

Wife cries and gets wet at the same time. What's going on?

Didn't want to post this in OYS because it happened half a year ago at the beginning of my MRP journey when I was still high on anger.

As I wrote in OYS 1, my reason for finding this sub was that wife stopped swallowing/taking facials/on her body because the only proper way for a married catholic to climax was inside the vagina, all the while she did all these things when we were dating.

Anyway one time during sex shortly after unplugging, without informing her, I took my dick out and finished on her ass and back. She was furious, yelled at me, run to the shower and left the house without talking to me. I was in total nuclear rambo mode and completely didn't give a fuck, continued my day as if nothing happened, was joking etc once she came back. I did this a couple more times over the next few days, she left a few more times. One time as I come in the bathroom after sex I see she is crying/shaking in the shower. This obviously made me feel bad, besides I kept reading warnings about not going rambo, so I decided to chill the fuck out and focus on raising my SMV first. Next time we had sex I already knew I would finish inside her this time, but I didn't tell her. We were doing it doggystyle and she asks without looking at me: "are you going to finish inside me this time?" I say "no" just to fuck around with her. The very same moment I feel the unmistakable wave of wetness around my dick. After I finish I see she had been crying during sex. I can already hear you joking that these are tears of joy, that her beta finally became a man who takes what he wants, but they were the same tears as the previous time in the shower. Ever since that time I can't help but wonder if this was it, this was the moment, I should have just pushed through a few more times and she would have become my submissive slut again. Either way I don't care about taking shortcuts and just fixing the sex. I want to fix myself because I'm not happy with who I am regardless of women/sex. But I just wonder.

Uh dude - consent is still a thing - Jesus.

Even rape victims get wet or can even orgasm since it's partly an autonomic threshold.

It's called "arousal non-concordance" - seriously man, you are fucking up.

This is how your wife feels.

EDIT : pussy deleted the post

You kept doing it after she ran away screaming a few times?

That made me cringe. A sexlife is an organic thing, you can kill it.

Only you can read this situation, it's really specific to her.

Maybe all mucus membranes excrete at the same time? Dunno. Personally I shit my pants when I cry so maybe there's some truth to this.

CrazyLegs78 • 5 points • 19 August, 2019 05:29 PM

Literally just laughed broccoli out of my nose, you asshole.

Just keeping it real with you guys. Srs

Try having inflammatory bowel disease. You'll shit your pants a lot more than just when you cry.

Sounds shitty painful ☐ ☐

To a certain extent women are sexually aroused by strong emotions. Whether that emotion is positive or negative doesn't really matter.

I know...

Its all fun and games till the cunt says on the stand you raped her the entire marriage. FML.

Like, we have two kids together? We never had consensual sex? Ever?

Fucking batshit.

Who knows what past trauma or guilt has has lingering around that specific act.

Dial it back, Rambo. The juice (on her back) isn't worth the squeeze.

Keep improving your attractiveness. Don't get hung up on these small details.

suprathepeg • 4 points • 19 August, 2019 06:55 PM

This post makes me want to vomit in my mouth. What you did or maybe still are doing is beyond fucking Rambo you retarded shit head.

Here's some information for you to mull over. When guys get ass raped they often cum.

Your wife/girlfriend/LTR may have in the past or may now choose to fuck you like a porn star but she isn't a whore and you aren't Gengis Kahn. She is in fact a human being. I can't believe someone on the internet has to explain this shit to you.

I was going to try and describe the dynamics of submission to you but that's a waste of time. I wonder if you'll cum when she divorce rapes you?

"without informing her"

Wtf

As a practicing Catholic myself, I may be able to offer some clarity here. Church teaching is that all sexual acts engaged in by a married couple (one man, one woman...no such thing as homo marriage) must be open to life. This means, anything goes up until it's jizz time...then it's P in V, full stop.

My guess is, she recently became serious about her faith and wants to align her life with it's prescriptions. The problem is that you clearly aren't on the same page which is causing an interior crisis for her because, in the Catholic church, it's difficult to live a holy life if only one of the spouses is committed to being Catholic. And I'm not just talking about going to church on Sunday. It's a very countercultural and challenging way to live (in my opinion, the most red pill'd way to live) that isn't for everyone.

So, she may end up divorcing you because of her "reversion" (she'll have no problem getting an annulment if you are a pagan) but, it def depends on her seriousness. Were you two married in the church?

Last week I shot a load 3 feet away directly into her eyeball with some insane velocity. Luckily, she closed her eyes.

Edit: Before I came I asked if she wanted my cum all over her, she said yes. I would never shoot my load in a person's eye without consent.

ahackercalled4chan • 1 point • 19 August, 2019 05:52 PM

lol good to know

RStonePT • 6 points • 19 August, 2019 04:08 PM

Catholics really do fuck their women up.

I don't see you fixing 30 years of catholic guilt, perhaps she's more into anal than sin

So you're saying religion may be a real hard boundary, and not her hamstering away my unattractiveness and taking refuge in religion? If that's the case then she did a bait and switch. I wouldn't have signed up for this. She never mentioned those things weren't allowed after marriage and alway said they were also her favorite sexual fantasies.

johneyapocalypse • 6 points • 19 August, 2019 04:42 PM

You're not a paper tiger, you're a paper pagan.

RStonePT • 5 points • 19 August, 2019 04:46 PM

That's weird, my girl said she was bisexual when we first got together. I introduced her to a new friend last week and she got mad, shook the girls hand really hard and then went home in a huff and cried for 15 minute about how she's worried about losing me.

I mean, if you can't take a girl at her word, what good is she amirite?

red-sfpplus • 4 points • 19 August, 2019 07:17 PM

she was bisexual when we first got together.

She couldnt tell if you were a man or woman due to the size of your biceps.

LOL.

Blasting your balls into tiny raisins is nice in the summer. Who needs em anyway, I'm snipped.

red-sfpplus • 1 point • 19 August, 2019 07:27 PM

Biceps bro. My balls are all used up!

Ok thank you guys, you have successfully healed this obsession out of me. I feel physically sick even though it was six months ago and we have been back to normal since with the wife. I feel fear for the first time since

swallowing the pill, I thought I had it all figured out. I hope she doesn't turn the light switch on me and bring this up. Should I delete my account and start over?

red-sfpplus • 1 point • 19 August, 2019 08:51 PM

The only thing you swallow is cock dude.

warlockred 1 points 19 August, 2019 09:06 PM [recovered]

I know. One last thing, should I bring this up after so long, apologise to her for ever doing this? Or never mention it ever again?

red-sfpplus • 2 points • 19 August, 2019 09:29 PM

Autistic and a cock sucker?

Amazing combo.

No fuck face. You STFU.
