It breaks down seduction across the ages. Its a good reference point. However 33 strategies of war is a much better read.

Currently reading it. It has a ton of ways on how to seduce. I mean alot.... Tons of examples and very descriptive. If you like Robert Greene's writing. Definitely check this one out.

maybe you might want to read a couple of amazon reviews. one says that its not a pick up book, say like mystery method, but gives you strategies to make your woman fall in love with you.
