

# Fiance gave me her old laptop to use for work - a look into her past has me worried

November 4, 2019 | 14 upvotes | by [trp1223](#)

---

I'm 31, 6'6, 260 lbs - own a successful business and a nice home. N-count is in the 40s. My family is "the family" in our county of about 700k people. I lift 3-4 days per week, but I'm still soft around the edges.  
max bench: 285 max OHP: 175

I met my fiance 2.5 years ago. Even though I hadn't found the red pill yet, I was already living a fairly red pill lifestyle. I was constantly working on my mission, dating multiple girls and dropping them on a dime if they hindered my life in any way, and I've practiced stoicism since I first heard about it in college.

Dated my fiance (she's 27) exclusively for a year, then she moved in, and roughly six months after that I proposed (about two months ago).

I vetted her as best I could and always paid attention to her actions. Not once in 2.5 years have we had any major issues. She's submissive (both in and out of the bedroom), she treats me like a king, she comes from a good family, we share the same faith, and she's not even remotely lazy at home or at her job.

The one thing she does do all the time is glance at other guys. The first glance never bothers me, it's the second or third glance that feels disrespectful. Perhaps this is normal and I'm just being insecure. But I digress.

The other day my laptop crashed and I needed to get some work finished at home. So my fiance said I could use her old laptop.

Long story short, it was a macbook and it had been synced with her phone. All her text messages were there for my viewing pleasure.

I firmly believe trust but verify and knowing that marriage is the riskiest investment I'll make in my life, I wanted to verify that the girl I'm about to marry didn't have any major red flags.

Here's what I found:

- Confirmed n-count of 11 (she specifically mentioned this number to her best friend)
  - I didn't know her n-count prior to this, not sure how to feel about it being 11
  - 4 of them were in the two months prior to meeting me
- She was sleeping with at least two dudes at the same time before we met
  - Justified it to her friends because she wasn't exclusive with either of them
- She texted a few of her friends excitedly telling them she slept with a professional soccer player
  - Turns out he lied to her, he was just a tall, good looking dude who played in college
- Hooked up with a guy friend while on a group trip abroad
- She randomly messaged one of her friends: "I'm irritable and just need sex from a guy"
  - They go on to discuss who she should try to hang out with
- She hooked up with a juice head
- Her ex of 1.5 years was also a juice head
  - Kind of worried he alpha widowed her
- She casually dated a police detective 10 years older than her for a few months
  - She also was texting a cop prior to me. I do notice she looks at guys in uniform a lot. Is this just something girls do because they like the authority shit? Or am I fucked because I'm not a cop and that's what her subconscious craves?

Other than that, all the messages about me were good. She's been raving about me to her friends and family since the day we met. Not a single negative things had been said about me. She told everyone how happy she is with me and that she can't wait to marry me.

Is marriage with this woman doomed from the start or am I overanalyzing what I found?

Although I believe in AWALT/hypergamamy, I also believe it's a spectrum. Perhaps the things I found point to her being more AWALT and hypergamous?

Regardless of you actually looking (which I don't specifically fault you for, an occasional checkup isn't a bad idea, others will disagree), I don't see why you came here after you found what you found. Looks pretty much fine to me... She didn't cheat on anyone, didn't cheat on you, doesn't have aids or a baby, nothing about crazy debt. What are you worried about, that she is able to recognize men who are more physically attractive than you?

SubjectiveCompass • 25 points • 4 November, 2019 05:43 PM

An attractive female hooking up with attractive males is just human nature. If she hasn't disrespected you, and isn't hiding money issues or something that would directly affect your marriage... worry about keeping yourself as attractive as possible, you'll never be able to fully predict what a woman will / won't do, only that your best chance at a happy life and marriage is becoming who you want to be.

trp1223 1 points 4 November, 2019 05:21 PM **[recovered]**

I'm just trying to predict the likelihood that this girl fucks me over and branch swings to one of the dudes she does find more attractive.

If I didn't plan on marrying her, this would all be moot. Normally I wouldn't even think twice about someone cheating on me as it would only serve to make my choice that much clearer.

UEMcGill • 13 points • 4 November, 2019 06:51 PM

If I didn't plan on marrying her, this would all be moot

So the stay plan is the same as the go plan. Look at it another way, if you could marry her and leave her as easy as if she just lived with you how would you feel? Is the real problem the legally binding aspect? If that's what you are getting at a fix that. If you're having second thoughts on marriage, address that.

I don't regret marriage, per se. I regret that I put so much risk into another person's potential to fail or succeed. It was unwise of me to not mitigate my risk. The easiest way to do that would have been pre-nup and wealth protection. So now even after being married for 18 years, I have moved to limit some of that risk.

i-am-the-prize • 5 points • 4 November, 2019 07:00 PM

So now even after being married for 18 years, I have moved to limit some of that risk  
can you share how you did that?

UEMcGill • 8 points • 4 November, 2019 08:11 PM

I don't want to get into specifics, but I have some dealings with a family member and some investment properties. These were acquired in a state favorable to it and there are some features in the incorporation that would make it very hard for a minority stakeholder to do anything but sell out.

catchpull • 1 point • 5 November, 2019 06:06 AM

Good for you Brother! I wish I knew more about setting up such situations.

Thorondor\_Rising • 2 points • 5 November, 2019 10:45 PM

Pre-nups dont cover assets accrued over the course of the marraige. Only assets that were held prior to entering into the marraige, and even then only if they are kept separate from your other finances and not traded. This means that non-cash holdings, such as stocks and bonds need to remain un-traded for the entirety of the marraige, or kept in a quarantined trade account which doesn't see the influx or withdrawl of any moneys from the moment you say i do onwards.

Even still, technically, if you sell stock that was held prior to the marraige, and then you took those moneys and bought different stock while in the marraige, and that new stock accrues value, its communal property.

No clue why people think a prenup means all that much these days.

whammyfeet • 4 points • 4 November, 2019 10:12 PM

Can't be scared to get cheated on, can't be scared to lose her. If either of those things happen you gotta cowboy the fuck up, get out of bed, put your boots on, face pain head on, and move forward on your own. Let go of fear.

hack3ge • -1 points • 4 November, 2019 08:06 PM

HHahhahahhahahaha oh wait not done hahahhahahhaa - fucking faggot.

With your frame it's nearly 100% chance she cheats on you - my guess is she won't branch swing though because it sounds like you are her beta bux - she will just take chads cock up her ass and never let you know.

You are so fucking clueless I'm not even sure how that's possible with the sidebar and the history of posts here.

Let me give you a hint - the only protection against hypergamy is not giving a fuck and being able to replace her with younger and tighter within a fortnight.

trp1223 1 points 4 November, 2019 08:32 PM [recovered]

I wouldn't give a fuck if I didn't just put a \$30k ring on her finger and plan on legally giving up half my shit in two year's time.

arm\_candy • 11 points • 4 November, 2019 09:17 PM

\$30k ring

Are you extremely wealthy or extremely stupid?

Red\_Pill\_Brotherhood • 6 points • 4 November, 2019 09:37 PM

He's both.

Good for you on one count then.

bruiser18 • 4 points • 4 November, 2019 09:01 PM

Marriage sounds like a great deal

wkndatbernardus • 5 points • 5 November, 2019 03:36 AM

Did that ring come with a Miata? Because that's the only thing that could make that purchase gayer/dumber.

i-am-the-prize • 7 points • 5 November, 2019 01:58 PM

<quietly closes the MX-5 website...>

hack3ge • 6 points • 4 November, 2019 09:06 PM

You are straight up her beta bux - you wouldn't know a red life if it hit you in the face. If you don't want to marry her don't - you have my permission.

You really want to know how this goes? You get married, have a kid or two, she fucks chad and you wonder if the kids are even yours. You continue being a giant faggot and she decides to take your kids and half your shit and zero your ass out.

Marriage is hard mode mother fucker and you don't even know what the buttons do at this point...

RP\_PO • 4 points • 5 November, 2019 12:55 AM

Agreed. If you have alot of money just stay monogamous and unmarried. If she really wants to be with you she will. I have a rich buddy that has a kid with a chick, married in every sense of the word except legally. She stays with him because he has his shit together and doesnt put up with hers.

hack3ge • 5 points • 5 November, 2019 01:35 AM

Definitely an option - though if I end my marriage I won't ever let a single woman control my sexual satisfaction.

catchpull • 2 points • 5 November, 2019 06:10 AM

Smart man here. These couple few words say a lot.

RP\_PO • 2 points • 5 November, 2019 08:37 AM

I'm in the same boat. Would never get married again. This guy seems dead set on this particular monogamous relationship though.

hack3ge • 2 points • 5 November, 2019 12:22 PM

It's fair though - I can't imagine finding this place just after getting engaged and realizing I was just a beta bux.

All this guy did by snooping was confirmed AWALT - she fucked a bunch of alphas but couldn't lock any of them down so she settled.

It's our own RP Disney fairy tale...

Perfectinmyeyes • 1 point • 6 November, 2019 11:17 PM

Interesting train of thought

RStonePT • 2 points • 5 November, 2019 02:49 PM

\$30k ring

Pretty small price to put on your own better sense.

I wouldn't give a fuck if I didn't just put a \$30k ring on her finger and plan on legally giving up half my shit in two year's time.

you don't talk about marriage like you even want to. Why the fuck are you willingly deciding to set yourself up for failure? I know, do you?

Rock\_Granite • 1 point • 12 November, 2019 03:18 AM

Why do you think is his willingly setting himself up for failure?

InChargeMan • 0 points • 5 November, 2019 08:59 AM

\$30k ring on her finger

You are a meme

Redpillbrigade17 • 59 points • 4 November, 2019 05:03 PM

Yes you're insecure.

Yes you should have a bullet proof prenup.

Good luck.

SailorAground • 6 points • 4 November, 2019 08:29 PM

If this dude doesn't already have a pre-nup, he better get one. With 11 dudes, plus the ones she doesn't talk about, I highly doubt her ability to pair bond is still intact. It sounds like she's got OP on the line for beta bucks and cushy lifestyle since his family is so powerful and he's likely a prince of sorts.

Also, don't ever move in with an LTR before marriage. Terrible decision.

Redpillbrigade17 • 12 points • 4 November, 2019 08:47 PM

Nah. It's your own preconceived notions talking, on both your points: (1) even virgins can become branch swingers and eventually jump back on carousel. Low or high n count. And (2) au contraire: move in if you want, to test the waters, but have a strong frame, and of course cohabitation agmt.

whammyfeet • 9 points • 4 November, 2019 10:14 PM

Huh? 11 is nothing. That's like 1 per year of her adult life. I've stumbled upon sex on accident more times than that.

sd4c • 0 points • 5 November, 2019 09:08 AM

Prenups are worthless. This is long-established fact

Redpillbrigade17 • 3 points • 5 November, 2019 12:11 PM

No. Depends on (1) how you do it (eg videotaped, good lawyer drafted, witnesses etc. beats a simple one page doc you do yourself) and (2) which jurisdiction (some states better than others).

apietroski8 • 27 points • 4 November, 2019 05:17 PM

Definitely you are worried about how you size up compared to guys in her past and guys she is checking out. I wouldn't worry too much about her looking, and when you catch her doing it, tell her something along the lines of "that is one handsome looking dude isn't he". It is a playful way of calling her out on it.

11 people is not really that many considering she probably became sexually active around 18. So 6 years and 11 different guys isn't outrageous.

It is telling that she thinks highly of you, and it's good you didn't find anything negative she said about you.

The big problem here is you are not looking at yourself as the prize. You are worried that someone else is going to come along and steal her away. A prenup is probably the best plan if you are so worried about making this investment.

Stop worrying so much about comparing yourself to other people. If she brings value to your life and fits in with your mission, that's all that matters. If things get dull in the bedroom you know you can always get a cop uniform and tell her she's been a bad girl.

trp1223 1 points 4 November, 2019 05:53 PM **[recovered]**

Thank you for the reply. This all definitely stems from a place of insecurity. I need to keep improving myself.

simbarlion • 3 points • 5 November, 2019 10:36 AM

I read all the comments having arrived late to this party. You lack abundance. Your fear of loss is greater than your self assessed chance to pull equal or better.

This insecurity won't go away until your smv is greater than hers ( which kids and age both significantly affect btw).

One of the first posts I ever read here was about the advantages of "downgrading" your current high smv wife to another with lower smv than your own for ones own happiness.

Think about that.

trp1223 1 points 6 November, 2019 02:37 PM **[recovered]**

You'll have to take my word for it, but although I do fear the loss, I am confident I could find equal or better very quickly. I fear the loss due to the legal ramifications (i.e. divorce rape).

AlohaMaui808 • 1 point • 7 November, 2019 04:42 PM

Then don't marry her. Prolong the engagement until you straighten your personal BS out. Why is this so complicated for you?

If you want her looking at you, with 2nd & 3rd glances like she is Officer Chad, then get your ass to the Gym and stop eating Officer Chad's donuts. "Soft around the edges" means unattractive. If your BF% is higher than 10, you aren't going to be attractive enough to her to keep her attention riveted and stop her "appreciating" tastier meat in front of you. Also stop being an insecure faggot about it. She knows bro. She may even be actively using it to dread you further into the commitment.

Have you read MMSLP? Highly suggest you do. Get your shit in order. You may be professionally and socially legit, you may be able to plate and ONS hawt bitches, but you're entering Hard Mode territory now, and it's painfully obvious *you are not worthy*

SoggyTrain • 13 points • 4 November, 2019 05:36 PM

I don't see anything wrong with her behavior. Do yourself a favor and don't go looking for reasons to be insecure. It sounds like she likes you right now, but if you worry about gay shit like this your time will be limited. My wife was sleeping with at least one other guy before we got together, and I was banging a hot blonde, who gives a fuck? Women like to have sex too. Get to the gym pussy, I am close to your max bench at 100lbs less than you.

trp1223 1 points 4 November, 2019 06:17 PM [recovered]

The two things that bother me are the fact that she was bragging about having a ONS with a “professional” soccer player and that she randomly messaged her girlfriend that she needed the dick.

I guess AWALT, but I’ve dated girls who don’t verbalize their sexual desires like that.

SoggyTrain • 17 points • 4 November, 2019 06:58 PM

Get it out of your head that women are these perfect little creatures. If you fucked an NFL cheerleader would you brag to your friends? Girls do need dick, the only question is who's dick will she get. Seriously though, it sounds like she is really into you, don't fuck it up by being an insecure faggot. Don't ever bring any of the shit you found up and never show jealousy or insecurity. Everyone has those feelings at some point, but your girl is not who gets to see them. What matters is what is happening right now. Become better than the man she already likes, and see yourself as the person she has to lockdown, not the other way around.

Persaeus • 8 points • 4 November, 2019 07:37 PM

I’ve dated girls who don’t verbalize their sexual desires like that

1, she was talking to her GF not a guy she wants to lock down  
2, and more importantly the fact that girls you dated don't verbalize like this is 100% a YOU problem and not a "them girls" problem. they sense your fragility in this regard like a blood hound and don't talk.  
men who don't give a fuck hear this type of thing frequently, especially when your'e the side piece.

trp1223 1 points 4 November, 2019 07:49 PM [recovered]

I was saying that I've been with both types of girls... those who brag about it and those who don't. The latter have always been a better fit for me.

arm\_candy • 7 points • 4 November, 2019 09:20 PM

both types of girls

There aren’t two types of girls and you clearly haven’t spent much time reading. You have a Madonna/Whore complex.

You say you’ve slept with 40+ women. Were they all trashy?

i-am-the-prize • 5 points • 4 November, 2019 07:08 PM

personality differences. chicks brag about weird shit, but it's also why they love seeing celebrities at restaurants and shit, being near fame/fortune. that makes her the really insecure one, needing to brag about that to a friend, think about that. but let this be an AWALT reminder for you, not 10-15 yrs down

the road like many of us who found RP long after we were married, do the pre-nup. but do NOT divulge your snooping.

you just need to cut some bodyfat and put more muscle on that huge ass physical-frame of yours and be the fucking prize. your family, business, size means you just have to work out physically and get stronger mentally - **BOTH are in your control. it's in the palm of your hand.... what are you going to do now?**

trp1223 1 points 4 November, 2019 07:17 PM\* [recovered]

Although I shouldn't have posted this shit in the first place, comments like yours help solidify the fact that this all a ME problem and not a HER problem. Thanks for the insight.

don't delete your comemnt please. it will be useful for others to learn from. (just practice opsec for your TRP1223 account at home)

No one here is ragging on you. we all have some insecurities, and not sure how I would've felt finding the same on my fiance's laptop (I was a different person 20+ yrs ago, I'm nearly 50 now).

Just know you're in a good spot, she didn't trash you privately while praising you to your face, that's the knife through the heart, ask me how I know... (please don't; hint: it's why I'm here)

matrixtospartanatLV • 11 points • 5 November, 2019 02:20 AM

You needy, insecure, fucking little bitch. The problem here is not your special little snowflake...it is YOU.

Just like the 99% of other (wannabe) motherfuckers that end up here, YOU ARE THE FUCKING PROBLEM.

So, right or wrong, you snooped your girl's shit and you found out she is 100% devoted, faithful, and loyal to you on every level. But, THAT isn't good enough for you.

You wanted her to be 100% devoted, loyal, and faithful to you BEFORE she ever met you, you delusional fucking little moronic bitch.

While you haven't posted a thought or commented a word your last 3 months here, did you read ANY of the sidebar? Any at all?

You got the message to lift, lose weight, be successful, etc. You listed all those accomplishments, but not one word of your post shows ANY knowledge of the sidebar.

You understand hypergamy, pair-bonding, n-count, monkey branching, ... that's all great. But because you HAVE NOT read the sidebar, you don't have the headspace to deal with it.

Let me break it down for you. I'm not going to spoon-feed the sidebar to you, but I am going to give you enough to show you that you know you better start reading it.

I have seen men come in here, rich, young, educated, jacked and tan and juicy as fuck, having problems with their bitch management because their headspace is all fucked up.

Here we go...

Your special little bitch sounds better than average. A lot of men would be happy with what you found.

She isn't the problem. Her n-count, liking sex, being sexual, being honest about her feelings, ALL of that shit is normal and desirable in a woman.

YOU ARE THE FUCKING PROBLEM you sniveling, snot-nosed, whining little fuck.

Read that last sentence again. If you cannot or will not accept that YOU ARE the problem, then GET THE FUCK OUT because you are wasting ALL of our time, as well as your own.

You are not ready to be married. You are too insecure, too needy, low self-esteem, lack confidence, and still BETA to the core. You don't see yourself as the prize, not really, not yet. She can smell the testosterone in your pheromones, she can taste it in your saliva when you kiss her, and she can feel it as she absorbs your cum through the walls of her cunt.

And just as well, she can sense your weakness, your insecurity, your hesitation, and all the other fucked up things about you because that is how women have evolved to survive in a world that held them as property and slaves until just the last couple of hundred years. I don't have time to teach you about evolutionary psychology, but you would benefit from learning about it yourself.

The following is where you want to be, and the sidebar is how to get there.

You start with, "she's not yours, it's just your turn." Once you've internalized that and you become the prize, you realize if she fucks up, SHE loses HER turn.

Your becoming the prize does not mean you are done. It means you are the best she can do, TODAY.

Tomorrow, you are better than today. You lose one more ounce of fat, lift one more pound, do one more rep, make one more dollar. If you want to REMAIN the prize, you have to become better, EVERY SINGLE DAY.

You have to come to a full acceptance and understanding of hypergamy. You have to know that what you and her feel right now in the relationship will CHANGE. You don't truly know if you love each other yet. You are riding the wave of hormones you create in each other as you ride one relationship wave to the next. First it's the sex. The next wave starts when you move in together. The next wave is the marriage proposal. Then the marriage ceremony. Then 2-3 kids. It is when things finally settle down that you see who you are REALLY married to. Love isn't about how someone else makes you feel, it's about how YOU feel about THEM, because of who they are. You vet 2-3 years in the same status of a relationship BEFORE you move in and marry. You'd know this shit if you read the sidebar. And vetting doesn't always work because, SHOCKER, women can CHANGE. THERE ARE NO GUARANTEES.

Then, 10 years from now, you are a broken, fat, beta provider getting sex once a month or less, pussy-whipped beyond belief, totally submissive to your fat wife because of what it would cost you to leave her; usually half your shit and all of your kids. Then you get to pay her to fuck another man in your bed who spends more time with your children than you do.

Knowing what you now know about marriage and hypergamy in 2019, if you cannot clearly see your way OUT of a marriage, WITH children, then you have NO BUSINESS getting into marriage.

Make no mistake, she can do better than you, and you can do better than her.

If you cannot accept that she could leave you, and you KNOW that would be a gift because you could do better since you would be better than you are now, then you are not ready for marriage, or even an LTR.

Why?

Because you ALREADY have ONEITIS; arguably the greatest common denominator in the destruction of men today.

Keep lifting and making money.

But if you don't fix that broken shit between your ears, then...

YOU WILL FAIL.

How do I know?

Because the foundation of your failure is written in your OP.

Now, it's time for you to focus on YOUR LIFE, which with work will be awesome, WITH or WITHOUT her.

Turn your life into the train. She can get on, and get off any time she likes. But your train is on track, and if she gets off, there are plenty more waiting to take her place at stops all along the way in your life.

There are 3.5 BILLION cunts on this earth.

Stop your bitching and whining about this ONE FUCKING CUNT and..

GET BACK TO FUCKING WORK!

I don't understand why everyone's hung up on the cost of the ring. \$30k to me may be \$5k to someone else.

RPeed • 1 point • 6 November, 2019 03:23 PM

It's called eschewing the role of a "betabuxx" provider. See sidebar for more details.

vplatt • 7 points • 4 November, 2019 05:23 PM

Look, I'll give it to you straight, and you didn't mention her stats or appearance, but let's just face facts: she is still in her 20's and very much at her prime physically and sexually. Her libido and wanting to look at guys is normal. Since you're at 260 lb, I'm guessing she's at least as attractive as you or more so. She can pull guys at

any time, and I'm sure she knows it. Even if she's the same weight as you, you'll know if you've been reading the sidebar that she can jack her "score" 2-3 points or more anytime she wants with sexual availability indicators. If you're being honest about it, I think that's what has you nervous.

So, what to do? Well, you already know I think if you've read the sidebar. Work on your frame, work on your **weight**, as well as your lifts.

I'm a fellow fatty, so I'm not even being mean here, but you all are young; so you can correct your weight a lot faster and easier than you will be able to in 20 years. Trust me, I'm there. That 260 you're at now will be VERY easy to let grow to 300+; especially once you have kids. I'm back to where you're at now though and on my way to new territory. Anyway, if you think you're nervous about her temptations now, then just wait... it can get a lot worse.

Now, would she cheat on you? I don't know. But the point here is that you're asking us what to do about your feelings on this. Your feelings on this are merely a reflection of where you're at physically though, so fix that. Sound about right?

trp1223 1 points 4 November, 2019 06:01 PM [recovered]

I appreciate the insight. From a strictly physical perspective, she is probably a point higher than me. Everything else considered, I'm probably a point higher than her.

I am definitely nervous about the fact she could jump ship anytime. It all stems from fear and insecurity; however, the only reason I'm worrying about it is because I plan on marrying her and I want to mitigate the chance of divorce down the road. If she left tomorrow, I'd have no problem finding another chick.

You are right in your assessment that I need to work on my frame and my weight. At 6'6, I carry 260 very well, but it's obviously not an optimal weight. But some girls do prefer it (my girl claiming to be one of them).

part\_wolf • 8 points • 4 November, 2019 06:27 PM\*

It doesn't matter what girls prefer, especially yours.

You're fatter and weaker than you should be, and you're insecure about it. That's why you're trying to convince yourself that being weak and jiggly is not a big deal because you're tall and because some women have low standards.

Lift heavy consistently and often, and fix your nutrition. Your confidence in your new body will start to re-wire your brain properly.

SBIII • 3 points • 5 November, 2019 09:27 AM

But some girls do prefer it (my girl claiming to be one of them).

Yes, some women do prefer their men to be fat. Especially a man that puts a 30k ring on her finger and offers her a life of security in exchange for.. well, nothing really, other than the fact that she has a pussy.

You being fat offers an enormous amount of comfort. Why? Because most women will not want to fuck a fat man. There's little chance of you straying.

Bullshit yourself all you want but 260lbs - unless you're a fucking beast - is a looooooong fucking way from being optimal.

RStonePT • 1 point • 5 November, 2019 02:51 PM

she is probably a point higher than me.

trp1223 1 points 5 November, 2019 06:14 PM [recovered]

I'm not going to have a pissing match with you, but my perceived SMV is very high due to my family's status - that alone accounts for 90% of my SMV currently. Being 6'6 with a decent face doesn't hurt either.

RStonePT • 5 points • 5 November, 2019 06:39 PM

I don't care about that shit. Self assessed SMV is always overstated.

aherrns • 1 point • 6 November, 2019 02:51 PM

I won't even use the tough love I get here. I will just tell you that this is a matter of common sense. Your family status will assure you pussy just because of your last name. She'd be fucking your last name. Not YOU. And as soon as she finds other Ewings that can give her a USD60,000 ring, she will swing branch. Find out who you are as an individual, and forget about the status your family gives you.

my perceived SMV is very high due to my family's status - that alone accounts for 90% of my SMV currently.

This means that you understand that your sole value is 10% of your pretended SMV. You have a long way my friend.

You just need to be better. You aren't the man you want to be yet or you would be confident and this wouldn't bother you. I wouldn't suggest a man get married unless he knows who he is and what he wants out of life. I made that mistake.

Do you have a vision of the man you want to be? Is it a soft guy who is 6'6 and worried about his Fiance checking out other men? If so, full steam ahead. If not, make yourself the man you want to be before you pull the trigger. Maybe get a prenup too. Lastly, why do you want to get married anyway?

trp1223 1 points 4 November, 2019 07:55 PM [recovered]

100% ... it's a me problem, not a her problem.

I definitely have a vision of the man I want to be, but it's obviously going to take time - lower BF%, higher revenue, etc...

I want to get married because I want kids. I ALMOST had her on board for having kids without getting married, but her mom talked her out of it.

[deleted] • 5 points • 4 November, 2019 08:04 PM

So her mom talked her out of it and that's it, she wins and you marry her? Fuck that shit bro. If you are a high value man, she will have kids with you regardless of what her mom says. Become the man you want to be before you commit to marrying and having kids. Ask me how I know...

You have ONE fucking life to live. Living according to her mom's ideals isn't going to work for you

longterm. You will end up angry as fuck and a beta bux getting IV drip sex in 5 years or less with that attitude. What do YOU want? Do that.

sd4c • 0 points • 5 November, 2019 09:12 AM

A Christian man would hold out for a virgin, or close to it. How would your church respond, to you and to her, if they knew she'd taken that many different loads?

You can do better. Even with faith the size of a mustard seed, it is said

lololasaurus • 1 point • 6 November, 2019 08:16 AM

This is laughable with the state of cultural Christianity today. I say this as a devout Christian; the church almost celebrates such a woman as you describe, but debt free virgins without tattoos are practically encouraged by other women to go squander their marriageable attributes.

11 n-count at 26yo for a hot gal is not that high. let's assume she started at 18, probably earlier actually, that slightly less than 2 dicks per year which is pretty standard for "i've had some boyfriends" and not standard for DTF any hot guy.

all you faggots concerned about your bitch's n-count, consider the alternatives:

she so ugly or annoying that she repulses men

she's so hung up religiously that she feels like she has to have permission from Jesus to suck cock, what happens when Jesus tells her ass play is a sin?

she's mentally damaged or has very high anxiety - run Forest

she's just a low libido woman. low sex drive, doesn't need cock, can go camel mode for long periods of time. watch how this turns out after the newness wears off and she has the stress of being a mom

in summary, retards, you want a chick that likes cock a lot; and has some common sense

mrpalt1 • 5 points • 4 November, 2019 05:59 PM

Look my dude we're all insecure at some point and possibly infinitely so. I have been, am and will be.

First like always focus on yourself. She's got a thing for hot guys, good for her, that's women. I'm your height and 60 lbs lighter. Assuming you're in fairly good shape, if I was next to you I would feel pretty insecure on physical presence alone. However, I can talk to anyone, I'm fairly smart, have good humor, and have interesting stories.

Moral of the story is on looks alone you might "beat" me but there is more to it than that. So in your case as it relates to her, be good looking and be interesting. Bring the focus back to yourself, if you're worried about a woman cheating don't go LTR and NEVER get married. If you're worried about being robbed, NEVER carry a wallet, or own a house, or car.

As for the previous dudes in her life, someone around here said it before you can't outfuck ghosts. Either own it or drop her and then go through similar with the next one. Get your head right.

There are plenty of homely looking dudes with absolute rockets for wives or girlfriends, looks aren't the MOST important.

EDIT TO ADD: Chief of the towel police so her thing for cops is probably true

trp1223 1 points 4 November, 2019 07:28 PM [recovered]

Thanks for the words of wisdom.

I really do need to keep focusing on improving myself physically and mentally.

Her past hookups bother me just because of the nature of them. Only two of her ~11 were LTRs. So you have random ONS and short-term fuck buddies who were nothing like me (I'm not a cop, or a juice head). The fact that she did all the stereotypical AWALT shit like fuck her guy friend while on vacay, have a ONS with a random soccer player, and then entertain the idea of fucking some juice head because she needed the cock... it all just seems trashy.

I've dated all different types of girls and there are definitely those who DON'T go around parading their sexual "achievements".

mrpalt1 • 2 points • 4 November, 2019 07:44 PM

We've got two conversations going on here but I agree there are women that don't go parading about their sexual achievements, as you put it.

WHAT DO YOU WANT and WHAT CAN YOU LIVE WITH?

Personally this would be a red flag for me. There's nothing wrong with a church girl she just might take a while to open up to the sexual flavors you're into, maybe not. I wouldn't marry crazy though and this might be crazy...per the Tiffany & hairdresser comment. Stereotypes exist for a reason.

arm\_candy • 2 points • 4 November, 2019 09:15 PM

Are you serious with this? Do you not know what AWALT means? How can you seriously act surprised that she does "AWALT shit"? Were you under the opinion that she's not a woman?

No, you're delusional and still think there are "two kinds of girls".

RisingUpAgain • 2 points • 5 November, 2019 11:52 AM

Women check out guys just as much as guys check out other women. They just hide it better than men because they have better peripheral vision.

Your unicorn should get her peripheral vision checked if you're noticing this...

Edit: In my own situation and experience I've found the only way to stop her from doing this is to lift and create dread. If she's too busy noticing other guys right in front of you (and she keeps looking) it means she's very comfortable with you. Too comfortable.

You're just extremely insecure man. Probably a good place to start for you.

helaughsinhidden • 3 points • 4 November, 2019 08:46 PM\*

Although I believe in AWALT/hypergamy, I also believe it's a spectrum.

It's not a spectrum, but it is conditional and exacerbated by circumstances. For example; if you are weak, hypergamy says "MONKEY BRANCH" and loudly. If you are acting like a high value man, hypergamy "MAKE SURE HIS BALLS ARE EMPTY".

Is marriage with this woman doomed from the start or am I over analyzing what I found?

You are over analyzing and if you keep doing it, you are doomed. You can't unfuck her previous partners, the only thing you can unfuck is yourself. You are in her frame right now, worried about her past. You are comparing yourself instead of improving yourself.

The one thing she does do all the time is glance at other guys.....

Generally, women want to be noticed. She's probably looking to see if someone is noticing her. Question is

why? Perhaps you are the kind of guy that texts too damn much so you don't have shit to talk about in person? Maybe your conversation is boring? Could be trying to make you jealous to spice YOU up? Hard to tell without more context .....like is this at the bar, McDonald's, family reunions, at the pool, or everywhere? Is this to any guy, men who are alone, good looking or ugly? Does she touch herself or do anything to MAKE them notice her? Lot's of variables. Personally I like it when my wife looks hot enough that other dudes take notice, but I am not the kind to share. What do you think in your gut she's doing?

Actionable feedback:

DO NOT CONFRONT HER WITH THIS SHIT.

A lot of guys can't get over themselves and will throw this crap in their face out of their own lack and insecurity. The fact you looked is weak. If you bring it up, you look intimidated by her ability to get other men. This is why most guys shouldn't look, because they don't know how to hold frame when they see stuff they don't like.

HAVE YOU READ THE SIDEBAR POSTS AND RECOMMENDED BOOKS?

Those are the only things that will help. Also, go to a Halloween shop and buy a couple uniforms, like police, soldier, and doctor.

DO NOT CONFRONT HER WITH THIS SHIT.

I would never do that.

helaughsinhidden • 1 point • 6 November, 2019 04:29 PM

She glances at dudes who are attractive (normal obviously).

I got a simple answer to this. Become the man that other women glance at when you are both together. It sounds like you have the adequate muscle mass. Start to eat clean, add some cardio, and get rid of the round edges. How's your hair, clothing, grooming, and cologne? Lot's of guys get comfy in LTR's and don't keep up shaving, haircuts, or update clothing.

Don't neglect your scent either. I've stepped up my game and it pays off big time.

floatingsidewalk • 2 points • 4 November, 2019 06:55 PM

Other than **get yourself to a gym**, some thoughts...

Frankly, this looks like a pretty normal life for a 27 year old with decent genetics and upbringing. Not good, bad or unusual. Maybe she likes cops/soldiers/whatever, but who cares. Most of us can't stop staring at the bikini-clad girl, who may or may not have any actual value beyond attraction - It's not necessarily a direct indicator of future negative behavior.

Here are some questions you could consider:

You went thru her messages and didn't find any red flags. Is your Spidey sense still going off? If so, why?

If you were to leave a copy of your messages for her to read, would she have similar level of confidence or reservations about you?

Can we assume you know her core values (you mention sharing a faith) and she knows yours? If so, are you sure they are compatible and suitable?

Does she demonstrate grit?

Btw, you've opened a potential Pandora's box by reading these messages. It seems that stuff like this always reaches daylight at the worst moments. I've personally seen numerous situations where people read their partners diary/phone/mail/whatever and when finally does surface it is a big trust killer and usually comes out during an argument or fight. Perhaps there is a way to head off a situation like that and use this information proactively in your decision making process? For example, it's pretty common that people lie about their n-count (e.g. - \*3, /3). If this conversation came up, could you have a relatively transparent discussion about it? Would she lie? If she did, would the variance from actual be meaningful to you and would you understand and still accept her as a wife? Why or why not? Could you use what you've learned to confirm or discredit your intuition?

This is really about you and what you are brave enough to explore and willing accept.

Good luck!

Older chicks are going to have mileage. I met my wife when she was mid twenties and she had an n count of 6. Did it bother me? Yeah, until I realized how shit she was shit in bed. Then it made me feel a lot better because at least I knew those guys were fuckoffs. I found out I was the prize when I literally couldn't get this girl to leave me the fuck alone. She would fuck me anywhere anytime and drive an hour to see me. She'd clean my room, do my dishes and buy me shit.

If she adds value to your life keep her around. However, you mention that she has wandering eyes. My wife is from a traditional country. She sees me as her man and her leader, even if I am shitty at it. I've never once caught her looking at another man in my presence. Does she not do it? I don't know but she's fucking me and it's just my turn. You can't ever know what your girl is thinking and you wouldn't want to. If she adds value to your life keep her around but realize that it's all temporary.

Reject444 • 2 points • 4 November, 2019 09:57 PM

Dude, this one is easy. If you don't want to get married, don't get married. If you do want to get married, even knowing everything that you learn from MRP, but you worried about the financial/legal ramifications, just get a prenup. Decide what YOU want, and then make THAT happen. Quit being insecure--it sounds to me like you actually didn't find anything worrisome on her laptop at all--no evidence of cheating (on you or any previous committed partners), and no sign of disrespecting you in other ways. You know about AWALT but from what you say there don't seem to be any unique red flags here, and she might very well be a quality woman, as long as you keep yourself a worthy man.

roundfarm1 • 2 points • 4 November, 2019 11:35 PM

I feel like you're definitely overanalyzing this.

Your n-count is in the 40s and you're not sure if you're uncomfortable with her's being 11? Seems a bit unreasonable.

Slept with 4 men 2 months before meeting you? I don't think it would matter if it was the night before, how was she supposed to know she'd meet the love of her life in two months time?

You've never slept with multiple women at the same time? If not, consider why the thought of your wife being in an unexclusive relationship with two men before meeting you bothers you.

You haven't mentioned any texts about her cheating, so I don't think a past hook up with a friend is any threat. Many women find "a man in uniform" attractive. You also mentioned that she was submissive, an authoritative

figure would compliment that trait well. Glancing at other men isn't cheating but if it makes you uncomfortable you should bring it up and talk it out.

Big\_Daddy\_PDX • 2 points • 5 November, 2019 03:19 AM

The worrying about n-count or her looking at other dudes is insecurity. If you really are a successful business owner, this is just easy proof/confidence in a prenup.

The bigger issue is how deeply you were reading into those messages. Who cares? My GF is a HB9 and I don't care what she's done before me. Probably some guy w/ a horse cock and another guy with way more money. But today, it's my turn and she has great behavior, treats me like a king and fucks my brains out. That other shit is a distraction.

TLDR - found out my wife had sex with other men before she met me

Who the fuck cares?

SBIII • 2 points • 5 November, 2019 12:05 AM

Let's do the maths.

11 dudes.

Say, 5 x One Night Stands

6 x LTRs, 50 sex sessions each

Average cock size 6"

Average sex session, in and out 250 times.

$(5 \times \text{ONS} \times 250 \times 6") + (6 \times 50 \times 250 \times 6") =$

$7500" + 375,000" = 383,500"$

Or, in layman's terms, she had 31,875 foot of cock before she met you.

Not sure what your problem is tbh. That's only 6 miles of cock.

Eleven bodies is fine for a hookup or even a GF, but is definitely NOT wifey material. Marriage is already risky, as the laws and courts get worse, even more so.

Pair that with her casual, nonchalant attitude towards sex and you're sitting on a timebomb, pre-nup or no.

Because once you have kids with her, she's got the family court as her weapon (and a pre-nup can't help with that).

As a stoic, you'll have no real fear of looking at the statistical odds of a successful marriage with a woman who's accepted eleven different loads in her private tube. For example:

(<http://3.bp.blogspot.com/-QPnsHoU2Pzk/T3GylzESliI/AAAAAAAAAYI/4USMzLGzm-A/s640/Heritage.jpg>)

Given your detailed self-description as a thoughtful and successful person, it's hard to justify why you'd settle for someone this used up. You could likely do better, and she knows it, which is why you found no complaints.

Good luck

Over analyzing 100%. Point by point...

Confirmed n-count of 11 (she specifically mentioned this number to her best friend)

I didn't know her n-count prior to this, not sure how to feel about it being 11

I used to worry about things like this as well. I knew it was silly, so the way I got past it was to just assume that every woman I met had a notch count of double her age. Whether it was true or not was irrelevant. The point was to stop thinking of women as the Madonna or the whore. She's neither... she's just a primate doing what primates have done for hundreds of thousands of years.

As for her count being 11... yeah, women lie to each other just as readily as they lie to men, so you haven't confirmed anything. The good news is that, as noted above, it doesn't really matter.

She was sleeping with at least two dudes at the same time before we met (1 & 2)

Justified it to her friends because she wasn't exclusive with either of them

Standard practice.

She texted a few of her friends excitedly telling them she slept with a professional soccer player (3)

Hooked up with a guy friend while on a group trip abroad (4)

She hooked up with a juice head (5)

She casually dated a police detective 10 years older than her for a few months (6)

Unless you're trying to set up some sort of gangbang with all her exes, why do you give a fuck about their jobs, ages, or hobbies?

She randomly messaged one of her friends: "I'm irritable and just need sex from a guy" (7)

This was the only actionable piece of information you got from all of that. Now you know that if she's more irritable than normal, then chances are that she just needs to be properly fucked. Use this information wisely.

Just to drive home the point about n-count being irrelevant, I numbered all the guys that you know of in the quote above. Factoring in you as well, that's 8. Do you really believe that there were only 3 other dicks throughout her entire life? Don't be naive. You'll never know the full extent of her past, and tbh you probably don't want to know. That applies not just to her but *all women*.

Instead of asking these irrelevant questions, ask yourself:

- Is she fucking you properly?
- Are you getting her best?
- Does she add value to your life?

RStonePT • 1 point • 5 November, 2019 02:47 PM

I vetted her as best I could and always paid attention to her actions.

I didn't know her n-count prior to this, not sure how to feel about it being 11

Yes you do, you're miffed that yours is <10. Own it

4 of them were in the two months prior to meeting me

So she wasn't waiting at home for you to show up, but was actively spinning plates when you met.

You shouldn't get married, yes, for the reasons we talk about in here, but also, you clearly haven't fucked the insecurity out of your system yet.

Is marriage with this woman doomed from the start or am I overanalyzing what I found?

Yes, for the obvious reasons of marriage and you looking to check out of the SMP

Although I believe in AWALT/hypergamy, I also believe it's a spectrum. Perhaps the things I found point to her being more AWALT and hypergamous?

Even with it right in your face you handwave it away. Dude, there is no helping you if you don't want to be helped

tap0988534 • 1 point • 6 November, 2019 07:03 PM

Her past isn't as scary as the situation. You don't want to be a money prize. In historic relationships, once the marriage happened, all power in the relationship was ceded to the man. Now it is the opposite. At the point of marriage, all power goes to her. This is particularly dangerous if she is way more attractive than you, because it means your stuff and not you are the prize. At marriage she gets all the stuff free and clear. There is no risk to her for banging hot guys on the side once she bags you. Her hamster will make her love you while she is still on trial. She will be authentic and submissive. Once the power dynamic shifts, so will her hamster. Unless she is invested in you as the prize, you are fucked. If you see her as the prize, you are fucked.

JameisBong • 1 point • 9 November, 2019 06:59 AM

Bro, marriage isn't a good idea in this environment. No matter how great she is now, the environment we live in is too toxic to have a successful traditional marriage.

Stay with her but if you can you should probably try and avoid signing your life and assets away to someone. If she wants a ceremony fine, give her one but no legal documents and definitely have a pre nup if you are loaded.

Brickles09 • 1 point • 11 November, 2019 05:06 AM

"She's submissive (both in and out of the bedroom), she treats me like a king."

They all do, my friend. They all do. They only transform into a monster A F T E R marriage.

Goobergus\_Gubbins • 1 point • 11 November, 2019 11:31 PM

Given your circumstances, I would probably next her and find a 22 year old new grad in engineering, accounting, or similar field, and that has a less titillating sexual history. When you are 50, boinking a 40 year old is going to be preferable to someone almost your own age. You have very high SMV; in my opinion you are settling for a wife like you have described. Go younger and fresher.

trp1223 1 points 12 November, 2019 08:53 PM [recovered]

Hmm hot take. Her sexual history in relation to her age is fine with me. We have great sex 7+ times per week.

AWALT anyways.

Goobergus\_Gubbins • 1 point • 14 November, 2019 01:55 AM

I'm not questioning your judgement. Just saying as a crusty old dude that maximizing age gap is a solid tactic if you are looking at the long haul. With your smv, you could choose a 19 year old if you wanted.

HornsOfApathy • 1 point • 4 November, 2019 05:43 PM

Stop being insecure and command her to lick your asshole. If she does, marriage material. If she doesn't, then you're just a faggot.

But if she licks your asshole and you have flashbacks to the other 11 buttocks she has licked, I would consider licking a dude's buttock to see if she likes being cucked by a faggot.

Or, you could just stop being a fat faggot.

Either way, the asshole never lies.

PillUpAss • 2 points • 4 November, 2019 06:49 PM

If you really like her, use a baby wipe first. Or realize every woman has a history, they are more red pill'd than most men.

lololasaurus • 1 point • 4 November, 2019 07:34 PM

I mean if I were marrying again and young, I'd just keep in mind the research that shows the higher the n-count above 0, the higher the risk of divorce.

You can find it from dalrock if you Google.

11 is higher risk, just from a data standpoint; the individuals matter but I don't know her.

Are you a high value man? You are pretty insecure (I might be too if I read all that, I don't know) so I'm going to go with "he has lots of work to do" but I don't know you. Maybe you really are.

Will you remain high value upon showing up and doing the work?

These are questions I can't answer, and they might be hard for you to answer too.

trp1223 1 points 4 November, 2019 07:45 PM [recovered]

I'm definitely insecure, but my perceived value is quite high - prominent family, business owner, tall, good face, endless social proof.

Regardless, I have A LOT of work to do.

lololasaurus • 1 point • 6 November, 2019 08:24 AM

All the value you listed is beta bux value, though.

Not bad things. But pretty much no alpha in there.

Are you excellent at some martial art?

Are your lifts at an advanced level?

Do you have female options that exist for reasons besides the fact that you have money or are known to associate with people who do?

Do you do awesome man stuff?

I'm not bashing you here but it's pretty clear you haven't done the work.

ZOG4LAKES • -11 points • 4 November, 2019 05:04 PM

Time to bail. This bitch is monkey branching. The minute something better comes along she is gone (with half your cash) if you marry her.

trp1223 1 points 4 November, 2019 05:08 PM [recovered]

I do want to clarify that all the messages not about me were from before me

ZOG4LAKES • -2 points • 4 November, 2019 05:21 PM

I understand, but patterns of behavior matter.
