I do that a lot with guys. If they hang around losers, I lose respect for them.

Does it work the same with women being way more social than us?

Hell yes, if they have disrespectful, massive gossip, bitch friends I know what I'm getting into. If their friends are all whores, they're usually whores themselves beyond your typical AWALT promiscuity.

If she has prude friends, she's probably a prude too

What about loser male friends?

Vermillion\_Rx • 37 points • 13 October, 2019 03:43 AM

That's tricky, women choose to exercise little to no agency in controlling their own lives independently, and reflect their friends very well.

Men are not as simple.

On average, yeah, if their friends are losers it suggests cooler people don't want to hang out with them. But not always. Some guy might have a loser friend that he's known since they were 3 years old. Some guys hang out for common bonds and interests.

It's usually, but not always the case that a guy is friends with a loser because he himself is a loser

No I mean, women with loser guy friends.

Vermillion\_Rx • 11 points • 13 October, 2019 03:50 AM

Ah, gotcha. you might want to specify that in your OP.

Not necessarily. Every woman who's at least more attractive than masturbation has orbiter losers that she gains benefit from leeching off of for free.

Now, if a woman who is quite valuable or attractive seems to only have loser guy friends that she is with and doesn't even have Chad friends, than that's saying a lot. If sexy cheerleader Stacy can't even make friends with all the football Chad's, you can safely assume something is not right with her

I think it should be examined at a case by case basis. In general, I would say that a women's social circle does represent what she is all about. Like someone else said, if her friends are mostly whores, then she is likely a whore herself.

Women (and arguably most men) tend to socialize in the world that they are most accustomed to or relate to the most. So if you are ever talking to a girl and don't feel right about her overall crowd of friends, I would take that feeling seriously and consider that she may not be for you.

Women will always have a friend or maybe a couple friends that are crappy or annoying which isn't that big of deal usually. But if you see that she likes a particular crowd that you don't jive with, then like I said, its something to consider.

There's no way that you *can't*.

"You're the average of the five people..."

Quotes like that exist for a reason.

You are a byproduct of the people you mix with, regardless of gender. That's what I personally believe in

Do you judge women by what friends they have?

Yes, and it's brutally effective

ThatsReallyGr8 • 6 points • 13 October, 2019 08:15 AM

A lot of women seem to like keeping the losers handy for some reason. You just won't know it. I can't imagine why.

Easy ego boost

CHANCHAN18 • 5 points • 13 October, 2019 08:45 AM

I would say 90% of the time the people you surround yourself with are generally the same. There is always one of two people in a group that might be an exception. So I try not to judge a book by its cover until I feel like I fully know them but you can definitely get a vibe from there friends based on there morals, lifestyles, values etc.

INNASKILLZ2K18 • 4 points • 13 October, 2019 11:56 AM

Nope.

I judge a woman by how 'fuck yes or no' she is.

By how willing she is to pass compliance tests.

By how much she follows my frame.

You fucking her friends? Whose frame you playing in?

Hungboy6969420 • 3 points • 13 October, 2019 03:52 PM

If it's LTR, I can understand the friends part a bit. If she's anything less idc

MR\_SKINNYPENIS69 • 3 points • 13 October, 2019 05:54 AM

Somewhat, though I judge her more based on her reaction to my opinions of her friends.

Filmguy000 • 1 point • 13 October, 2019 07:37 AM

Interesting point.

daddydickie[S] • 1 point • 13 October, 2019 02:50 PM

How do you know she's telling you the truth?

I never take women seriously.

MR\_SKINNYPENIS69 • 1 point • 13 October, 2019 03:17 PM

It's pretty hard for a woman to hide their honest reaction when you insult their friends lol

Exo2303 • 2 points • 13 October, 2019 12:49 PM

Yes, because the environment you live in determines how you develop and act.

"You're the company you keep"

smhfamswag • 1 point • 13 October, 2019 04:09 PM

Yes, and you should. Women are followers, if all there friends are thots, what do you think your girl is ?

SalporinRP • 1 point • 13 October, 2019 05:04 PM

I judge everyone based on what friends they have.

LastRedshirt • 1 point • 13 October, 2019 05:18 PM

Do women really have friends?

ibetrynaimprove • 1 point • 13 October, 2019 05:36 PM

Yes

whosaccisthis94 • 1 point • 13 October, 2019 06:51 PM

Birds of a feather flock together.

hedden93 • 1 point • 14 October, 2019 12:49 AM

Yeah I had an ex (when I was fully blue pill) who used to talk about a couple of her friends that would cheat on their boyfriends when they would all go out. She seemed really unfazed by it like it was no big deal at all. Then guess what she ended up doing to me.
