

Well behaved Karens seldom speak to the manager. "feminists appear to have managed to avoid the temptation to scold [the Karen meme] as sexist. They understand that lashing out at the meme and defending [Karens as] the embodiment of feminist virtues would only make the meme more powerful"

The virgin redditor:

Name calling

Fear to stick up for themselves except in groups

Crab in bucket mentality

Desperate and approval seeking

The CHAD Karen:

Does what she wants, when she wants

Always demands satisfaction for herself and her child

Always cuts to the chase, gets straight to the decision maker and manager. Knows how to get things done.

Not here to make friends, here to WIN

There are two types of Karens. The ones that are wrong and the ones that are right.

I mean, people who work in retail are not smart. That's why they work in retail. This or they are young, which still means they lack life experience and have no idea how to handle a situation that is out of the usual. Also, they are not supposed to handle unusual situations. They get the manager for this. But somehow, people in retail think it is a deep offense if someone demands the manager. Like, the customer is literally nice to you. The customer knows that you just follow store policy and are not allowed to give what the customer wants, so he asks for the manager. If the retail worker is smart, he is happy about this and gets the manager. Now the customer is not his problem anymore.

Honestly, a lot of retail workers are idiots. They do not know the law, they only know store policy and think this is the law. And they defend the store like they defend their own honor. Damn, just get the manager! You are not paid for this! Why are you wasting time?

I wish we could a photo snapshot of the median redditor so that normies in normie threads could get a look at just who is giving them bitch advice and shaming them.

AubChris • 3 points • 7 October, 2019 09:18 PM

I keep getting banned on discord for being a catfish cuz my pic is my roided out physique, they would just say we were catfishing when we posted if reddit had that lmaoo.

_do_not_read_this_ • 3 points • 6 October, 2019 11:52 AM

Shit, by that definition *I* was the "Karen" last night at the restaurant when I complained to the manager about something, LOL.

But I got Results! <slams closed fist into open palm for emphasis>

Now I'm going to generalize the Karen: Upper middle class, spends loads of cash of clothing, attempts to be trendy, has not nor attempts to truly accomplish any great thing in life apart from speaking to the manager, and is white. I think there is a lot there that feminists want to avoid. Logically they would have to pull off some serious mental gymnastics to avoid hypocrisy.

mrrooftops • 32 points • 5 October, 2019 06:44 PM

Upper middle class? You've bought into their self delusion. There're Karens in all class but they all think they are Upper in their deluded little bubbles. That haircut is no higher than lower middle.

Field_Of_View • 2 points • 9 October, 2019 12:24 PM

This. Lower middle class at best.

MaxWygth • 27 points • 5 October, 2019 05:32 PM

You forgot the fucking bob cut

good_guy_submitter • 10 points • 5 October, 2019 03:01 PM

spends loads of cash

Usually not her own.

Field_Of_View • 3 points • 9 October, 2019 12:25 PM

Arguably if a man lets you spend his cash it's yours. Blame the men who enable these women.

Standgrounding • 8 points • 5 October, 2019 09:27 PM

And they always take the kids. Don't forget that.

RStonePT • 2 points • 19 October, 2019 08:06 PM

Wants to be upper middle class.. basically class insecure, like Cinderella, minus the shoes

PPD is full of karens

GorgeousGamer99 • 52 points • 5 October, 2019 11:30 AM

This is probably the dumbest thing I've ever read. Analysing the public reaction to memes? How the hell is this content?

liberules • 13 points • 5 October, 2019 01:30 PM

it's dalrock. redpilled men read his commentary a lot because he's done a great job documenting the decline.

only caveat is that he does it from a christian conservative viewpoint so sometimes he can let that leak into his analysis. this particular post is kinda dumb though. it's just some fluff opinion about shit that doesn't matter and is only loosely related to what he normally writes about.

Pilsu • 32 points • 5 October, 2019 11:38 AM

The fucker also implies "feminists" are cohesive enough to have strategy instead of trends. Bitch, it's a million gals with Twitter accounts. If people were identifying with Karen, the dumb bitches woulda told you already. You couldn't stop them from doing so.

Gotta get em outrage clicks.

plan999 • 6 points • 5 October, 2019 06:45 PM

Uh well sort of. See feminism was actually created and shaped by men. Do enough research and you'll figure it out for yourself. So while you are correct in women not having a cohesive strategy there IS a cohesive strategy. It's just not them who is doing it.

u-r-silly • 2 points • 5 October, 2019 06:03 PM

Welcome to 2019. Twitter memes make international news.

EggOfDelusion • 36 points • 5 October, 2019 04:43 AM

Karen meme isn't sexist, it's racist.

alecesne • 9 points • 5 October, 2019 12:09 PM

Don't worry, real Karen's can be of any background.

sdzundercover • 3 points • 5 October, 2019 09:11 AM

Elaborate

hearse223 • 1 point • 15 October, 2019 07:00 PM

Karen is no more racist than "Shaniqua" or "Chad" or "Pedro" or even "Tyrone"

Just common names that immediately give you a stereotypical image of the person.

Sorry if your mother has a bob cut and loves to argue with the manager, but its not racist to make fun memes of her "archetype".

throwlaca • 4 points • 5 October, 2019 05:54 PM

Feminists don't care. They are busy infiltrating organizations. Go look, there's one in every organization, not women, but feminist white childless SJW women. Once they have a foot in, it's done. Your freedom is over and now you are a slave to serve them. And don't dare criticize them, not only they will fire, you wont get a job anywhere.

redpill77 • 7 points • 5 October, 2019 12:10 PM

Both feminists and Karens are middle and upper middle class white women, exercising their privilege in different ways. Karens through authoritative commands, feminists through victimhood manipulation. Criticizing Karen memes means displaying their similarities, making their privilege (which must be hidden) more visible.

TimGuoRen • 3 points • 9 October, 2019 09:27 AM

To be honest, nobody is more of a Karen than an angry "sassy" black woman.

ratpoison987 • 5 points • 5 October, 2019 04:28 AM

But is that an itch they can avoid scratching...?

631_Exuberant_Bias • 2 points • 6 October, 2019 10:12 PM*

I honestly find the whole Karen thing to be wasted energy.

Karen (or rather, a woman who fit the karen archetype) probably doesn't even know reddit exists. If she does, she likely doesn't care or have enough interest in it to go to reddit and find out about the karen meme. She will live her entire privileged upper middle class life completely unaware that a sizable chunk of people hate and resent her.

Entitled people are obnoxious, but redditors who complain about it are basically screaming into a void.
