

Girls asked trainer for my name to stalk me

August 19, 2019 | 1 upvotes | by [rizzyfromthe9](#)

I'm in the gym and one my trainer friends told me to write my name on a card because these two hot girls want to stalk me on iG.

I don't have iG but I wrote my name anyway.

They were across the gym and I was finishing up my workout so I left shortly after. Wasn't going to escalate two on one either.

The gym is my safe haven so I don't shit where I eat but I'm moving out in 2months so I'm putting that aside.

What's the best approach/clever opener here?

My plan is to wait till i see one of them alone and isolate and ask for the number.

How would you have done it? I see the one girl a few times a week I don't see the need to rush when I can approach tomorrow

You should have approached them both at the same time. You seem like you have a fear of approaching from your comments and this post.

I do, I have little experience approaching IRL I've just been successful online.

So approaching two girls at once in a place I go everyday wasn't ideal. But I see the girl who seemed more interested frequently so I know I have a better shot at isolation with her next couple days

I can completely understand adapting in that situation based on your fears, feeling inept at approaches, etc.

With that said, it indicates that it's something you should actively work on instead of hiding behind these types of suboptimal adjustments.

Besides, nine times out of ten, if you do well online, dealing with women in person is like you're on easy mode once you figure out the basics of how those interactions work.

Definitely true, I've always been great 1 on 1 so once isolated I had no problem.

So I told myself as an excuse that if I approach now I'd look desperate trying to get a number and wouldn't know who's number to get as it would be weird trying to get both their numbers.

It's not over though, I got my ioi from them so I can simply say hi, little small talk, say let's grab a drink then number, then leave

Approaching two interested friends at the same time is definitely not basic level anything, especially if you're nervous about approaching in general, so again, I don't blame you one bit.

I think you'll be fine with them.
