

# Red pill themed fiction

August 17, 2019 | 0 upvotes | by [RoccoPinkman](#)

---

I've got some long journeys and a 6 hour tattoo this week, I've just finished Tai pan by James cavell and enjoyed it. It's heavily red pill themed (unintentionally as it was written in 1975). Does anyone have any suggestions for something of a similar theme? Something that will take a while to read.

Haven't read your book so I'm not sure how it compares, but *The Count of Monte Cristo* by Dumas is an excellent read with some red pill themes in it. ~460ish pages

Reach the unabridged penguin classic version. It's a masterpiece of literature

I won't ruin it for you because it's a good read/listen. The whole thing is full of good examples of intersexual dynamics, power struggles, becoming a man, life and death and some good examples of game. It's about European traders in 1800's China and is full of sailing terminology.
