

How do I respond to "Would you still love me if I was fat?"

May 2, 2019 | 13 upvotes | by [skip_legday](#)

My wife (25) hit me (29) up with that a couple of days ago.

She basically asked me how important looks are for me because beauty will eventually fade and she does not care about looks (bullshit).

I mean, she is right, she wont look good with 60. But she can definately look good with 40-50.

I responded with something like "Of course personality makes you love someone but you also need looks to be attracted to that person,"

I hardly doubt that she would give me the same affection if I would gain 100 pounds. How would you respond to that without saying "Yes, your beta husband will love you whatever you do." Or do I just say "yes you are right" because I will keep working on my SMV anyway and she will have to keep up.

My wife asked me that shortly after we got married too. Without thought I did the disgusted head pull back and without missing a beat said "Fuck no. Why? Are you planning to get fat?" If backpeddling was an olympic event, she would've won gold.

Oops, missed this. Yes, this is the answer.

"Would you still love me if I was fat?"

No.

MrChad_Thundercock • 5 points • 2 May, 2019 11:52 AM

Best response.

[deleted] • 5 points • 2 May, 2019 01:14 PM

This is by far the best response. One word answer. If she doesn't call you an asshole then you gave the wrong response.

redismyfuture • 5 points • 2 May, 2019 12:32 PM

I'm not really sure why he had to come ask us for this... Oh wait, it's because he's still scared of mommy.

SorcererKing • 18 points • 2 May, 2019 01:21 PM

Pressure flip time:

"You planning on getting fat on me?"

Then A&A it for at least a couple days, calling her your "soon-to-be-fat wife," and pointing out all the things she won't be able to do when she's fat in the future. This has to be done in a "teasing her on the playground" kind of way, though, not as some defensive, sniveling, butt-hurt asshat.

That will shut that shit down real quick.

Don't play these games. Just shrug and say "nope" perhaps laugh at the absurdity of the question. Then change the subject to something interesting. Your answer to her was textbook DEERing and is kinda cringy. Why are you defending yourself over a preference for women that take care of themselves?

thatboyjeff • 9 points • 2 May, 2019 11:34 AM

I promised to marry you and protect you (and all of that gay shit you say when you get married) but I never promised to remain attracted to you.

Good luck, fatty.

JDRoedell • 4 points • 2 May, 2019 11:37 AM

I'd love you... but I probably wouldn't be "in love with you" □□♂□

Whatever you do, you don't have to answer the question, you're just asserting that you do value physical attractiveness. Unapologetically

helaughsinhidden • 4 points • 2 May, 2019 01:23 PM*

This is different than "do I look fat in this dress?". This is not a shit test.

Would you still love me if I was fat?

FIRST thing I thought of is she's dropping a hint that she is losing attraction for you. Usually a shit test or comfort test has to do with whatever is going on in the moment. That is where the feminine is in her element, not in the "big picture" like men are. She's bringing something up in the future as if she's taken a step back and trying to look at things from a big picture.

Remember what we've learned about not listening to her words, but pay attention to her actions. This seems more like she's trying to drop a very strong hint that she's losing or lost attraction for you u/skip_legday. You are *probably* doing some major beta stuff that, to her, is on par with what she would consider equally as gross as her getting really fat. Perhaps she sees your fat lazy ass sitting around the house playing video games, watching porn, letting the lawn get overgrown, drinking too much, or maybe you aren't just skipping leg day, but the whole gym.

Consider a couple variations of her questions with other unattractive behaviors on it

Would you still love me if I stopped cleaning the house?

Would you still love me if I became an alcoholic?

Would you still love me if I acted slutty towards other men?

Would you still love me if I stopped showering and shaving my legs?

Would you still love me if I started to dress like a homeless person?

Would you still love me if I spent all of our savings on lottery tickets?

I'll concede that it could be a comfort test or a shitty-comfort test. Perhaps even one of her girlfriends packed on a some pounds and her man cheated. However I think it's a big mistake to take what she is saying here at face value as a legitimate request to gain your permission to get fat or to just gauge your reaction.

I seriously would reset and examine yourself and ask a few questions.

What kind of blue pill crap have you actually identified in your life and eliminated? How much of the sidebar and books have you read? What have you learned from them?

How much of your actions speak of being an alpha male? What is your mission? Are you attractive? How good is your game? How do you dress?

How fat are you? What are your lifts? How often are you in the gym? How many months until you reach the peak physical shape you want to be in?

Why aren't you posting in OYS?

InChargeMan • 8 points • 2 May, 2019 03:34 PM

Wow, that was a lot of thinking for something that doesn't require a lot of thinking.

helaughsinhidden • 2 points • 2 May, 2019 04:46 PM

a lot of thinking

Yeah, maybe..... I use phasing like that when trying to make a point with my kids when they do a crappy job with chores or not getting along. Could have lead me down my own experiences rather than the average person.

u/skip_legday

What's her tone? What's the context? Is she walking in front of you while you slurp Mt. Dew, eat Doritos, and play Fortnite or is she covered on chocolate cake, crying, and grabbing her love handles?

skip_legday 1 points 2 May, 2019 07:46 PM [recovered]

Thank you for putting that much effort in your comment. The context is a little different than you guys might think. It is the other way around. I take lifting very serious. I count calories and macros. I am on a cut currently at 15ish % bf and keep improving my physique. I am on an intermediate level and have been lifting for 3 years consistently. She is very insecure about that. She has a nice physique and I dont like my girls too skinny. I think she doesn't believe me and throws insecurities at me now and then. She lost a little weight in our relationship and wants to keep up. I thought she is scared that she won't be able to keep up and I wanted to give her a little comfort by giving her a beta response. Other than that she is a sweetheart, takes care of things, is a good house wife and is naughty in the bedroom.

helaughsinhidden • 1 point • 2 May, 2019 08:10 PM

Good for you.

Lol, this is askmrp, most first time posters are clueless beta simps whose wives are mid-swing monkey branching by the time the first ask for help. They ask things like "is it a shit test if my wife wants a threesome with me and her boss Chad?".

Fyi, post in OYS and you'll get better answers as most of us check post history to see what level of faggot we are talking to. To me, zero history is automatically Level 9000 faggotry.

duhhhh • 16 points • 2 May, 2019 10:56 AM

Sure babe. I'd love you like a sister ... unless you become a bitch too. You wouldn't do that, right?

red-sfpplus • 10 points • 2 May, 2019 01:27 PM

Fat chicks give the best head.

InChargeMan • 9 points • 2 May, 2019 03:32 PM

I'll have to take your word for it.

Tbonesupreme • 5 points • 2 May, 2019 04:12 PM

Their mouths are the most coordinated part of their body.

And yes, they do.

They don't even care if you kiss them. They'll blow you just to avoid having to take their clothes off.

Dialerstring • 2 points • 2 May, 2019 05:15 PM

Hmm I can't argue this.

FoxShitNasty83 • 4 points • 2 May, 2019 12:09 PM

Was??? (Grinning)

Dialerstring • 5 points • 2 May, 2019 12:12 PM

No. love is conditional.

[deleted] • 4 points • 2 May, 2019 12:31 PM

I responded with something like

I mean... you actually answered this like it was a real question which is spergy.

The only way to answer ridiculous questions is with ridiculous answers.

Thor-Loki-1 • 5 points • 2 May, 2019 01:06 PM

"that will never happen, right?"

themerovingian01 • 3 points • 2 May, 2019 01:03 PM

Nope!

InChargeMan • 3 points • 2 May, 2019 01:25 PM

Would you still love me if I was fat?

Actually, I'm glad you brought this up, you need to loose a few...

[deleted] • 2 points • 2 May, 2019 01:31 PM

Even in my beta days, when my wife asked me, i quickly and promptly said "no, i dont like fat people"

Tbonesupreme • 2 points • 2 May, 2019 04:15 PM

I don't think an answer is needed.

Just give it a second like you're imagining her being fat, and give her a "yuck" face.

H2orocks3000 • 2 points • 2 May, 2019 04:41 PM

There is research I learned last night showing our beliefs about how implicit attraction beliefs are fixed or can grow and change with the person impacts how we experience them.

I didn't read too far in it but worth researching.

Also, it's not about looks to 'me, if we do what it takes to more or less eat healthy and exercise as part of a lifestyle..... outside that I'm not too concerned as that takes care of it self.

If your not doing this though and doing it together then that's why.

It's not about looks. And she is just got some Attachment anxiety around the biggest insecurity women have - their looks.

The flip side of that,

Will she love you when you feel week. Because if we play in the arena of life- you will know great loss, and

catastrophic failure. It's the price you □, but ask your self, are you certain she will love you when you fall apart. This gets down to intimacy and the kinda relationship you have and how emotionally mature you both are.

sars445 • 2 points • 2 May, 2019 06:27 PM

I'm just direct.. "no.. And I wouldn't expect you to love me if I was fat either"

SorcererKing • 1 point • 3 May, 2019 12:12 AM

Silica gel for her pussy.

Fritz_Frauenraub • 2 points • 2 May, 2019 07:15 PM

"who says you aren't phat already?" [/dry humps ass]

themerovingian01 • 2 points • 2 May, 2019 07:55 PM

If you say yes she'll definitely get fat.

seedster5 1 points 2 May, 2019 01:52 PM **[recovered]**

It's easy to say no but you can take a more diplomatic response and get a better result. I would say of course I would still love you but I was deeply disappointed. Your health us going to affect our quality of life and what I want out of this marriage is us living a fit lifestyle. You giving up on that lifestyle would mean that you didn't care enough about me or the kids to stay healthy. I would still love you but it would affect our relationship.

InChargeMan • 5 points • 2 May, 2019 03:35 PM

Lol, you have much to learn...
