019 02:37 AM

It's not the count that matters, it's the lie.

Well, the count kinda matters too, but the lie is more important.

WuTangAyri • 3 points • 8 February, 2019 02:54 AM

If she is 24 and has already confirmed that she has slept with 3 guys, bro she has slept with waaaaaay more.

Only time a girl hasn't had a lot of partners is when they have had none. Once they get a taste for sex it is addicting

saruin • 4 points • 8 February, 2019 04:50 AM

Back during my blue pill days it always struck me as odd that my ex INSISTED to me that she slept with only 4 dudes almost to the point of tears. It was as if she was trying to convince herself that.

This was at a time when she "needed a break from the relationship" and you all know how that goes. I'm making the assumption here or maybe I misheard that it was 4 dudes total in her lifetime. Now that I look back, for all I

know it could have been "4" dudes during our break or even in one night! I was better off leaving that baggage behind.

EDIT: She also went out of state during that time... yeah, big oof!

bruiser18 • 16 points • 7 February, 2019 10:02 PM*

Yeah when she says she's only slept with 3 guys, especially at 24, that's 99% of the time bullshit.

Ironically though, a girl I'm plating is 17 (I'm 18) and claims an n-count of 3 too, including me, though it's believable because I've known her through high school and she had been in 2 serious LTRs the whole time, from the time she was 15 and only broke off the last one a few months ago, so 3 is somewhat believable. There could be another guy or 2 she's 'forgetting' about but either way who gives a shit.

My point - it's believable for her, a 17 year old girl who had 2 back to back LTRs from age 15. Maybe not, maybe lost her virginity at 10 years old, maybe cheated 100 times during the relationship. Maybe. But from a 24 year old girl? Yeah, I wouldn't buy that.

UnluckyPenguin • 16 points • 8 February, 2019 01:45 AM

Father here. I've seen enough to know that a girls relationship with her father (and the father himself) will have a noticeable impact on a girl's n-count.

1. Is her father squishy or to be feared?
2. Does she have a good relationship with her father?
3. Is that a good relationship in the form of the dad bending over backwards to please his daughter (enabling hamsters) or give her real-world advice that might hurt sometimes?

Based on the above answers, you'll know if it's an N-count <5 or... closer to 25+.

bruiser18 • 6 points • 8 February, 2019 07:16 AM

Completely agree and have known this for a while.

1. Her dad seems to be a strong man, she admires him and doesn't fuck about with him.
2. Yes.
3. I can't get a detailed answer for this, but I can tell by the respect she has for him he does not bend over backwards and enable her. Her other two sisters turned out very respectable so that says something about him.

Not to say that this disregards AWALT. I'm not pulling the wool over my eyes and pretending this girl is an angel. She may be lying, she may be seeing other people right now. But from what I can tell, she isn't too awful lol.

UnluckyPenguin • 1 point • 8 February, 2019 07:44 AM

Not to say that this disregards AWALT.

This is not the place to be politically correct. But let me explain as best I can.

AWALT applies to what women are *capable* of. However, at least with n-count, certain women who were raised old-fashioned or have a solid family foundation would resist putting themselves in a situation where AWALT would take over.

They could still have a high n-count, it's just less likely based on the expected resistance. However, if

you know a woman was in such a situation, then you should expect their actions to follow suit (AWALT).

Regardless, it's much easier when talking man-to-man to use blanket statements without having to explicitly explain that there's always exceptions. You should start embracing blanket statements and find out who in your circle isn't a politically correct SJW.

bruiser18 • 2 points • 8 February, 2019 07:51 AM

Sure, what you say is right. My point is more so that I'm not going to pretend just because of her dad that she is exempt from such behavior. It is, as you pointed out, much less likely... but still a possibility. Do her friends sleep around? Is she really the only one in the group that doesn't? Unlikely. If her friends are like her, however, as they are in my case, and she also has a good relationship with daddy, then the chances of her being a slut are far lower.

coopdawgX • 1 point • 9 February, 2019 02:57 AM

Most recent girl i had engagements with told me i was her 5th.

1. Father is a socially awkward neckbeard. His wife (her mom) does not and has not ever worked.
2. Yes, or so it seems
3. In the form of him paying for her college and graduate school, spoon feeding her everything

When i was told "5" i knew this immediately to be a lie

ProFriendZoner • 3 points • 7 February, 2019 10:23 PM

"I've only slept with 3 guys" and the rest of the sentence not spoken out loud "... today ... so far."

flipwater • 5 points • 7 February, 2019 11:00 PM

Sincere question, what makes you so confident that most women have that much sex?

ReformSociety • 1 point • 8 February, 2019 05:03 AM

It's called an exaggeration.

flipwater • 1 point • 8 February, 2019 06:08 AM

Yeah obviously, but the message is that it's unlikely for a woman to have only slept with 3 men. That's what I'm questioning the evidence for

shenanigans38 • 1 point • 8 February, 2019 12:03 AM

What makes you confident that they haven't?

flipwater • 1 point • 8 February, 2019 12:21 AM

I'm not lol, hence why I said "sincere question"

shenanigans38 • 1 point • 8 February, 2019 02:16 AM

Fair enough. I'm not OP but I'm of the opinion that since it's so much easier for women to get laid, they therefore have much higher n counts as a collective average than men.

bruiser18 • 1 point • 8 February, 2019 04:54 PM

Yeah but at 17 years old after being in 2 relationships since 15... very unlikely.

shenanigans38 • 1 point • 9 February, 2019 12:03 AM

I was talking more in general than about OP. But she very likely could have a high n count *for her age*

bruiser18 • 1 point • 7 February, 2019 10:25 PM

Lol. Generally, yeah. I go to school with this girl, she had 2 boyfriends the entire time I knew her, started fucking her after last break up.

Never know though, could've cheated 100 times during said relationships. AWALT. Just unlikely is my point.

I've some real light bulb moments since starting my journey with TRP. I remember there was this girl (HB7, Insta Babe type) that I brought back one night. I fucked her that night and the next day left her in my bed to go kayaking. I never bothered to contact her again. Her bff would give me shit on why I wasn't gonna see her again.

I randomly bumped into her a month later on her way back from a wedding. She starts grilling me on why I dont want a relationship in general but was aiming it at her. I just stated that I dont have time to see someone right now. She starts whinging that she's tired of partying and just wants quiet nights in and someone to share that

with (sounds boring). All the while Im just listening to her. She didn't know however that I knew that she spent the weekend before going around Paris on the back of a scooter with a fat bald guy for some cocaine. Yeah real gf material there.

Women can do the most depraved shit and wipe their memories clear. They are out to con you. They are expert salesmen. They'll tell you a car has only had one previous owner, has a perfect service record and comes with a full tank of fuel but you can be sure you're getting a bad deal.

The_Red_Trooper • 3 points • 8 February, 2019 02:39 AM

Most women already have been ran thru and gangbanged. before the age of 20. College is an eye opener. Marriage and LTRs are a thing in the past if we are being honest. If you are in a LTR then dont take it serious and have something on the side. Every woman will lie about the notch count so it dont matter what she says. just assume its over 20 so you wont be surprised if you find out.

johnnyann • 2 points • 8 February, 2019 12:10 AM

It isn't the n count that's a problem. It's the lying. She's probably gonna lie about a lot of other shit too.

furcryingoutloud • 1 point • 7 February, 2019 11:38 PM

How do you ever know the true n-count? And if you can't ever know, why do you care? I don't. But then again, I don't ever expect to have another LTR to save my life, so for me it's a moot subject. If I had to do it all again, I would avoid every single fucking LTR I ever had. Not one was ever worth the hassle.

SILENTSAM69 • 1 point • 8 February, 2019 02:44 AM

I once knew a girl who told three different guys she slept with that she had only ever been with three guys. It was kind of funny. Seems to be the number to trust least.

Shychien • 1 point • 8 February, 2019 02:59 AM

I wouldn't ask something that I don't care/want to know the answer.

Just like one would claim that Siberia, Canada and Alaska is just ice and Tibet is illegal, therefore Brazil is the largest country in the world, one could claim and not even notice that ONS in Europe doesn't count towards that N count.

frooschnate • 1 point • 8 February, 2019 04:50 AM

Textbook Alpha Fucks and Beta Bucks. Whenever a thot tells you her n-count, add a zero. What does make me glad are the replies that OP is getting in the thread are making me think more and more guys are taking the Red Pill to some extent or another.

loveladee • 2 points • 9 February, 2019 09:16 PM

Red pill is becoming common knowledge. You can't call it red pill tho, that's the funny part

You know she was getting drilled out by someone else in that 3 months time while he was waiting patiently.

SalporinRP • 1 point • 10 February, 2019 07:02 PM

That's why it's retarded when guys on askTRP talk n-count being a red flag. No girl is ever going to be honest with you.

It's the other red flags (values, morals, family, lifestyle, etc.) that will give you an impression of how many guys she's fucked.

When-ever I ask, the usually give me some BS number. Then they ask me and I be truthful and say its around

the 140 range. They then usually add 10-15 on top of their original after that lol

[deleted] • 1 point • 13 February, 2019 06:31 AM

I'm not surprised about anything anymore! I had an Arab girl request to be deflowered. I really don't fancy taking a woman's virginity so I was very hesitant. What shocked me is that she really didn't care about her religion and the importance of being a virgin. Her plans were to get married and have kids somewhere near in the future. "If you get hitched up you can kiss your plans to get plowed by me good bye" I responded. With a straight face she said "i dont care. My marriage wont stop me from doing that. He doesn't have to know". This bitch was a hijab wearing muslim. Wow. Straight up savage. Stories like these have thought me to never trust women. They would lie in a heartbeat and think nothing of it. Truth is an inconvenience to them. My ex told me that facts are grown if they make her feel uncomfortable. She would rather spin the truth so that she is the victim. Her prime goal is to be perceived as a saint.

I think you might be a bit confused

[deleted] • -3 points • 8 February, 2019 02:32 AM*

EDIT: After reading over the post the first thing that comes to mind is how I would treat a trip to Europe in my 20s.

I would do the same shit. Lying about it and taking control of a man when she gets home and acting different totally makes sense and should be expected. Cultivating dominance early on in a relationship is basic shit. She was looking to run this dude and did a great job of it. She didn't even think twice about being a whore in Europe, it's called compartmentalization. I do it all the time, it's fabulous for being a piece of shit with some people, and being honorable the rest of the time.

When you are on vacation, with very little social repercussion for being a huge whore, you can more easily get your fuck on. People know you are just here for now, so they take their turn with an exotic. Sounds fucking great. I bet seaport towns are fucking insane full of pussy like this.

THAT'S SUCH A HORRIBLE THING TO HEAR EVER.

I just can't believe a woman would ever need to lie to me about this. I am extremely open about how many women I have had sex with, and I am always overly interested in all the wild sexual things they have done, big dicks, small dicks, black dicks, mexican, all of them.

I want to know how kinky they've gone and for how long, the best and the worst shit they've ever done. I love details and I am interested in doing those things that she's done that I've never done to see how I do, this counts triple for anal

So many women have told me anal was horrible, and I have to prove them wrong, even though generally I tend to have a bigger dick than most the dudes they've been with.

Anyways that's so fucking comical. I really believe the only reason women hide what a huge whore they've been is because they believe it will lower their value in your eyes. If you explain that it raises the value then they can't stop sharing.

I had this divorced preachers wife of three kids tell me how she'd been part of a gangbang in front of an audience. She was a ton of fun, gave me the best tit job of my life. Another one was telling me how she had been spitroasted plenty of times but had never been 'airtight' which I thought was just the best look in her eye when she said that.

I would have given her that experience if I knew two dudes that would get naked and bang a chick with me.

She's a hot mess full of holes begging for it. Who gives a fuck if it's just your turn? Have her get an STD check with you and then feel better about it you fucking prudes.
