

Wife Moving Out: An Update

September 30, 2019 | 24 upvotes | by [themerovingian01](#)

In case you have not read my initial post, it is here:

https://www.reddit.com/r/askMRP/comments/cwaqdh/wife_moving_out/

It's been about a month since my wife told me she's moving out. She now has half the house packed up, a lease almost signed, services ordered, and furniture ordered. This past weekend she had her two daughters pack up their rooms. The apartment she picked out is nice, but is over 50% of her take-come income so she'll be broke.

She said she planned to sign the one year lease today and moving out next weekend.

Her thought is that "one year is short" and we can "work on things" while she "takes space." She says she needs the space to work out her own priorities, her wounds and habits, her sexual desires, her frustrations with me, blended family issues, social issues, and other family issues. She also wants to see if we actually miss each other and want to spent time together.

In the last moth I consulted several divorce attorneys, separated our finances, took steps to protect my assets, and also went to individual counseling. The therapist says she almost certainly has borderline personality disorder.

I've been focusing on outcome independence and making the stay plan the same as the go plan.

I also picked up a side plate that is fun but definitely not a replacement for my wife.

Last night I mentioned that if she moves out we are 100% done.

This morning she's freaking out and saying she'll stay because I'm forcing her too. She said " You've created that requirement. You set the boundaries and you said that's how it is for you. You will not work on things without me in the house. That doesn't leave me a choice ."

Right now I'm a bit lost. Do I let her go?

Just kill the puppy already. She's begging you to.

Just kill the puppy already. She's begging you to.

/thread

Buuuut...She basically told you she wants to ride the cock carousel and keep you on the back burner.

Fuck. That. Bullshit.

hack3ge • 18 points • 30 September, 2019 11:56 PM*

I don't understand how this doesn't just make a dude angry. She should be dead to him yet he's hamstering keeping her.

themerovingian01[S] • 6 points • 1 October, 2019 12:24 AM

Oh I does make a dude angry.

Westernhagen • 3 points • 1 October, 2019 05:01 PM

Not angry enough to know the answer to the question that should not even need to be asked (" Do I let her go?").

BobbyPeru • 2 points • 3 October, 2019 01:31 AM

Yeah, because he's hamstering

LifeSucksIfYouLetIt • 2 points • 2 October, 2019 10:50 AM

If you are angry, then why are you asking advice if you should let her go?

She should already be gone. Give her the papers today if you can.

I also read in one of your comments that she had a EA... Brother, dump the bitch.

[deleted] • 2 points • 3 October, 2019 01:33 AM

This is absolutely correct. Sounds like the bullshit my ex-wife tried feeding me before I booted her ass out 5 years ago. Don't let her use you. Value yourself. Think of what's best for you.

BobbyPeru • 3 points • 3 October, 2019 01:59 AM

Exactly. That's one thing I actually slightly envy in women. The ability to just turn the off switch and do what they think is right for them... it's like a cold shank of your on the other side.

Quick tl:dr story... my wife once agreed with me that we should separate (years ago)... then we had company come over like 5 minutes later. I was a bit in shock it was really happening (worked it out though)... but I remember her laughing it up with the company like absolutely nothing had happened while I listened from the other room, in shock.

Cold. As. Fucking. Ice

But I don't hold it against her- it's on the AWALT spectrum

[deleted] • 4 points • 3 October, 2019 02:18 AM

Absolutely correct. They are hard wired to turn on and off to situations like that. It's a survival mechanism. Sucks for us, because we as men value relationship equity and history together. You can use the concept of relationship equity with one of your male friends, your dad, a male coworker, male business relationship, etc that you "fuck up" or wrong, or mess up with. If I trust you, like you, and our relationship has value, I'll forgive that, let it ride, overlook it, give another chance, etc. I.e. man to man, I'll give you latitude or the benefit of the doubt. We can talk it out LOGICALLY and you'll SEE our past and the value it has.... FORGET THAT DYNAMIC WITH A WOMAN... doesn't exist! They love it when times are great, but can and will want to bail quickly when times get tough. They may not bail, but they have to see value or benefit in riding out a tough time, but they can flake any time. OP need to understand this.

BobbyPeru • 2 points • 3 October, 2019 02:32 AM

He needs to, but he most likely won't. I'm a men's coach, and I get a lot like him, and unfortunately the outcome is predictable

second-last-mohican • 1 point • 15 October, 2019 01:20 PM

Its because in their head, they gave up all that male attention for you. They settled etc

FRedington • 2 points • 1 October, 2019 04:38 PM

If she is indeed BPD, then you probably should call it quits. From what I've read BPD is not amenable to talk therapy and there is no medication that can be used in treatment that helps.

If life feels like a roller coaster: from love to hate from her, then my belief is that it is likely BPD. -- Call it quits is what I'd do.

[deleted] • 4 points • 1 October, 2019 10:17 PM

99+% of men that come here saying my wife is BPD are just looking for an excuse to blame her for the problems.

Regardless OP - the marriage is fucking dead and she's overtly telling you SHE IS GOING TO FUCK OTHER MEN. Which means she already is... it's dead and dusted... time to move on.

[deleted] • 59 points • 30 September, 2019 08:33 PM

Do you want permission from us to divorce your wife? Yes, go ahead.

Chances are she is fucking someone else anyway.

[deleted] • 6 points • 1 October, 2019 02:11 AM

Chances are she is fucking someone else anyway.

That's pretty much 100% certainty.

[deleted] • 1 point • 3 October, 2019 01:34 AM

She definitely is. Boot her out.

Awakeningof17 • 47 points • 30 September, 2019 09:09 PM

Similar situation here, my wife left with the kids a few months ago. I ramped things up with lawyers and managed to negotiate a decent separation agreement. I will pay her half of my equity which sucks, but it's a small price to pay for freedom. Kids were noticeably affected by it all and it sent me into a bad anger phase where I started drinking a lot and being a fuckin faggot.

Finally got my shit together and started hitting the gym hard, getting my finances in order and doing lots of cool shit with my kids. After being in a deadbedroom for years with duty sex once every few months, things are a bit different now. Joined Tinder two weeks ago and currently have a few plates on the go, one of which is a 26 year old submissive blonde chick who comes over whenever I want. The stress I have now is having to wash my bedding all the fucking time.

The kids are doing really good now, settling into their two homes and are much happier. Speaking of which, they love coming to my house because it's much more relaxed and fun for them.

Your wife has made her bed, let her lie in it. Push on hard with arrangements for your new life and do not let her manipulation attempts affect you. Lift, get your finances sorted and be fucking awesome for your kids.

red-sfplusplus • 22 points • 30 September, 2019 09:30 PM

Just dont fuck up like I did and let her find out you are fucking other women.

Before the ink is dry anyway.

Awakeningof17 • 10 points • 30 September, 2019 10:18 PM

She discovered I had been texting another chick I knew before I joined Tinder, but not even any fucking involved and she completely lost her shit, trying to create all sorts of drama. Doesn't want me and doesn't want me to be with anyone else, go figure. I can totally see your point Red, great advice. I found out she was with a new dude the other week..... she has no idea I'm aware she's been fucking, I haven't mentioned it and have no plans to do so. Nothing to gain from that shit, AWALT.

red-sfplusplus • 3 points • 1 October, 2019 01:06 PM

I haven't mentioned it and have no plans to do so

My absolute biggest fear when my D process started was finding out she was fucking other men. Especially before I started fucking other women.

I went balls deep in the first slut I could. Just to check it off. The more bitches I fucked, the more fucking I did lowered, and lowered that anxiety.

I mean, I was with her since high school. The thought of her on her back, legs open with some other dude between them mad me sad.

For a while.

If you fucking mention it, you will be the absolute biggest faggot on the face of the planet.

And not the faggot that ENJOYS getting railed in the ass.

Doesn't want me and doesn't want me to be with anyone else, go figure.

My ex-wife is the same way. When a woman loses a HVM she will go fucking insane. I dont know how HV you are.

I think the difference here, is that your wife is already out fucking.

I do not believe my ex has seen a dick other than mine.

Its likely part of the reason she is still so pissed off..

Awakeningof17 • 2 points • 1 October, 2019 02:39 PM

I've been preparing myself for months for the inevitable new dick newsflash. Well, as well as you can prepare for the thought of your once unicorn getting bent over and railed. I'll admit it did hurt initially when the news came in but my new, blonde, younger plaything happened to be on her way to see me. We had a lot of fun that night. Now IDGAF the ex is getting smashed, as I've seen first hand what's out there waiting for me. As for my value? Judging by the interest I'm now receiving I'd say pretty fucking high. Thing is, I can tell the ex fucking knows this too and is aware she's fucked things up by walking away from a good thing. My value is only going to steadily increase over the coming months / years so I fully expect her to have a complete meltdown at times, which is not great since she is after all the mother of my kids. I'll deal with this shit as and when it happens.

itiswrltten • 6 points • 1 October, 2019 05:33 PM

Do yourself a favor. Don't seem happy. Seem depressed but coping. Convince her you're just trying to be professional while she suspects you are in pain.

Deep down, they know losing a high value male after the majority of their SMV is gone is a *absolute failure* on their part. This is the reason women always need you to be perceived as a piece of shit after a breakup, regardless of the facts.

Anything else would be taking responsibility.

If you seem happy, she'll do everything possible to make you suffer.

Awakeningof17 • 1 point • 1 October, 2019 09:20 PM

You're right, she's already done her best to convince family and friends that I'm a piece of shit and has actually created some friction on my side. But all the people close to me know how events have unfolded and have seen first hand the narcissist in her.

Also, when she first left I appeared happy and she did take every opportunity to try and fucking take me down. I'll move on with things now without being visibly overjoyed. STFU, with minimal contact other than logistics to do with the kids.

itiswrltten • 2 points • 1 October, 2019 09:48 PM

That was the one way I fucked up. Ex's dad hired a PI (against their lawyer's advice I'm sure). I filed on a Tuesday and was out in the city on Thursday, got the number of a Colombian smokeshow, and proceeded to hit the town with her all weekend. She became a 3month fwb.

Anyway, I know ex saw pictures, and maybe even my dating app profiles. Sent her and the cunt parents on the WAR PATH. Here I was literally days after filling with a total hottie and all my crew crushing it in the club.

They need you to be miserable. Play the part.

Here's an old pic for funsies <https://ibb.co/GCnzfXb>

BobbyPeru • 1 point • 2 October, 2019 11:55 PM

Wait, I don't know how I missed this. She has 2 daughters and you don't have any kids together, right? Holy crap, that's a get out of jail free card. Help her kill the puppy by telling her it's OK to move out. Quit that BS of its over if you move out- it's creating guilt, making her look like the "bad guy." She will just jostle until she can make you the bad guy- and you

already have her enough ammo by letting her find out you're dating.

You're Actions suggest you are manipulating to keep her. Stop that BS. Tell her to GTFO.

Kill the puppy

regret it

juliusstreicher • 2 points • 6 October, 2019 05:43 AM

Are you kidding??? He's probably asking lawyers if he can get a court order to make her stay with him... he'll pay whatever it takes!

BobbyPeru • 2 points • 6 October, 2019 06:13 AM

Can't wait for the "we're living happily ever after" post after her branch breaks

Brother, one thing is absolutely clear: she's already gone. She doesn't want you. She wants to lie to herself and make you the bad guy for not putting up with her bullshit.

tspitsatgp • 7 points • 30 September, 2019 11:03 PM

There it is. This is a pressure switch of sorts. She has no intention of working things out, she just doesn't

want to be the bad guy who initiated the separation, so she's flipping it onto OP now.

Iammrp2 • 54 points • 30 September, 2019 08:36 PM

She wants to fuck other dudes and have you as a backup. You said no. Now she's pissy. Tell her to sign the lease and get out. Why are you messing with her? Her kids are not your kids. Go find a girl without kids and get her pregnant to have your own family and quit playing house like a fucking woman.

side plate is definitely not a replacement for my wife

Ah I see. You're a faggot with oneitis about a bitch that's making you raise another man's kids and you've been doing this for 6 goddamn years.

UEMcGill • 11 points • 30 September, 2019 09:02 PM

That's also why a plate is called a plate...

Iammrp2 • 5 points • 30 September, 2019 09:48 PM

And also why it isn't called a branch

Balls_Wellington_ • 2 points • 1 October, 2019 01:02 AM

ScaryCan 6 points 30 September, 2019 08:25 PM* **[recovered]**

why would you want to make someone stay if they clearly want to ride the cock carousel?

hack3ge • 25 points • 30 September, 2019 08:30 PM

She is already riding it - he's just not aware.

All her actions indicate she has someone on the side but the branch isn't stable hence why she freaked out about him saying he won't work on shit if she leaves.

Fuck her - tell her to pack her shit and get out of your life. If not she's gonna just keep hanging around and you are gonna wish you dropped her when you had the chance.

effyouasshole • 15 points • 30 September, 2019 09:42 PM

The therapist says she almost certainly has borderline personality disorder. [...] the stay plan the same as the go plan.

No, dude. When your wife has BPD, *there is no stay plan*.

Because BPD.

Last night I mentioned that if she moves out we are 100% done. This morning she's freaking out and saying she'll stay because I'm forcing her too.

And now you see the value in STFU. You triggered her BPD and got nothing useful in return.

Right now I'm a bit lost. Do I let her go?

She has BPD. End of story.

EasyDaysHardNights • 9 points • 1 October, 2019 02:12 AM

This.

I dated a girl with BPD. Total fucking emotional roller coaster. Never again. Run your ass off and don't look back.

BostonBrakeJob • 10 points • 1 October, 2019 05:10 AM

So look man, the "right" answer here is to tell her to get the fuck out, then go eat some shrooms and climb a mountain.

But **you** don't know what you really want right now. Do you?

So here's another option. Take it or leave it. Tell her you've thought about it and you like the idea of a break. No more. No less. Just broken record that shit until she starts to seriously consider if you're retarded. Hell, do it until **you** start to think you might be retarded. Then do it some more. Help her pack her shit. Help her load up her shit. And wave her goodbye as she pulls out of the driveway with her shit. Don't help because it's "good", help because it hurts you to do it.

You're going to want to tell/text her stupid shit like "I miss us so much" in the days/weeks/months(?) after in an attempt to ease this pain. Flip yourself in the sack with a rubberband instead. Seriously, don't touch your fucking phone until the urge to do that shit has passed. *Then* you can pick your phone up. Use it to call some buddies to go do [insert hobby here] instead.

Keep fucking Tinder girl. Find a few others. These girls are not your therapists. They just wanna hook up, and so do you. Don't complicate that. Just enjoy it for what it is.

If you need to talk to someone, talk to your therapist. Call a close friend. Your parents if you're lucky enough to have that option. Or come here and puke it all out. **Do not** talk to her about it.

.....Or you can talk yourself into taking her back. The choice is yours. Always has been.

RisingUpAgain • 1 point • 1 October, 2019 02:11 PM

This dudes lived a little lol

The real question is, how many times do you repeat this cycle before you choose not to take her back OP?

IncitingDramah • 9 points • 30 September, 2019 08:08 PM

Fuck what she say. It's a shaming tactic my dude. You lay the damn boundary, if she doesnt like it she can kick fucking rocks.

She's currently setting you up for a safe fall.

BPD, or not stick to your guns. Shes obviously on her way out and you've given her more than enough chances. If you bend any more to her will she's gone.

Basically stick to your guns and ignore her chatter. Shes running her mouth to guilt/shame you. IGNORE WORDS WATCH ACTIONS

SBIII • 8 points • 30 September, 2019 08:33 PM

What do you want?

Think about that.

Do you want her to stay?

Do you want her to leave?

Think about that.

Think about what you want.

Then do it.

themerovingian01[S] • 3 points • 30 September, 2019 08:36 PM

I'm honestly having a difficult time deciding if I want her to stay or not.

A month ago I would have done every beta thing possible to make her stay.

Now after a month of counseling, thinking about things, preparing my plans, I don't know anymore. I could go either way.

[deleted] • 11 points • 30 September, 2019 08:48 PM

So you come here and post "Hey guys, I don't know what I want anymore. Can you help me figure out what I want in life?" No, we can't. Only you can do that. Go do mushrooms and climb a mountain or something dude.

If you don't know, then her manipulations will keep you on the back burner. Until she is done with you and spits you out. First, she will thoroughly make you the bad guy with our friends and family because now she has some dirt on you about you dating. She is just biding her time and gathering information to use against you, and she also wants you on the back burner in case In case her branch breaks. Dude. You need to make a decision, or she will make one for you, and I promise you that the outcome in the end won't be good

YES. Let her go.

You're better off without her.

helaughsinhidden • 5 points • 30 September, 2019 09:42 PM

Wow, you set a boundary, you were outcome independent, you called her bluff, she caved. Now you stand there like Wiley Coyote actually catching the roadrunner, but haven't a clue what to do next. That's awesome. Well, the truth is you don't go anywhere. It's up to her to move or stay, 1000ft rope. If you are actually being outcome independent than you do you and she can either get on board with the newer better version of you or leave.

Right now I'm a bit lost.

After something like this, expect some tests, both shit and comfort.

Not much post history or background here, but from your OYS from 5 months ago, you were half assing some stuff then.

Keep those finances separate and probably never combine them again and keep your assets protected.

Keep going to the gym. If you haven't yet, make sure you go 3 times a week minimum and follow a legit program like Stronglifts, Wendler, or Grayskull.

Keep DARE-ing, gaming, initiating, and leading.

Sounds like you guys have some sex issues. Let her know it's ok to suck your dick if that's what you want my asking her to do it and give a lots of encouragement and instruction. Turns out, lots of women are self conscious about it and you tell them "yes" "more" "lick it" and make all kinds of noises they really enjoy that.

Have you gym bag ready. When you initiate with this woman, if she gives you a firm no after you've been playful and flirty with her, shrug and say "no problem" and head off the gym without being butt hurt.

Now that she's actually hit the end of the rope and swimming for the boat, continue to set more boundaries. Like when sex is boring, saying "this isn't working" and tell her what you actually want her to do.

themerovingian01[S] • 1 point • 1 October, 2019 02:48 AM

Her idea of sex issues is that i'm a sex addict because I want to have sex 2-3 times a week.

MisfitPL9 • 16 points • 1 October, 2019 03:06 AM

So does she - just not with you.

Kill the fucking puppy.

helaughsinhidden • 2 points • 1 October, 2019 01:25 PM*

"Sex addict" is a shaming term that works pretty well on *nice guys* who are using covert contracts. It also is works to block men who are weak at closing. You are probably coming off as a little kid who keeps asking mommy for another cookie. In other words, you look pathetic and you are in her frame still. Use gym bag routine with her and whether you go to see your plate or lift plates that particular time is up to you, but you can give her first shot your time and sex if you want to that way. Stay with her or let her leave, you need to work these out of your mental programming either way, so might as well sharpen yourself against her while you are together still.

You've got some pretty serious oneitis too tolerate this much abuse.

I want to recommend some specific materials, but before I do that, what have you actually read from the sidebar posts and books?

themerovingian01[S] • 2 points • 1 October, 2019 09:06 PM

In other words, you look pathetic and you are in her frame still. Use gym bag routine with her and whether you go to see your plate or lift plates that particular time is up to you, but you can give her first shot your time and sex if you want to

All of the posts. For books I've read NMMNG and I hate you, dont leave me.

helaughsinhidden • 1 point • 1 October, 2019 11:24 PM

Married Man's Sex Life Primer by Athol Kaye if you are absolutely trying to work it out. Rational Male by Rollo Tomassi if you are absolutely going to leave. Read both, just adjust the reading order accordingly. Also highly recommend the youtube series from BluePill Professor called "Saving a low sex marriage" as a really good crash course. Sorry I don't have links, I'm on mobile

now.

themerovingian01[S] • 2 points • 1 October, 2019 11:32 PM

Thank you. I have both books and plan to read them ASAP.

RicoDunne • 4 points • 1 October, 2019 12:58 AM

Last night I mentioned that if she moves out we are 100% done. Well that was a dumb and weak way to negotiate attraction. If she really wanted to still be with you, then she would not be making arrangements to leave all. Your statement just made her realize that she would be blamed for the divorce and she is positioning her ego to protect it by throwing this back onto you.

JameisBong • 4 points • 1 October, 2019 04:09 AM

Play nice,tell her you want things to workout but you need space too,you know for counseling and shit. Next her immediately she leaves the house and her two daughters. Being a step father was a mistake, don't do it again. Go out there and live your life.

coinbaserep • 3 points • 30 September, 2019 09:33 PM

She's looking for tingles and your not giving them to her.

Let her go and work on yourself

[deleted] • 3 points • 1 October, 2019 02:23 AM

This morning she's freaking out and saying she'll stay because I'm forcing her too. She said " You've created that requirement. You set the boundaries and you said that's how it is for you. You will not work on things without me in the house. That doesn't leave me a choice ."

Just pretend that never happened and go about your business. All of your actions to this point were good. You were proactive, now stay that way. Just keep up what you were doing. You want nothing to do with BPD, that's a trainwreck and that's why you're here asking help from random strangers on the internet. HER trainwreck is and will become YOUR trainwreck if you don't end it now. Is that what you want your life to become??? I mean seriously, is it? Insanity is doing the same thing over and over and expecting a different outcome is it not?

Keep seeing your therapist too, you are dealing with some attachment issues and codependency. Codependency is common when your partner has BPD or similar psychological issues. It's like relationship addiction, sneaks up on you.

mrpthrowa • 3 points • 1 October, 2019 08:47 AM

Last night I mentioned that if she moves out we are 100% done.

STOP TALKING YOU IDIOT.

A woman who moves out on her own is bliss. Don't interfere with that, DON'T INTERFERE WITH AN ARMY IN RETREAT (art of war). Let her go, and then be done 100%.

umizumiz • 3 points • 1 October, 2019 04:47 PM

If she's BPD, accept it will never end.

Divorce her.

Continue to be her "husband"(in her mind), while going on with her life.

She will actually be happy with this.

NMMNG_1 • 3 points • 1 October, 2019 07:38 PM

The therapist says she almost certainly has borderline personality disorder.

1. You still have oneitis.
2. Also, I would find a different counselor.
3. If you don't understand why, read 1 and 2 again.

adeptintact • 3 points • 2 October, 2019 01:20 AM

So you are 35 at your prime, SMV increasing. She's 37 way passed the wall, single mother with 2 kids that are not your own. She wants to leave.

From a strict red pill perspective she cuckolded you by having you spend your financial resources raising children that are not your own. Time to grab your sack and divorce. Your life will be so much better while hers will go to shit. Don't be the white knight that continues to save her.

themerovingian01[S] • 3 points • 4 October, 2019 11:35 PM

UPDATE:

I told her since she's already on the hook for the apartment for at least 6 months she might as well move out. She rented a moving truck and has people coming to help her tomorrow. I do feel sad. When she's not being a BPD cunt I enjoy our life together.

vplatt • 1 point • 6 October, 2019 07:53 AM

:(

Be looking forward to a better tomorrow though. Chin up.

simbarlion • 2 points • 30 September, 2019 08:38 PM

Sounds like the ultimate test of if she wants to be with you or not.

You win either way when you think about it.

FoxShitNasty83 • 2 points • 1 October, 2019 05:35 AM

Congratulations you no longer have to put up with a woman who dosent want you. Drown yourself in pussy and pick a better one

[deleted] • 2 points • 1 October, 2019 01:43 PM

I would not have dropped the "100% done if you leave" line now (after she and her daughters are packed) - This is something you drop very early in the threats or AFTER she has left and the nail is in the coffin.

Let her go, fuck.... she WANTS to go. Its pretty emotional to have your children 'pack up and leave'their house yet she crossed that line... at this point you should be pushing her along to make it even easier. Is the house under your name? Shared? I'd fucking have a new set of locks in the closet the moment she left if it was legally allowed where you live

themerovingian01[S] • 2 points • 1 October, 2019 09:04 PM

It is under my name only and I had it before the marriage.

ArborioRice • 2 points • 1 October, 2019 02:49 PM

Dude, she checked the fuck out and did it in a way that's abundantly clear...if you have any self respect you'll kill the puppy, take your lumps, and move on happier than ever before. Ignore her manipulative bullshit, keep your boundary like you're fighting to the death.

Half the guys here telling you to terminate this shitshow have been in your shoes to some extent and have gotten over the whole "do i stay or go" bullshit, me included. Your future self will thank you.

Bedtimeshine • 2 points • 1 October, 2019 05:28 PM

Why haven't you already filed for divorce? You should have done that a month ago. And she's moving out because of another man...

screechhater • 2 points • 2 October, 2019 12:41 AM

You are going to have to dig deep and truly make a decision.

There really is no upside to her manipulation of you. How do like all this drama ?

You make a statement that a plate "can not replace her." Correct. The plate is a different person.

I think you need to let her go and see how your life improves I would highly recommend you stop with the ultimatums and realize abundance and frame.

Good luck. Don't forget to lift

JoeBuckYourself • 2 points • 2 October, 2019 05:24 PM

I don't even understand how any of this is even difficult for you.

Next.

[deleted] • 2 points • 3 October, 2019 12:02 AM

Buddy, let her go / kick her the fuck out. She'll treat you exactly the way you let her. She's done and she's nuts. Sounds just like my ex-wife, who is a BPD. She came home about 5 years ago and told me that she was in love with another man, then days later, started that shit of "I need to find myself... we can work on us... date each other.... discover a new beginning... blah blah..." bullshit!! I kicked her ass to the curb and never looked back.

A bit if advice in divorce. Don't know what state you're in (assuming you are in the USA), but most states have conflict of interest laws that say that she can't select an attorney you consult with or pay a retainer to. If you have assets to protect like a business (like I did), go to the top 5 or 10 divorce attorneys in your city known to fleece men and pay them a \$1,000 or \$2,500 retainer. It might cost you \$10k to \$15k up front, but you can conflict them all out. Then chose one, get your divorce, then ask for all the retainers back. A bit of advice. Worked like a charm for me. I still had to pay of course, but I know I got off way better than I could have if I didn't do that.

Value you. Trust me, you'll meet someone better.

skorobogaty • 2 points • 3 October, 2019 06:50 PM

The apartment she picked out is nice, but is over 50% of her take-come income so she'll be broke.

You believe she's going to be paying for it all herself?

The therapist says she almost certainly has borderline personality disorder.

Her therapist, or yours?

You guys are done. She dumped you, now accept and get over it.

ManguZa • 2 points • 30 September, 2019 07:55 PM

Absolutely not.

She test you to see if you're a beta or if you have boundaries and self respect. If you say amen to her she will lose all her remained attraction and divorce you. If you show her your will and that you're firm in your boundaries she'll want to stay with you. She try to culpabilize you to see if your boundaries are firm or not.

tom-anonymous • 1 point • 1 October, 2019 01:03 PM

She's freaking out because at the end of the day the fear of loss is much greater than the desire to gain.

Women who cheat don't think they will get caught in the moment, so the fear of loss is less than the dire to gain in this case.

However, now that you gave her the ultimatum, the fear of loss is imminent and is now greater than the desire to gain. If you back out of this ultimatum, you lose everything. In addition, if you stay with her, then her chemical high of losing you will fade and you will be back to square one eventually.

Kill the puppy. Save your dignity. Use whatever fear you have of not getting someone as pretty as her as fuel in the gym.

BTW, she is either cheating on you, has cheated on you, or has someone in mind.

themerovingian01[S] • 1 point • 1 October, 2019 09:07 PM

She's freaking out because at the end of the day the fear of loss is much greater than the desire to gain.

This is 100% true and she admits it.

tom-anonymous • 1 point • 1 October, 2019 09:20 PM

So are you going to stay? I really hope you don't. You're going to kick yourself later if you do. I felt similar to you when I found out about my wife's affair. She's higher SMV than me. However she tried to kiss my butt from day 1 and I still left. No price for my self respect. Good luck man.

themerovingian01[S] • 0 points • 1 October, 2019 09:24 PM

If I had and evidence or inclination of an affair I would end the relationship immediately. That is a deal breaker for me.

I suspect a lot of people here aren't actually married. No matter the circumstances divorce is difficult.

Awakeningof17 • 2 points • 2 October, 2019 07:36 PM

"I suspect a lot of people here aren't actually married. No matter the circumstances divorce is difficult."

You come to r/askMRP for advice, then suspect a lot of people here aren't actually married? Most people here are either heading for divorce, in the process of divorce, or have already been fucking divorce raped. You're damn right divorce is difficult. In that case you should go and buy her some nice flowers then beg her to stay. Maybe shed a few tears too that will fix everything.

tom-anonymous • 1 point • 1 October, 2019 09:28 PM

Curious to know, would your decision differ whether or not it was just emotional (not physical)?

themerovingian01[S] • 0 points • 1 October, 2019 10:19 PM

She had an emotion affair two years ago. At this point any type of affair would be a deal breaker.

hack3ge • 4 points • 2 October, 2019 07:47 PM

Dumbass faggot there is no such thing as an emotional affair - they fucked and the sooner you come to terms with it the better.

vox_veritas • 1 point • 1 October, 2019 07:41 PM

"If you choose not to decide, you still have made a choice."

juliusstreicher • 1 point • 6 October, 2019 05:35 AM

I mentioned that if she moved out, we are 100% done."

Wtf??? She gives you a fucking encyclopedia of why she doesn't want to be with you and that she's going to be fucking around, and she goes to the effort of apartment shopping, packing, telling her kids to move their stuff, and you give her the option to stay??

You are a faggot-she's playing the whore and you worry about her rent!!

Beg her to stay, and offer to pay for her rent. She only needs a year to go ride the cock carousel-what's one year, when you can have a lifetime of love afterwards??

Faggot.

second-last-mohican • 1 point • 15 October, 2019 01:22 PM

Bad move with the ultimatum.. should've kept quiet and let her go. Be stoic etc

themerovingian01[S] • -4 points • 30 September, 2019 08:44 PM

When I think about it I feel I care more about our shared history and our past than our current status and future. I also get hung up on the fact that she's very beautiful and very smart and if I'll be able to find someone as hot and as smart.

Notice I did not say nice.

My side plate is not as pretty, not as smart, but extremely nice and very giving. She wants to suck my dick and give me a back massage every night.

SteelToeShitKicker • 9 points • 30 September, 2019 10:22 PM

She wants to suck my dick and give me a back massage every night.

Ahh, I remember those days. For sure they are missed. Just remember that's any new chick that wants you to bite down on the hook.

red-sfpplus • 3 points • 1 October, 2019 12:58 AM

And here I am thinking I am the hook. ☐☐☒☐

architectintx • 8 points • 30 September, 2019 09:14 PM

You will have a tough time in life if you dont find your balls quick enough and put them back where they

belong.

The cardinal rule with women [1] they are their first priority [2] Hypergamy is real and ever operating process in their minds 24/7/365 up until they die.

My 2 cents:

1. She will look you dead in the eye say we are soul mates and the next morning chat up with some random guy at the coffee bar if she "feelz" she has a better /exciting future with him than you - Hypergamy doesn't care.
2. When in a relationship with a woman, she always plans two steps ahead of you (or atleast presume she does). That would give you the right impetus to think through things and act in your best interest.
3. You already sub-communicated that you are low value, so she instinctively tries to distance herself from you (less the society/other harpies around her tells her she can do better than you)
4. If a woman divorces the first time, she has crossed some invisible line that she can never fall back to. She has done it once, so the next time would be a little easier and well planned. No surprises the second time around. I have seen women who worked up their finances first and then back calculated how many marriages should they get into to meet that financial goal called "Alimony"
5. As Rollo drum beats at every opportunity he gets, KILL THE BETA BEFORE IT KILLS YOU

So craft your strategy based on these cold facts, you will come out ok in the end.

Awakeningof17 • 6 points • 30 September, 2019 09:30 PM

I thought my ex was a 9. I was hung up on the same shit. Now I see the next wave of 20-25 year olds and realise she's just made contact with the wall which will brutally decimate her over the coming months /years. I also found out she was with another dude (Chad Thunder Dong) the other week. She was likely fucking him and ready to monkey branch during the final few months of our relationshit. I had oneitis bad, but it's amazing what some fresh, young chicks, who love to take a load down their throat, can do for that problem.

themerovingian01[S] • 2 points • 30 September, 2019 09:36 PM

This is what im hoping for.

Awakeningof17 • 4 points • 30 September, 2019 10:29 PM

Don't 'hope' for anything, if you want it put the work in and get it. Right now you're clouded with all the emotions and bullllshit. I was there too, fucking miserable existence. Also, remember you can't be friends with her, I tried the nicey nicey friend approach and it just fucks with your head and opens you up for even more manipulation. I wasn't hers, it was just her turn. Get that into your head if you value yourself. I didn't realise my value but now I do, and life is beginning to get pretty fucking awesome again.

EasyDaysHardNights • 3 points • 1 October, 2019 02:18 AM

if I'll be able to find someone as hot and as smart.

Of course you won't. That's why your current wife is leaving. She found someone better.

That said. If you improve yourself ... you may be able to get someone who is better than your current wife. Welcome to the game player.

She wants to suck my dick and give me a back massage every night.

It's called auditioning. She's lining up to be the next chick to put you on a drip feed.

SelectAirline • 1 point • 1 October, 2019 01:11 PM

You sound like the guy who sits and waits for life to happen to him. Things never go well for that guy...

themerovingian01[S] • -1 points • 2 October, 2019 11:53 PM

So handed in the signed lease earlier this week and put down the deposit. The lease started 10/1.

Now she's changing her mind and wants me to call the apartment company and see how to get out of her lease.

tom-anonymous • 1 point • 3 October, 2019 08:28 PM

So you're just going to say "Hey welcome back. Glad you can stay!"?

I think what she did is just as bad as an emotional affair. You can't trust her. The fact she's asking you to get her out of her lease makes me think she absolutely has no respect for you. It's all a game to her and you're playing along.

themerovingian01[S] • 1 point • 4 October, 2019 04:22 PM

It is going to cost 10 grand to get her out of the lease so I don't know about that.

tom-anonymous • 2 points • 4 October, 2019 04:24 PM

So now you're going to take her back? If you stay married you go back to a joint financial situation. That means she just costed you 10k because she didn't have her shit together and you're allowing it.

juliusstreicher • 1 point • 6 October, 2019 05:58 AM

You will pay it. Don't try to fool us or yourself with all of this "I don't know" bullshit.
