

My (45m) wife (40f) suddenly wants to get a divorce after 16 years.

November 20, 2019 | 22 upvotes | by [My_Newest_Acc](#)

Hi, first time poster here. A friend told me about “red pill” and told me to post here. Here goes nothing.

My wife of 16 years wants a divorce all of the sudden and is refusing counseling. I am looking at the browsing history on my WiFi devices and she is visiting lawyers websites and apartment websites. She’s told me several times she wants to get a divorce and is starving me off all contact. No touching, no kissing, barely any texting. And no sex, of course.

This all sprung up out of nowhere about 1 month ago. Throughout the years we would get into heated arguments on the weekends when we would drink too much, and we are both prescribed adderal. So the arguments would turn into verbal fights. Typically, it would be about sex. She has never wanted to initiate sex, never has. It’s always been me to initiate but she has always seemed to enjoy it, I believe?!

Anyways, she’s telling me there’s been too much damage over the years. I’ve admitted to her that there has certainly been problems and we will stop drinking. I haven’t had a drink in 3 weeks and don’t intend to. She is not budging and still refuses to go to counseling with me.

My heart aches incredibly, I have a child in the house with this woman. I do not want to see our family get split apart in the span of a last-second decision from my wife. It’s been 16 years and she’s had a complete change of heart in a matter of a month and, again, is searching for divorce attorneys and new housing, and will not go to counseling.

I’ve tried everything. Please, what do I do from here?

Thank you.

Good news and bad news.

Bad news first. She has checked out, ages ago. She just verbalised it a month ago. She has been on the edge for ages. She probably entered the Eat Pray Love stage of her life or she is interested in someone else. She just needs the fantasy of Jeff in accounting, he doesn't even have to know of her existence for her to think she can move on.

Now the good news. You stopped drinking. Don't ever underestimate the importance of this. You can pull yourself together and turn YOUR life around. Note I emphasized your life. Whether or not she is part of it or not is moot.

You are here now. Everything you need is here, just use the tools and improve yourself.

Don't make her your sole reason for existence. No person should ever have that power over you.

redismyfuture • 9 points • 20 November, 2019 01:29 PM

Don't make her your sole reason for existence.

I hope he sticks around. Mostly for when he discovers Awalt and the anger phase kicks in. It's going to be a massive bomb.

What is the eat pray love part of life?

The_Litz • 5 points • 20 November, 2019 04:36 PM

They want a more fulfilling life and need to go on a spiritual journey to reconnect to their true self.

Instead of spending a summer in Tuscany or the south of France like in the movies they actually end up going nowhere.

Expect an increase in wine consumption and art supplies.

red-sfplusplus • 4 points • 20 November, 2019 06:02 PM

And a fat CS payment to support that lifestyle.

Lambda_Rail • 2 points • 20 November, 2019 03:09 PM

It's a book/movie.

RedPillGlasses • 3 points • 20 November, 2019 01:16 PM

Agreed. She wants new dick. It's not you.

Eat Pray Love = mid life crisis for women

There's a whole bunch of shit you did to help her along this path, but you probably don't have the balls to face it.

What's your body fat? Use whatever method you want, but if you're over 25%, then she is leaving you to fuck somebody who isn't a lazy alcoholic fattie.

red-sfplusplus • 10 points • 20 November, 2019 03:22 PM

| She wants new dick.

I am so sick of this.

They dont always need/want new dick. They might just want to work on themselves, god forbid a woman do that.

I have been single. It was fine. I didnt break up with one pussy, just to hop into another.

I wanted my fucking space. When I was done ruminating I found new pussy to fill.

Believe it or not, some men are so worthless they will force a woman into celibacy from all dick until the thought of dick doesnt gross them out any longer.

arm_candy • 9 points • 20 November, 2019 04:07 PM

| They might just want to work on themselves, god forbid a woman do that.

I love that the voice of reason is the guy who self-identifies as MGTOW.

This place is thick with retards who soothe their egos by convincing themselves that AWALT when it's really just APALT. They come here as losers who can't manage their own lives and a couple weeks later they are 100% convinced that women are literally mental children.

red-sfpplus • 9 points • 20 November, 2019 06:05 PM

I hate labels and this is why.

No label can describe what I am. I am the sum of my own experience, truths, lies, pain and happy.

Red. Blue. Black. MTGOW.

I have parts of all inside me. There are areas from each to take and discard.

Just dont call me small.

Ill cry.

arm_candy • 9 points • 20 November, 2019 04:48 PM

| Women are the oldest teenagers in the home, and are rules by their feelz.

So are guys. The vast, vast majority of people, male and female, are essentially stumbling through life by accident and operating by feelz.

Taking action that isn't 100% emotion driven is a learned skill. It's not something that men

innately know, or they wouldn't end up here.

Basic MRP faggot

It's ego soothing for guys who don't have a real sense of self worth. It's a lot easier to convince yourself that women are garbage than to convince yourself that you're actually high value. Harder still to actually be high value.

RedPillGlasses • 2 points • 20 November, 2019 04:51 PM

Easier to convince yourself that women are garbage.

Agreed. It's that black pill retarded mindset.

Yeah, no shit. But she's divorcing him and has zero interest in counseling. You don't need to get divorced to "work on yourself".

Don't forget your AI today, because you sound like a bitch.

Edit: Why does everything you write turn into a humble brag? "I found a new pussy to fill." Good job dude, you went on Tinder, we're so proud.

It was Bumble. Keep up.

+6 months I dropped Shelly

June 2019 I dropped Mandy, was single. Needed to clear my head.

June 2019, banged a few THOTS

The first question you want to ask yourself is.. how did I truly feel about my wife and marriage 2 months ago,

before everything turned to shit?

You see, right now, you are probably caught up in being worried about:

the impact to your child

the hit to your ego about your marriage failure

anxiety about starting again

fear of being alone and meeting someone new

16 years of marriage thrown away

etc

All of these things have something in common, but it isn't a genuine desire to be in a relationship with your wife. You want to fight to save your marriage because of all these things, and these things probably amplify your feelings for her right now. Which is why you need to look back to before the shit hit the fan. Because maybe it isn't worth saving from a 1:1 relationship perspective.

Get to reading the sidebar, don't try to talk your wife out of it, visit lawyers, get your exit plan ready and start lifting.

There are guys who have turned it around from this point but they did it by focusing on making themselves awesome, not by talking at their wife until they are blue in the face, and then wasting time cruising Tinder and Gaming subreddits.

Also, you haven't told us just how much of a loser you are yet. Don't leave important details out, it wastes everyone's time.

[deleted]

tspitsatgp • 6 points • 20 November, 2019 03:43 AM

It is an important point. There's so much inertia in relationships that most people just stay because it is easier than leaving. But when events happen, it's often a wake up call and a good opportunity to evaluate the relationship at its core to determine whether it's actually worth saving or whether you are just hanging on because of ego and the sunk cost fallacy.

But... a person's ability to be objective at a time like this is really dependent on which level of fucked they are starting from.

hack3ge • 11 points • 20 November, 2019 01:07 PM

This will be the most underrated comment of all time here.

Most men don't have the ability to flip that switch - my wife was talking to a lawyer and house shopping and she changed her mind when I said fuck it and burned the whole thing including myself to the ground but honestly I should have walked at that point.

I am not sure if it's this specific scenario or just when a man gets so far past his wife that it's inevitable that he leaves or fucks other people.

Either way her wanting to leave and using that to leverage a good divorce deal is a gift from a woman you should never turn down.

RatedCommentBot • -4 points • 20 November, 2019 02:00 PM

Thank you for flagging an underrated comment.

Unfortunately, on this occasion your concern was unnecessary and the comment was rated accurately.

SBIH • 18 points • 20 November, 2019 10:02 AM

Over the past 16 years, you have done nothing. You have made no good decisions. You have failed to lead yourself. You have failed to lead your family. You are an alcoholic and drug dependent. Because of this, your wife is also an alcoholic and drug dependent. At some stage in the last year or two, she decided that she has had enough of the life you have created for you and her and she wants out.

Why do you think that is?

Take a long look in the mirror. What do you see?

Do you see a man who has his shit together?

Do you see a man who is in top physical shape?

Do you see a man who controls his emotions?

Do you see a man who has a large social circle?

Do you see a man who leads his family - nurturing, protecting, educating?

Do you see a man who has interesting hobbies?

Do you see a man who has a vision for his life and a mission that he follows with 100% conviction?

A man who women crave to be with and other men envy?

Or, do you see...

A man who is all over the place?

A man who is out of shape?

A man who is controlled by his emotions?

A man who leads his family to alcoholism and drug dependency?

A man with no social life, no hobbies, no goals, no ambition and no drive?

A man who no woman wants to be with - including his own wife - and no man wants to emulate?

I've admitted to her that there has certainly been problems and we will stop drinking. I've tried everything.

You haven't tried anything. You don't even realise what the problem is. It's not just the drinking - it's much bigger than that. She knows it, we know it, you don't.

Please, what do I do from here?

That depends on you - what do you want to do? What are you willing to do to get it? How much are you willing to sacrifice to get what you want? Do you even really know what it is that you want?

JudgeDoom69 • 2 points • 20 November, 2019 04:49 PM

This one not so much.

red-sfplus • 5 points • 20 November, 2019 03:17 PM

Fuck off today faggot.

/u/SBIII is right on, not for just this OP but for all faggot men coming to this sub.

Sometimes specific advice is warranted. Sometimes OP is just such a turd that generic "get your head out of your ass" advice is applicable.

In this case, it is the latter.

SBIII • 4 points • 20 November, 2019 05:06 PM

I tried to give specific advice to someone yesterday. They were complaining about their wife telling them what they could / couldn't do in bed.. "don't do that / don't touch me there" etc.

I told him to pin her down and caveman her.

His response was "what, so you want me to rape her?"

That's the last time I give specific advice in r/deadbedrooms.

Literally, as they perma - banned me.

Sepean • 9 points • 20 November, 2019 05:43 AM

You read the sidebar and do what it says. Most guys save their marriage that way, those that don't typically choose to leave it because they find out how to handle girls and find their wife isn't worth staying with.

HornsOfApathy • 21 points • 20 November, 2019 03:28 AM

Sorry bro - but if you accept right now. RIGHT NOW. That this is lost and just STFU about everything you might be able to save what's left of your dignity, maybe keep your child in your life, but not your marriage.

A friend told me about "red pill"

And which one of you fuckers talked about fight club and actually called it by it's name without at the very least giving this man a copy of NMMNG first?

OP - start here.

gvntr • 7 points • 20 November, 2019 06:46 AM

Alcohol. That's the keyword in your post.

Actually the problem is alcoholism.

You can lift to your heart's content and do all the other sidebar stuff but until you get a grip on the alcoholism it will avail you nothing.

It's the baseline problem for many guys in MRP.

SBIII • 3 points • 20 November, 2019 11:11 AM

Alcohol isn't the baseline problem - it's just another symptom.

gvntr • 1 point • 20 November, 2019 08:50 PM

Alcohol is not the problem here, alcoholism is. Very bad odds.

Perfectinmyeyes • 7 points • 20 November, 2019 01:24 PM

Not to say this is your wife but ... Ive known 3 situations with guys where there wife wanted out - quickly and with no counseling (dinking around) - it had to do with another guy.

Actually one of them was my wifes co-worker; makes me chuckle a bit ... married 15+ years 2 kids, chick wants out Now ... gets out (she was banging another dude - she thought those 2 would live happily ever after; next thing you know shes pregnant and the new boy friend is gone).

Listen to the posts here - lots of great info and help

You said you tried everything ... as SB3 pointed out; have you looked at the man in the mirror and forced yourself to keep looking?

scarmin34 • 20 points • 20 November, 2019 02:49 AM

First off- stop believing that it "just sprung up a month ago", she's been thinking of this off an on for years.

Second off- sorry bro, it's not looking good for you.

The good news is that you have the option of meeting someone 25 years younger than you and having a whole additional family - whereas she doesn't.

She's being selfish and childish- like most women that don't have a strong husband will do. She is breaking up the family, essentially showing your kid that you are worthless.

I don't have any positive advice for you other than go see your own divorce lawyer fucking *yesterday*. There are many actions and other behaviours you can take/change that severely impact how the legal separation goes- including whether or not you'll have any access to the kid. **She will be able to take your child away from you forever** if you don't get on this right fucking now- and even still it may be too late.

Do that first, man, and God's speed.

redwall92 • 3 points • 20 November, 2019 02:26 PM

A friend told me about "red pill" and told me to post here.

May the offender come forth ... that justice may be done up him!

Westernhagen • 3 points • 20 November, 2019 04:07 PM

Go and read everything written about divorce by /u/Red-Curious/

He is a divorce lawyer. He knows what he's talking about.

Start consulting lawyers where you are. This is not a sudden decision on her part. She has given this a lot of thought already. You are behind. You are in for a world of hurt if you go into denial mode or "I can fix this!" mode.

Forget counseling. What will happen in counseling: she is just going through the motions so she can say she "tried everything". She and the counselor cooperatively lay out all the many different ways that you suck. Then they think of hoops for you to jump through. When you jump through that hoop, the marriage is fixed, right? Victory? Nope. They come up with another hoop! They counselor laughs all the way to the bank. You end up divorced anyway.

Gtrplyr3838 • 5 points • 20 November, 2019 02:58 AM

It is done. Sorry. Been there and done that. Work on yourself and forget about her or any other women until you feel good about yourself. But absolutely forget about trying to reconcile with your wife. At best, you will delay the inevitable and will be harder later.

red-sfpplus • 4 points • 20 November, 2019 03:19 PM

No one wants a divorce all of a sudden. This shit doesnt spring up out of the blue.

You have been asleep at the wheel for years, not listening to her, your kids (if you have them) and your balls.

Why the fuck several brothers are wasting their time with someone who clearly doesnt listen IRL is beyond me. You dont listen IRL, you will not listen to us here.

Fuck off.

BobbyPeru • 5 points • 20 November, 2019 11:34 AM

She has never wanted to initiate sex, never has. It's always been me to initiate but she has always seemed to enjoy it, I believe?!

Ok, now I know you haven't read the sidebar

Do the work. You are acting pathetic.

1) She's checked way the fuck out

2). You are making it worse by practically begging

Your only response should be "the door is right there" And start to move on. Also, there's a good chance she's

fucking someone else or has one lined up.

Nodeal_reddit • 2 points • 20 November, 2019 06:40 PM

No woman just leaves. She has plans and options all lined up. Most likely she is already fucking some other dude. Accept it, keep your cool, and prepare for your next life.

mrbadassmotherfucker • 2 points • 20 November, 2019 07:28 AM

I can tell you've come straight from r/relationships...

What you describe is typical and you shouldnt expect anything else. All women are like that. AWALT.

READ THE SIDEBAR. RP will do you a lot of good, but not to save your marriage (although that can be a result of your work here) but to improve yourself. You probably don't even think you need improving or "fixing", but believe me, YOU DO!

Read the sidebar (read the books suggested in the sidebar) and do some work on this. You will dramatically change your life!

Go! Get to work mother fucker!

SBIII • 0 points • 20 November, 2019 03:55 PM

One of the most annoying things about RM *is* the presentation - the tone is depressing and it's about 2 days too long. It sells itself as being a book of theories based on evolutionary science - just joining the dots - but there is a shitload of ego and bitterness in the undertone.

Plus, it tries far too hard to be so clever that it can't be argued with, which is a massive failure in my opinion.

The only reason that RM has any real authority is because the author says it does and very few people fail to question it. Or bother arguing as there's fuck all point in arguing with Tomassi.

Seriously, you need to start focusing on yourself.

Lift, read the sidebar materials, and stfu.

She is a reflection of you. You may not save your marriage but you'll save yourself. It may be too late for you. There's an almost certain chance she has a branch swing lined up or is already cheating on you.

Edit: and go see a fucking lawyer and get prepared.

You want advice? Go fuck your wife's best friend. And then 2 more friends. And then 3 more randos.

If you can't fuck your wife's best friend, what of value is being lost? Nothing really.

This is terrible and awesome advice at the same time.

I did this. Made the divorce 10/10 harder.

Most expensive lays ever.

10/10 would do again just to piss her off again.

Careful what you wish for.

Only thing that gets easier, is giving less fucks. A lot less fucks.

Your marriage is probably over and she's probably got another guy. As a hail Mary pass you might want to involve her family in trying to guilt her into staying. That might buy you six months, but it's an uphill battle because it's incredible difficult to get a woman attracted to you, when she's become determinedly unattracted to you.

Ah yes, the the age old advice given in WISNWFYFTMYFGISASM (When I Say No With Your Family To Make You Feel Guilty Into Staying Another Six Months). I love that book.
