

“Wow... so uh.... you’re a lot more dominant than I was expecting.” This is a bad a thing right?

December 6, 2019 | 81 upvotes | by [\[deleted\]](#)

Had sex with a Tinder slut last night. It was a first date. My 10th body count as of now, but nothing to be proud off. Id rate her a 4 or 5. I have a weakness with big goth girls so sue me. Pretty good as I broke a 2 week dry spell.

We went back to my place for drinks, made my move. An easy lay with no LMR or anything. Got her to bed, ate her out good. Wrapped it up, fucked her missionary, stopped and ate her out more, and flipped her over (somehow) and fucked her doggy. While we fucked she repeated “fuuuuuck you fuck so good”. Went to throw the condom away. We were both laying down and then she says “wow so uh.... fuck you were more dominating than I thought you were”.

Couple months ago same thing, tinder girl came over to my place for the first on a first date, I made a move right away, when we were done having sex, she says “wow ok so I wasn’t expecting this from you. Didn’t think you would make a move when I came over, I was expecting you to be innocent and soft”.

All of these things are bad right? They’re basically just saying “I’m pretty sure you were beta as fuck and didn’t have the balls to make a move”.

Which truth be told I still am beta. Very much. Still socially awkward, for every girl a bang on a date the previous 2 dates went to shit or got ghosted, haven’t grown a spine, hard time being dominant socially, etc. I really don’t have fuck buddies for more than a month at the most.

All that is reflecting on my dates isn’t it?

Is that why you all don't like pussy eating? Cause by the logic why would you kiss another girl ever again?

Depends on the girl. Some Tinder slut? No way.

[deleted][S] • 6 points • 6 December, 2019 11:20 PM

Saliva is not as infectious as vaginal discharge. At least in regards to STI.

If she doesn't present a clean STI test paper you usually want to at least test the waters a bit and look out for symptoms before munching the rug.

[deleted][S] • -15 points • 6 December, 2019 08:41 PM

Yeah but even then, oral sex is not even close as infectious to regular sex. There no known cases of HIV or even Herpes being passed on through oral sex. It's a low risk activity.

VinterBot • 27 points • 6 December, 2019 08:51 PM

Yeah but even then, oral sex is not even close as infectious to regular sex. There no known cases of HIV or even Herpes being passed on through oral sex. It's a low risk activity.

Several sexually transmitted diseases (STDs), including HIV, herpes, syphilis, gonorrhea, HPV, and viral hepatitis can be passed on through oral sex.

[deleted][S] • -19 points • 6 December, 2019 08:59 PM

Can, but more than likely won't. You're more than likely to get herpes from protected sex (males are kind of fucked over on this) rather than through oral sex. There are no known cases of HIV passing through oral sex.

Ill_mumble_that • 12 points • 6 December, 2019 08:50 PM

Yeah dude, but search Reddit for the jolly rancher story and you'll never do it with an ONS again.

DarkestShadeOfRed • 3 points • 7 December, 2019 02:26 AM

OMG can confirm. I would never with a ONS anyways, but that seals the deal.

[deleted] • 8 points • 6 December, 2019 08:54 PM

You think herpes can't be passed on orally? Ever heard of cold sores?

[deleted][S] • -1 points • 6 December, 2019 09:03 PM

And why should that be any concern? Over 80% of the population ends of getting oral heroes by the end of their lives. If you get it you get it, you're not a special case as opposite to getting HIV.

SwoleyMoleyFrijoley • 23 points • 6 December, 2019 10:10 PM

This guy fucking wants herpes

[deleted] • 5 points • 6 December, 2019 09:28 PM*

He means mouth to genitals. (If she gives you head with a coldsore. Happened to me at 19).

Mouth Herpes: hsv1 Genital Herpes: hsv2

However you can get hsv1 on genitals and hsv2 on mouth (latter is very rare).

Admittedly genital hsv1 is not near as bad as hsv2 (traditional herpes) because as you said nearly everyone has it albeit on their mouths usually. Same exact virus though.

Fun fact: someone with genital hsv1 is actually LESS contagious than someone with oral hsv1.

Little lesson for you.

Also, AMA. I'm pretty knowledgeable in this.

Casanova-Quinn • 8 points • 6 December, 2019 11:42 PM

With kissing, the only risk is herpes. With oral, the risk is all the STDs.

Don't eat out random hoes right off the bat, verify they're clean first.

Zombiespire • 10 points • 6 December, 2019 06:01 PM

Out of curiosity what are your prerequisites to eat a girl out? Because I'm super into it.

TFWnoLTR • 34 points • 6 December, 2019 06:07 PM

A bunch of dudes around here are convinced you'll get oral cancer from eating pussy.

If you enjoy it and shes clean, go for it.

Zombiespire • 21 points • 6 December, 2019 06:13 PM

Obviously but the question "if she's clean" applies to anyone. I was wondering if he didn't do cunnilingus unprotected with any first dates or specifically tinder thots.

TFWnoLTR • 13 points • 6 December, 2019 07:31 PM

Ah.

Well, as a cunningulus enthusiast myself, I don't think I've ever gone down on a first date. In fact, it's usually not until that extra level of excitement from her still being "new pussy" is fading that I bring it to that level. By then I've had enough experience with her vagina to have seen signs if something is off about it, and if something was, I'd be more inclined to next her than go downtown.

Once I'm at that point its just a matter of creating or awaiting an opportunity where she has

recently showered and is clean from head to toe. Nothing ruins a first impression like crotch sweat.

As far as signs to avoid: always being able to smell her pussy while you're fucking her especially when it isn't a good pussy smell, her trying to avoid letting you get a look at the goods, her asshole always stinking (bad hygiene in that area usually spreads to the other area), excessive bush is her way of saying stay away, her scratching it or signs it itches often, and last but not least, if it's actually a penis.

alittletoosmooth • 5 points • 7 December, 2019 12:43 AM

Damn, she was almost in the clear until that last test

HotelMohelHolidayInn • 5 points • 6 December, 2019 07:20 PM

OP is foolish for doing that, though.

What's the point in wrapping your dick and still eating a random "Tinder slut" out, even if he only wore a rubber as contraception?

"Hey guise, I only have gonaherpespyhlads on my mouth, but my dick is cool."

Zombiespire • -1 points • 6 December, 2019 07:38 PM

So you are actually significantly less likely to be infected from STDs from cunnilingus as compared to actual sex. This is due to the fact many STDs require exposure to the vaginal walls and more often the uterus. That means the main diseases to be wary of are those present on the surface level of the vagina. Of course it is still possible to be infected from cunnilingus, but much less likely. Not saying you should throw caution to the wind with that in mind, just explaining the logic of those who use condoms but still perform oral.

This article is based on oral sex as a whole in all demographics for both genders. It even says in your article that cunnilingus does not carry nearly the same risk as fellatio which entirely serves my argument.

As for your analogy, people typically don't wear helmets and goggles to grocery shop either.

Dissonance.

itiswrltten • 89 points • 6 December, 2019 03:56 PM

What red means is "the overall image you present is incongruous with your sexual self"

TRP is iterative, you've gotten the fucking part down but still need to focus on frame and presentation.
Basically, your marketing is confusing the girls.

[deleted][S] • 10 points • 6 December, 2019 03:58 PM

How do I focus on frame and presentation?

Also, can you expand on my marketing is confusing girls?

itiswrltten • 30 points • 6 December, 2019 04:02 PM

You're advertising yourself as socially passive, but then active and dominant in bed. This is what draws the comments in your OP.

There are a million posts on frame, it's probably the most important intermediate RP topic. Go to red's profile, his personal subreddit is all curated content. Search for frame and skim a few posts until something jumps out at you, then slowly and carefully read that one.

Standgrounding • 2 points • 6 December, 2019 07:08 PM

Honestly I've focused too much on Game articles and books and not enough onto the frame.

Cause I got a lot more to read cause this will be my biggest challenge yet. Even bigger than eating right or lifting.

Ill_mumble_that • 4 points • 6 December, 2019 08:45 PM

When you have frame. You don't need game.

Frame is bigger than anything else. You can be a fatass with pimples, but if you have frame, they'll crave sex with you.

Think of it line a girl at work. There are no female entrepreneurs. They need the structure, they crave it. Historically it's not that big a deal, except right now it's everything. There are so many pussy footed men that don't have any frame, if you have it you are special and different.

johnexperience • 2 points • 6 December, 2019 05:07 PM

Congruence, this comes in hand with your self perception and security in yourself, how you get validation from others, after resolving that you should be able to construct a frame, with your beliefs and principles and not be fucking sensitive if you are wrong, you are progressing which is good, enjoy the journey

[deleted][S] • 9 points • 6 December, 2019 04:37 PM

I don't know about feminine. I'm a 6'4 Mexican with a naturally deep voice. Wimpy? Maybe.

I would say I'm good at eye contact. Bad posture I try be aware of. I'm always constantly fixing it in public. I don't really apologize but unsure sounds about right to be honest.

You're blessed with height, voice, and skin that looks great tanned. Good you're working on that. Get to the gym, eat well (no stupid vegan shit), you'll start seeing confidence grow. PhaedrusHunt • 1 point • 6 December, 2019 05:59 PM

The best thing you can do for a posture is pull ups and push ups and neck rolls.

You chest and shoulders will open up and get more flexible and your shoulders will naturally be drawn back more you'll stand up straighter you'll be taller.

Don_Draper27 • 17 points • 6 December, 2019 04:33 PM

You're overthinking it. Obviously you display enough alpha traits to get these girls to your place on the first date. If they saw you as beta they would've came up with some excuse to leave the date early.

I think you're going from 0 to 100 too fast. Sure, you're getting results but in your head you think you're beta and you're faking the alpha traits and in their eyes they feel like you're alpha and you only pretended to be beta to get them to your place.

Be very careful with your intensity on the first fuck. Most girls will be okay with it but it only takes 1 instance for you to spend hundreds / thousands of dollars on a lawyer because you were accused of sexual assault.

Focus more on vetting your girls properly vs. adding to your notch count.

red_philosopher • -2 points • 6 December, 2019 05:53 PM

Most girls will be okay with it but it only takes 1 instance for you to spend hundreds / thousands of dollars on a lawyer because you were accused of sexual assault.

Don_Draper27 • 1 point • 6 December, 2019 08:04 PM

In some areas it is against the law to record someone without their consent.

It is better evidence to have a text exchange after the interaction. Something as simple as: "Hey I had a great time. Let's meet up again soon."

her: "Yeah me too (;"

Screenshot and email to yourself.

red_philosopher • 4 points • 6 December, 2019 09:32 PM

Sure, but would you rather go down for sexual assault/rape and spend hundreds / thousands trying to clear your name, or would you rather them try and pin you for something way less severe?

I know my choice.

And then you have evidence that it was a straight up fabrication, and can take her to court for perjury and other damages. It's no longer a he-said she-said.

If you act 'like a gentleman' on the date and then act like a 'sexual savage' when you get her back home you will get these comments. I get these comments because I do that jekel and hyde act.

Ie if youre laid back and chill on the date and then youre tying her up and tossing her around when you get her home you will get this stuff. I'm not sure it's a frame or lack of frame thing as is being suggested in other comments. Especially considering these are ONS stuff, if your frame was so 'terrible' they wouldn't be coming over to begin with.

Yep. It gets you to "oh shit, it's just pussy" real fast.

I had a fraternity brother in college who had basically zero standards. His standard was "it all feels the same". Interestingly, this put his Not Giving A Fuck at maximum overdrive.

So yeah, he smashed plenty of fat Asians (that was his go to, lmao especially the wrestling managers) but would pull all kinds of quality stuff because he knew he was a "come over" text away from sex on demand.

He ended up LTRing his future wife (whose virginity he took) his senior year, who is a joy to be around and they're happy together.

I'd say that guy did a great job sexual strategy wise

[deleted] • 3 points • 6 December, 2019 04:24 PM

Sounds like a guy I knew, straight up fucked everything, even a cripple girl. Sure the strategy can work if your objective is to get laid, but god damn if he isnt the most useless undriven and sad excuse for an individual.

You'll learn nothing from fucking fat easy women. It's really no different than beating your meat. An easy route.

itiswrltten • 15 points • 6 December, 2019 04:28 PM

An INTERMEDIATE guy has nothing to learn. A college virgin? Different story.

[deleted] • 7 points • 6 December, 2019 04:55 PM

I disagree. In wrestling, most new wrestlers start competing at a novice tournament so they can get a feel for how things work. Then they work their way up to JV, then varsity, and increasingly difficult levels of competition as their skill increases. If your first competition is a tough tournament, you're going to get your ass kicked and lose confidence; however, working your way up the food chain builds confidence over time.

If you aren't a natural with women, then starting with fatties or other low value women is a good route to build experience and confidence on the way to better looking, higher quality women. Lower value women are also easier, so it helps in maintaining a mentality of abundance. Personally, I don't like fucking fat women, but I'll bang uglier chicks with great bodies because it's fun and helps me maintain a mindset of abundance.

i-am-the-prize • 1 point • 6 December, 2019 06:05 PM

agreed.

LethalShade • 2 points • 6 December, 2019 06:21 PM

The guys I know that get laid the least are the most picky. They won't even go talk to a girl that's a 6-7 but have never made out with a girl in their life.

Blows my mind ☐

[deleted][S] • 1 point • 6 December, 2019 08:12 PM

Do you still bang the fatties?

Like others have said it really helps with that abundance feeling but that's because in my journey so far my SMV hasn't been risen enough to regularly bang even 7s:

PUA_Fan • 1 point • 6 December, 2019 09:04 PM

I would bang 7s in the same time just took little more time to seduce

PUA_Fan • -1 points • 6 December, 2019 09:04 PM

Its not that i was bangin chubbies... Its.. I was so horny bcus of testosterone i was basically rapin them... And they enjoyed it

[deleted][S] • 5 points • 6 December, 2019 04:35 PM

So what you're saying in a nutshell is:

Lifting and Fitness is the best Game there is?

i-am-the-prize • 9 points • 6 December, 2019 06:08 PM

no, Game is for when you are engaged in Conversation and are interacting.

Getting: fit, ripped, strong - gets you to the convo easier - if you approach from the front, or she sees you from across the room/bar/pooldeck/party - your physical appearance (body/face/fashion) is all she has to 'go by' to rate you. It's been said: *she's already decided if she's willing to talk to you before you open your mouth*, based on how you look.

Once you open your big mouth, then Game takes over. You have to be "good looking enough" to get to the Game stage, at a minimum. Being really good looking, buys you some latitude, but it's not required, plenty written on that.

Best relaxation routine / hobby there is

SuperiorDrip • 3 points • 6 December, 2019 03:35 PM

Why is sprinting important?

Adorable_FecalSpray • 15 points • 6 December, 2019 03:42 PM

Heavy compound lifts (squats, deadlift, ohp, bench press) + Sprints will build your muscle and strength, will help shed fat and increase your cardio endurance. All important things for looks as well as actually being able to put into action in bed.

T-Nation has some good articles on Sprinting while lifting.

Ireallydownknowhey • 1 point • 7 December, 2019 01:25 AM

Sprinting won't shed fat lol, weight loss/ gain is determined by your calorie intake.

PUA_Fan • 1 point • 8 December, 2019 06:25 PM

Well you are stupid then

PUA_Fan • 5 points • 6 December, 2019 04:11 PM

Sprinting and swimming is great for that chiseled low body fat slayer look :)

WinterRice • 1 point • 6 December, 2019 05:44 PM

How often are you sprinting? What does that routine look like? I'm trying to incorporate it more, I've mainly been doing long distance.

LLL3peat • 3 points • 6 December, 2019 10:24 PM

Simple. 6'4" 212. Depends on your body fat and what clothes you wear. There's a difference between looking decent, prepped to impress, and like a gentleman compared to someone who dresses a little more casual with a hint of edginess to them.

Clean cut with button up and freshly pressed clothes is awesome and amazing. Depends on the girl. Usually this makes the woman want a relationship/love/passionate sex

Slight 3 o'clock shadow with simple good fitting T shirt and something that screams mysterious/dominating (usually my black rocker studs do the trick with cloth belt) screams presentable but what's this emo/dad side that's slightly there? Usually this leads to animalistic sex and the response you are experiencing.

Figure out your edge. Goth emo girls show it, show yours a little and continue to have fun

thrwy75479 • 7 points • 6 December, 2019 04:54 PM

Dominance requires energy.

A lot of CEO types have submissive fantasies because being socially dominant all the time wears you out. They eroticize the feeling of relinquishing control, as pointed out by Seltzer:

What's perhaps most interesting in all this is the psychological relief that many alpha males in socially dominant positions experience in identifying with the submissive role. Fantasizing themselves as "liberated" from all the responsibilities that go with functioning in dominant professional roles offers them a respite from always having to be in control. And, of course, because they get to choose the fantasy material that most turns them on, they haven't really given up control in such a way that might produce anxiety. So it's something like having their cake and eating it, too. It's certainly significant that Ogas and Gaddam emphasize that BDSM play, unlike other sexually ritualistic practices, isn't generally geared toward inducing orgasm. Instead, it's about taking care of a need—which, I would add, has been fervidly eroticized. You might even call the whole thing an "alpha holiday."

Look at how you feel after fucking. If you're like most people, you're relaxed, and perhaps tired. This is why guys that are getting pussy are chill, and laid back. There's less angst due to a lack of sexual frustration.

The key is to find that optimal spot where your behaviours don't signal 'wimp', and you're not coming off as a try-hard dom, being a dick to everyone, which, apart from creating negative social consequences, can be exhausting.

you fucked her did you not? how can that be a bad thing. you managed to get her into your bed and fucked. a true beta wouldnt even be allowed to bring her back.carry on with what you are doing.

XXXMersenne • 2 points • 6 December, 2019 09:24 PM

You were being a fag over the course of the interaction before you guys fucked and so they expect you to be consistent with that.

Since you posted this & don't lift, it's clear this was not satire on your part.

The issue here is one of congruence, which you lack. You need to be consistent in your frame & behaviour, but if you lack character this is difficult because you have no frame to stick to in the first place and your conveyed personality is the equivalent of a bunch of TRP one liners.

You need to wake up so:

Lift

Read cool shit

Go out and **Game** hotter girls so your brain's aroused to capitalizing its potential.

[deleted][S] • 1 point • 6 December, 2019 09:26 PM

TFWnoLTR • 1 point • 6 December, 2019 06:09 PM

It's not a bad thing. I've had a few girls say that before too. It just means you don't come off as aggressive until the moment is right.

Don't start judging yourself over comments like that.

[deleted] • 7 points • 6 December, 2019 08:02 PM

The answer is 0, ZEROOOO

HurricaneHugues • 1 point • 6 December, 2019 06:52 PM

Im assuming you're fairly attractive. It's your game leading up ti the encounter that made you seem weak. Either you weren't sexual and upfront enough initially, or you texted way too much.

[deleted][S] • 3 points • 6 December, 2019 06:55 PM

Well it's not texting too much for sure. I've gotten comments from girls I matched with saying "I'm not going with you, we don't know each other and you don't even bother to text me to get to know me, I'll go out with you if we talk more before". In cases like that I usually move on.

Even when I do go out with girls some of them say "I'm surprised you wanted to go out and meet. Most guys just keep texting and never ask me out." Or "wow you actually use tinder to meet?"

Yeah more than likely it's my game.... or not attractive enough to pull off a "fuck on the first date" move smoothly.

HurricaneHugues • 1 point • 6 December, 2019 07:37 PM

How tall are you? Do you lift and dress nice? How are your tinder pictures?

[deleted][S] • 1 point • 6 December, 2019 07:47 PM

6'4 ft tall.

I dress casually. Mostly either long sleeve or short sleeved Polos that have one solid color, non-collar most of the time. But I'll wear collar as well.

Most of my jeans are Levi's. Not tight or too loose. Just fine. Last I wore black ones with a nice Slayer sweatshirt.

I guess my tinder pics are average. I'm sitting on 45 matches so far since Sunday when I downloaded.

Admittedly I do not lift, which would solve my problem. I lifted consistently PPL 6x a week during summer and lost some good weight. I was fat last year you see. 252 lb. Got down to 202 lb.

But college has really taken my time. Haven't lifted in 3 months, and eaten shitty again. I'm at 212 lb currently. I regret it but don't regret it at the same time. Really focused this year and gotten good grades. Even got an A on one of them and maybe get another A if I do well in this final exam.

HurricaneHugues • 3 points • 6 December, 2019 07:50 PM

"Admittedly I do not lift"

alphakari • 1 point • 7 December, 2019 03:48 AM

Best way to incorporate lifting in college is to conquer your mornings.

[deleted][S] • 1 point • 7 December, 2019 03:48 AM

Man I've been thinking this. What hour is a good one you think?

alphakari • 1 point • 7 December, 2019 03:56 AM

Depends on your gym availability and when they open.

For me, earliest time the gym opens is 5:30, so I wake at 4:30. My obligations need me out the door at 11 (Ie: Already showered, stuff prepped), and I get back home from the gym around 8.

What I know is when I don't wake up before 7, my mood is just that bit worse because even if I have an excuse, feels like I already failed once that day. There is something really powerful about hearing your alarm, not hitting snooze, and getting up to do what you gotta do. Sets the pace for what the day is about.

[deleted][S] • 2 points • 7 December, 2019 03:58 AM

My gym is 24/7. Hmm. Gonna try maybe 6 o'clock myself.

alphakari • 1 point • 7 December, 2019 04:01 AM

GL

Reflect. What is it about your behaviour, do you think, that is making them think you're 'beta'?

There should be plenty of stuff you can identify and change up.

[deleted][S] • 1 point • 6 December, 2019 11:36 PM

Man I just think I'm not skilled on speaking smoothly, and suck at continuing a conversation. And I don't think I'm fun. I usually stick the safe topics, like work, what school you went to, hobbies and shit.

I'm constantly feel like I'm putting up a performance in a social interaction I'm in. Whether it's with a guy or a woman. Constantly worried if I'm being boring not not entertaining them.

Basically I'm dull, and very self conscious of my personality and poor social skills, which hinders me even more

INNASKILLZ2K18 • 1 point • 6 December, 2019 11:46 PM

Ok. What have you read? Book of Pook is great. Models and Bang by Roosh V are all good.

You're aware of some problems. Self doubt and self conscious seem the big ones. Keep reading so you get more info and hopefully can expand your interactions.

Edgy is good, cocky funny, sexualizing at the right time, teasing. There are tools to give your interactions a totally different emotional vibe.

[deleted][S] • 1 point • 6 December, 2019 11:54 PM

Man I've read everything. Book of spook, Models, How to be 3% Man, Rational Male, Day Bang, Game, The Manual and a couple other PUA books.

But every time I got on a date with the mindset of "ok so I'm going to fix this behavior and stop saying this and that and behaving like this" my brain malfunctions and revert back to its beta self. Like I've gone on maybe 20-25 dates first dates this past year, and I feel like I've made absolutely no progress cause my brain isn't allowing me too. It's very difficult to apply all the things I read.

These 10 body counts have been nothing but pure luck. And only 4 of them led to a FWB/plate/fuck buddy status. And usually it was me being dropped when it ended. And the other 6 were just ONS, despite trying to hookup again on my part.

This one from last night will no doubt be a ONS as well. Not gonna even try to contact her.

INNASKILLZ2K18 • 1 point • 7 December, 2019 01:43 AM

There is something. Some simple mentality you haven't internalized.

Also, stop beating yourself up. Your numbers aren't THAT bad. It sounds like you're starting to judge yourself harshly, as label YOU a failure.

That's only going to make things harder. For myself, I have failures, fuckups, but I let it build my :IDGAF and Outcome independence.

The less I dwell and blame myself, the less invested in the whole thing I am. That attitude carries into my next interactions

Instead of thinking 'oh, I fucked up before so I really want to get this right and not fuck up', I'm thinking, 'y'know, I fucked up before but I don't really care. All good. So let's just have fun in this fickle game'.

Women sense the laid back vibe. It's not because I'm super confident it'll work out, but because I got cool with the idea it might fail.

psychotropy • 1 point • 7 December, 2019 12:05 AM

If you're getting laid, you're doing something right. Wanna get more confident? Do shit that raises your self-esteem/confidence lifting, working out, etc. Also get more dangerous. Take up jiu-Jitsu, Boxing, Kickboxing, Judo, anything in which youth learn to handle yourself physically. Nothing turns a girl on more, or at minimum gets their attention, than when they know you can handle yourself around other men/protect her.

RedHoodhandles • 1 point • 7 December, 2019 02:55 AM

Ugh. What it is this kindergarden.. You're trying to tell me that you fuck ugly sluts goood while wrapping the question if being dominant is bad.

Ok boy. Being dominant is bad. Fucking ugly sluts is good. Eating out random tinder hoes and selling me your external point of origin is perfect. Darwin ftw.

AV_Empire • 1 point • 7 December, 2019 03:48 AM

It's better to be a covert dominant than an overt bitch male.

dadfrombrad • 1 point • 7 December, 2019 03:50 AM

if shes a 4 or 5 u shouldnt care really, they like to u down because they are the ugly one and ur the attractive one

Haytch1234 • 1 point • 7 December, 2019 06:29 AM

Why the fuck would you eat pussy? Especially tinder sluts? You are going to catch some shit in your throat. Smarten up.

Anyway, its not a bad thing. She still met up with you and let you fuck her. Any pre conceived idea she had of you not being dominant is irrelevant if she let you fuck her

spaghettaguett • 1 point • 7 December, 2019 10:45 AM

I hope your using dental dams when you eat a girl out, because: giving pleasure lasts for hours, max, unlike an STD.

Drainstink • 1 point • 7 December, 2019 12:36 PM

Lol wtf. Eating tinder sluts is one thong but eating out a fat slamhog u admit is 5/10 so really means 4/10.

Wtf

[deleted] • 1 point • 6 December, 2019 04:21 PM

I am sorry if youre super sensitive but I just cant hold back with this one. SHUT THE FUCK UP YOU SIMP. A girl tells you that you broke her expectations and you immediately simp back to "urgh her preconceptions of me were wrong". You dumb mother fucker, half the reason they were so willing is because of those preconceptions, and then you only make them like you more when you dom them in the bedroom. How can u be in trp and not understand this shit god fucking dammit. Keep fucking fat bitches tho, I am sure that has nothing to do with your low self esteem.

Is this what they're calling it these days? I think this is flat out sick.

Spaghetti1776 • -1 points • 6 December, 2019 06:33 PM

Bro why the fuck would you eat a woman out who's had another dick in her? You don't know shit about her. Wait until you decide to get married to a bitch or whatever for that shit. God damn I almost fucking threw up. Eating it a fucking 4-5. Yea I'd rather have a 20 year dry spell.

I'm guessing the willingness to do that is part of the "hehe I thought you were more beta". Also even if you are beta, never admit it, that's beta. Try being more self centered and self serving.

Look in the mirror and make deep eye contact with yourself while you wank. "God I look like a fucking statue. If you can't cum thinking about yourself then you're basically gonna be beta forever. Nah really though think about yourself more. Good luck.
