

Realized I might be extremely beta in relationship, GF acting up

4 upvotes | 26 March, 2019 | by priapula

I had to cancel on plans to hang out and fuck last weekend for logistical reasons and, instead, I ended up calling her. But recently (past few days), I can sense I decrease in interest and distant behavior from her. I might have invested too much and showed too much emotion and beta. I've been keeping abundance by flirting with other girls, but I realized that I'm too emotionally invested.

Today I was focusing on my stuff and was kind of rude to her, and she told me that she was gonna go talk to another guy if I didn't talk to her. I complied saying "fine ill talk to you". I'm not sure if I showed jealousy but it was more of a surprise that she would overtly threaten me, not because other guy was competition.

But anyway, I'm slowly starting to realize that the blue is still strong in me, and it hurts. I think I denied AWALT, because this girl was very conservative and good values.

Being introspective, I'm emotionally hurt right now, because it just struck me that this relationship will inevitably end. I know that I should soft next and focus on myself, and that is what I am promptly going to do. I used to be able to easily soft next, but I think i've invested too much emotion. Anyways, do you guys have any advice for me? Or anyone care to share their experiences?

Also, I'm still very young (high school).

That "fine ill talk to you" is literally the worst possible response. You should of just replied "have fun" or maybe even "and you'll be single" and left it at that. You need to remember that YOU are the prize. If she's gonna go talk to another guy just because you were a little rude or ignoring her she isn't LTR material.

I understand that but I was kind of in a bad mood, not a playful one. And she would just talk, not flirt

I don't care if she was going over there to breathe the same air as this dude, its disrespectful and shouldn't be tolerated. I would never let her get off the hook after that so easy but that's just my opinion.

Yea maybe I dont enforce boundaries enough. TBH I think i might be scared of enforcing boundaries because it comes off as mate guarding, so I just disregard and ignore

Yeah girls in high school are extremely goofy and extremely a waste of any serious thought 8/10

IGNORE THAT BULLSHIT You shouldve said do you.. like my god I had this bitch try me like that I said BYE Now her sappy ass single and hurt asf. Her ass was begging for a second chance. Dont threaten somebody like that especially when they try what they can for you. Like any girl who goes there isnt worth your time anyway.

Atleast your honest. You know what to do, so do it. Shit stings, but thats how we guys learn.

So prepare for breakup and remove attention? And yea, it will hurt

Glowv2 • 3 points • 26 March, 2019 08:59 PM

NOT prepare for breakup. You remove your attention completely. Let her chase you, earn you. Meanwhile go entertain other chicks or even better, entertain yourself. Lift, study. Work

Being in high school and learning about redpill raises your value tremendously. Check this out, girls in high school and beyond don't really change much. They'll still shit test you etc. That being said, fall back on her. Prepare to get other girls in your arsenal. You don't need her.

she told me that she was gonna go talk to another guy if I didn't talk to her.

This triggers an *immediate* demotion to plate status.

Problem solved.

Maybe it was a comfort test from her?

Let's be real, you did say that you had been rude to her.
