I think this needs some attention.

"The manosphere has been filled with frauds for far too long. It is not the "get rich quick" and "get laid tonight" marketers we need to be concerned about. The real threat are deep fakes committed to true con-artistry by public lies, deception, and community-specific virtue signaling. The dating coaches that get openly criticized are low hanging fruit, a distraction from real threats that lurk within. Wanna be cult leaders role playing as masculine men out to help others. These men must be tracked down and punished mercilessly. Anthony Dream Johnson 1st President of The Manosphere"

I took a screen shot of it in case it gets removed.

I hesitate to report it to Youtube because:

1. don't want to give the manosphere a black eye
2. the threat will exist whether or not the post is there. Leaving it up alerts people to the issue.

Why should we as a community care?

Wise up, dumbass. It is all fun and games until this nutjob flips out and kills someone in the community.

Stoicism isn't always the answer. Sometimes it is time to act.
