

## **Approach many girls while out at bars/clubs, but can't for the life of me break into escalating into at least kissing. Advice?**

Hey, would appreciate some advice on this m.

I approach a lot, ask her what her name is, sarcastically make jokes / playful / getting her to smile and actually be genuinely interested in talking with me, but after 5 minutes it just gets stale and her friends pull her away and she happily leaves.

Clearly I'm not escalating

What part of Polarize, Isolate, Escalate do you not understand?

Plus, don't make out at bars. It fucks up your chances of taking her home.

Stop talking so much after she's giving you IoIs and build sexual tension. Stare into her eyes and if she stares back for some time, then go ahead and kiss her.

If there's a ton of people around, then isolate her and take her to a more secluded spot.

Get a girl alone. Just kiss her. There's like a 30-40% chance it goes well. If it feels right ur odds are like 80%

Bro you mention bars/clubs? 1. If you're planning on sticking exclusively to that environment...well, I wouldn't be exactly envious of the women your pulling. 2. In that environment women are looking for big time players to fuck because it's the most shallow, materialistic, rigid social climbing fest there is. Think about it from the chicks perspective bro, they're there hoping to score someone flashy, famous, challenging, rich, and with a very solid and hard to break social circle with status. You got that shit? If not pick somewhere more naturally within YOUR circle where YOU are dominant to score? You got friends l? Good, bang their friends. You got cool coworkers? Cool, try and set up some dates with them or their friends.

Try literally just going out to a bar by yourself just to make friends and not bang any chicks. The female pull will surprise you.
