

Girls love to be choked during sex..?

June 14, 2019 | 81 upvotes | by [Cryptoguru777](#)

Fuck, this post feels weird to type. Last 4 girls, which I can recall, I had sex with REALLY like to get choked during sex. I'm a pretty dominant figure and it somewhat happens automatically when I have sex with women but I started to see a pattern this time.

Yesterday when I slept with a new one and after sex she told me good job, choke me harder next time. I'm like what? It wasn't even really a conscious decision to do so and I already went pretty rough but always hold back to prevent rape charges or whatever, you never know these days..

This made me wonder.

- Do all women like being choked during sex? Rape fantasies, or did I just pick some crazy chicks?
Is this related to daddy issues? Cause not all of them were without a father.

Yes they love being choked.

Cryptoguru777[S] • 11 points • 14 June, 2019 06:44 AM

But why? I wouldn't want it happen to me. And why only during sex?

[deleted] • 67 points • 14 June, 2019 07:01 AM

They find being dominated sexually arousing. Even the thought will give them the gina tingles. Read sex god method

Cryptoguru777[S] • 13 points • 14 June, 2019 07:18 AM

I guess. It just seems a bit crazy you know. choking someone to the edge of passing out watching her eyes roll back and her giving thanks??????

[deleted] • 62 points • 14 June, 2019 07:34 AM

Well don't bloody kill the poor girl. Simply your hand round her neck with some gentle pressure whilst fucking her should be sufficient. Hold her using her hair, slap her ass etc etc

Cryptoguru777[S] • 8 points • 14 June, 2019 07:35 AM

No of course not but the fact she requested me to go even harder struck me as weird as it would become nearly violent at that stage.

ReformSociety • 18 points • 14 June, 2019 12:29 PM

Everyone has different pain thresholds.

Set up cameras if you're scared you accidentally choke her out and she tries to sue you.

She'll reach for your hand on her throat if she finds it uncomfortable.

lifeisweirdasfuck • 12 points • 14 June, 2019 10:31 AM

Mate you should probably read the sidebar cause you make me think you are entirely bluepilled.

Cryptoguru777[S] • -5 points • 14 June, 2019 11:56 AM

Whatever floats your boat, I get plenty of sex but must admit I was not convinced all women like to receive rape-like treatment.

the_Milkweed • 6 points • 14 June, 2019 01:26 PM

Why not?

VasilyZaitzev • 23 points • 14 June, 2019 10:58 AM

She should be *required* to thank you for that shit.

Look, people get off on weird shit. Either you want to indulge their kinks (and they yours) or you don't. If you don't, they will find someone who does.

You should be pushing the envelope to get her to do whatever nasty shit you like.

Cryptoguru777[S] • -5 points • 14 June, 2019 11:57 AM

Sure, this this is the same kink in all consecutive women. Imagine if all girls you were with asked you to do anal on the first time, you'd remember that shit.

VasiliyZaitzev • 14 points • 14 June, 2019 02:20 PM

Girls almost always want me to tie them up, and some want to be my slave girls. It's not a coincidence. Girls who want some little Timmy Half-a-Fag that they can peg with a dildo go find some little Timmy Half-a-Fag.

Lambdal7 • 3 points • 14 June, 2019 07:15 PM

It makes them feel safe in a way.

Internet-Troll • 3 points • 14 June, 2019 09:34 AM

Heck yeah, if you tell me I can feel good doing none of the hard work I would be down too.

I'll take a look! Thank you for the reference

Bear-With-Bit • 8 points • 14 June, 2019 12:19 PM

I wouldn't want it to happen to me.

You get laid but you don't understand. Women want sexual domination. It's different from just sex.

HumanSockPuppet • 10 points • 14 June, 2019 02:59 PM

But why? I wouldn't want it happen to me.

Are you a bitch? No?

Then there's why.

RedHoodhandles • 23 points • 14 June, 2019 08:42 AM

Because we are the descendants of rapists and sex slaves.

lifeisweirdasfuck • 27 points • 14 June, 2019 10:33 AM

If you don't understand why they love it, it means you are still blinded due to social conditionment.

Whenever I do not fap for 10 days or more, I start imagining how hard I'd fuck women. And choking is just a small part. You need to get in touch with your animal side. Until then, you will never be free.

Cryptoguru777[S] • 3 points • 14 June, 2019 11:55 AM

Well obviously I already have been for quite some time, it just happens automatically. It was weird to see a pattern in all girls that not only like it but want more.

VasiliyZaitzev • 45 points • 14 June, 2019 10:55 AM

So I saw some news blurb about how most of the porn searches for "Rough sex" or "violent sex" are made by women.

I just find it funny how most of the guys replying give links to posts of others from trp. My man over here simply links others to his own posts. Fucking great

Can you give practical details to bondage for someone to use? Cuffs don't really work since my bed has nothing to tie her to. Rope?

VasiliyZaitzev • 5 points • 14 June, 2019 05:35 PM

Your bed has a bed to tie her to.

The restraints connect to a nylon cord thing that goes under the mattress or under the bed frame. There are other systems out there, I am sure, I just found this one with Google.

I prefer to use neoprene cuffs rather than rope because there is little/no danger to circulation with those. Rope you have to be careful with. There is plenty of stuff out on youtube for rope - look up "Two Knotty Boys" and you will see.

Yourgonnagofarkid • 1 point • 14 June, 2019 05:50 PM

Love it. Great work on this. Without getting into too much detail, what would you do to a girl in these restraints? Just tease with blind fold for 10-15, the duck her?

VasilyZaitzev • 3 points • 15 June, 2019 12:36 AM

Read the links. Everything you need to know is there.

Also, get her talking about her fantasies. Women seduce themselves.

MattyAnon • 17 points • 14 June, 2019 12:51 PM

Do all women like being choked during sex?

most do

Rape fantasies,

most have

or did I just pick some crazy chicks?

No, you got the normal ones.

Is this related to daddy issues?

No, they like to be dominated.

BUT be very careful. Don't be rough at first. Don't be rough with crazies. "She asked for it your honour" is not a defence in court. Be careful.

Cryptoguru777[S] • 3 points • 14 June, 2019 12:57 PM

Solid man, thanks.

FereallyRed[] • 35 points • 14 June, 2019 12:22 PM

Men are dominant.

Women are submissive.

No rocket surgery necessary.

If you present as a dominant man, then she will present her submissive self.

Might even be a shit test rolled up in there, too.

ElvisDimera • 2 points • 14 June, 2019 02:50 PM

What about the women that think they are the dominant ones? A woman I know keeps saying how she is narcissistic and proud of it and doesnt like sex unless she orgasms etc. I wish she cared more about me orgasming.

HumanSockPuppet • 12 points • 14 June, 2019 03:01 PM

Female submissiveness is the natural state. They are evolved to be that way.

Any time a woman acts dominant it is just that - **acting**.

BackOnGameJP • 4 points • 14 June, 2019 06:34 PM

And the more dominant they appear, the more they want a man to put them back at their place and dominate them.

FereallyRed[] • 8 points • 14 June, 2019 02:55 PM

Then you're living in her frame and are the submissive one.

Why don't you take charge?

Oh yeah, you're not dominant.

Casanova-Quinn • 2 points • 14 June, 2019 04:22 PM

women that think they are the dominant ones

That's a shit test to filter out the soft boys.

A woman I know keeps **saying** how

Why are you listening to her? Actions speak louder than words. You can be the dominant one, you just have to actually do it.

thrwy75479 • 2 points • 15 June, 2019 09:43 AM

If shes admits to being a narcissist, then believe her.

DigitalDragonSlayer • 1 point • 14 June, 2019 05:23 PM

OP is autistic

Cryptoguru777[S] • -3 points • 14 June, 2019 12:40 PM

That's not the discussion here. I don't see the direct correlation between being submissive and enjoying being choked to the edge of braindeath, especially not in all women. But I can't change reality, it is what it is. If I do come across one who rejects it or whatever I will have to re-assess.

FereallyRed[] • 9 points • 14 June, 2019 01:04 PM

What's more submissive than someone else holding your life in their hands?

That's the psychological.

Auto asphyxia, breath play, choking, deepthroating all cause a reduction of bloodflow and oxygen to the brain. This, in addition to rapid CO2 buildup (the brain is a huge O2 consumer) causes euphoria and heightened sensations, reality disconnections, etc, all leading to more intense sensations.

That's the physiological. (Theoretical... not surprisingly it's hard to find scientific journal articles of near death experimentation) (David Carradine)

For a lot of girls, you don't (and shouldn't) go physiological with them. The simple pressure of your hand on her collarbones (no choke, but close enough) will activate the feelings of submission. It's also a great indicator of whether she's into it.

itiswrltten • 10 points • 14 June, 2019 02:04 PM

Remember, only squeeze the SIDES of her neck, never the throat or esophagus

SwoleyMoleyFrijoley • 11 points • 14 June, 2019 01:29 PM

In other news, water is wet.

Greaterbird • 5 points • 14 June, 2019 07:27 AM

They do, but only when they see you as the more dominant one. If she feels in charge, she won't feel like she can trust you to be in control and the most you'll get is a reluctant starfish.

[deleted] • 4 points • 14 June, 2019 07:44 AM

Some do. They want to be dominated. They want to feel like you desire her so much that you're willing to push boundaries.

It's important to have good technique. Which means a broad grip, use the tips of your fingers to push into her neck and don't push the webbing of your hand into her throat. This means you won't be cutting off her supply of oxygen too much, but it's still intense.

Needless to say, do it safely. Have respect. Don't let this shit bite you in the ass later via a lawsuit.

Cryptoguru777[S] • 1 point • 14 June, 2019 08:28 AM

Yeah I know I've never had any close calls or whatever but I've seen some eyes rolling back but that just could just be the orgasm.

hmjuice • 5 points • 14 June, 2019 01:30 PM

They also liked to be called little sluts and bitches whilst having sex. They like to be used and fucked like they should be. We like to fuck like animals, go figure? Read sex God method

kaolin224 • 5 points • 14 June, 2019 04:49 PM

Of the ones I've been with, at least 80% love it. If not choking, then being manhandled, ass slapped hard, hair pulled, bitten, rough sex in general. The ones who don't usually have been through real trauma before, but even they still enjoy some of it.

Most also came from good homes, so it's not daddy issues.

My person opinion is that everyone has fantasies, and most people are kinkier than they'd like to admit. They just need the right person to bring it out of them who isn't going to judge them afterwards for liking what they like.

I've been on the receiving end of this judgement before and it's one of the worst feelings on earth.

For example, I'm into some weird shit, but one of the lesser weird things (and pretty common from what I've read) is that I really like the naughty schoolgirl thing. Every hot chick should have this outfit in their wardrobe for sexy time.

Now, one girl I was dating got super weird about it when I told her and wanted to dive into the deep psychology of why I liked it, what about it *exactly* turned me on, and all that. It took all the fun out of it and I felt like a weirdo.

Lo and behold she was molested by her father her entire childhood.

I think the choking thing for girls is about a rape/domination fantasy. As much as they deny it, many of them like to feel feminine, small, and out of control (but not really). Also, according to them the orgasms are way more

intense.

This is going to sound misogynistic but I'd go so far as to say that fantasy is built into their DNA somehow.

Ever since the dawn of time the most beautiful women were spoils of war. While most of the time this was bad news for them, there's definitely an appeal to being desired by the biggest, strongest, most powerful men on the planet, least of which was getting your brains absolutely fucked out of your skull.

The sweet, slow, tender lovemaking is great once in a while, but all people, especially women, want good, fast, hard pounding that leaves them breathless and curling their toes for five minutes. Choking offers that feeling in spades.

PolukranosEatsWords • 2 points • 14 June, 2019 05:09 PM

Yeah instincts tell them to breed with the biggest baddest motherfucker they can find. Means her and her offspring will be well protected.

omega_dawg93 • 7 points • 14 June, 2019 01:53 PM

yes they love choking or any other act that conveys raw passion and desire.

but if she's black, whatever you do, do NOT engage in any activity that involves her hair! no pulling, getting it wet from sweat, etc, and God help you if cum gets in her hair.

ZachMeadows • 2 points • 14 June, 2019 02:20 PM

I chuckled at that.

bethanyisawhore • 3 points • 14 June, 2019 03:16 PM

They love being choked, slapped, spanked, pushed and shoved around, having their hair pulled, called dirty names and much more. They want a man who has his way with them, someone who will literally 'fuck' them, which is more than just penetration.

Overcast30 • 2 points • 14 June, 2019 07:29 PM

I had the same realization a few months ago after every single one of my sexual partners liked being choked. I think it is because the neck is a very vulnerable spot, arguably the most vulnerable spot on the human body. That's why the same girls that like being choked will also like neck kisses. It is the contrast of pain and pleasure that these women crave and my ex girlfriend told me she liked it so much because I had the *potential* to cause extreme harm to her with my hand on her neck. I don't think it's necessary the restricting of airflow that is arousing to most people, but the power dynamic and control that if I wanted to, I could kill her.

scorpionkg • 1 point • 14 June, 2019 01:52 PM

If the girl like chocking, try to put yours fingers in her mouth till chock her, and the next step is to spit in her mouth. Go on. Trust me.

Last few requested I choke them too. Never had such a request the 10 years prior. Maybe there's some "social media Influencer" lots of girls are looking up to who advocates this? I've seen some of their memes glorifying it.

Theorymeltfool1 • 1 point • 14 June, 2019 04:30 PM

Submissive women often like to be choked. It's not always "daddy issues."

dadfrombrad • 1 point • 14 June, 2019 08:32 PM

Always always always put your hand on her neck when you beat her walls in. Give it a squeeze when you get bored

Eatslikeshit • 1 point • 15 June, 2019 05:52 AM

Weirdly enough, yes. When I was first starting out towards the end of high school, this was something I felt ashamed of but did anyway, as I had a strong inclination toward the whole domination thing. Light choking, slapping, and playful name calling always seemed to get them where they needed to be. I had a few since that didn't respond well to it, but it's super common. More common than not actually.

Imperator_Red • 1 point • 16 June, 2019 05:27 PM

Totally normal.
