

So basically her having a boyfriend means absolutely nothing?

November 2, 2019 | 131 upvotes | by [Wobblewobblegobble](#)

3 different women within the past 2 weeks were trying to fuck but all had boyfriends. I'm 19 so it's college years for me right now. It honestly throws me off and makes me very weary of a relationship. And one of my old plates started selling nudes on the low. I just can't see myself ever wanting an LTR.

What are the main stuff you consider as “work on yourself in your 20’s as much as you can”?

[deleted] • 118 points • 3 November, 2019 12:31 AM

There are so many things, but basically: game, looks, status and wealth. Decide what you want to do and run with it.

For example game:

- inner beliefs
- frame control
- tinder profile and online dating
- instagram funnel
- charisma
- meditation
- etc...

Looks:

- gym
- fashion
- haircut
- etc...

Status:

- instagram / facebook profiles
- networking
- leadership
- social circle
- personal brand
- travelling
- etc...

Wealth:

- build a business
- passive income

- financial independence
- living in the city
- etc...

These are just examples.

How do you guys find the time to devote effort to all those things? Between college and a part-time internship, I hardly even find the time to go on dates and maintain a modicum of a social life. Ever since I took on the internship, I can't even lift consistently anymore due to the time constraints.

ndestruktx • 15 points • 3 November, 2019 04:37 AM

no need to go on dates. just make good friends, have a great time, and do well in school.

society doesn't want insecure guys bettering themselves.

I have a few lifelong friends and I broke the rule about fight club with them. A few of them gave me a lot more shit than others and that was that. A few weeks later I remade plans with them after cancelling. They asked why I rescheduled so I told them that the girl I was inviting over was moving out of state. The friend who gave me the most shit over being part of TRP had denounced it with "that's just a whole lot of misogynistic ideals" and that same friend when hearing she was moving out of state, responded with "She's just lying so that you'll stop texting her."

Not only was he dead wrong, but the guy who had accused me of being misogynistic actually accused a woman of lying with no reason to suspect she was lying. Granted it was the first thought I had too but these people are branding us as some hateful group because they do not want you to improve and make attraction harder for them.

Ill_mumble_that • 3 points • 3 November, 2019 03:59 PM*

It's easier to destroy than it is to build.

This is why criminals and murders are lazy pieces of shit all around in their life.

If you improve yourself, you're no longer in the same league as your friends. It's just like someone that goes from highschool football to the a high tier college and then the NFL. Those old highschool friends are forgotten unless they proved themselves supportive and good friends to keep.

They may have been good friends for you at the level you were at, but now you are better than them an

But this is something a mental masturbator would totally say. Agree and not do shit and then complain on asktrp about x and y

Kkiy0M • 1 point • 3 November, 2019 12:24 PM

I'm confused lol?? I just like to see what other people think and consider "bettering themselves". Perhaps I could learn something. What are you talking about?

JosephBosa • 2 points • 4 November, 2019 06:08 AM

Example: "How the fuck do i put muscle on?"

answer: "you need to lift. eat in a caloric surplus. eat your bodyweight in protein."

response: "lol thanks ill look into it" instead of actually doing the work.

People on asktrp actually do this all the time, theyll post a "how do i get bigger" post 10 months later and get the same answers. You can apply this to just about any repetitive question posted here outside of working out.

Kkiy0M • 1 point • 4 November, 2019 11:52 AM

That's a very weird order of thought to constantly assume. I already lift consistently and I wanted to see what people consider quality of life apart from exercise and reading books and social skills.. stuff that everyone should have or work towards without considering them amazing stuff or saying "Omg I'm working on myself sooo much.".. they're the absolute basics.. Since he'd stressed working on yourself as much as you can I'd assumed he'd have a lot more arsenal in terms of what that translates to for his own definition of that and wanted to know more.. as I said you never know what you may learn.

Rent ferraris and drive them wearing tuxes. To beaches.

(Even if you can afford a Ferrari, buying them is dumb. Unless you're a billionaire to the point where \$100k is like 1 day of income.)

Wear barbarian cosplay and do photoshoots with attractive women being dominated. Pg13 style, not crazy s&m bdsm stuff.

The juxtapose of both gets them going.

But Instagram is a pain in the ass. I use Fetlife to find threesomes. The girls are more honest there.

I got into bowhunting. It's really fun and when I kill a buck I get enough meat to last 6 months or so.

It's unfortunately not that unique of a hobby where I live in the south, but most consider it a "manly" hobby and it's at least more unique than gaming.

LLL3peat • 9 points • 3 November, 2019 07:20 AM

Yep. As much as I didn't want to believe there were so many women who had boyfriends after we were knocking them boots regularly. Sad awakening when I was exclusive in a relationship and it still meant nothing to other women. If you are high value they are single as long as they aren't married and have kids basically

Crixusgannicus • 5 points • 3 November, 2019 10:10 AM

IF they want to fuck you for ANY reason, including your being high value, they WILL fuck you if you agree, regardless of married, kids, whatever.

Hell some chicks, if they want to fuck you, they will essentially "rape" you if you DON'T, agree. Shit that would guaranteed have your arse locked up for fucking LIFE!

Fortunately the later has only happened with chicks I was willing to be "raped" by.

Crixusgannicus • 14 points • 3 November, 2019 07:13 AM

LTRs are ALWAYS a joke for a woman UNTIL they hit The Wall hard enough to realize The Wall is REAL and NO WOMAN escapes The Wall.

Then and ONLY then do they get anywhere near serious about being serious about an LTR. Sometimes not even then, because no matter how hard The Wall has hit them, some of them remain in denial.

Partially because for some time after The Wall has hit, there are still beta cuck soys who will still pursue them UNTIL The Wall becomes unbearable even for beta cuck soys.

Haytch1234 • 17 points • 3 November, 2019 02:59 AM

LTRs are a joke to women at any age.

As she gets older, she will want someone to lock down but she will still cheat. It doesnt matter the age.

My advice to OP if you want to get a girlfriend you will still need to approach women and fuck women on the side. But truth is, LTRs are just a box to tick off for most women. Thats all. And some dude to be there for her while she still gets side dick. It doesnt change for women. Their methods and priorties change but they will still cheat nonetheless.

ForeignPreparation • 15 points • 3 November, 2019 03:40 AM

But truth is, LTRs are just a box to tick off for most women. Thats all. And some dude to be there for her while she still gets side dick. It doesnt change for women.

I have noticed for many women the boyfriend is kind of like an accessory. She has to have one, because her friends have one. But they're mostly all interviewing for a better suited guy for the role.

Haytch1234 • 9 points • 3 November, 2019 03:43 AM

Exactly. Its just the herd mentality kicking in.

They still get cock on the side.

IFuckingHateAllergy • 12 points • 3 November, 2019 03:09 AM

This is true. I met someone who was a SAHM and was married to a doctor easily making 200-300k. They've been married for 17 years with a kid. She still wanted to cheat with me. I never fucking understood it. The only explanation was because he did not have enough time for her. That was fucking it.

Haytch1234 • 16 points • 3 November, 2019 03:12 AM

Money doesnt mean shit when it comes to sex thats why.

Its just a way for her to ensure he pays for her life style and have some security . Thats it.

Making money is a positive trait. Its not a sexually attractive trait. It makes a guy look good on paper but those type of guys generally dont make pussies wet.

ndestruktx • -2 points • 3 November, 2019 04:39 AM

depends on the kind of doctor. work in a clinic for old folks? yah not that cool. work with people with allergies? not cool either.

trauma surgeon? cardiologist? orthopedic surgeon? much more badass.

whatever field you go into - be at the top of the food chain

Haytch1234 • 9 points • 3 November, 2019 04:43 AM

Thats not true. A doctor is still a doctor which resembles intelligence and lots of money.

More than likely she will cheat on the doctor with the tradesmam that makes much less but knows how the lay pipe with ease while the doctor spent his years studying.

The key to fucking and getting women is actually practicing on getting and fucking women.

ndestruktx • 3 points • 3 November, 2019 04:48 AM

Just because you're a doctor doesn't mean you don't know how to do practical things.

I'm a cardiologist. I was a mechanical engineering major. I worked in a machine shop in college for a job and an auto repair shop as well fixing and modifying cars.

I ran division 1 track on a scholarship. I have a teammate that went on to become a high powered lawyer. I have a med school classmate that played football in college. We don't have to talk about n count but I never had a drought.

Intelligence and money are not a bad thing, persay. If the message you are getting in this sub is that displaying your intelligence and wealth potential equals beta then shit you are on the wrong path in life.

Staticfloor627 • 5 points • 3 November, 2019 05:30 AM

Us paramedic/firefighters are the ones that bang the nurses lol

ndestruktx • 2 points • 3 November, 2019 08:57 AM

Depends on the nurse but yes you definitely have your share of the ER nurses, I won't disagree. ICU and pediatric nurses don't get to see you as often. Neither do the oncology nurses - whole new world there.

There's a reason there are call rooms in the hospital.

Staticfloor627 • 1 point • 3 November, 2019 02:17 PM

That's true. I've literally never been past the ER at any of the hospitals near me.

Haytch1234 • 2 points • 3 November, 2019 09:21 AM

This would be more believable.

Front line jobs are masculine. Policing, security, firefighting , paramedicine, etc. Anything that puts you danger is considered masculine. And while it doesnt mean you automatically get pussy, you need to be able to be tough skinned to do the job well. If you can put up with a tough job and come home in one piece everynight whilst putting yourself in danger, facing rejection from women is nothing.

Staticfloor627 • 2 points • 3 November, 2019 02:17 PM

That's kinda how I see it. Before this, I was a sniper. Most military guys are actually blue pilld but I was following TRP before I realized what TRP was. It was natural.

Haytch1234 • 2 points • 3 November, 2019 04:51 AM

You mis understand.

The issue I am pointing out is being a doctor and making lots of money wont

automatically make you a bad ass that is getting pussy.

Being a doctor doesnt replace having a solid understanding game.

There is no replacement for it dude. I have in depth understanding that career is important but it wont replace knowing how to get women.

Thats the point im making.

ndestruktx • 1 point • 3 November, 2019 04:59 AM*

I don't disagree with you. I'm also not wrong in what I said.

Our thoughts are not incongruent aside from you implying that most men who make a lot of money don't get sex. I think majority of high powered successful men probably have it easier in getting laid than unsuccessful low on the totem pole men in general (not age specific). There are always exceptions and yes, game is definitely necessary.

Although I would also point out that the more power a man wields, the less game they seem to need. This is just what I see and my own personal experience. Getting women in college was more work than getting them after becoming an MD. I didn't change who I was. Then again most of my experience after school was with nurses and nursing students and wow, talk about the best place to find legit and fun women.

Lastly, having something fun to drive like a Tesla or a 911 doesn't hurt. Trust me on that one.

Haytch1234 • 2 points • 3 November, 2019 05:02 AM

In other words, in college you had experience in getting women.

Becoming an MD sweetened the deal.

krunchtimer • 2 points • 3 November, 2019 12:42 PM

Good for you, but your description (and your friends) doesn't match with the majority of MD's I've known. Some nurses I've dated (as I said in my post below) describe most of the doctors they know as socially backward. Don't get me wrong, they're good guys, but I can't picture the majority of them working in a machine shop or playing football.

ndestruktx • 0 points • 3 November, 2019 07:07 PM*

Again usually depends on their specialty. The nerdy ones usually do some kind of scientific endeavor. People like myself go into more aggressive specialties where there are life and death decisions made on the fly and have to command an operating room.

Assertiveness is required in some specialties and the socially backward ones generally don't do that shit. Natural personalities funnel us into our specialties I think.

krunchtimer • 1 point • 3 November, 2019 07:44 PM

I occasionally see that RN, so I'll ask her about this out of curiosity.

IIRC, she did say that ER docs are the most chill, and Nephrologists are the smartest.

agjrpsl • 1 point • 3 November, 2019 05:02 AM

On the other hand lol. The doctor is bangin a lot of the nurses or other staff. So it equals out

Haytch1234 • 7 points • 3 November, 2019 05:04 AM

Not necessariy. I banged a female doctor. She told me most of the doctors she worked with were ugly and socially wierd.

While being a doctor may make things easier, it doesnt mean you will be swimming in pussy and banging nurses.

krunchtimer • 3 points • 3 November, 2019 12:38 PM

She told me most of the doctors she worked with were ugly and socially wierd.

This. I've dated a couple of nurses who pretty much said the same thing. Also, most of the doctors I've been to (for checkups and occasional problems) are good guys, but usually very nerdy and beta. I would suppose because it's a career that requires a lot of empathy as well as a lot of the ability to sit still and consume lots of book knowledge.

-DeadLock • 1 point • 3 November, 2019 04:27 AM

So I would say its far more likely for a woman dating/married to a doctor to cheat.. For the reason that they really are married to career. Same with lawyer or maybe even business exec. Too many hours at the office.

Haytch1234 • 5 points • 3 November, 2019 09:32 AM

It depends.

Its not about the career. Its about the guy.

I know a guy that works in IT. Hes early 30s and makes more then 150K Australian dollars. He is going to have a divorce and wants to get a wife from overseas. He may make money but the dude is clueless when it comes to women.

Pulling girls and fucking them is a whole different skill set. Its shows being able to face rejection and heing turned down and still follow through with wanting to dick the girl.

Nothing beats meeting women in person. Getting rejected..and doing it again. Over and over until you actually know what works and what doesnt. Building this resilience will ensure bitches stick around at the very minimum for sex. This resilience has been lost in western society due to comfort and convenience being rampant.

[deleted] • 15 points • 3 November, 2019 04:26 AM

Nope, I think it's just the simple fact that people get bored of fucking the same person and want variety. They've already made up their mind to fuck someone else before hitting me up. It could be me or easily the next guy, it doesn't make a difference.

Valyarian • 0 points • 3 November, 2019 04:29 AM

I see where you're going with your point but what makes you think they're trying to sleep around with you even though you know they have a boyfriend? Are they coming onto you or are you making the move on them?

[deleted] • 4 points • 3 November, 2019 04:32 AM

Oh most of the time I don't know. I usually just use tinder or Instagram. With tinder they usually just post like one or two body shots in underwear. With a bio saying "if you want to know more ask" It then comes out that they're married or have a bf.

It's not something I do often but yea know shit happens right.

liquorbaron • 14 points • 3 November, 2019 02:54 AM

Yup. The more guys a woman fucks the less likely she will ever be in a stable ltr because her ability to pair bond is shot. College is where women go to lose their ability to ever be worth anything. Why do you think female virginity has been so prized throughout the millenia.

Lateralanouncer • 5 points • 3 November, 2019 08:50 AM

Woman have now separated sex from the relationship equation. A woman giving herself to you means nothing. Ons, drunk fuck, fb. Dating.

Haytch1234 • 14 points • 3 November, 2019 03:02 AM

LTRs dont mean anything to women. Its simply a box to tick off their list dude. As they get older they may want a guy to lock down but they will still be sluts. They will be open to cheating.

Im 27. I fucked girls with boyfriends and partners. From early 20s to mid 30s.

They dont change. If you ever want a LTR, keep the bitch at arms length and have side girls. Your LTR will stick around because you wont become a little bitch . You having girls to smash on the side will ensure you dont turn into a bitch. They all go hand in hand.

farttmistress • 14 points • 3 November, 2019 02:52 AM*

Statistically women cheat more than men in their early 20's. My experience is that you can pretty much get any girl to cheat on their boyfriend or husband. All it takes is one bad fight and some alcohol.

The biggest mistake you'll ever make is taking girls seriously in your 20's. These girls don't slow down til their 30's where their SMV starts to decline.

Just work on yourself and don't cum inside any of these lot lizards and you'll be fine.

Haytch1234 • 7 points • 3 November, 2019 09:40 AM

The biggest mistake is taking a girl serious at any age.

They dont change with age. Their options might but they are always willing to open their legs.

smhfamswag • 5 points • 3 November, 2019 12:15 PM

every girl in college is single. do not have a LTR in college dude, you will get cheated on i promise.

Flamethrowa21 • 7 points • 2 November, 2019 10:26 PM

Smart man.

mikkeldaman • 10 points • 3 November, 2019 03:31 AM

From my experience, as long as their children are not affected, women are willing to cheat even on the alphaest of males with the first guy that offers them a momentarily pleasure.

On the other hand LTRs definitely have their rewards, not for the reasons you'd imagine unless you can't get sex elsewhere, but having a woman (especially one with a lot of social influence) loyally stick by your side is one of the many perks and a huge ego booster as well. Having a woman worship you as her god is also a massive ego booster. Not only that, but with a woman comfortable with you, you can explore your deepest and darkest sexual fantasies. With a woman that you care about (if you're not too stuck inside your own head) you become more aware of yourself and how you interact with people, you become more charismatic because you have it fresh in your mind that that's how you have to behave around people if you want them to like you.

However it does take a lot of effort keeping the image of perfection and constantly acting as you are her one and only. So if you are only looking for sex then probably you should absolutely not bother with LTRs.

Nergaal • 3 points • 3 November, 2019 03:30 AM

Learn to gauge the real value of a woman. Not all are low value, some might be worth LTR.

LilLoserFreny • 3 points • 3 November, 2019 11:02 AM*

Yes in today's day and age you have to be , with the utmost respect, a complete fool to be in a LTR. It's really that simple. Any one who says otherwise is either much older than you so has and does live in a separate reality or if they are around your age, they are completely unaware of reality.

TRP_mask • 3 points • 3 November, 2019 11:50 AM

Yeah uni life right, looking to fuck a girl who has a bf 2 weeks from now when we go drink something. She hasn't mentioned him, I just know he exists but she doesn't care anyway.

Time_Animal_ • 6 points • 3 November, 2019 01:42 AM

It really depends. If she's making the Tinder rounds then she only thinks of the guy she's let fuck her the most as her boyfriend. He's not really. She'll jump ship at anything that excites her.

But most girls that are on only their 1st-3rd BF at your age in college aren't going to swap unless they're branch swinging.

[deleted] • 3 points • 3 November, 2019 03:08 AM

You're at college, case closed.

No guy should have a girlfriend in college. Women are at their most sexually promiscuous and they're nowhere near the wall yet. Firstly, they are incredibly likely to cheat. Secondly, you shouldn't be tied down when there are all these crazy hot slutty women running around you and you're fit, young, and partying all the time.

Neither does having a husband.

So basically her having a boyfriend means absolutely nothing?

In many, perhaps even most, perhaps even all cases,

That's right.

That INCLUDES you IF you think YOU are her boyfriend/husband.

Imagine you are Chris Brown or f***ing Channing Tatum, do you think majority of the LTRs have any chance to remain?

This is an astronomical difference in SMW but turns out the margin is much lower, depending on how good her current boyfriend is fucking her which in most cases is below average.

Weird humblebrag, but okay.

The lesson to be learned here is that it was just the bfs turns.

Meaningless. Maybe even a good thing.
