man kills wild beast with bare hands , women wants him , attraction is primal

Not gonna lie that's pretty fucking metal. The linked article is wrong by the way. He didn't bash it's head in with a rock, he suffocated it which is honestly an even bigger feat.

Dude looks like he's built like an Ethiopian marathon runner and he fucking choked out a mountain lion with his bare hands.

They probably had to clean off the seats of the female reporters after that press conference lol.

He apparently stepped on its throat while it had his wrist clenched in its mouth, asphyxiating it.

If you watch the interview, he's also articulate and soft spoken. Regardless, it appears to be working for him.

Is it the hunger games whore who owes her entire career to being Harvey Weinstein's personal cum slut?

<https://www.vulture.com/2013/02/oscar-weeks-12-best-jennifer-lawrence-quotes.html>

Lawrence was charming onstage while picking up her Oscar, but once she made her way to the Governors Ball, she realized that she had made a huge mistake. "I forgot to thank Harvey Weinstein, so that's the end of my career, but it's been amazing, it's been fun," she told Extra. Luckily, the reporter gave Lawrence the opportunity to turn to the camera and give Weinstein a make-good. "Thank you, Harvey. I love you," Lawrence cooed. "You're still my little rascal!"

Remember the Fapping a few years back? All those leaked phones of nude celebrities came from a hack of the Hollywood producer casting couch network.

"America's sweetheart" my ass. Did every female celebrity who earned that title have to casting couch their way to the top to earn it? Probably. Fuck Pedowood.

The reason that Hollywood was so outraged by naked pictures of girls who regularly appear naked on film had nothing to do with "involuntary pornography".

It was because it broke the facade. Without all their careful makeup, lighting, selection, and post-processing, all of these girls were revealed not to be the ethereal sirens you see on screen, but just ordinary instagram-ho caliber sluts, no more attractive than the pretty waitress at your diner, and carefully selected only for "whoever gave Harvey Weinstein the best handjob".

It's all kayfabe. Smoke and mirrors.

Every bitch is replacable and not that special

I say it with love

Imperator_Red • 9 points • 20 February, 2019 01:17 AM

It's all part of the left's ongoing demoralization of America. One of the side effects is mass societal confusion. For example, the obvious victims here are all the talented and attractive actresses that no one has ever heard of because they wouldn't fuck Harvey and he killed their careers before they even started. Yet I look around and no one is even talking about this. People are so turned around and confused and terrified of stepping out of the group think bubble that it is just safer to turn their brains off and ride the current wave.

rebelde_sin_causa • 4 points • 20 February, 2019 01:44 AM

The thing is, there is a very small number of actually talented actors. Vast majority are interchangeable. So it's hard to say that anybody got wronged, when there was no most qualified candidate to begin with.

Gaboyski_ • 1 point • 20 February, 2019 07:00 AM

Somehow this makes actual pornstars more respectable, and many of them look average

MoDuReddit • 7 points • 19 February, 2019 07:16 PM

Wow.

Can you link me up more on those stories (the leaker, for example) ?

Yashugan00 • 8 points • 19 February, 2019 07:14 PM

bit remember all these super famous actresses are victims!!! never mind they slept there way there over more deserving women.

now when I look at an actress in a big Hollywood movie I know why they are staring: she's a whore who fucked other women over.

Swaglord300 • 5 points • 19 February, 2019 08:29 PM

Although you r right, there so few roles in a year that actrsses really dont have a choice other tan maybe change careers or get with people that get you. Idk what to think but maybe its better to say the actresses are victms of a system, they make the choice but its the only one they have.. also the whole industry is perverse by nature, its basically legal human trafficking/prostitution.

Casanova-Quinn • 11 points • 19 February, 2019 08:09 PM

FYI this isn't a random woman as the meme image suggests. He says that she's his girlfriend in the interview. Regardless though, she's definitely ready to jump his bones.

WarViper1337 • 11 points • 19 February, 2019 10:22 PM

That guy is a bad ass for sure. Though he was lucky the lion that attacked him was not a full grown adult. It was juvenile. He is lucky as hell that he was able to wrestle that cat into submission.

redpillcad • 14 points • 20 February, 2019 02:05 AM

I've said this before but it's worth repeating so as not to take our eyes off the ball

Most men will go to their grave never knowing what its like to be AlphaFux.

Women enter slavery with glee to be dominated by the right man. They will break rules and be immune to any reason or logic trying to fill their biological imperative to take seed from the best man they can find

Ted Bundy had them lined up at his trial. He married and impregnated a half way decent bitch on death fucking row

Then there is the sad sick incels playing fortnight in their basement crying in their beers.

Gimme a break...take what you want from the world. It ain't coming otherwise

Chadster113 • 6 points • 19 February, 2019 06:18 PM

Lo. Is this his GF or something?

Auvergnat • 5 points • 20 February, 2019 04:27 AM

It's Game inflation. 10 years ago you could just wear a fuzzy hat. I don't want to imagine what we'll have to do to get laid in 10 years from now.

drawden63 • 4 points • 20 February, 2019 12:17 PM

Going to use this as an example when people ask me what "the look" is

[deleted] • 4 points • 20 February, 2019 06:32 PM

I can imagine him ripping his shirt off, marking his face and chest with its blood, raising his eyes and arms toward the heavens and letting out a spartan roar.

He should have dragged the corpse with him and mount its head on his wall.

The girl I am currently seeing, looks at me like this all the time. I have never thought about it because my crazy ass gf back when I was 18 who I dumped one day when she was giving me bad vibes and cried and tried to mitigate what was happening (after she conived every other girl round me) gave me this look a lot. I had to tell her to fuck off and leave and ask her to never see me again... in the wrong she knew she was and so I never did. Wasn't hard for her maybe because she was transient really and would have found someone else. But others came to me and told me she really regretted it and said they would relay messages if I wanted to patch things up; which I declined though they were trying to be very persuasive - a big grey area but I stuck to my guns. I had other girls to see, but needed wind-down time so I missed out on others round then who were into me.

In fact most girls give you [guys in general] this look now and then I'm sure but in person many girls I have gone with have given me this kind of look.

Now to be honest I find it scary almost because of maybe what happened back in the day but you know they are so into you. Its hard for me sometimes because I feel as though I can't disappoint them. But I like to be able to cut and run out of respect (when its over, they may not want anything to do with you, I mean be "clean" cut and it just gets messy if people need to hang out like in work environments anyway) and if she gives me this look its as if I will find it hard to do. Call it remorse - you want it but don't. Just in case.

In my current situation this girl I am seeing has given me this look about ten times at least. I had to disassociate the other day a little too cool things down, but I am not a floppy/soppy type of guy in the first place.

Thats her now before knowing him, you have to be hard and soft a little. My girl constantly claws all over me and can't keep her hands off me. We could probably slam anywhere even in public.

I don't pity you guys who are learning this stuff, I've always been good with girls from since I was just before a teenager. I say good - we all make errors in life - but this kind of look from what i know in my life and the girls I have been with is intoxicating to me, and it also as I explained scares me a fraction - a fraction but a bit of fear is good - ... because the rebound is hard, guys. They like you this much and there's a rebound. No telling what people may say to others or do. So as grown adults anyway maybe they don't externally deal with it bad - never happened to me since I am respectful to a T, and keep the angst all inside, who knows.

Women are human too. There's no guarantee this look lasts with this guy, she may never go out with him, know him, etc, its just an expression. But of course girls will give you this look or a variation of it, and she's like wow/eager/interested/curious/excited at the thought - but its just a behavior, means nothing on its own. Its nice to receive because a chicks face especially like that is a thing of beauty.

In other words, become a man capable of facing a fucking puma out in the world

Andgelyo • 2 points • 19 February, 2019 11:19 PM

I've had a couple of these stares in graduate school. It's the stare when a women's eyes literally dilate to the size of the moon and look at you like you're some kind of alpha chad angel being in a sea of turds. They almost look at you like you in raw awe and disbelief. Your social status has to be through the roof though.
